The contents of the Rules and Regulations of the Safety Fire Commissioner are not printed in the Official Compilation Rules and Regulations of the State of Georgia. By Ga. Laws 1967, p. 618 (Ga. Code Ann., Section 3A-124), the General Assembly of Georgia amended the Georgia Administrative Procedure Act (Ga. Laws 1964, p. 338; Ga. Code Ann., Chapter 3A) by the addition of the following provision relating to the filing of Rules and Regulations of the Safety Fire Commissioner.

"As to such regulations, standards and plans as required by law to be filed and kept on file with the Office of the Secretary of State, the Fire Safety Department and the Insurance Department of the Office of the Comptroller General may comply with the filing requirements of this Act by filing with the Office of the Secretary of State merely the name and designation of such regulations, standards and plans, provided such regulations, standards and plans are kept on file in the Office of the Comptroller General by the titles otherwise applicable under this Act, and such regulations, standards and plans are open for public examination and copying.

The Fire Safety Department and the Insurance Department of the Office of Comptroller General may also satisfy the procedure for conduct of hearings on contested cases and rule-making required under this Act by following the provisions of Chapter 2 of the Georgia Insurance Code, Chapter 56-2, Georgia Code, as amended."

On July 20, 1965, the Comptroller General filed with the Secretary of State Original Rules for the Fire Safety Department, but said Rules and Regulations were not in proper form for printing and distribution as a part of the Rules and Regulations of the State of Georgia. *Before said Rules and Regulations could be prepared in proper form for printing and distribution, the General Assembly enacted Ga. Laws 1967, p. 618, whereby the Rules and Regulations of the Fire Safety Department are filed with the Secretary of State by name and designation only.*

On January 29, 1968, the Comptroller General, as the Georgia Safety Fire Commissioner, filed with the Secretary of State, under Ga. Laws 1967, p. 618 (Ga. Rule 120-2-1-.02. Agents Licensing Section.

- (1) The Agents Licensing Section is charged with the responsibility of protecting the citizens of this State by approving for licensing and renewal only those applicants who possess the mental ability and the moral character that is needed to suppress misrepresentation of the product to be offered.
- (2) This section endeavors to promote the dignity of career insurance representatives by strict enforcement of qualification requirements and by firm but fair disposition of violations of the Georgia Insurance Code, with no individual exceptions. Effort is also made to improve public acceptance of insurance by careful screening and testing of proposed representatives and by consistent elimination of those licensees who, through unethical, unfair, or illegal practices, tend to destroy confidence in the industry.
- (3) In order to accomplish these desired results, the Agents Licensing Section has been given the authority and duties set forth in paragraph (4) of this Rule.
- (4) The section shall:
 - (a) Administer license qualifications prescribed by law and departmental regulations.
 - (b) Approve formal classroom training courses required of applicants as agents for life and accident and sickness, property and allied lines, and casualty, surety and allied lines.
 - (c) Issue temporary licenses to qualified, first-time applicants. Upon receipt of completed application and proper fees, a qualified applicant is sent a temporary license.
 - (d) Prepare or arrange for the preparation of an examination study manual. Study manuals are prepared by the Commissioner to aid applicants for licensing to gain

knowledge required to pass the required written examination. Such manuals are available from the section upon payment of the applicable fee.

- (e) Prepare and conduct all license examinations. The place, date, and time for conducting an examination shall be as specified on the examination permit. Questions, for courses in which a study manual has been prepared, shall come from such study manuals, otherwise, from reference materials recommended by departmental regulations. Applicants must present to the examiner a valid examination permit to be entitled to take the examination.
- (f) Issue permanent licenses. The address of the licensee appearing on the license shall be the business address of property and casualty licenses; business address of life, accident and sickness licenses if, licensee's business and residence address are in the same city; and when the licensee's business and residence addresses are in different cities, licenses will reflect the licensee's residence address.
- (g) Renew licenses. Renewal and applications will be sent to all licensees holding licenses during the current license year. Such applicants should request late renewal applications if no license was held during the current license year. The renewal application contains a replica of the agent's license; licensee shall check the replica for accuracy; space is provided to insert any corrections. Applicant for renewal shall answer all questions, date, and sign the application. Completed applications shall be submitted to the section with the proper renewal license fee.
- (h) Collect all license and examination fees. License and examination fees are prescribed and required by law to be collected in advance.
- (i) Work out reciprocal agreements with other states for nonresident applicants. The section shall see that Georgia licensees are admitted into other states on the same basis as such other states' licensees are admitted into Georgia. Since it is necessary to change these agreements from time to time because of changes in state insurance laws of the various states, any resident agent interested in securing such a license should contact the section for up-to-date information on the type of licenses which may be secured and the required fees.
- (j) Provide letters of certification for Georgia agents seeking licenses in other states. Such letters will be provided if requested by the licensee, an insurance company official or an insurance regulatory official of such other state. Such letter shall be addressed and sent to whomever the requesting party designated. Such letter shall certify only as to those facts appearing in the records of the section.
- (k) Handle complaints involving misappropriation of funds, conversion of funds to an agent's personal use, or withholding funds collected by an agent belonging to an insurer, insured, or a beneficiary as such complaints are filed by insurers against agents. The section shall require the insurer to make the charge in writing and furnish proof. The agent shall be notified of the charge and requested to admit or

deny such charges. If the agent denies the charge, the agent shall furnish proof to refute it. The section shall request the Administrative Law Section of the Administrative Division to conduct an investigation to determine the facts.

- (l) Work in conjunction with the Consumer Services Section with other type complaints filed by insurers against agents for the purpose of determining the facts and coordinating action.
 - (m) Conduct such pre-hearing conferences with agents as may be necessary for determination if formal hearings are necessary.
 - (n) Request formal hearings for license revocations. If, in the opinion of the assistant director, satisfactory evidence or answers were not given at the pre-hearing conference, the agent shall be notified that he can either voluntarily surrender his license or attend a formal hearing to show cause why his license should not be revoked. If the agent desires a formal hearing, his file is passed to the Administrative Law Section of the Administrative Division with the request that an appropriate order be drawn.
 - (o) Advise all companies of any changes in the status of their agents' licenses for the purpose of restricting or curtailing an agent's authority to act or termination of the agent's services if the discrepancy warrants such action.
- (5) The Agents Licensing Section is under the supervision and direction of a director, and such section has been delegated responsibility for administering paragraph (4) of this Rule. All inquiries, requests, and submissions respecting the matters therein set forth should be directed to:

 - (j) Obtain and act upon an investigation from the appropriate personnel of the Office of Commissioner of Insurance if such investigation does not originate from the Consumer Services Section.

 - b. Unless the Adjudicator orders otherwise, a motion may be made orally during a conference or hearing. 2. Unless the Adjudicator orders otherwise, any party may file a response in support of or in opposition to any written motion within 5 days after service of the motion. If no response is filed within the response period, the party failing to respond will be deemed to have waived any objection to the granting of the motion. The movant will have no right to reply to the response, although the Adjudicator may in her/his discretion permit a reply to be filed.
 3. Except for procedural matters, the Adjudicator may not, without assent of the parties, grant a written motion prior to the expiration of the time for filing responses. Any party adversely affected by the ex parte grant of a motion for a procedural order may request

Rule 120-2-2-.21. Consolidation or Severance of Adjudication.

1. **Consolidation.** The Adjudicator may, upon a party's motion or on her/his own authority, with reasonable notice and opportunity to object provided to all parties affected, consolidate any or all matters at issue in two or more adjudications docketed under these rules where common fact questions or applicable law exist and where such consolidation would expedite or simplify consideration of the issues and the interests of justice would be served. The Adjudicator must also specify whether the movant, if granted intervenor status, has full or limited participatory rights. If the Adjudicator grants limited participatory rights, the Adjudicator must specify the nature of the limitations.

1. Any party may, after commencement of the adjudication and at least 30 days before the date fixed for the hearing, move with or without supporting affidavits for full or partial summary decision in her/his favor. Any other party may, within 20 days after service of the motion, serve opposing affidavits or counter-move for full or partial summary decision. The Adjudicator has discretion to set the matter for argument and call for the submission of briefs.
2. Affidavits, if any, must set forth such facts as would be admissible in evidence and must show affirmatively that the affiant is competent to testify to the matters stated therein.
3. When a motion for summary decision is made and supported as provided in this rule, a party opposing the motion must set forth specific facts, by affidavits or as otherwise provided in this rule, showing that there is a genuine issue of material fact for the hearing. If a party opposing the motion declares via affidavit the reasons why that party cannot present, by affidavit or other evidence, facts essential to justify her/his opposition, the Adjudicator may deny the motion for summary decision or may order a continuance to permit affidavits or other evidence to be obtained or may make such other order as is just.
4. The Adjudicator may grant summary decision if the filed documents, affidavits, material obtained by discovery or otherwise, or matters officially noted show that there is no genuine issue as to any material fact and that a party is entitled to a summary decision.
5. The Adjudicator shall rule on a motion for summary determination in writing.

4. Following timely receipt of the motion and any responses, the Adjudicator may expedite pleading or filing schedules, prehearing conferences, and the hearing, as appropriate.
5. If the Commissioner or the Adjudicator finds that the public health, safety or welfare requires emergency action and incorporates a finding to that effect, notice shall be given and an emergency hearing will be held.

- 2. A party that seeks interlocutory review of an adjudicator's decision, or part thereof, must file a petition with the Adjudicator. The petition must:
 - a. be filed with the Adjudicator within 10 days after the Adjudicator's decision;
 - b. designate the decision (or part thereof) from which review is sought; and

- 3. Any party that opposes the petition may file a response within 5 days after service of the petition.

4. The Adjudicator must certify the ruling for interlocutory review by the Commissioner if the Adjudicator determines that:
 - a. the decision involves a controlling question of law about which there is substantial ground for difference of opinion; and
 - b. an immediate review will materially advance the completion of the adjudication, or subsequent review by Commissioner will provide an inadequate remedy.
5. Within 5 days after the Adjudicator's ruling on a petition to certify a decision under Rule [120-2-2-.45\(2\)](#), the petitioner may apply to the Commissioner, whether or not the Adjudicator has certified the decision under Rule [120-2-2-.45\(4\)](#), to allow the interlocutory review sought in the petition. The application must reference the petition filed under Rule [120-2-2-.45\(2\)](#), all filings made with the Adjudicator in support of or in opposition to the petition, and the Adjudicator's decision on the petition. The application must not otherwise set forth the grounds on which interlocutory review is sought or contain any argument, unless the Commissioner orders otherwise. No response to any application made under this subsection may be permitted unless the Commissioner orders otherwise.
6. Any petition or application filed under this rule may be summarily dismissed whenever the Adjudicator or the Commissioner, respectively, determines that review is not appropriate.
7. The Adjudicator may, on his or her own motion, certify an order for interlocutory review under this rule in its discretion.
8. If the Commissioner decides to allow interlocutory review, the Commissioner must decide the matter on the basis of the administrative record and briefs submitted to the Adjudicator, without further briefs or oral argument, unless the Commissioner orders otherwise.
9. The filing of an application for interlocutory review and the certification of a ruling for interlocutory review does not stay proceedings before the Adjudicator unless (s)he or the Commissioner so orders.

Rule 120-2-3-.12. Continuing Education Courses Approval.

- (1) Considerations for course qualification and approval shall be based on improving the student's knowledge in the insurance areas in which the student is licensed.
 - (a) The overriding consideration in determining whether a course qualifies as acceptable continuing education is that it be a formal program of learning which contributes directly to the professional or technical competence of a licensed individual. Sales, motivational, self-improvement, telephone techniques, office techniques (except to the extent of improving service to the public when combined with other eligible instruction), election of officers, installation of officers, attendance at conventions and other similar activities, programs, or courses will not be approved.
 - (b) Courses must be related directly to the types of insurance business or accounts for which a continuation of licenses is sought. In general, subjects would be acceptable if they contribute to the technical competence of the individual person in the capacity for which such person is licensed.
 - (c) The training required under [120-2-3-.15\(2\)\(f\)](#) shall consist of topics related to long term care insurance, long term care services and qualified state long term care insurance Partnership programs under Rule [120-2-16-.34\(5\)](#), including but not limited to
 1. State and federal regulations and requirements and the relationship between qualified state long term care insurance Partnership programs and other public and private coverage of long term care services, including Medicaid;
 2. Available long term services and providers;
 3. Changes or improvements in long term care services or providers;
 4. Alternatives to the purchase of private long term care insurance;
 5. The effect of inflation on benefits and the importance of inflation protection;

6. Consumer suitability standards and guidelines;
 7. Said course must contain a minimum of two (2) hours instruction covering Georgia Medicaid provisions.
- (d) The training required under [120-2-3-.15\(2\)\(g\)](#) can be approved to be delivered as a classroom course or self-study; the course shall not include any marketing information or provide training on sales techniques or provide specific information about a particular insurer's products; the training required shall consist of topics related to annuities and annuity suitability and must include the following:
1. The types of annuities and various classifications of annuities;
 2. Identification of the parties to an annuity;
 3. How fixed, variable and indexed annuity contract provisions affect consumers;
 4. The application of income taxation of qualified and non-qualified annuities;
 5. The primary uses of annuities; and
 6. Appropriate sales practices, replacement and disclosure requirements.
- (2) The general requirements for course or program conduct shall be:
- (a) An outline of the program must be prepared by the program director or instructor and provided to each student;
 - (b) The program must be conducted by a person whose formal training and experience qualify such person as an instructor;
 - (c) Hours of continuing education credit earned shall be calculated in full hours only;
 - (d) Throughout the entire program, the program provider and the licensee must maintain a record of registration and attendance;
 - (e) Such courses or program must be filed with the Commissioner at least forty-five (45) days in advance of the date when such approval is desired;
 - (f) Credit will be given for contact hours only, except:
 1. University or college credit courses - each semester credit hour shall equal three (3) hours toward the requirement, each quarter hour shall equal two (2) hours;

2. Noncredit courses from a college or university - each classroom hour shall be deemed to be one hour of continuing education.
- (g) Correspondence or other individual study courses (including taped study courses) will qualify if they:
1. Have received the prior approval of the Commissioner;
 2. Require registration; and
 3. Certify satisfactory completion, including a proctored final examination.
- (h) If any scheduled course is to be cancelled by the provider, the provider must notify the Department and all registrants at least 10 days prior to the previously scheduled start of the course provided. This restriction shall not apply if, at the time of registration, the provider notifies registrants in writing that the class is subject to cancellation and registrants are notified of the cancellation a reasonable time in advance of the scheduled start of the course.
- (3) The course filing requirements are:
- (a) Continuing education sponsors must complete the appropriate form, pay the required fees, and must submit those items required in Rules [120-2-3-.08\(3\)](#) and [\(4\)](#);
 - (b) The Commissioner, at his discretion, may verify the information submitted by the instructor or course provider. The Commissioner may review any approved instructor or course and may cancel approval of such instructor or course with regard to all future offerings. Once a instructor or course provider has been canceled, such instructor or course provider shall not reapply for approval for a period of five (5) years from the date of the cancellation.
- (4) For courses or seminars offered in Georgia, the person, group, association, or institution making such courses available would be the continuing education provider, seeking its approval for continuing education purposes, and monitoring and certifying students' performance or attendance.
- (5) For out-of-state courses or seminars offered by regional or national professional associations or societies, the national professional association may assume the role of sponsor. However, local or state chapters or affiliates of the national professional association may, through their local offices, assume the role of Georgia provider of the national course or seminar, seeking course approval for continuing education purposes and monitoring and certifying students' performance and attendance.

(6) The following standards will be used to measure the hours of credit to be given for acceptable continuing education courses completed by any individual:

(a) Courses requiring class attendance:

1. All courses will be measured in terms of contact hours. The shortest recognized course will consist of one (1) contact hour. A contact hour is fifty (50) minutes of continuous participation in a course. Under this standard, credit is granted only for full contact hours. For example, a course lasting between fifty (50) and one hundred (100) minutes would count for only one (1) hour.
2. For continuous courses, when individual segments are less than fifty (50) minutes, the sum of the segments should be considered one (1) total course.
3. Program providers must monitor group programs in order to accurately assign the appropriate number of credit hours for participants who arrive late or leave before a program is completed.
4. Credit will be allowed for a question and answer period at the rate of fifty percent (50%) of the number of minutes devoted to questions and answers. Credit will not be allowed for introductions, announcements or other such activity which may be a part of the program.
5. Only hours in class, or the equivalent, will be counted. No credit will be allowed for time devoted to preparation.
6. Each semester hour of credit from a college or university shall be deemed to be three (3) hours of continuing education credit, and each quarter hour of credit shall be deemed to be two (2) hours of continuing education credit.
7. Each classroom hour of noncredit courses from a college or university shall be counted as one (1) hour of continuing professional education.

(b) Correspondence and other individual study courses:

1. In determining the amount of credit to be allowed for specific correspondence and individual study courses, each course provider must certify the hours of study, on the average, required to complete a course successfully. Credit will be given for fifty percent (50%) of hours so certified upon certification of successful completion.
2. Successful completion must include a proctored final examination.
3. Credit will be allowed in the renewal period in which the course is completed.

- (7) A program provider may request that its materials furnished for certification be kept confidential on the grounds that they are of a proprietary nature and intended only for program attendees, its agents or employees. The Commissioner or his designee will promptly review and return such materials.
- (8) Course providers must certify contact hours to the Commissioner electronically or by means prescribed by the Commissioner. Such reporting must be submitted within fourteen (14) days from course completion. Failure to do so may result in administrative action taken against the provider. Course providers must provide certification to each person taking the course in the same manner as provided in Rule [120-2-3-.08\(7\)](#).
- (9) Instructors may receive the same credit for courses as applicants when their attendance is certified as provided in Paragraph (8) of this Section.

Rule 120-2-8-.07. Minimum Benefit Standards for Pre-Standardized Medicare Supplement Benefit Plan Policies or Certificates Issued for Delivery Prior to the Effective Date of This Regulation.

No policy or certificate may be advertised, solicited or issued for delivery in this state as a Medicare supplement policy or certificate unless it meets or exceeds the following minimum standards. These are minimum standards and do not preclude the inclusion of other provisions or benefits that are not inconsistent with these standards.

- (1) General Standards. The following standards apply to Medicare supplement policies and certificates and are in addition to all other requirements of this regulation.
 - (a) A Medicare supplement policy or certificate shall not exclude or limit benefits for losses incurred more than six (6) months from the effective date of coverage because it involved a preexisting condition. The policy or certificate shall not define a preexisting condition more restrictively than a condition for which medical advice was given or treatment was recommended by or received from a physician within six (6) months before the effective date of coverage.
 - (b) A Medicare supplement policy or certificate shall not indemnify against losses resulting from sickness on a different basis than losses resulting from accidents.
 - (c) A Medicare supplement policy or certificate shall provide that benefits designed to cover cost sharing amounts under Medicare will be changed automatically to coincide with any changes in the applicable Medicare deductible, copayment, or

coinsurance amounts. Premiums may be modified through filings as otherwise provided within this Regulation Chapter to correspond with such changes.

- (d) A "noncancellable," "guaranteed renewable," or "noncancellable and guaranteed renewable" Medicare supplement policy shall not:
 - 1. Provide for termination of coverage of a spouse solely because of the occurrence of an event specified for termination of coverage of the insured, other than the nonpayment of premium; or
 - 2. Be cancelled or nonrenewed by the issuer solely on the grounds of deterioration of health.
- (e)
 - 1. Except as authorized by the Commissioner of Insurance of this State, an issuer shall neither cancel nor nonrenew a Medicare supplement policy or certificate for any reason other than nonpayment of premium or material misrepresentation.
 - 2. If a group Medicare supplement insurance policy is terminated by the group policyholder and not replaced as provided in Paragraph (e)4., the issuer shall offer certificateholders an individual Medicare supplement policy. The issuer shall offer the certificateholder at least the following choices:
 - (i) An individual Medicare supplement policy currently offered by the issuer having comparable benefits to those contained in the terminated group Medicare supplement policy; and
 - (ii) An individual Medicare supplement policy that provides only such benefits as are required to meet the minimum standards as defined in Section [120-2-8-.08\(5\)\(b\)](#) of this regulation.
 - 3. If membership in a group is terminated, the issuer shall:
 - (i) Offer the certificateholder the conversion opportunities described in Subparagraph (ii); or
 - (ii) At the option of the group policyholder, offer the certificateholder continuation of coverage under the group policy.
 - 4. If a group Medicare supplement policy is replaced by another group Medicare supplement policy purchased by the same policyholder, the issuer of the replacement policy shall offer coverage to all persons covered under the old group policy on its date of termination. Coverage under the new group policy shall not result in any exclusion for preexisting conditions that would have been covered under the group policy being replaced.

- (f) Termination of a Medicare supplement policy or certificate shall be without prejudice to any continuous loss that commenced while the policy was in force, but the extension of benefits beyond the period during which the policy was in force may be predicated upon the continuous total disability of the insured, limited to the duration of the policy benefit period, if any, or to payment of the maximum benefits. Receipt of Medicare Part D benefits will not be considered in determining a continuous loss.
- (g) If a Medicare supplement policy eliminates an outpatient prescription drug benefit as a result of requirements imposed by the Medicare Prescription Drug, Improvement, and Modernization Act of 2003, the modified policy shall be deemed to satisfy the guaranteed renewal requirements of this subsection.

(2) Minimum Benefit Standards.

- (a) Coverage of Part A Medicare eligible expenses for hospitalization to the extent not covered by Medicare from the 61st day through the 90th day in any Medicare benefit period;
- (b) Coverage for either all or none of the Medicare Part A inpatient hospital deductible amount;
- (c) Coverage of Part A Medicare eligible expenses incurred as daily hospital charges during use of Medicare's lifetime hospital inpatient reserve days;
- (d) Upon exhaustion of all Medicare hospital inpatient coverage including the lifetime reserve days, coverage of ninety percent (90%) of all Medicare Part A eligible expenses for hospitalization not covered by Medicare subject to a lifetime maximum benefit of an additional 365 days;
- (e) Coverage under Medicare Part A for the reasonable cost of the first three (3) pints of blood (or equivalent quantities of packed red blood cells, as defined under federal regulations) unless replaced in accordance with federal regulations or already paid for under Part B;
- (f) Coverage for the coinsurance amount, or in the case of hospital outpatient department services paid under a prospective payment system, the copayment amount, of Medicare eligible expenses under Part B regardless of hospital confinement, subject to a maximum calendar year out-of-pocket amount equal to the Medicare Part B deductible [\$100];
- (g) Effective January 1, 1990, coverage under Medicare Part B for the reasonable cost of the first three (3) pints of blood (or equivalent quantities of packed red blood cells, as defined under federal regulations), unless replaced in accordance with federal regulations or already paid for under Part A, subject to the Medicare deductible amount.

Rule 120-2-8-.08. Benefit Standards for 1990 Standardized Medicare Supplement Benefit Plan Policies or Certificates Issued or Delivered on or After September 30, 2005 and With an Effective Date for Coverage Prior to June 1, 2010.

The following standards are applicable to all Medicare supplement policies or certificates delivered or issued for delivery in this state on or after September 30, 2005 and with an effective date for coverage prior to June 1, 2010. No policy or certificate may be advertised, solicited, delivered or issued for delivery in this state as a Medicare supplement policy or certificate unless it complies with these benefit standards.

- (1) General Standards. The following standards apply to Medicare supplement policies and certificates and are in addition to all other requirements of this regulation.
 - (a) A Medicare supplement policy or certificate shall not exclude or limit benefits for losses incurred more than six (6) months from the effective date of coverage because it involved a preexisting condition. The policy or certificate may not define a preexisting condition more restrictively than a condition for which medical advice was given or treatment was recommended by or received from a physician within six (6) months before the effective date of coverage.
 - (b) A Medicare supplement policy or certificate shall not indemnify against losses resulting from sickness on a different basis than losses resulting from accidents.
 - (c) A Medicare supplement policy or certificate shall provide that benefits designed to cover cost sharing amounts under Medicare will be changed automatically to coincide with any changes in the applicable Medicare deductible, copayment, or coinsurance amounts. Premiums may be modified through filings as otherwise provided within this Regulation Chapter to correspond with such changes.

- (d) No Medicare supplement policy or certificate shall provide for termination of coverage of a spouse solely because of the occurrence of an event specified for termination of coverage of the insured, other than the nonpayment of premium.
- (e) Each Medicare supplement policy shall be guaranteed renewable.
 - 1. The issuer shall not cancel or nonrenew the policy solely on the ground of health status of the individual;
 - 2. The issuer shall not cancel or nonrenew the policy for any reason other than nonpayment of premium or material misrepresentation;
 - 3. If the Medicare supplement policy is terminated by the group policyholder and is not replaced as provided under Section 8(1)(e)5., the issuer shall offer certificateholders an individual Medicare supplement policy that (at the option of the certificateholder)
 - (i) Provides for continuation of the benefits contained in the group policy, or
 - (ii) Provides for benefits that otherwise meet the requirements of this subsection.
 - 4. If an individual is a certificateholder in a group Medicare supplement policy and the individual terminates membership in the group, the issuer shall:
 - (i) Offer the certificateholder the conversion opportunity described in Section 8(1)(e)3., or
 - (ii) At the option of the group policyholder, offer the certificateholder continuation of coverage under the group policy.
 - 5. If a group Medicare supplement policy is replaced by another group Medicare supplement policy purchased by the same policyholder, the issuer of the replacement policy shall offer coverage to all persons covered under the old group policy on its date of termination. Coverage under the new policy shall not result in any exclusion for preexisting conditions that would have been covered under the group policy being replaced.
 - 6. If a Medicare supplement policy eliminates an outpatient prescription drug benefit as a result of requirements imposed by the Medicare Prescription Drug, Improvement and Modernization Act of 2003, the modified policy shall be deemed to satisfy the guaranteed renewal requirements of this paragraph.

- (f) Termination of a Medicare supplement policy or certificate shall be without prejudice to any continuous loss that commenced while the policy was in force, but the extension of benefits beyond the period during which the policy was in force may be conditioned upon the continuous total disability of the insured, limited to the duration of the policy benefit period, if any, or payment of the maximum benefits. Receipt of Medicare Part D benefits will not be considered in determining a continuous loss.
- (g)
1. A Medicare supplement policy or certificate shall provide that benefits and premiums under the policy or certificate shall be suspended at the request of the policyholder or certificateholder for the period (not to exceed twenty-four (24) months) in which the policyholder or certificateholder has applied for and is determined to be entitled to medical assistance under Title XIX of the Social Security Act, but only if the policyholder or certificateholder notifies the issuer of the policy or certificate within ninety (90) days after the date the individual becomes entitled to assistance.
 2. If suspension occurs and if the policyholder or certificateholder loses entitlement to medical assistance, the policy or certificate shall be automatically reinstituted effective as of the date of termination of entitlement if the policyholder or certificateholder provides notice of loss of entitlement within ninety (90) days after the date of loss and pays the premium attributable to the period.
 3. Each Medicare supplement policy shall provide that benefits and premiums under the policy shall be suspended (for any period that may be provided by federal regulation) at the request of the policyholder if the policyholder is entitled to benefits under Section 226(b) of the Social Security Act and is covered under a group health plan (as defined in Section 1862(b)(1)(A)(v) of the Social Security Act). If suspension occurs and if the policyholder or certificate holder loses coverage under the group health plan, the policy shall be automatically reinstituted (effective as of the date of loss of coverage) if the policyholder provides notice of loss of coverage within ninety (90) days after the date of the loss and pays the premium attributable to the period, effective as of the date of termination of enrollment in the group health plan.
 4. Reinstitution of coverages as described in Subparagraphs 2. and 3.:
 - (i) Shall not provide for any waiting period with respect to treatment of preexisting conditions;
 - (ii) Shall provide for resumption of coverage that is substantially equivalent to coverage in effect before the date of suspension. If the suspended Medicare supplement policy provided coverage for

outpatient prescription drugs, reinstatement of the policy for Medicare Part D enrollees shall be without coverage for outpatient prescription drugs and shall otherwise provide substantially equivalent coverage to the coverage in effect before the date of suspension; and

- (iii) Shall provide for classification of premiums on terms at least as favorable to the policyholder or certificateholder as the premium classification terms that would have applied to the policyholder or certificateholder had the coverage not been suspended.
- (h) If an issuer makes a written offer to the Medicare Supplement policyholders or certificateholders of one or more of its plans, to exchange during a specified period from his or her 1990 Standardized plan (as described in Section [120-2-8-.09](#) of this regulation) to a 2010 Standardized plan (as described in Section [120-2-8-.09\(8\)](#) of this regulation), the offer and subsequent exchange shall comply with the following requirements:
- 1. An issuer need not provide justification to the Commissioner if the insured replaces a 1990 Standardized policy or certificate with an issue age rated 2010 Standardized policy or certificate at the insured's original issue age. If an insured's policy or certificate to be replaced is priced on an issue age rate schedule at the time of such offer, the rate charged to the insured for the new exchanged policy shall recognize the policy reserve buildup, due to the pre-funding inherent in the use of an issue age rate basis, for the benefit of the insured. The method proposed to be used by an issuer must be filed with the Commissioner.
 - 2. The rating class of the new policy or certificate shall be the class closest to the insured's class of the replaced coverage.
 - 3. An issuer may not apply new pre-existing condition limitations or a new incontestability period to the new policy for those benefits contained in the exchanged 1990 Standardized policy or certificate of the insured, but may apply pre-existing condition limitations of no more than six (6) months to any added benefits contained in the new 2010 Standardized policy or certificate not contained in the exchanged policy.
 - 4. The new policy or certificate shall be offered to all policyholders or certificateholders within a given plan, except where the offer or issue would be in violation of state or federal law.
- (2) Standards for Basic (Core) Benefits Common to Benefit Plans A to J. Every issuer shall make available a policy or certificate including only the following basic "core" package of benefits to each prospective insured. An issuer may make available to prospective

insureds any of the other Medicare Supplement Insurance Benefit Plans in addition to the basic core package, but not in lieu of it.

- (a) Coverage of Part A Medicare eligible expenses for hospitalization to the extent not covered by Medicare from the 61st day through the 90th day in any Medicare benefit period;
 - (b) Coverage of Part A Medicare eligible expenses incurred for hospitalization to the extent not covered by Medicare for each Medicare lifetime inpatient reserve day used;
 - (c) Upon exhaustion of the Medicare hospital inpatient coverage including the lifetime reserve days, coverage of one hundred percent (100%) of the Medicare Part A eligible expenses for hospitalization paid at the applicable prospective payment system (PPS) rate, or other appropriate Medicare standard of payment, subject to a lifetime maximum benefit of an additional 365 days. The provider shall accept the issuer's payment as payment in full and may not bill the insured for any balance;
 - (d) Coverage under Medicare Parts A and B for the reasonable cost of the first three (3) pints of blood (or equivalent quantities of packed red blood cells, as defined under federal regulations) unless replaced in accordance with federal regulations;
 - (e) Coverage for the coinsurance amount, or in the case of hospital outpatient department services paid under a prospective payment system, the copayment amount, of Medicare eligible expenses under Part B regardless of hospital confinement, subject to the Medicare Part B deductible;
- (3) Standards for Additional Benefits. The following additional benefits shall be included in Medicare Supplement Benefit Plans "B" through "J" only as provided by Section [120-2-8-.09](#) of this regulation.
- (a) Medicare Part A Deductible: Coverage for all of the Medicare Part A inpatient hospital deductible amount per benefit period.

The outpatient prescription drug benefit may be included for sale or issuance in a Medicare supplement policy until January 1, 2006.
- (g) Extended Outpatient Prescription Drug Benefit: Coverage for fifty percent (50%) of outpatient prescription drug charges, after a \$250 calendar year deductible to a maximum of \$3,000 in benefits received by the insured per calendar year, to the extent not covered by Medicare. - (j) At-Home Recovery Benefit: Coverage for services to provide short term, at-home assistance with activities of daily living for those recovering from an illness, injury or surgery.

1. For purposes of this benefit, the following definitions shall apply:

- (5) Benefit Standards for 2010 Standardized Medicare Supplement Benefit Plan Policies or Certificates with an Effective Date for Coverage on or After June 1, 2010

The following standards are applicable to all Medicare supplement policies or certificates delivered or issued for delivery in this state with an effective date for coverage on or after June 1, 2010. No policy or certificate may be advertised, solicited, delivered, or issued for delivery in this state as a Medicare Supplement policy unless it complies with these benefit standards. No issuer may offer any 1990 Standardized Medicare supplement benefit plan for sale on or after June 1, 2010. Benefit standards applicable to Medicare supplement policies and certificates issued with an effective date for coverage before June 1, 2010 remain subject to the requirements of Rule [120-2-8-.08](#).

- (a) General Standards. The following standards apply to Medicare supplement policies and certificates and are in addition to all other requirements of this regulation.
1. A Medicare supplement policy or certificate shall not exclude or limit benefits for losses incurred more than six (6) months from the effective date of coverage because it involved a preexisting condition. The policy or certificate may not define a preexisting condition more restrictively than a condition for which medical advice was given or treatment was recommended by or received from a physician within six (6) months before the effective date of coverage.
 2. A Medicare supplement policy or certificate shall not indemnify against losses resulting from sickness on a different basis than losses resulting from accidents.
 3. A Medicare supplement policy or certificate shall provide that benefits designed to cover cost sharing amounts under Medicare will be changed automatically to coincide with any changes in the applicable Medicare deductible, copayment, or coinsurance amounts. Premiums may be modified to correspond with such changes.
 4. No Medicare supplement policy or certificate shall provide for termination of coverage of a spouse solely because of the occurrence of an event

specified for termination of coverage of the insured, other than the nonpayment of premium.

5. Each Medicare supplement policy shall be guaranteed renewable.
 - (i) The issuer shall not cancel or nonrenew the policy solely on the ground of health status of the individual.
 - (ii) The issuer shall not cancel or nonrenew the policy for any reason other than nonpayment of premium or material misrepresentation.
 - (iii) If the Medicare supplement policy is terminated by the group policyholder and is not replaced as provided under Section [120-2-8-.08\(5\)\(a\) 5.\(v\)](#) of this regulation, the issuer shall offer certificateholders an individual Medicare supplement policy which (at the option of the certificateholder):
 - (I) Provides for continuation of the benefits contained in the group policy; or
 - (II) Provides for benefits that otherwise meet the requirements of this Subsection.
 - (iv) If an individual is a certificateholder in a group Medicare supplement policy and the individual terminates membership in the group, the issuer shall
 - (I) Offer the certificateholder the conversion opportunity described in Section [120-2-8-.08\(5\)\(a\)5.\(iii\)](#) of this regulation; or
 - (II) At the option of the group policyholder, offer the certificateholder continuation of coverage under the group policy.
 - (v) If a group Medicare supplement policy is replaced by another group Medicare supplement policy purchased by the same policyholder, the issuer of the replacement policy shall offer coverage to all persons covered under the old group policy on its date of termination. Coverage under the new policy shall not result in any exclusion for preexisting conditions that would have been covered under the group policy being replaced.
 - (vi) Termination of a Medicare supplement policy or certificate shall be without prejudice to any continuous loss which commenced while

the policy was in force, but the extension of benefits beyond the period during which the policy was in force may be conditioned upon the continuous total disability of the insured, limited to the duration of the policy benefit period, if any, or payment of the maximum benefits. Receipt of Medicare Part D benefits will not be considered in determining a continuous loss.

- (vii)
 - (I) Medicare supplement policy or certificate shall provide that benefits and premiums under the policy or certificate shall be suspended at the request of the policyholder or certificateholder for the period (not to exceed twenty-four (24) months) in which the policyholder or certificateholder has applied for and is determined to be entitled to medical assistance under Title XIX of the Social Security Act, but only if the policyholder or certificateholder notifies the issuer of the policy or certificate within ninety (90) days after the date the individual becomes entitled to assistance.
 - (II) If suspension occurs and if the policyholder or certificateholder loses entitlement to medical assistance, the policy or certificate shall be automatically reinstituted (effective as of the date of termination of entitlement) as of the termination of entitlement if the policyholder or certificateholder provides notice of loss of entitlement within ninety (90) days after the date of loss and pays the premium attributable to the period, effective as of the date of termination of entitlement.
 - (III) Each Medicare supplement policy shall provide that benefits and premiums under the policy shall be suspended (for any period that may be provided by federal regulation) at the request of the policyholder if the policyholder is entitled to benefits under Section 226(b) of the Social Security Act and is covered under a group health plan (as defined in Section 1862(b)(1)(A)(v) of the Social Security Act). The Medicare Access and CHIP Reauthorization Act of 2015 (MACRA) requires that the following standards are applicable to all Medicare supplement policies or certificates delivered or issued for delivery in this state to individuals newly eligible for Medicare on or after January 1, 2020. No policy or certificate that provides coverage of the Medicare Part B deductible may be advertised, solicited, delivered or issued for delivery in this state as a Medicare supplement policy or certificate to individuals newly eligible for Medicare on or after January 1, 2020. All policies must comply with the following benefit standards. Benefit plan standards applicable to Medicare supplement policies and certificates issued to individuals eligible for Medicare before January 1, 2020, remain subject to the requirements of Rules [120-2-8-.07](#), [120-2-8-.08](#), and [120-2-8-.09](#).

1. Benefit Requirements. The standards and requirements of Rule [120-2-8-.09](#) shall apply to all Medicare supplement policies or certificates delivered or issued for delivery to individuals newly eligible for Medicare on or after January 1, 2020, with the following exceptions:
 - a. Standardized Medicare supplement benefit Plan C is redesignated as Plan D and shall provide the benefits contained in Rule [120-2-8-.09\(8\)\(e\)](#) but shall not provide coverage for one hundred percent (100%) or any portion of the Medicare Part B deductible.
 - b. Standardized Medicare supplement benefit Plan F is redesignated as Plan G and shall provide the benefits contained in Rule [120-2-8-.09\(8\)\(e\)](#) but shall not provide

 - d. Standardized Medicare supplement benefit Plan F With High Deductible is redesignated as Plan G With High Deductible and shall provide the benefits contained in Rule [120-2-8-.09\(8\)\(e\)](#) but shall not provide coverage for one hundred percent (100%) or any portion of the Medicare Part B deductible; provided further that, the Medicare Part B deductible paid by the beneficiary shall be considered an out-of-pocket expense in meeting the annual high deductible.
2. Applicability to Certain Individuals. Rule [120-2-8-.09](#).1 applies to only individuals that are newly eligible for Medicare on or after January 1, 2020:
 - a. By reason of attaining age 65 on or after January 1, 2020; or
 - b. By reason of entitlement to benefits under part A pursuant to Section 226(b) or 226A of the Social Security Act, or who is deemed to be eligible for benefits under Section 226(a) of the Social Security Act on or after January 1, 2020.
 3. Guaranteed Issue for Eligible Persons. For purposes of Rule [120-2-8-.12](#), in the case of any individual newly eligible for Medicare on or after January 1, 2020, any reference to a Medicare supplement policy C or F (including F With High Deductible) shall be deemed to be a reference to Medicare supplement policy D or G (including G With High Deductible), respectively, that meet the requirements of Rule [120-2-8-.09\(1\)\(A\)](#).
 4. Applicability to Waivered States. In the case of a State described in Section 1882(p)(6) of the Social Security Act ("waivered" alternative simplification states) MACRA prohibits the coverage of the Medicare Part B deductible for any Medicare supplement policy sold or issued to an individual that is newly eligible for Medicare on or after January 1, 2020.

Rule 120-2-8-.14. Loss Ratio Standards and Refund or Credit of Premium.

- (1) Loss Ratio Standards

- (a)
1. A Medicare Supplement policy form or certificate form shall not be delivered or issued for delivery unless the policy form or certificate form can be expected, as estimated for the entire period for which rates are computed to provide coverage, to return to policyholders and certificate holders in the form of aggregate benefits (not including anticipated refunds or credits) provided under the policy form or certificate form:
 - (i) At least seventy-five percent (75%) of the aggregate amount of premiums earned in the case of group policies; or
 - (ii) At least sixty-five percent (65%) of the aggregate amount of premiums earned in the case of individual policies;
 2. Calculated on the basis of incurred claims experience, or incurred health care expenses where coverage is provided by a health maintenance organization on a service rather than reimbursement basis, and earned premiums for the period and in accordance with accepted actuarial principles and practices. Incurred health care expenses where coverage is provided by a health maintenance organization shall not include:
 - (i) Home office and overhead costs;
 - (ii) Advertising costs;
 - (iii) Commissions and other acquisition costs;
 - (iv) Taxes;
 - (v) Capital costs;
 - (vi) Administrative costs; and
 - (vii) Claims processing costs.
- (b) All filings of rates and rating schedules shall demonstrate that expected claims in relation to premiums comply with the requirements of this section when combined with actual experience to date. Filings of rate revisions shall also demonstrate that the anticipated loss ratio over the entire future period for which the revised rates are computed to provide coverage can be expected to meet the appropriate loss ratio standards.
- (c) For purposes of applying Subsection (1)(a) of this section and Subsection (3)(c) of Section [120-2-8-.15](#) only, policies issued as a result of solicitations of individuals through the mails or by mass media advertising (including both print and broadcast advertising) shall be deemed to be individual policies.

- (d) For policies issued prior to July 29, 1992, expected claims in relation to premiums shall meet:
 - 1. The originally filed anticipated loss ratio when combined with the actual experience since inception;
 - 2. The appropriate loss ratio requirement from Subsection (1)(a)1.(i) and (ii) when combined with actual experience beginning with the effective date to date; and
 - 3. The appropriate loss ratio requirement from Subsection (1)(a)1.(i) and (ii) over the entire future period for which the rates are computed to provide coverage.

(2) Refund or Credit Calculation.

- (a) An issuer shall collect and file with the Commissioner by May 31 of each year the data contained in the applicable reporting form contained in Appendix A for each type in a standard Medicare supplement benefit plan.
- (b) If on the basis of the experience as reported the benchmark ratio since inception (ratio 1) exceeds the adjusted experience ratio since inception (ratio 3), then a refund or credit calculation is required. The refund calculation shall be done on a statewide basis for each type in a standard Medicare supplement benefit plan. For purposes of the refund or credit calculation, experience on policies issued within the reporting year shall be excluded.
- (c) For the purposes of this section, policies or certificates issued prior to July 29, 1992, the issuer shall make the refund or credit calculation separately for all individual policies (including all group policies subject to an individual loss ratio standard when issued) combined and all other group policies combined for experience after the effective date of this regulation. The first report shall be due by May 31, 2007 of this amendment.
- (d) A refund or credit shall be made only when the benchmark loss ratio exceeds the adjusted experience loss ratio and the amount to be refunded or credited exceeds a de minimis level. The refund shall include interest from the end of the calendar year to the date of the refund or credit at a rate specified by the Secretary of Health and Human Services, but in no event shall it be less than the average rate of interest for thirteen-week Treasury notes. A refund or credit against premiums due shall be made by September 30 following the experience year upon which the refund or credit is based.

(3) Annual filing of Premium Rates. An issuer of Medicare supplement policies and certificates issued before or after the effective date of this regulation in this state shall file annually its rates, rating schedule and supporting documentation including ratios of

incurred losses to earned premiums by policy duration for approval by the Commissioner in accordance with the filing requirements and procedures prescribed by the Commissioner. The supporting documentation shall also demonstrate in accordance with actuarial standards of practice using reasonable assumptions that the appropriate loss ratio standards can be expected to be met over the entire period for which rates are computed. The demonstration shall exclude active life reserves. An expected third-year loss ratio that is greater than or equal to the applicable percentage shall be demonstrated for policies or certificates in force less than three (3) years. As soon as practicable, but prior to the effective date of enhancements in Medicare benefits, every issuer of Medicare supplement policies or certificates in this state shall file with the Commissioner, in accordance with the applicable filing procedures of this state:

- (a)
 - 1. Appropriate premium adjustments necessary to produce loss ratios as anticipated for the current premium for the applicable policies or certificates. The supporting documents necessary to justify the adjustment shall accompany the filing.
 - 2. An issuer shall make premium adjustments necessary to produce an expected loss ratio under the policy or certificate to conform to minimum loss ratio standards for Medicare supplement policies and that are expected to result in a loss ratio at least as great as that originally anticipated in the rates used to produce current premiums by the issuer for the Medicare supplement policies or certificates. No premium adjustment that would modify the loss ratio experience under the policy other than the adjustments described herein shall be made with respect to a policy at any time other than upon its renewal date or anniversary date.
 - 3. If an issuer fails to make premium adjustments acceptable to the Commissioner, the Commissioner may order premium adjustments, refunds or premium credits deemed necessary to achieve the loss ratio required by this section.
 - (b) Any appropriate riders, endorsements or policy forms needed to accomplish the Medicare supplement policy or certificate modifications necessary to eliminate benefit duplications with Medicare. The riders, endorsements or policy forms shall provide a clear description of the Medicare supplement benefits provided by the policy or certificate.
- (4) Public Hearings. The Commissioner may conduct a public hearing to gather information concerning a request by an issuer for an increase in a rate for a policy form or certificate form issued before or after the effective date if the experience of the form for the previous reporting period is not in compliance with the applicable loss ratio standard. The determination of compliance is made without consideration of any refund or credit for the reporting period. Public notice of the hearing shall be furnished in a manner deemed appropriate by the Commissioner.

Rule 120-2-8-.15. Filing and Approval of Policies and Certificates and Premium Rates.

- (1) An issuer shall not deliver or issue for delivery a policy or certificate to a resident of this state unless the policy form or certificate form has been filed with and approved by the Commissioner in accordance with filing requirements and procedures prescribed by the Commissioner.
- (2) An issuer shall file any riders or amendments to policy or certificate forms to delete outpatient prescription drug benefits as required by the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 only with the Commissioner in the state in which the policy or certificate was issued.
- (3) An issuer shall not use or change premium rates for a Medicare supplement policy or certificate unless the rates, rating schedule and supporting documentation have been filed with and approved by the Commissioner in accordance with the filing requirements and procedures prescribed by the Commissioner.
- (4)
 - (a) Except as provided in Paragraph (b) of this subsection, an issuer shall not file for approval more than one form of a policy or certificate of each type for each standard Medicare supplement benefit plan.
 - (b) An issuer may offer, with the approval of the Commissioner, up to four (4) additional policy forms or certificate forms of the same type for the same standard Medicare supplement benefit plan, one for each of the following cases:
 1. The inclusion of new or innovative benefits;
 2. The addition of either direct response or agent marketing methods;

3. The addition of either guaranteed issue or underwritten coverage;
 4. The offering of coverage to individuals eligible for Medicare by reason of disability.
- (c) For the purposes of this section, a "type" means an individual policy, a group policy, an individual Medicare Select policy, or a group Medicare Select policy.
- (5) (a) Except as provided in Paragraph (a)(1), an issuer shall continue to make available for purchase any policy form or certificate form issued after the effective date of this regulation that has been approved by the Commissioner. A policy form or certificate form shall not be considered to be available for purchase unless the issuer has actively offered it for sale in the previous twelve (12) months.
1. An issuer may discontinue the availability of a policy form or certificate form if the issuer provides to the Commissioner in writing its decision at least thirty (30) days prior to discontinuing the availability of the form of the policy or certificate. After receipt of the notice by the Commissioner, the issuer shall no longer offer for sale the policy form or certificate form in this state.
 2. An issuer that discontinues the availability of a policy form or certificate form pursuant to Subparagraph 1. shall not file for approval a new policy form or certificate form of the same type for the same standard Medicare supplement benefit plan as the discontinued form for a period of five (5) years after the issuer provides notice to the Commissioner of the discontinuance. The period of discontinuance may be reduced if the Commissioner determines that a shorter period is appropriate.
- (b) The sale or other transfer of Medicare supplement business to another issuer shall be considered a discontinuance for the purposes of this subsection.
- (c) A change in the rating structure or methodology shall be considered a discontinuance under Paragraph (a) unless the issuer complies with the following requirements:
1. The issuer provides an actuarial memorandum, in a form and manner prescribed by the Commissioner, describing the manner in which the revised rating methodology and resultant rates differ from the existing rating methodology and existing rates.
 2. The issuer does not subsequently put into effect a change of rates or rating factors that would cause the percentage differential between the discontinued and subsequent rates as described in the actuarial

memorandum to change. The Commissioner may approve a change to the differential that is in the public interest.

- (6)
- (a) Except as provided in Paragraph (b), the experience of all policy forms or certificate forms of the same type in a standard Medicare supplement benefit plan shall be combined for purposes of the refund or credit calculation prescribed in Section [120-2-8-.14](#).
 - (b) Forms assumed under an assumption reinsurance agreement shall not be combined with the experience of other forms for purposes of the refund or credit calculation.
- (7) An issuer shall not present for filing or approval a rate structure for its Medicare supplement policies or certificates issued after the effective date of the amendment of this regulation based upon attained age rating as a structure or methodology.

Rule 120-2-8-.17. Required Disclosure Provisions.

- (1) General Rules.
 - (a) Medicare supplement policies and certificates shall include a renewal or continuation provision. The language or specifications of the provision shall be consistent with the type of contract issued. Such provision shall be appropriately captioned and shall appear on the first page of the policy, and shall include any reservation by the issuer of the right to change premiums.
 - (b) Except for riders or endorsements by which the issuer effectuates a request made in writing by the insured, exercises a specifically reserved right under a Medicare supplement policy, or is required to reduce or eliminate benefits to avoid duplication of Medicare benefits, all riders or endorsements added to a Medicare supplement policy after date of issue or at reinstatement or renewal that reduce or eliminate benefits or coverage in the policy shall require a signed acceptance by the insured. After the date of policy or certificate issue, any rider or endorsement that increases benefits or coverage with a concomitant increase in premium during the policy term shall be agreed to in writing signed by the insured, unless the benefits are required by the minimum standards for Medicare supplement policies, or if the increased benefits or coverage is required by law. Where a separate additional premium is charged for benefits provided in connection with riders or endorsements, the premium charge shall be set forth in the policy.

- (c) Medicare supplement policies or certificates shall not provide for the payment of benefits based on standards described as "usual and customary," "reasonable and customary" or words of similar import.
- (d) If a Medicare supplement policy or certificate contains any limitations with respect to preexisting conditions, such limitations shall appear as a separate paragraph of the policy and be labeled as "Preexisting Condition Limitations."
- (e) Medicare supplement policies and certificates shall have a notice prominently printed on the first page of the policy or certificate or attached thereto stating in substance that the policyholder or certificateholder shall have the right to return the policy or certificate within thirty (30) days of its delivery and to have the premium refunded if, after examination of the policy or certificate, the insured person is not satisfied for any reason.
- (f)
 - 1. Issuers of accident and sickness policies or certificates which provide hospital or medical expense coverage on an expense incurred or indemnity basis to persons eligible for Medicare shall provide to those applicants a Guide to Health Insurance for People with Medicare in the form developed jointly by the National Association of Insurance Commissioners and CMS and in a type size no smaller than 12 point type. Delivery of the Guide shall be made whether or not the policies or certificates are advertised, solicited or issued as Medicare supplement policies or certificates as defined in this regulation. Except in the case of direct response issuers, delivery of the Guide shall be made to the applicant at the time of application and acknowledgment of receipt of the Guide shall be obtained by the issuer. Direct response issuers shall deliver the Guide to the applicant upon request but not later than at the time the policy is delivered.
 - 2. For the purposes of this section, "form" means the language, format, type size, type proportional spacing, bold character, and line spacing.

(2) Notice Requirements.

- (a) As soon as practicable, but no later than thirty (30) days prior to the annual effective date of any Medicare benefit changes, an issuer shall notify its policyholders and certificateholders of modifications it has made to Medicare supplement insurance policies or certificates in a format acceptable to the Commissioner. The notice shall:
 - 1. Include a description of revisions to the Medicare program and a description of each modification made to the coverage provided under the Medicare supplement policy or certificate, and

2. Inform each policyholder or certificateholder as to when any premium adjustment is to be made due to changes in Medicare.
 - (b) The notice of benefit modifications and any premium adjustments shall be in outline form and in clear and simple terms so as to facilitate comprehension.
 - (c) The notices shall not contain or be accompanied by any solicitation.
- (3) MMA Notice Requirements. Issuers shall comply with any notice requirements of the Medicare Prescription Drug, Improvement and Modernization Act of 2003.
- (4) Outline of Coverage Requirements for Medicare Supplement Policies.
 - (a) Issuers shall provide an outline of coverage to all applicants at the time application is presented to the prospective applicant and, except for direct response policies, shall obtain an acknowledgement of receipt of the outline from the applicant; and
 - (b) If an outline of coverage is provided at the time of application and the Medicare supplement policy or certificate is issued on a basis which would require revision of the outline, a substitute outline of coverage properly describing the policy or certificate shall accompany such policy or certificate when it is delivered and contain the following statement, in no less than twelve (12) point type, immediately above the company name:

"Notice: Read this outline of coverage carefully. It is not identical to the outline of coverage provided upon application and the coverage originally applied for has not been issued."

- (c) The outline of coverage provided to applicants pursuant to this section consists of four parts: a cover page, premium information, disclosure pages, and charts displaying the features of each benefit plan offered by the issuer. The outline of coverage shall be in the language and format prescribed below in no less than twelve (12) point type. All plans shall be shown on the cover page, and the plans that are offered by the issuer shall be prominently identified. Premium information for plans that are offered shall be shown on the cover page or immediately following the cover page and shall be prominently displayed. The premium and mode shall be stated for all plans that are offered to the prospective applicant. All possible premiums for the prospective applicant shall be illustrated.
- (d) The following items shall be included in the outline of coverage in the order prescribed below:

- (a) Any accident and sickness insurance policy or certificate, other than a Medicare supplement policy, a policy issued pursuant to a contract under Section 1876 of the Federal Social Security Act ([42 U.S.C. Section 1395et seq.](#)), disability income policy; or other policy identified in Section [120-2-8-.03\(2\)](#) of this regulation, issued for delivery in this State to persons eligible for Medicare shall notify insureds under the policy that the policy is not a Medicare supplement policy or certificate. The notice shall either be printed or attached to the first page of the

outline of coverage delivered to insureds under the policy, or if no outline of coverage is delivered, to the first page of the policy, or certificate delivered to insureds. The notice shall be in no less than twelve (12) point type and shall contain the following language:

Rule 120-2-8-.18. Requirements for Application Forms and Replacement Coverage.

- (1) Application forms shall include the following questions designed to elicit information as to whether, as of the date of the application, the applicant currently has Medicare supplement, Medicare Advantage, Medicaid coverage or another health insurance policy or certificate in force or whether a Medicare supplement policy or certificate is intended to replace any other accident and sickness policy or certificate presently in force. A supplementary application or other form to be signed by the applicant and agent containing such questions and statements may be used.

[Statements]

- (a) You do not need more than one Medicare supplement policy.

- (b) If you purchase this policy, you may want to evaluate your existing health coverage and decide if you need multiple coverages.
- (c) You may be eligible for benefits under Medicaid and may not need a Medicare supplement policy.
- (d) If, after purchasing this policy, you become eligible for Medicaid, the benefits and premiums under your Medicare supplement policy can be suspended, if requested, during your entitlement to benefits under Medicaid for 24 months. You must request this suspension within 90 days of becoming eligible for Medicaid. If you are no longer entitled to Medicaid, your suspended Medicare supplement policy (or, if that is no longer available, a substantially equivalent policy) will be reinstituted if requested within 90 days of losing Medicaid eligibility. If the Medicare supplement policy provided coverage for outpatient prescription drugs and you enrolled in Medicare Part D while your policy was suspended, the reinstituted policy will not have outpatient prescription drug coverage, but will otherwise be substantially equivalent to your coverage before the date of the suspension.
- (e) If you are eligible for, and have enrolled in a Medicare supplement policy by reason of disability and you later become covered by an employer or union-based group health plan, the benefits and premiums under your Medicare supplement policy can be suspended, if requested, while you are covered under the employer or union-based group health plan. If you suspend your Medicare supplement policy under these circumstances, and later lose your employer or union-based group health plan, your suspended Medicare supplement policy (or, if that is no longer available, a substantially equivalent policy) will be reinstituted if requested within 90 days of losing your employer or union-based group health plan. If the Medicare supplement policy provided coverage for outpatient prescription drugs and you enrolled in Medicare Part D while your policy was suspended, the reinstituted policy will not have outpatient prescription drug coverage, but will otherwise be substantially equivalent to your coverage before the date of the suspension.
- (f) Counseling services may be available in your state to provide advice concerning your purchase of Medicare supplement insurance and concerning medical assistance through the state Medicaid program, including benefits as a Qualified Medicare Beneficiary (QMB) and a Specified Low-Income Medicare Beneficiary (SLMB).

NOTICE TO APPLICANT REGARDING REPLACEMENT
OF MEDICARE SUPPLEMENT INSURANCE
OR MEDICARE ADVANTAGE

[Insurance company's name and address]

SAVE THIS NOTICE! IT MAY BE IMPORTANT TO YOU IN THE FUTURE.

According to [your application] [information you have furnished], you intend to terminate existing Medicare supplement or Medicare Advantage insurance and replace it with a policy to be issued by [Company Name] Insurance Company. Your new policy will provide thirty (30) days within which you may decide without cost whether you desire to keep the policy.

You should review this new coverage carefully. Compare it with all accident and sickness coverage you now have. If, after due consideration, you find that purchase of this Medicare supplement coverage is a wise decision, you should terminate your present Medicare supplement or Medicare Advantage coverage. You should evaluate the need for other accident and sickness coverage you have that may duplicate this policy.

STATEMENT TO APPLICANT BY ISSUER, AGENT [BROKER OR OTHER REPRESENTATIVE]:

I have reviewed your current medical or health insurance coverage. To the best of my knowledge, this Medicare supplement policy will not duplicate your existing Medicare supplement or, if applicable, Medicare Advantage coverage because you intend to terminate your existing Medicare supplement coverage or leave your Medicare Advantage plan. The replacement policy is being purchased for the following reason (check one):

____ Additional benefits.

____ No change in benefits, but lower premiums.

____ Fewer benefits and lower premiums.

____ My plan has outpatient prescription drug coverage and I am enrolling in Part D.

____ Disenrollment from a Medicare Advantage plan. Please explain reason for disenrollment. [optional only for Direct Mailers.]

____ Other. (please specify) _____

1. **Note:** If the issuer of the Medicare supplement policy being applied for does not, or is otherwise prohibited from imposing pre-existing condition limitations, please skip to statement 2 below. Health conditions that you may presently have (preexisting conditions) may not be immediately or fully covered under the new policy. This could result in denial or delay of a claim for benefits under the new policy, whereas a similar claim might have been payable under your present policy.

2. State law provides that your replacement policy or certificate may not contain new preexisting conditions, waiting periods, elimination periods or probationary periods. The insurer will waive any time periods applicable to preexisting conditions, waiting periods, elimination periods, or probationary periods in the new policy (or coverage) for similar benefits to the extent such time was spent (depleted) under the original policy.
3. If, you still wish to terminate your present policy and replace it with new coverage, be certain to truthfully and completely answer all questions on the application concerning your medical and health history. Failure to include all material medical information on an application may provide a basis for the company to deny any future claims and to refund your premium as though your policy had never been in force. After the application has been completed and before you sign it, review it carefully to be certain that all information has been properly recorded. [If the policy or certificate is guaranteed issue, this paragraph need not appear.]

Do not cancel your present policy until you have received your new policy and are sure that you want to keep it.

This Section applies to all policies with policy years beginning on or after this Regulation becomes effective.

- (1) An issuer of a Medicare supplement policy or certificate;
 - (a) shall not deny or condition the issuance or effectiveness of the policy or certificate (including the imposition of any exclusion of benefits under the policy based on a pre-existing condition) on the basis of the genetic information with respect to such individual; and
 - (b) shall not discriminate in the pricing of the policy or certificate (including the adjustment of premium rates) of an individual on the basis of the genetic information with respect to such individual.
- (2) Nothing in Subsection (1) shall be construed to limit the ability of an issuer, to the extent otherwise permitted by law, from

- (a) Denying or conditioning the issuance or effectiveness of the policy or certificate or increasing the premium for a group based on the manifestation of a disease or disorder of an insured or applicant; or
 - (b) Increasing the premium for any policy issued to an individual based on the manifestation of a disease or disorder of an individual who is covered under the policy (in such case, the manifestation of a disease or disorder in one individual cannot also be used as genetic information about other group members and to further increase the premium for the group).
- (3) An issuer of a Medicare supplement policy or certificate shall not request or require an individual or a family member of such individual to undergo a genetic test.
- (4) Subsection C shall not be construed to preclude an issuer of a Medicare supplement policy or certificate from obtaining and using the results of a genetic test in making a determination regarding payment (as defined for the purposes of applying the regulations promulgated under part C of title XI and section 264 of the Health Insurance Portability and Accountability Act of 1996, as may be revised from time to time) and consistent with Subsection A.
- (5) For purposes of carrying out Subsection D, an issuer of a Medicare supplement policy or certificate may request only the minimum amount of information necessary to accomplish the intended purpose.
- (6) Notwithstanding Subsection C, an issuer of a Medicare supplement policy may request, but not require, that an individual or a family member of such individual undergo a genetic test if each of the following conditions is met:
 - (a) The request is made pursuant to research that complies with part 46 of title 45, Code of Federal Regulations, or equivalent Federal regulations, and any applicable State or local law or regulations for the protection of human subjects in research.
 - (b) The issuer clearly indicates to each individual, or in the case of a minor child, to the legal guardian of such child, to whom the request is made that -
 - 1. compliance with the request is voluntary; and
 - 2. non-compliance will have no effect on enrollment status or premium or contribution amounts.
 - (c) No genetic information collected or acquired under this Subsection shall be used for underwriting, determination of eligibility to enroll or maintain enrollment status, premium rates, or the issuance, renewal, or replacement of a policy or certificate.

- (d) The issuer notifies the Secretary in writing that the issuer is conducting activities pursuant to the exception provided for under this Subsection, including a description of the activities conducted.
 - (e) The issuer complies with such other conditions as the Secretary may by regulation require for activities conducted under this Subsection.
- (7) An issuer of a Medicare supplement policy or certificate shall not request, require, or purchase genetic information for underwriting purposes.
- (8) An issuer of a Medicare supplement policy or certificate shall not request, require, or purchase genetic information with respect to any individual prior to such individual's enrollment under the policy in connection with such enrollment.
- (9) If an issuer of a Medicare supplement policy or certificate obtains genetic information incidental to the requesting, requiring, or purchasing of other information concerning any individual, such request, requirement, or purchase shall not be considered a violation of Subsection H if such request, requirement, or purchase is not in violation of Subsection G.

Such term includes, with respect to any individual, any request for, or receipt of, genetic services, or participation in clinical research which includes genetic services, by such individual or any family member of such individual. Any reference to genetic information concerning an individual or family member of an individual who is a pregnant woman, includes genetic information of any fetus carried by such pregnant woman, or with respect to an individual or family member utilizing reproductive technology, includes genetic information of any embryo legally held by an individual or family member. The term "genetic information" does not include information about the sex or age of any individual.
 - (d) "Genetic services" means a genetic test, genetic counseling (including obtaining, interpreting, or assessing genetic information), or genetic education.

- (e) "Genetic test" means an analysis of human DNA, RNA, chromosomes, proteins, or metabolites, that detect genotypes, mutations, or chromosomal changes. The term "genetic test" does not mean an analysis of proteins or metabolites that does not detect genotypes, mutations, or chromosomal changes; or an analysis of proteins or metabolites that is directly related to a manifested disease, disorder, or pathological condition that could reasonably be detected by a health care professional with appropriate training and expertise in the field of medicine involved.

Section 1882(d) of the federal Social Security Act [[42 U.S.C. 1395](#) ss] prohibits the sale of a health insurance policy (the term policy includes certificate) to Medicare beneficiaries that duplicates Medicare benefits unless it will pay benefits without regard to a beneficiary's other health coverage and it includes the prescribed disclosure statement on or together with the application for the policy.

2. All types of health insurance policies that duplicate Medicare shall include one of the attached disclosure statements, according to the particular policy type involved, on the application or together with the application. The disclosure statement may not vary from the attached statements in terms of language or format (type size, type proportional spacing, bold character, line spacing, and usage of boxes around text).

3. State and federal law prohibits insurers from selling a Medicare supplement policy to a person that already has a Medicare supplement policy except as a replacement policy.

4. Property/casualty and life insurance policies are not considered health insurance.

Disability income policies are not considered to provide benefits that duplicate Medicare.

Long-term care insurance policies that coordinate with Medicare and other health insurance are not considered to provide benefits that duplicate Medicare.

7. The federal law does not preempt state laws that are more stringent than the federal requirements.

8. The federal law does not preempt existing state form filing requirements.

9. Section 1882 of the federal Social Security Act was amended in Subsection (d)(3)(A) to allow for alternative disclosure statements. The disclosure statements already in Appendix C remain. Carriers may use either disclosure statement with the requisite insurance product. However, carriers should use either the original disclosure statements or the alternative disclosure statements and not use both simultaneously.

If the transaction was with the issuer of the securities, so state. If it involved the purchase of securities through the exercise of options, so state and give the exercise price per share. If any other purchase or sale was effected otherwise than in the open market, that fact shall be indicated. If the transaction was not a purchase or sale, indicate its character; for example, gift, 5% stock dividend, etc., as the case may be. - (2) No policy may be sold or approved for sale in Georgia after said date which uses a policy name implying or that may reasonably be construed as implying that only a limited number or a limited class of persons will be eligible to buy such policy, unless such limitation is related to actuarially sound underwriting practices.
- (3) This section is not intended to restrict or prohibit the sale in this State of insurance policies or annuities authorized by 33-14-16 and 33-25-6 of the Georgia Insurance Code,

nor is it intended to restrict an insurer from issuing both participating and nonparticipating policies.

Rule 120-2-10-.03. Medical or Surgical Policies-Outpatient Coverage.

- (1) In accordance with Section [33-29-6](#) of the Georgia Insurance Code this rule is applicable to all individual accident and sickness policies that provide coverage for medical or surgical procedures which are required to be performed on an inpatient basis at a licensed hospital. These policies shall contain provisions on their face or by endorsement to reimburse policyholders for any otherwise covered medical or surgical procedures when such procedures are performed on an outpatient basis in a facility described in said policies.
- (2) In ordinary circumstances when the general condition of the patient would not be placed in jeopardy, admission to the hospital as a registered bed patient may not be necessary for the sole purpose of performing the procedures described herein.
- (3) All personnel and providers of services shall be currently licensed to perform the services they provide, when such services require licensure or registration under applicable State laws.
- (4) All facilities and equipment needed and used for and in the delivery of services which are required to be licensed and/or certified by law shall be so licensed and/or certified.
- (5) The medical or surgical procedures listed in paragraph (7) below may be performed on an outpatient basis unless the following situations exist which may contraindicate the use of an outpatient setting:
 - (a) Presence of medical conditions which make prolonged postoperative observation by a nurse or skilled medical personnel a necessity (including but not limited to heart disease and severe diabetes).
 - (b) An unrelated procedure is being done simultaneously which itself requires surgical hospitalization.
 - (c) Lack of proper home postoperative care.
 - (d) Another surgical procedure could follow the initial procedure (including but not limited to a one-stage breast biopsy followed by a mastectomy).
 - (e) Technical difficulties as documented by admission or operative notes.

- (f) A specific State statute or State Agency Rule(s) or Regulation(s) prohibits and/or limits said procedure.
- (6) Upon the certification by the Commissioner of Human Resources to the Insurance Commissioner that any procedure listed in paragraph (7) below can no longer be legally and safely performed on an outpatient basis, the Insurance Commissioner shall issue an order suspending the listing of that procedure(s). Such suspension shall remain in effect until such time as the Commissioner of Human Resources certifies to the Insurance Commissioner that the procedure(s) so suspended may again be legally and safely performed on an outpatient basis at which time the Insurance Commissioner shall issue an order reinstating the listing of that procedure(s). A copy of any such suspension and reinstatement orders shall be kept at the offices of the Insurance Commissioner and provided at cost to any person informing the Insurance Commissioner in writing of their desire to receive copies of all such orders. The procedures listed as of the time of their performances shall be reimbursable even if suspended at a subsequent date.
- (7) The numbers as set forth below in the following subparagraphs represent the medical and surgical services and procedures as contained in the *Physician's Current Procedural Terminology* (CPT), Fourth Edition, 1977, as published by the American Medical Association, Chicago, Illinois, 60610. Subject to the above listed conditions, these listed procedures may be performed on an outpatient basis.

Rule 120-2-10-.04. Misleading Terms Prohibited.

- (1) Words such as "Founders Plan", "Charter Policy", "Expansion Plan", or "Profit-Sharing" have a tendency to mislead a purchaser or prospective purchaser of insurance or annuity to believe that he will receive something other than an insurance policy, annuity policy, or some benefit not available to other persons of the same class and expectation of life. Therefore, the use of such words or any other words that imply special privileges or benefits to the owner or insured persons not available to other persons of the same class and expectation of life in any insurance or annuity contract is prohibited.
- (2) The use of such words in printed material or oral presentations in a context which will mislead a purchaser or prospective purchaser of insurance or annuity to believe he will receive something other than an insurance policy, annuity policy, or some benefit not available to a person of the same class and expectation of life is prohibited.

- (3) Use of the words "investment" or "profit" in a context or under such circumstances or conditions as to have the capacity and tendency to mislead a purchaser or prospective purchaser to believe that he will receive, or that it is a possibility that he will receive, something other than an insurance policy, some benefit not provided in the policy, or some benefit not available to other persons of the same class and equal expectation of life is prohibited.

Rule 120-2-10-.06. Filing Requirements-Life and Health Forms.

- (1) The submission of any form for approval shall be in compliance with this Rule, Section [33-24-9](#) of the Georgia Insurance Code and any other applicable sections of the Georgia Insurance Code or the Rules and Regulations of the Georgia Insurance Department.

- (2) Forms must be submitted in duplicate. If approval is granted, one copy will be retained by the Insurance Department and the other will be returned to the insurer with an appropriate notation indicating approval.
- (3) Each form must be identified by a form number which is unique to that form. This number shall be printed in the lower left-hand corner of the first page, and no other number shall appear in close proximity to the form number. If any loose leaf or alternate pages are submitted, each such page must also be identified by a unique form number.
- (4) Submissions must be made by the insurer's Home Office, Regional Home Office, legal counsel or consulting actuary, and not by agents or agencies. Any other arrangements must be requested in writing and agreed to by this Department.
- (5) Each submission must be accompanied by a letter listing by number the forms being submitted together with a brief description of each. The letter should also contain or have attached any other information required by these rules.
- (6) The insurer must indicate whether or not the form being submitted has been filed with the insurer's domestic state. If it has been so filed, the insurer must indicate whether or not approval has been received from the domestic state. If not so filed, or approved, or being sold in the domestic state, the reason must be stated.
- (7) If the submission is new, the insurer should print out the unique features of the form. If the submission is to supersede any approved form or where there has been any prior submission, the insurer should state which form is being replaced and the date when such replaced form was approved or submitted, as the case may be, and should point out the material changes in the superseding form.
- (8) Each form must be completed with representative specimen data in "John Doe" fashion.
- (9) If submission is made of a complete policy form plus alternate pages, the insurer should clearly indicate what substitutions are being proposed.
- (10) If the insurer submits pages providing alternate or optional benefits under policy forms previously approved, reference should be made to the form number and date of approval of the basic policy.
- (11) If the insurer submits a page which is to replace a corresponding page in a previously approved policy or policies, reference must be made to the form number and date of approval of the basic policy with which the page is proposed to be used. The new page must be completed with representative data.
- (12) Any rider or endorsement form must have affixed the signature of a responsible officer of the insurer as part of such form.

- (13) No policy, annuity contract, rider, endorsement or certificate may contain any advertising or underwriting material. It is not the intent of this rule to prohibit the imprinting of registered trade marks of the insurer.
- (14) No statement may appear in an application with respect to a proxy through which one or more members of the board of directors is authorized to vote in the election of directors.
- (15) The following information is required for all life policy forms except those life forms for which there are minimum values printed in standard actuarial publications.
 - (a) A detailed development of the actuarial formulas for valuation premiums and reserves; non-forfeiture factors and values; and dividends, if participating.
 - (b) Sample calculations for reserves and non-forfeiture values for the age illustrated in the John Doe specimen policy.
 - (c) Certification by a qualified actuary that reserve factors and non-forfeiture values for all ages correctly calculated by the formulas submitted.

- (b) Apply for a temporary life insurance license, intending at the time of application not to qualify by written examination as a permanent insurance agent, provided, however, that this shall not prohibit the issuance of temporary licenses to persons entitled thereto as provided in Section [33-23-8\(1\)\(2\)](#) of the Georgia Insurance Code.

Rule 120-2-10-.08. Participating Policies.

No participating life insurance or annuity policy shall be sold or approved for sale in Georgia on or after January 1, 1968 unless each of the following requirements has been met:

- (a) There shall be filed with the Commissioner a participating scale or formula pursuant to which the right to and extent of participation of policyholders of such participating insurance policy shall be determined. Such participating scale or formula shall be reviewed by the Company's actuary not less frequently than each five years and shall then be amended, if necessary, to reflect the Company's current experience. Any change or amendment of such participating scale or formula shall be filed with a statement of the reasons in support of such proposed change or amendment.
- (b) There shall be filed with the Commissioner the verified certificate of an actuary attesting that the participating scale or formula required in subsection (a) above was prepared for such policy form or series of policy forms, is actuarially sound and based upon a reasonable classification not unfairly discriminating as between policyholders within such classification.
- (c) There shall be filed with the Commissioner a verified certificate of a duly authorized officer of the insurer attesting that the participating scale or formula required by subsection (a) above will be the basis upon which the insurer will annually determine the right to and extent of participation by the policyholders of such policy form or series of policy forms.
- (d) Completion of Schedule M, including the footnote requirement, of the Annual Statement required to be filed with the Commissioner and the certification of the actuary, together with that of other executive officers, to the Annual Statement or specifically Schedule M thereof, shall constitute compliance with (a), (b) and (c) above.

Rule 120-2-10-.09. Life, Annuities and Accident and Sickness Insurance Policy Language Simplification Standards.

- (1) The purpose of this Rule is to establish minimum ease of reading standards, pursuant to O.C.G.A. Sections [33-2-9](#) and [33-3-25](#), for language used in policies, contracts, coverage booklets provided by insurers to certificate holders, and certificates of life insurance, accident and sickness insurance, credit life insurance and credit accident and sickness insurance delivered or issued for delivery in this State on and after January 1, 1984. This Rule is not intended to increase the risk assumed by insurance companies or other entities subject to this Rule or to supersede their obligation to comply with the substance of other insurance legislation applicable to life, annuities, accident and sickness, credit life or credit accident and sickness insurance policies. This Rule is not intended to impede flexibility and innovation in the development of policy forms or content or to lead to the standardization of policy forms or content.
- (2) As used in this Rule:
 - (a) 'Policy' or 'policy form' means any policy contract, plan or agreement of life, annuities or accident and sickness insurance, including credit life and credit accident and sickness insurance, delivered or issued for delivery in this State by any company subject to this Rule; any certificate, contract or policy issued by a fraternal benefit society; any coverage booklet provided by insurers to certificate holders or any certificate issued pursuant to a group insurance policy delivered or issued for delivery in this State.
 - (b) 'Company' or insurer' means any life or accident and sickness insurance company, fraternal benefit society, nonprofit medical service corporation, nonprofit hospital service corporation, health care plan, dental care plan, vision care plan, pharmaceutical plan, health maintenance organization, and all similar type organizations.
 - (c) 'Commissioner' means the Insurance Commissioner of this State.
- (3) This Rule shall apply to all policies delivered or issued for delivery in this State by any insurer on or after the date such forms must be approved under this Rule, but nothing in this Rule shall apply to:
 - (a) any policy which is a security subject to federal jurisdiction;
 - (b) any group policy covering a group of 1,000 or more lives at date of issue, other than a group credit life insurance policy or a group credit accident and sickness

insurance policy; however, this shall not exempt the language contained in any certificate issued pursuant to a group policy delivered or issued for delivery in this State;

- (c) any group annuity contract which serves as a funding vehicle for pension, profit sharing, or deferred compensation plans;
 - (d) any form used in connection with, as a conversion from, as an addition to, or in exchange pursuant to a contractual provision for, a policy delivered or issued for delivery on a form approved or permitted to be issued prior to the dates such forms must be approved under this Rule; or
 - (e) the renewal of a policy delivered or issued for delivery prior to the dates such forms must be approved under this Rule.
- (4) In addition to any other requirements of law, no policy forms, except as stated in paragraph (3) of this Rule, shall be delivered or issued for delivery in this State on or after the dates such forms must be approved under this Rule, unless:
- (a) the text achieves a minimum score of forty on the Flesch reading ease test, or an equivalent score on any other comparable test as provided in paragraph (6) of this Rule;
 - (b) it is printed, except for specification pages, schedules and tables is not less than ten-point type, one-point leaded;
 - (c) the style, arrangement and overall appearance of the policy give no undue prominence to any portion of the text of the policy or to any endorsements or riders; and
 - (d) it contains a table of contents or an index of the principal sections of the policy, if the policy has more than 3,000 words printed on three or fewer pages of text, or if the policy has more than three pages regardless of the number of words.
- (5) For the purpose of this Section, a Flesch reading ease test score shall be measured by the following method:
- (a) For policy forms containing 10,000 words or less of text, the entire form shall be analyzed. For policy forms containing more than 10,000 words, the readability of two, 200 word samples per page may be analyzed instead of the entire form. The samples shall be separated by at least twenty printed lines.
 - (b) The number of words and sentences in the text shall be counted and the total number of words divided by the total number of sentences. The figure obtained shall be multiplied by a factor of 1.015.

- (c) The total number of syllables shall be counted and divided by the total number of words. The figure obtained shall be multiplied by a factor of 84.6.
 - (d) The sum of the figures computed under subparagraphs (5)(b) and (5)(c) above subtracted from 206.835 equals the Flesch reading ease score for the policy form.
 - (e) For purposes of subparagraphs (5)(b), (c) and (d) above, the following procedure shall be used:
 - 1. a contraction, hyphenated word, or numbers and letters when separated by spaces, shall be counted as one word;
 - 2. a unit of words ending with a period, semicolon, or colon, but excluding headlines and captions, shall be counted as a sentence; and
 - 3. a syllable means a unit of spoken language consisting of one or more letters of a word as divided by an accepted dictionary. Where the dictionary shows two or more equally acceptable pronunciations of a word, the pronunciation containing fewer syllables may be used.
 - (f) The term 'text' as used in this Rule shall include all printed matter except the following:
 - 1. the name and address of the insurer; the name, number or title of the policy; the table of contents or index; captions and subcaptions; specification pages, schedules or tables; and
 - 2. any policy language which is drafted to conform to the requirements of any federal law, regulation or agency interpretation; any policy language required by any collectively bargained agreement; and medical terminology; any words which are defined in the policy; and any policy language required by law or regulation; provided, however, the insurer identifies the language or terminology excepted by this subparagraph 2. and certifies, in writing, that the language or terminology is entitled to be excepted by the subparagraph 2.
- (6) Any other reading test may be approved by the Commissioner for use as an alternative to the Flesch reading ease test if it is comparable in result(s) to the Flesch reading ease test.
- (7) Filings subject to this Rule shall be accompanied by a certificate signed by an officer of the insurer stating that it meets the minimum reading ease score on the test used or stating that the score is lower than the minimum required but should be approved in accordance with paragraph (10) of this Rule. To confirm the accuracy of any certification, the Commissioner may require the submission of further information to verify the certification in question.

- (8) At the option of the insurer, riders, endorsements, applications, and any other forms made a part of the policy may be scored as separate forms or as part of the policy with which they may be used.
- (9) Nothing in this Rule shall be construed to negate any law of this State permitting the issuance of any policy form after it has been on file for the time period specified.
- (10) The Commissioner may authorize a lower score than the Flesch reading ease score required in subparagraph (4) (a) of this Rule whenever, in his sole discretion, he finds that a lower score:
 - (a) will provide a more accurate reflection of the readability of a policy form;
 - (b) is warranted by the nature of a particular policy or type or class of policy forms;
or
 - (c) is caused by certain policy language which is drafted to conform to the requirements of any State law, regulation or agency interpretation.
- (11) A policy form meeting the requirements of paragraph (4) or this Rule shall be approved notwithstanding the provisions of any other Laws which specify the content of policies, if the policy form provides the policyholders and claimants protection not less favorable than they would be entitled to under such laws.

Rule 120-2-10-.10. Group Coverage Discontinuance and Replacement.

- (1) This Rule is applicable to all insurance policies, subscriber contracts, and any other insurance coverage by whatever name called issued in this State or provided through an out-of-state multiple employer trust or arrangement by an insurer on a group or group-type basis covering persons as employees of employers or as members of unions (or associations).
- (2) The term "group type basis" means a benefit plan, other than "salary budget" plans utilizing individual insurance policies or subscriber contracts, which meets the following conditions:

- (a) Coverage is provided through insurance policies or subscriber contracts to classes of employees or members defined in terms of conditions pertaining to employment or membership.
 - (b) The coverage is not available to the general public and can be obtained and maintained only because of the covered person's membership in or in connection with the particular organization or group.
 - (c) There are arrangements for bulk payment of premiums or subscription charges to the insurer or non-profit service corporation.
 - (d) There is sponsorship of the plan by the employer, union (or association).
- (3) The effective date of discontinuance for non-payment of premium or subscription charges:
- (a) If a policy or contract subject to these rules and regulations provides for automatic discontinuance of the policy or contract after a premium or subscription charge has remained unpaid through the grace period allowance for such payment, the carrier shall be liable for valid claims for covered losses incurred prior to the end of the grace period.
 - (b) If the actions of the carrier after the end of the grace period indicate that it considers the policy or contract as continuing in force beyond the end of the grace period (such as, by continuing to recognize claims subsequently incurred), the carrier shall be liable for valid claims for losses beginning prior to the effective date of written notice of discontinuance to the policyholder or other entity responsible for making payments or submitting subscription charges to the carrier. The effective date of discontinuance shall not be prior to midnight at the end of the third scheduled work day after the date upon which the notice is delivered.
- (4) Requirements for notice of discontinuance for other than nonpayment of premiums: Any notice of discontinuance by the insurer shall be mailed or delivered not less than sixty (60) days prior to the effective date of cancellation. Such written notice of discontinuance given by the insurer may also advise, in any instance in which the plan involves employee contributions, that if the policyholder or other entity continues to collect contributions for the coverage beyond the date of discontinuance, the policyholder or other entity may be held solely liable for the benefits with respect to which the contributions have been collected. The notice of discontinuance required by this paragraph shall not be required where a policy is cancelled due to nonpayment of premium or subscription charges following the end of any required grace period.
- (5) Extension of Benefits.
- (a) Every group or other contract subject to these rules and regulations hereafter issued, or under which the level of benefits is hereafter altered, modified, or

amended, must provide a reasonable provision for extension of benefits in the event of total disability at the date of discontinuance of the group policy or contract as required by the following paragraphs of this section.

- (b) In the case of a group life plan which contains a disability benefit extension of any type (e.g., premium waiver extension, extended death benefit in the event of total disability, or payment of income for a specified period during total disability) the discontinuance of the group policy shall not operate to terminate such extension.
 - (c) In the case of a group plan providing benefits for loss of time from work or specific indemnity during hospital confinement, discontinuance of the policy during a disability shall have no effect on benefits payable for the disability or confinement.
 - (d) In the case of hospital or medical expense coverages, a reasonable extension of benefits or accrued liability provision is required. Such a provision will be considered "reasonable" if it provides an extension of at least twelve months under "major medical" and "comprehensive medical" type coverages, and under other types of hospital or medical expense coverages provides either an extension of at least ninety days or an accrued liability for expenses incurred during a period of disability or during a period of at least ninety days starting with a specific event which occurred while coverage was in force (e.g., an accident).
 - (e) Any applicable extension of benefits or accrued liability shall be described in any policy or contract involved as well as in group insurance certificates. The benefits payable during any period of extension or accrued liability may be subject to the policy's or contract's regular benefit limits (e.g., benefits ceasing at exhaustion of a benefit period or of maximum benefits).
- (6) The continuance of coverage in situations involving replacement of one carrier by another:
- (a) This section shall indicate the carrier responsible for liability in those instances in which one carrier's contract replaces a plan of similar benefits of another.
 - (b) Liability of prior carrier. The prior carrier remains liable only to the extent of its accrued liabilities and extensions of benefits. The position of the prior carrier shall be the same whether the group policyholders or other entity secures replacement coverage from a new carrier, self insures, or foregoes the provision of coverage.
 - (c) The liability of succeeding carrier:
 - 1. Each person who is eligible for coverage in accordance with the succeeding carrier's plan of benefits (in respect of classes eligible and actively at work and non-confinement rules) shall be covered by that carrier's plan of benefits.

2. Each person not covered under the succeeding carrier's plan of benefits in accordance with paragraph 1. above must nevertheless be covered by the succeeding carrier in accordance with the following rules if such individual was validly covered (including benefit extension) under the prior plan on the date of discontinuance and if such individual is a member of the class or classes of individuals eligible for coverage under the succeeding carrier's plan. Any reference in the following rules to an individual who was or was not totally disabled is a reference to the individual's status immediately prior to the date the succeeding carrier's coverage becomes effective.
 - (i) The minimum level of benefits to be provided by a succeeding carrier shall be the applicable level of benefits of the prior carrier's plan reduced by any benefits payable by the prior plan.
 - (ii) Coverage must be provided by the succeeding carrier until at least the earliest of the following dates:
 - (I) the date the individual becomes eligible under the succeeding carrier's plan as described in paragraph 1. above.
 - (II) for each type of coverage, the date the individual's coverage would terminate in accordance with the succeeding carrier's plan provisions applicable to individual termination of coverage (e.g., at termination of employment or ceasing to be an eligible dependent, as the case may be).
 - (III) in the case of an individual who was totally disabled, and in the case of a type of coverage for which paragraph 5. of this Rule requires an extension of accrued liability, the end of any period of extension of accrued liability which is required of the prior carrier by paragraph (5) of this Rule or, if the prior carrier's policy or contract is not subject to that paragraph, would have been required of that carrier had its policy or contract been subject to paragraph 5. at the time the prior plan was discontinued and replaced by the succeeding carrier's plan.
3. In the case of a preexisting conditions limitation included in the succeeding carrier's plan, the level of benefits applicable to preexisting conditions or persons becoming covered by the succeeding carrier's plan in accordance with this subparagraph during the period of time this limitation applies under the new plan shall be the lesser of:
 - (i) the benefits of the new plan determined without application of the preexisting conditions limitation; and

- (ii) the benefits of the prior plan.
4. The succeeding carrier, in applying any deductibles or waiting periods in its plan, shall give credit for the satisfaction or partial satisfaction of the same or similar provisions under a prior plan providing similar benefits. In the case of deductible provisions, the credit shall apply for the same or overlapping benefit periods and shall be given for expenses actually incurred and applied against the deductible provisions of the prior carrier's plan during the ninety (90) days preceding the effective date of the succeeding carrier's plan, but only to the extent these expenses are recognized under the terms of the succeeding carrier's plan and are subject to similar deductible provision.
 5. In any situation where a determination of the prior carrier's benefits is required by the succeeding carrier, at the succeeding carrier's request the prior carrier shall furnish a statement of the benefits available or pertinent information, sufficient to permit verification of the benefit determination or the determination itself by the succeeding carrier. For the purpose of this section, benefits of the prior plan will be determined in accordance with all of the definitions, conditions, and covered expense provisions of the prior plan rather than those of the succeeding plan. The benefit determination will be made as if coverage had not been replaced by the succeeding carrier.
- (d) Replacement, for the purposes of this Rule for groups or subgroups of fifty-one (51) or more insured employees, members or enrollees (not including dependents), includes, but is not limited to, any group or group-type replacement coverage which becomes effective within ninety (90) days of the date of discontinuance of a group policy or contract or within ninety (90) days of the date of discontinuance of an employer group insured under a group policy or contract covering multiple employer groups. Replacement, for the purposes of this Rule for groups or subgroups of fifty (50) or less insured employees, members or enrollees (not including dependents), shall be defined in Rule 120-2-10-.(1)(k).
1. The succeeding carrier's plan may be effective on the date agreed upon by the policyholder and insurer for the period for which a premium is paid.
 2. The succeeding carrier shall not be liable for new conditions arising during the period of no coverage. Such conditions may be subject to the succeeding carrier's preexisting conditions limitation.

Rule 120-2-10-.11. Group Health Insurance Conversion Privilege.

- (1) A group policy and any other group insurance coverage by whatever name called delivered or issued for delivery in this State or which covers Georgia residents through an out-of-state multiple employer trust or arrangement, by an insurer, nonprofit health care corporation or a Health Maintenance Organization (HMO) which provides hospital, surgical, or major medical coverage, or any combination of these coverages, on an expense incurred or service provided basis, but not a policy which provides benefits for specific diseases or for accidental injuries only shall provide that an insured employee, member, or enrollee whose insurance under the group policy has been terminated for any reason, including discontinuance of the group policy in its entirety or with respect to an insured class, and who has been continuously insured under the group policy (and under any group policy providing similar benefits which it replaces) for at least six (6) months immediately prior to termination, shall be entitled to have issued by the insurer an individual policy of health insurance (hereafter referred to as the 'converted policy'). An employee, member, or enrollee shall not be entitled to have a converted policy issued if termination of the insurance under the group policy occurred because (i) the employee, member, or enrollee failed to pay any required contribution, (ii) any discontinued group coverage was immediately replaced by similar group coverage unless such person was declined coverage under the replacing group coverage, or (iii) an HMO enrollee's coverage was terminated in accordance with Rule [120-2-33-.06](#) of the Rules and Regulations of the Georgia Insurance Department. Issuance of a converted policy shall be subject to the following conditions:
 - (a) Time Limit: Evidence of Insurability. Written application for the converted policy shall be made and the first premium paid to the insurer not later than thirty-one (31) days after such termination. The converted policy shall be issued without evidence of insurability.
 - (b) Effective Date of Coverage: Scope of Coverage. The effective date of the converted policy shall be the day following the termination of insurance under the group policy. The converted policy shall cover the employee, member or enrollee and any dependents who were covered by the group policy on the date of termination of insurance.
 - (c) Optional Coverage. The insurer shall not be required to issue a converted policy under the plans specified herein to any person if such person is or could be covered by Medicare of the United States Social Security Act as added by the Social Security Amendments of 1965, or as later amended or superseded. Furthermore, except as required under subparagraph (c)3. below, the insurer shall not be required to issue a converted policy covering any person if:

1. such person is covered for similar benefits by an insurer under another hospital, surgical, medical, or major medical expense insurance policy or hospital or medical service subscriber contract or medical practice or other prepayment plan or by any other plan or program; or such person is eligible for similar benefits (whether or not covered therefore) under any arrangement of coverage for individuals in a group, whether on an insured or uninsured basis; or similar benefits are provided for or available to such person, pursuant to or in accordance with the requirements or any state or federal law; or
2. the benefits provided or available under the sources referred to in subparagraph 1. above for such person, together with the benefits provided by the converted policy, would result in overinsurance according to the insurer's standards. The insurer's standards must bear some reasonable relationship to actual health care costs in the area in which the insured lives at the time of conversion and must be filed with the commissioner prior to their use in denying coverage.
3. Notwithstanding subparagraphs 1. and 2. above, overinsurance shall not exist, for the purpose of issuing a conversion policy to any insured person, if no other coverage, including other group insurances on the person, fully covers preexisting conditions. When full coverage for preexisting conditions is provided under other similar coverage, then the insurer may nonrenew the conversion policy or the coverage of any person insured in accordance with subparagraph (14) of this Rule.

(2) **Benefits Offered.** An insurer shall not be required to issue a converted policy which provides benefits in excess of those provided under the group policy from which conversion is made.

(3) **Preexisting Condition Provision.**

- (a) The converted policy shall not exclude a preexisting condition not excluded by the group policy. The converted policy shall not exclude disease or physical condition of a particular employee, member, or enrollee by name or specific description.
- (b) The converted policy may provide that any hospital, surgical or medical benefits payable thereunder may be reduced by the amount of any such benefits payable under the group policy after the termination of the individual's insurance thereunder.
- (c) The converted policy during the first policy year, may provide that the benefits payable under the converted policy, together with the benefits payable under the group policy, shall not exceed those that would have been payable had the individual's insurance under the group policy remained in force and effect.

- (d) Any period, not to exceed one year, under the converted policy during which preexisting conditions are excluded shall be reduced by the time period the employee, member or enrollee was insured under the group policy from which conversion was made.
- (4) Basic Hospitalization or Surgical Expense Coverage. Subject to the provisions and conditions of this Rule, if the group insurance policy from which conversion is made insured the employee, member, or enrollee for only basic hospitalization or surgical expense insurance, the employee, member, or enrollee shall have the option of obtaining a converted policy providing coverage on an expense incurred basis under any one of the plans meeting the following requirements:
- (a) Plan A - Semiprivate hospital daily room and board charges for a maximum duration of seventy (70) days; miscellaneous hospital expense benefits of a maximum amount of ten (10) times the semiprivate hospital daily room and board charges; and surgical operation expenses benefits according to a surgical schedule consistent with those customarily offered by the insurer under group or individual health insurance policy and providing a maximum benefit of Eight Hundred Dollars (\$800); or
 - (b) Plan B - seventy-five percent (75%) of the semiprivate hospital daily room and board charges for a maximum duration of seventy (70) days; miscellaneous hospital expense benefits of a maximum amount of ten (10) times the semiprivate hospital daily room and board charges payable; and surgical operation expense benefits according to a surgical schedule consistent with those customarily offered by the insurer under group or individual health insurance policies and providing a maximum benefit of Six Hundred Dollars (\$600); or
 - (c) Plan C - fifty percent (50%) of the semiprivate hospital daily room and board charges for a maximum duration of seventy (70) days; miscellaneous hospital benefits for a maximum amount of ten (10) times the semiprivate hospital daily room and board charges payable; and surgical operation expense benefits according to a surgical schedule consistent with those customarily offered by the insurer under group or individual health insurance policies and providing a maximum benefit of Four Hundred Dollars (\$400).
- (5) Major Medical Insurance Other Than HMO Contracts. Subject to the provisions and conditions of this Rule, if the group insurance policy from which conversion is made insures the employee, member or enrollee for major medical expense insurance, the employee, member, or enrollee shall be entitled to obtain a converted policy providing catastrophic or major medical coverage under a plan meeting all of the following minimum requirements:
- (a) A maximum benefit at least equal to either, at the option of the insurer, the benefits contained in subparagraphs 1. or 2. below:

1. The smaller of the following amounts:
 - (i) The maximum benefit provided under the group policy.
 - (ii) A maximum payment of Two Hundred Fifty Thousand (\$25,000) for each unrelated injury or sickness.
- (b) Payment of benefits at the rate of eight percent (80%) of covered medical expenses which are in excess of the deductible. Payment of benefits for outpatient treatment of mental illness, if provided in the converted policy, may be at a lesser rate but not less than fifty percent (50%).
- (c) A cash deductible for each benefit period shall be not less than the corresponding deductible in the group policy. If the maximum benefit is determined by subparagraph 2. above, the insurer may require that the deductible be satisfied during a period of not less than three (3) months if the deductible is Two Hundred Dollars (\$200) or less, and not less than six (6) months if the deductible exceeds Two Hundred dollars (\$200).
- (d) The benefit period shall be each calendar year when the maximum benefit is determined by subparagraph (a)1. above or twenty-four (24) months when the maximum benefit is determined by subparagraph (a)2. above.
- (e) The term "covered medical expenses," as used above, shall include the semiprivate room and board rate for the hospital in which the individual is confined and twice such amount for charges in an intensive care unit. Any surgical schedule shall be consistent with those customarily offered by the insurer under group or individual major medical health insurance policies.
- (6) The conversion privilege required by this Rule shall, if the group insurance policy insures the employee, member or enrollee for basic hospital or surgical expense insurance as well as major medical expense insurance, make available the plans of benefits as set forth in paragraphs (4) and (5) hereof under one policy.

The insurer may also, in addition to plans of benefits set forth in paragraphs (4) and (5) above, offer a policy of Comprehensive Medical Expense Benefits without first dollar coverage. Said policy shall conform to the requirements of paragraph (5) provided, however, that insurer electing to provide such a policy shall offer to all potential policyholders a low deductible option not to exceed One Hundred Dollars (\$100), a high deductible option not to exceed Five Thousand Dollars (\$5,000), and other deductible options between the high and low deductible options.

- (7) HMO contracts. Subject to the provisions and conditions of this rule, a terminated employee who was an enrollee under a group HMO contract shall have the option of obtaining an individual HMO contract with all of the same benefits as were provided in

the group HMO contract or any lower option contract then being issued by the HMO as a conversion contract.

- (8) Alternate Plans. The insurer may, at its option, offer alternate plans for group health conversion in addition to those required by this Rule.
- (9) Retirement Coverage. In the event coverage would be continued under the group policy on an employee following retirement prior to the time the employee is or could be covered by medicare, the employee may elect, in lieu of such continuation of group insurance, to have the same conversion rights as would apply had the insurance terminated at retirement by reason of termination of employment or membership.
- (10) Reduction of Coverage.
 - (a) Any converted policy may provide for a reduction of coverage on any person upon eligibility for coverage under Medicare of the United States Social Security Act as added by the Social Security Amendments of 1965 or as later amended or superseded or under any other state or federal law.
 - (b) No converted policy may provide for a reduction of coverage on any person upon that person's eligibility for coverage under the Medicaid program of the State of Georgia.
 - (c) the benefits under the conversion policy shall be secondary to any group or blanket accident and sickness contract covering any person insured under the conversion contract.
- (11) Conversion Privilege Allowed.
 - (a) Subject to the conditions set forth above, the conversion privilege shall be exercised at the insured's option at the time coverage terminates or at the end of any required period of continuation of coverage under the group policy and shall be available.
 - 1. to the surviving spouse, if any, of the employee, member, or enrollee with respect to the spouse and such children whose coverage under the group policy terminates by reason of such death otherwise to each surviving child whose coverage under the group policy terminates by reason of such death, or
 - 2. to the spouse of the employee, member, or enrollee upon termination of coverage of the spouse, while the employee, member, or enrollee remains insured under the group policy, by ceasing to be a qualified family member under the group policy, with respect to the spouse and such children whose coverage under the group policy terminates at the same time, or

3. to a child solely upon termination of the coverage by reason of ceasing to be a qualified family member under the group policy, or
 4. to the former spouse whose coverage under the group policy terminates by reason of an entry of a valid decree of divorce between the insured and spouse.
 - (b) If the circumstances as related above in subparagraphs (a)1. or 4. occur, the spouse is entitled to have issued, in addition to the plans specified in this Rule without evidence of insurability, an individual or family policy then being issued by the insurer. Such individual or family policy must provide coverage most nearly similar to the coverage contained in the group policy or any other similar individual or family policy then being issued by the insurer but may contain lesser coverage if selected by the spouse.
- (12) Benefit Levels. This rule shall not require that benefits exceed those provided under the converting group plan or group contract.
- (13) Conversion Premium.
- (a) All premium rates and amended rates must be filed with the Commissioner of Insurance, and must provide for the payment of monthly premiums. Optional modes of premium payment maybe offered to the converting employee, member, or enrollee.
 - (b) The initial premium for the converted policy for the first twelve (12) months and subsequent renewal premiums shall be determined in accordance with premium rates applicable to individually underwritten standard risks, to the age and class of risk of each person to be covered under the converted policy and to the type and amount of insurance provided. The experience under converted policies shall not be an acceptable basis for establishing rates for converted policies.
 - (c) If an insurer experiences incurred losses for a period of two (2) years on conversion policies which have been in force for at least one (1) year, which exceed earned premiums by more than twenty percent (20%), the insurer may determine and file with the Commissioner of Insurance amended renewal rates for the subsequent year so that the amended rates shall produce a future projected loss ratio of not less than one hundred twenty percent (120%). This subparagraph shall not affect the initial twelve (12) month premium required under subparagraph (13)(b) above.
 - (d) Conditions pertaining to health shall not be an acceptable basis for classification for the purposes of this Rule.
- (14) Information Requested by Insurer.

- (a) A converted policy may include a provision to allow the insurer to request information in advance of any premium due date of such policy of any person covered thereunder as to whether:
 - 1. The insured is covered for similar benefits by another hospital, surgical, medical or major medical expense insurance policy or hospital or medical service subscriber contract or medical practice or other prepayment plan or by any other plan or program;
 - 2. The insured is covered for similar benefits under any arrangement of coverage for individuals in a group, whether on an insured or uninsured basis; or
 - 3. Similar benefits are provided for or available to such person, pursuant to or in accordance with the requirements of any state or federal law.
 - (b) The converted policy may provide that the insurer can refuse to renew the policy or the coverage of any person insured thereunder for the following reasons only:
 - 1. Either the benefits provided under the sources referred to in subparagraphs (a)1. and 2. above for such person, or benefits provided or available under the sources referred to in subparagraph (a)3. above for such person, together with the benefits provided by the converted policy, would result in overinsurance according to the insurer's standards on file with the Georgia Insurance Department, or the converted policy-holder fails to provide the requested information;
 - 2. Eligibility of the insured person for coverage under Medicare (Title XVIII of the United States Social Security Act as added by the Social Security Amendments of 1965 or as later amended or superseded) or under any other state or federal law providing for benefits similar to those provided by the converted policy except that the conversion policy may not contain any provision purporting to exclude or reduce coverage provided an otherwise insurable person, solely for the reason that the person is eligible for or receiving medical assistance, as defined in the Georgia Medical Assistance Act of 1977.
 - (c) Any refusal to renew shall be without prejudice to any valid claim commencing while the policy is in force.
- (15) Individual Conversion Policies. Insurers must provide for the issuance of individual conversion policies. Group conversion policies shall not be issued in lieu of individual conversion policies. The individual conversion policy is not exempt under Chapter 120-2-25 of the Rules and Regulations of the Georgia Insurance Department entitled "Exemption From Filing Certain Life and Health Forms." All individual conversion policies must be filed for approval in accordance with O.C.G.A. Section [33-24-9](#).

- (16) Notification. A notification of the conversion privilege shall be included in each certificate of coverage.

Rule 120-2-10-.11A. Group Health Insurance Enhanced Conversion Privilege.

- (1) Definitions. For the purpose of this Rule, the following definitions shall apply:
- (a) "Continuation Coverage" shall mean any coverage under the Consolidated Omnibus Budget Reconciliation Act of 1986 (COBRA) or continuation benefits under O.C.G.A. § [33-24-21.1](#) or § [33-24-21.2](#).
 - (b) "Eligible Dependent" shall mean a dependent of a qualifying eligible individual, including a spouse, covered under the qualifying eligible individual's most recent group health insurance policy or contract, or continuation coverage thereof, who meets the requirements of paragraphs (g) 1. through 5. Eligible dependents shall include any dependents who would otherwise not qualify for coverage because they have less than 18 months previous creditable coverage, provided:
 - 1. They were born, adopted, or placed for adoption during coverage under the most recent group policy or continuation coverage of the qualifying eligible individual: and
 - 2. They were enrolled under such coverage within thirty-one (31) days of birth, adoption, or placement for adoption.
 - (c) "Group Pool Rate" shall mean the average base rate for employees, members, and enrollees, or dependents of such individuals, for all groups in the insurer's group pool in this state, determined over a period of twelve months and adjusted for benefit design but unadjusted for any demographic and experience factors relating to qualified eligible individuals in the enhanced conversion pool. In determining pool rates, the insurer must take into account all actual and anticipated experience data of the entire group pool itself (excluding the enhanced conversion pool) as well as other experience data of the insurer or data available generally, and must apply recognized actuarial practices as to credibility, trend factors, expense factors, and margins. Insurers shall use pool rates to determine premiums for all qualifying eligible individuals enrolling in enhanced conversion coverage.

- (d) "Managed Care Organization" shall mean an insurer which is a health maintenance organization or a provider-sponsored health care corporation.
- (e) "Model Low Option" shall mean a minimum benefit option for use by insurers or managed care organizations for the purpose of offering a choice of coverage that is more limited in nature than the model standard option, but which constitutes creditable coverage. The model low option shall be associated with the policy form template prescribed in Form *GHBAS-1* for managed care organizations, Form *GHIAS-2* for coverage under a preferred provider arrangement, or Form *GHIAS-1* for all other types of coverage, and with a schedule of benefits prescribed by Plan C in Form *GHBAS-S* for managed care organizations or by Plan A in Form *GHIAS-S* for all other types of coverage.
- (f) "Model Standard Option" shall mean a minimum benefit option for use by insurers or managed care organizations for the purpose of offering comprehensive coverage comparable to a standard option of coverage in the individual health insurance market in this state. The model standard option shall be associated with the policy form template prescribed in Form *GHBAS-1* for managed care organizations, Form *GHIAS-2* for coverage under a preferred provider arrangement, or Form *GHIAS-1* for all other types of coverage, and with a schedule of benefits prescribed by Plan D in Form *GHBAS-S* for managed care organizations or by Plan B in Form *GHIAS-S* for all other types of coverage.
- (g) "Qualifying Eligible Individual" shall mean any Georgia domiciliary who meets all of the following:
 - 1. As of the date on which the individual seeks coverage under this section, the aggregate period of previous creditable coverage is 18 months or more;
 - 2. The individual's most recent coverage was under a group plan, or continuation coverage thereof;
 - 3. The individual's insurance under the group plan has been terminated for any reason, including discontinuance of the group plan in its entirety or with respect to an insured class, except for nonpayment of premium contribution pertaining to the qualifying eligible individual;
 - 4. With regard to such an individual's coverage under a group plan or continuation thereof, a qualifying event has occurred on or after October 30, 1997;
 - 5. The individual is not eligible for, nor has declined, any of the following:
 - (i) Coverage under a group health insurance policy or contract, or other employer sponsored health benefit arrangement, including

continuation coverage under COBRA or O.C.G.A. §§ [33-24-21.1](#) or [33-24-21.2](#);

(ii) Medicare; or

(iii) The state plan under Medicaid or any successor program;

6. The individual is not enrolled in or covered under any other creditable health insurance coverage, including individual health insurance policies or blanket accident and sickness insurance pertaining to student health coverage; and

7. The individual is one of the following:

(i) A current or former employee, member, or enrollee covered under the group health policy or contract and continuation thereof, if applicable;

(ii) The surviving spouse, if any, of a deceased covered employee, member, or enrollee, with or without dependents;

(iii) The spouse, or a former spouse, with or without dependents, of a covered employee, member, or enrollee upon a qualifying event of the spouse while the employee, member, or enrollee remains insured under the group policy or continuation thereof, by ceasing to be a qualified family member under the group policy, such as a result of a valid decree of divorce; or

(iv) An otherwise eligible dependent upon reaching limiting age or otherwise losing dependent status under the group policy or continuation thereof, or under the enhanced conversion policy of another qualifying eligible individual.

(h) "Qualifying Event" shall mean loss of creditable coverage resulting from either:

(i) Exhaustion of continuation coverage to the maximum extent eligible under federal or state law; or

(ii) Termination of coverage under a group health insurance policy or contract, in the event such a qualifying eligible individual is not eligible for any continuation coverage.

(I) "Schedule of Benefits" shall mean the outline of benefit levels for a policy, including but not limited to the types of benefits covered and associated cost-sharing provisions.

(2) Conversion Privilege. A group policy or any other group insurance coverage by whatever name called, delivered or issued for delivery in this State or which covers Georgia residents through an out-of-state multiple employer trust or arrangement, by an insurer (including a managed care organization) which provides creditable coverage for hospital, surgical or major medical benefits, or any combination of these benefits, on an expense incurred or service provided basis, but not a policy which provides limited benefits as defined in O.C.G.A. § [33-24-21.1\(i\)](#), shall provide that all qualifying eligible individuals and eligible dependents are entitled to have issued by the insurer a policy of health insurance (hereafter referred to as the "enhanced conversion policy").

(3) Notification and Application.

(a) Time Limit for Exercising Privilege. A substantially completed application for the converted policy shall be filed with, and the first premium paid to, the insurer not later than sixty-three (63) consecutive days after a qualifying event, or the date of notice of rights from the insurer following a qualifying event, whichever is later. An insurer is required to issue, either directly or through an administrator or group policyholder entrusted with the distribution of notices, a notice of conversion privileges under this Rule:

- (i) With regard to qualifying eligible individuals or dependents exhausting continuation coverage, as soon as the insurer, administrator, or group policyholder receive payment for the final period of continuation coverage prior to exhaustion, but in no event later than fourteen (14) days after exhaustion of coverage;
- (ii) With regard to dependents covered under an enhanced conversion option and reaching limiting age, no later than fourteen (14) days after the last day of the month in which the dependent no longer becomes eligible for dependent coverage;
- (iii) With regard to qualifying eligible individuals or dependents not eligible for continuation, no later than fourteen (14) days from the date the insurer, administrator, or group policyholder obtains information as to the termination of coverage under the group policy;
- (iv) By first class mail to the last known address of the qualifying eligible individual, available in records held by the insurer, administrator, or group policyholder; and
- (v) With an application for coverage, information on the amount of the first premium payment required to effectuate coverage, as well as an explanation of the insured's enhanced conversion privilege.

(b) Notification of Individuals at Same Address. Issuance of notice to the last known address of a qualifying eligible individual shall satisfy the notice requirement for

all qualifying eligible individuals and qualifying dependents last known to have resided at that address.

- (c) Responsibility for Notification. In all cases, the insurer is responsible for the timely offer of enhanced conversion policies, and compliance with the notification requirements of this Rule, whether or not there is a written agreement whereby a group policyholder or other administrator or third party assumes such responsibility. Nothing in this paragraph shall prevent an insurer from making a written agreement with a group policyholder or other administrator or third party for the administration or delivery of such notices. For the purposes of eliminating duplication of notices and assuring notification of qualifying eligible individuals, delivery of notice by either the insurer, an administrator, or the group policyholder in accordance with this Rule shall satisfy the requirement of this Rule paragraph.
- (d) Model Notice. Insurers may use the following model notice for an explanation of conversion privileges:

OFFICIAL NOTICE OF ENHANCED CONVERSION RIGHTS

"Under Georgia law, you, and any qualifying dependents, are entitled to elect one of at least two benefit options provided by us. Enclosed with this notice you will find information on the benefit options available to you, as well as premium information. Upon exhaustion of continuation coverage (whether through COBRA or other extension of benefits under state law), loss of group coverage if ineligible for continuation, or loss of enhanced conversion policy coverage by reason of losing dependent status, you are eligible for these benefits. However, we must receive a completed application and an initial premium payment no later than sixty-three (63) consecutive days after the date of exhaustion or the date of this notice, whichever is later. You may enroll any dependent who was covered under continuation with you.

If we do not receive a completed application from you within sixtythree (63) days of the date of this notice, or the date you lost coverage, whichever is later, you will have forfeited your privileges to this enhanced conversion product, and subsequently to any portability rights offered by state law.

Upon submission of the completed application with premium payment, your coverage will become effective on the date continuation coverage was exhausted, or, if ineligible for continuation, the date group coverage was terminated.

Your rights to an enhanced conversion policy guarantee you and any qualified dependents you may have comprehensive coverage without any pre-existing condition exclusions. Although you also have the right to seek individual health insurance coverage elsewhere, with this or another insurer, Georgia law does not

guarantee you the same protections offered through this enhanced conversion product."

- (e) Exception to Use of Model Notice and Application. An insurer may use a different notice, provided that the document is substantially similar to the model notice and is filed for approval by the Commissioner with the conversion policy form.
 - (f) Notice After Extension of Continuation. Upon exhaustion of extension, the provisions of this Rule shall apply with regard to timely notice and application.
- (4) Extension Coverage in Lieu of Approved Enhanced Conversion Policies.
- (a) In General. In the event an insurer has not filed enhanced conversion policy forms for approval as required by this Rule, or has not obtained approval by the Commissioner for such filed policy forms, the insurer must provide all qualifying eligible individuals the opportunity for an extension of group or continuation coverage up until the last day of the month following the date enhanced conversion policies are approved by the Commissioner. All benefit and rating requirements under COBRA or state extension of benefits shall apply to such extension coverage.
 - (b) Notification. The insurer must provide notice to all qualifying eligible individuals regarding the group plan or continuation extension in accordance with guidelines for notice of conversion privileges of this Rule. However, notice of extension privileges as permitted in this paragraph is not, in any case, required to be issued prior to January 1, 1998. Such notice must include the following information:
 - 1. Eligibility criteria for both extension and enhanced conversion policies;
 - 2. Premium requirements;
 - 3. Assurances that benefits are continued as of January 1, 1998, or on the date of a qualifying event, whichever is later; and
 - 4. Transition procedures between extension and enhanced conversion policies.
 - (c) Model Notice. Notice must include language that is identical or substantially similar to the disclosure below:

"Georgia law allows you to convert to other health insurance coverage offered by us when you exhaust continuation coverage to the maximum extent, or when you terminate employment and are ineligible for continuation benefits. Due to timing issues associated with recently enacted legislation, as of the date we issue this notice to you our enhanced conversion products are unavailable. However, we are providing you with an automatic extension of your group or continuation benefits, subject to timely payment of premium for upcoming benefit months and any past

periods of coverage. If you should choose to renew your coverage through this extension, your extension will terminate on the last day of the month our enhanced conversion products are available. At that time, you will have the opportunity, within sixty-three (63) days of the notice of termination, to enroll yourself and any eligible dependents in an enhanced conversion product. You must renew coverage for any eligible dependents under this extension of continuation in order for them to be eligible for such enhanced conversion products.

"The enclosed billing reflects extension coverage available to you, if you should choose to elect it. You will forfeit your rights to any extension of coverage described in this notice and any opportunity to purchase enhanced conversion policies later if you fail to elect and pay for this extension of group or continuation benefits within sixty-three (63) days of the date of this notice. If you have additional questions, you may call us at _____ or contact the Office of Commissioner of Insurance, John W. Oxendine, Consumer Services Division, at (404) 656-2070 or 1-800-656-2298."

- (d) Alternate Extension Coverage. Nothing in this Rule shall prevent an insurer from offering any less comprehensive group plan, in addition to the group coverage which was terminated or continued, as a low option extension. However, in no case may an insurer refuse to extend a qualifying eligible individual's previous continuation or group coverage until approved enhanced conversion policies become available pursuant to this Rule. Election of low option extension coverage by an individual shall not preclude conversion privileges.
 - (e) Effective Date of Coverage. Coverage under an extension or continuation of group coverage as required by this paragraph must become effective on the date of a qualifying event. However, insurers are not required to issue coverage under such extension for periods prior to January 1, 1998. Nothing in this paragraph shall prevent an insurer from offering extension coverage for periods prior to January 1, 1998.
 - (f) Transition into Enhanced Conversion Coverage. Upon termination of extension coverage as permitted in this Rule, the insurer shall provide notice of enhanced conversion privileges to each qualified eligible individual covered under such extension. Such individuals shall have sixty-three (63) consecutive days from the date of such notice, or the date extension coverage is terminated, whichever is later, to elect an enhanced conversion option in accordance with this Rule.
- (5) Effective Date of Coverage; Scope of Coverage. Coverage under an enhanced conversion policy upon application and payment of premium must become effective on the date of a qualifying event, or, if applicable, on the date extension coverage is lost due to termination by the insurer. An insurer may require payment for any retroactive periods of coverage in order to effectuate coverage. The converted policy shall cover the employee,

member or enrollee and any dependents who were covered by the group plan or continuation coverage on the date of termination of insurance.

(6) Eligibility for Benefits.

- (a) Family Coverage. A qualifying eligible individual or a spouse or former spouse who is an eligible dependent shall have a choice of individual coverage or family coverage to include any or all eligible dependents.
- (b) Dependents not Eligible for Coverage. Qualifying eligible individuals may enroll dependents who are not eligible dependents for enhanced conversion options at the discretion of the insurer, or may enroll such dependents for coverage under any other coverage offered by the insurer pursuant to the terms of state law. Insurers must at least offer for such dependent coverage under all basic conversion options if the dependent would otherwise be eligible for such basic conversion options under the terms of state law, but may instead allow such dependents to be enrolled under the qualifying eligible individual's enhanced conversion coverage. Insurers are not required to comply with paragraph (6)(f)1. pertaining to coverage limitations on preexisting conditions with regard to such dependents enrolled in enhanced conversion policies; however, pre-existing condition exclusion limitations applicable to basic conversion coverage shall apply with regard to such dependents. The offer to cover such dependents under enhanced conversion coverage must be made consistently to all qualifying eligible individuals with such dependents.
- (c) Election on Behalf of Dependents. An election of conversion coverage by a qualifying eligible individual shall be deemed to be an election on behalf of any eligible dependents covered under the qualifying eligible individual's continuation coverage, unless the application indicates an election of the qualifying eligible individual otherwise, or this Rule provides otherwise. Election shall not be contingent on identical election of any other family member with regard to individual or family coverage.
- (d) Eligibility Determinations. An insurer, or an administrator or group policyholder under written agreement with an insurer, is responsible for promptly determining the eligibility of individuals for enhanced conversion policies in accordance with state law and this Rule. The insurer may at any time request additional information from the individual, and must act promptly to make its determination after receipt of the requested information. The qualifying eligible individual must comply with an insurer's request for additional information and verification of eligibility to the fullest extent possible. However, the initial application date shall toll the sixty-three (63) day election period for the qualifying eligible individual and all other eligible individuals or dependents for whom coverage is elected, provided that eligibility is ultimately confirmed and premium is paid. The insurer is subject to the provisions of the Rules and Regulations of the Office of Commissioner of

Insurance Rule [120-2-67-.12](#) with regard to accepting attestations and other evidence of coverage if a certification of creditable coverage is not available.

(e) Network Provisions. With regard to coverage under a managed care plan issued by a managed care organization, if a qualifying eligible individual moves out of state prior to electing an enhanced conversion option, and the individual becomes eligible for coverage under another state alternative mechanism or the individual health insurance guaranteed availability provisions of the federal Health Insurance Portability and Accountability Act of 1996 as enforced in another state, the managed care organization may refuse to offer coverage under an enhanced conversion policy. If a qualifying eligible individual moves to a location outside the service area within this state, the managed care organization may require the qualified eligible individual to agree in writing to return to the service area to receive covered benefits as a condition of issuing the enhanced conversion policy.

(f) Preexisting Conditions and Health Status.

1. The converted policy shall not exclude any preexisting condition or maintain any preexisting condition limitation.
2. The converted policy may not take into account health status related factors, claims experience, or evidence of insurability with regard to eligibility for coverage or benefit choices.

(7) Benefit Options.

(a) Standard and Low Options.

1. In General. Subject to the provisions and conditions of this Rule, a qualifying eligible individual and any eligible dependents shall be entitled to obtain an enhanced conversion policy providing health insurance coverage under a plan meeting all of the minimum requirements of the model standard option, or, at the option of the qualifying eligible individual, a less comprehensive plan meeting all of the minimum requirements of the model low option. Both standard and low options shall constitute creditable coverage.
2. Filing Requirements. An insurer using a model standard and low option as enhanced conversion policies may comply with filing requirements by either:
 - (i) An insurer may file the forms for the model standard and low options using the appropriate policy form template specified in Form *GHBAS-1* and schedule of benefits specified in Form *GHBAS-S* for managed care organizations, or Form *GHIAS-1* and Form *GHIAS-S*, respectively, for all other insurers. Upon an insurer filing such

templates and schedule of benefits with the Commissioner, the policy forms shall be deemed approved as of the date the filing is received provided they conform to the above mentioned form templates.

- (ii) An insurer may file a form with contractual language substantially similar to the model policy form templates for approval, and may provide benefits, benefit levels and cost-sharing schedules that are at least as comprehensive as those indicated in the model policy form templates and under Plans C and D in Form *GHBAS-S* for managed care organizations, or under Plans A and B in Form *GHIAS-S* for other insurers. Such filings must include a description which specifically outlines the variances in language between the model policy form template and the submitted form, and must demonstrate to the satisfaction of the Commissioner that the schedule of benefits is at least as comprehensive as that required by the appropriate standardized plan. Nothing in this Rule shall prevent an insurer from offering the same benefits and benefit levels provided by the insurer to groups under one or more group health insurance policies or contracts, provided that such benefit levels meet or exceed the schedule of benefits outlined in Plans A, B, or D, as appropriate.

3. Special Rules for Preferred Provider Arrangements.

- (i) An insurer offering a group health insurance plan with a preferred provider arrangement may offer a standard and low option with preferred provider arrangements. The out-of-network benefit levels must be at least as comprehensive as the schedule of benefits prescribed in Form *GHIAS-S*, and the policy form must be substantially similar to Form *GHIAS-2*. Such policies may be filed as prescribed in subparagraph (2)(b) for insurers other than managed care organizations.
- (ii) Insurers may offer preferred provider arrangements with gatekeeper provisions only to qualifying eligible individuals who were subject to gatekeeper provisions under the prior group health insurance coverage or continuation thereof.
- (iii) Insurers are not required to offer a standard and low option that does not contain preferred provider arrangements to qualifying eligible individuals who were subject to preferred provider arrangements under the prior group health insurance coverage or continuation thereof; however, an insurer may offer such options with preferred provider arrangements in addition to the standard and low options without preferred provider arrangements to individuals who were

not subject to preferred provider arrangements under the prior group health insurance coverage or continuation thereof.

- (iv) **Special Waiver from Use of Model Standard and Low Options.** In the event an insurer's group health insurance policies or contracts, including any and all benefit riders typically offered to groups, contain benefit provisions that are, overall, substantially less comprehensive than the model standard option, the insurer may provide, as a standard option, the same benefits offered under the group health insurance policy or contract or continuation thereof. The insurer may then elect to use a low option with higher cost-sharing provisions than that included in the standard option, but not to exceed the highest cost-sharing provisions made available by the insurer to groups. If no higher cost-sharing provisions or lower benefit levels than what is part of the standard option are available to groups, then the insurer may submit for approval a low option with higher cost-sharing options than the standard option. The insurer must submit the policy forms and schedule of benefits for approval, and must demonstrate, to the satisfaction of the Commissioner, that the group health insurance policy or contract from which qualifying eligible individuals will convert is indeed substantially less comprehensive than the schedule of benefits for the model standard option. Examples include higher deductibles, coinsurance, or copayments, and a schedule of benefits less generous than the schedule included as part of the model standard option. An insurer obtaining such a waiver may offer standard and low options which are identical except for cost-sharing provisions.

- (b) **Additional Options.** Nothing in this Rule shall prohibit an insurer from offering additional options based on either group policies or contracts currently being issued or made available to groups, policies based on the model policy forms with different cost-sharing requirements or benefit levels, or individual policies or contracts actively marketed and issued by an insurer, provided that such additional options:
 - 1. Are offered consistently to all qualified eligible individuals without regard to any health status related factor;
 - 2. Are filed for approval; and
 - 3. Are otherwise subject to all the requirements of this Rule, including rating, eligibility, notice, and prohibitions on preexisting condition limitations.

- (c) **Special Rule for Managed Care Organizations and Preferred Provider Arrangements.** A managed care organization or insurer with a preferred provider arrangement must use the same network of providers for the conversion policies that it uses for group policies issued in Georgia. If such insurer offers different provider networks for different group policyholders, the conversion policies issued must include the specific network to which the qualified eligible individual had access under group or continuation coverage, or a choice of networks including the one to which the qualified eligible individual previously had access.
- (d) **Choice After Election of Conversion Privilege.** Any qualifying eligible individual covered under a converted policy shall have the option of switching from a standard option to a low option policy or any other additional option offered by the insurer under paragraph (7)(b) of this Rule after exercising the conversion privilege. The insurer shall also permit the privilege to switch from a low option policy to any other additional option offered by the insurer under paragraph (7)(b) of this Rule after an individual exercises the conversion privilege. The insurer may limit such choice to the following events:
 - 1. Once a year within 31 days of the policy anniversary date, with coverage becoming effective on the policy anniversary date;
 - 2. Upon notification of premium increase, with coverage becoming effective on the effective date of the premium increase; and
 - 3. Within 31 days of divorce or marriage, with coverage becoming effective on the first day of the following calendar month.

(8) **Reduction of Coverage.**

- (a) Any converted policy may provide for a reduction or coordination of coverage on any person upon eligibility for coverage under Medicare.
- (b) No converted policy may provide for a reduction or coordination of coverage based upon a person's eligibility for coverage under the Medicaid program of the State of Georgia.
- (c) The benefits under the conversion policy shall be secondary to any group or blanket accident and sickness contract that constitutes creditable coverage and covers any person insured under the conversion contract. The converted policy shall not provide benefits in excess of the maximum benefit levels specified therein, when combined with any benefits payable or rendered through any such creditable coverage.
- (d) The converted policy may provide that any hospital, surgical or medical benefits payable thereunder may be reduced by the amount of any such benefits payable

under continuation coverage after the termination of the individual's insurance thereunder.

- (e) An insurer may request information in advance of any premium due date of the converted policy of any person covered thereunder only as to whether:
 - 1. The insured is covered for similar benefits under any arrangement of coverage for individuals in a group, whether on an insured or uninsured basis; or
 - 2. Similar benefits are provided for or available to such person, pursuant to or in accordance with the requirements of Medicare.

(9) Conversion Premium.

- (a) Rate Guarantee and Modes. All premium rates must provide for the payment of monthly premiums. Optional modes of premium payment may be offered to the converting employee, member, or enrollee. In any case, rates shall be developed for a one-year guaranteed rate for all enhanced conversion policy issues and renewals.
- (b) Prohibition. The enhanced conversion pool shall include the claims experience produced by all individuals insured by enhanced conversion policies. Experience in the enhanced conversion pool, whether actual or anticipated or both, shall be separate from the insurer's group pool and shall not be considered in the group pool rate or in the development of the base rate for enhanced conversion options.
- (c) Rate Development. Insurers shall develop a base rate for the enhanced conversion policies based on the cost of providing such policies to a group comprised of standard risks in the insurer's group pool. Such rate may be derived by adjusting the group pool rate in accordance with the following steps to determine a base rate for the product:
 - 1. An age and sex distribution factor which represents the demographic mix of the group pool and accounts for variances in cost because of such distribution;
 - 2. A benefit adjustment factor, determined by developing a composite benefit factor for each group health insurance benefit option or all group health insurance benefits offered by the insurer in this state to compare the benefit values of the enhanced conversion policies to the average type of coverage issued by the insurer in the group market;
 - 3. A trend adjustment which reflects the anticipated cost of each option without taking into consideration the health status of individuals in the enhanced conversion pool; and

4. Determination of a lowest possible base rate normalized in accordance with the age and sex factors provided in Form CONV-1.
- (d) Experience and Demographic Factors. The base rate may be further adjusted by:
1. An experience adjustment factor determined for the enhanced conversion pool, not to exceed 150 percent of the group pool rate, and applied uniformly, consistently, and equitably to all enhanced conversion policies issued, and
 2. Demographic factors for particular individuals or families based on age, sex, and family tiers provided in Form CONV-1 or as permitted in paragraph (9)(e), and area factors typically used by the insurer for group health insurance policies or contracts and disclosed to the Commissioner for approval.
- (e) Exception from Use of Standardized Factors. Only an insurer electing a special waiver as permitted in subparagraph (7)(a) 4. of this Rule may use the set of age and sex factors applied to all groups covered by the insurer for use with the approved converted policies. Such an insurer must use the base rate of the product as it is marketed and issued in the group market, and disclose such rate. If an insurer is using a model policy form or a derivative of one, it must use the factors specified in Form CONV-1.
- (f) Disclosure.
1. Insurers must file premium rates and modes to be used for all enhanced conversion policies with the Commissioner for approval prior to use. Rating documentation must demonstrate the development of the group pool rate and each of the factors and adjustments in a step-by-step approach. Insurers must also submit a rate filing for approval by the Commissioner prior to any renewal rate change, change in methodology, or change in factor schedule.
 2. The insurer must disclose area factors, or all demographic factors if excepted under paragraph (9)(e), as part of its rate filing for approval and in every subsequent rate filing.
 3. An insurer must include in each rate filing an actuarial certification completed by a qualified actuary, attesting to the fact that:
 - (i) The rates are developed using reasonable assumptions and in accordance with generally accepted actuarial principles and are not excessive nor unfair; and
 - (ii) The filing is in compliance with state law and Regulations.

- (10) Renewability.
- (a) In General. The converted policy may provide that the insurer may refuse to renew the policy or the coverage of any person insured thereunder only as permitted in the Rules and Regulations of the Office of Commissioner of Insurance Rule [120-2-67-.10\(b\)\(1\),\(2\),\(3\), and \(5\)](#), with regard to renewability of individual health insurance policies or contracts.
 - (b) Continuation of Benefits. Any refusal to renew shall be without prejudice to any valid claim commencing while the policy is in force.
- (11) Notification in Group Certificate of Coverage. A notification of the enhanced conversion privilege for qualifying eligible individuals, including all eligibility and application requirements, shall be included in each certificate of coverage under any group health insurance policy or contract.
- (12) Substitution for Basic Conversion Option. An insurer may substitute coverage under this Rule for coverage under a basic conversion option as required by O.C.G.A. § [33-24-21.1](#) and Rule [120-2-10-.11](#) for group members who terminate group coverage but are not qualifying eligible individuals.

Rule 120-2-10-.12. Small Group Health Insurance Access and Pooling.

- (1) Definitions. The terms used in this Rule are defined as follows:
- (a) "Anticipated Group Premium" shall mean the premium expected to be generated on each new and existing group over a period of the next twelve (12) months including only deviations permitted pursuant to subparagraphs (b), (d), (e) and (f) of paragraph (5) of this Rule.
 - (b) "Anticipated Pool Premium" shall mean the total amount of premium expected to be generated on all new or existing groups over a period of the next twelve (12) months. The anticipated pool premium shall equal the sum of all anticipated group premiums for all small groups in an insurer's pool.
 - (c) "Dependent" shall mean any dependent of an employee, member, or enrollee, including children, adopted children, and non-custodial children, as permitted in O.C.G.A. §§ [33-24-28\(b\)](#) and [33-30-4\(3\) and \(4\)](#), or a spouse, or other family member eligible for coverage under the terms of the group health insurance policy

or contract because of that person's dependency on the employee, member, or enrollee.

- (d) "Eligible employees, members or enrollees" shall mean persons who are actively employed with a small group and are eligible for coverage under the employment rules of the small group or who are otherwise, except for dependents, eligible for coverage under a group health insurance policy, without regard to claims experience or any health status related factor.
- (e) "Existing Group" shall mean a small group that is insured by an insurer and part of that insurer's small group pool.
- (f) "Group Health Insurance" shall mean any major medical insurance, medical expense coverage, hospital expense coverage, comprehensive health benefit plan, or managed health care plan issued by an insurer to small groups, other than a blanket accident and sickness policy, a health insurance policy written as part of workers' compensation equivalent coverage or supplemental to a liability policy, a credit insurance policy, or any limited benefit insurance policy as defined in O.C.G.A. § [33-30-12\(e\)\(4\)](#). Group health insurance shall include all types of policies, contracts, or certificates, as applicable, or other comparable group-type coverage as specified in Rule [120-2-10-.10\(2\)](#), actively marketed or issued in this state to small groups, including the following:
 - 1. Group health insurance policies or certificates issued pursuant to group insurance contracts;
 - 2. Group health insurance policies issued or marketed to association groups or trusts, except bona fide associations as defined in O.C.G.A. § [33-30-1\(b\)](#) and as specified in subparagraph (10) of this Rule;
 - 3. Group health insurance policies issued to multiple employer trusts established in or out of this state; and
 - 4. Except for policies excluded under O.C.G.A. § [33-30-12\(e\)](#), individual health insurance policies which provide as a minimum primary or basic medical or hospital expense benefits and are sponsored in any manner by an employer or other group insurance policyholder.
- (g) "Insured" shall mean any employee, member, enrollee, or dependent of an employee, member or enrollee insured under group health insurance issued to a small group.
- (h) "New Entrant" shall mean an eligible employee, member, enrollee or dependent not previously covered by the existing group insurance contract or policy and who is either a late enrollee or does not have previous creditable coverage as defined by O.C.G.A. § [33-30-15\(a\)\(2\)](#).

A New Entrant shall not include the following individuals:

1. a "newly eligible employee" as defined by O.C.G.A. § [33-30-15\(a\)\(4\)](#);
 2. an insured covered under the group's prior group health insurance contract or policy, provided that such contract or policy constitutes previous creditable coverage; or
 3. newborn children or newly adopted children enrolled as permitted in O.C.G.A. § [33-30-15\(e\)](#) and Rule Chapter 120-2-67.
- (i) "New Group" shall mean a small group that is not currently insured by an insurer or any affiliated insurer.
- (j) "Policyholder" shall mean, with respect to group health insurance coverage, the small group to which a group health insurance policy or contract is issued in accordance with O.C.G.A. § [33-30-1](#), including, but not limited to, an employer or employer groups issued certificates of coverage through a multiple employer trust.
- (k) "Pool Rate" shall mean the average rate for employees, members, and enrollees, or dependents of such individuals, in all small groups within an insurer's small group health insurance pool, to be determined and used over a period of the next twelve months and adjusted for benefit design but unadjusted for factors specified in paragraph (5). In determining pool rates, the insurer must take into account all actual and anticipated experience data of the entire pool itself as well as other experience data of the insurer or data available generally, and must apply recognized actuarial practices as to credibility, trend factors, expense factors, and margins. Insurers shall use pool rates to determine premiums for new and existing groups.
- (l) "Small Employer" shall mean any employer that employed an average of at least two but not more than 50 employees on business days during the preceding calendar year and that employs at least two employees on the first day of the rating period. All employers treated as a single employer under subsection (b), (c), (m), or (o) of Section 414 of the Internal Revenue Code of 1986 shall be treated as one employer. Subsequent to the issuance of a health insurance policy or contract to a small employer and for the purpose of determining continued eligibility, the size of a small employer shall be determined annually. Except as otherwise specifically provided, provisions of this Act that apply to a small employer shall continue to apply at least until the final day of the rating period following the date the small employer no longer meets the requirements of this definition. In the case of an employer which was not in existence throughout the preceding calendar year, the determination of whether or not an employer is a small employer shall be based on the average number of employees that it is reasonably expected that the employer

will employ on business days in the current calendar year. Each small employer shall be considered a small group.

- (m) "Small Group" shall mean, as defined in O.C.G.A. § [33-30-12\(a\)](#), a group which is a single employer, including a Small Employer, firm, corporation, partnership, sole proprietor, or other legitimate group as specified in O.C.G.A. § [33-30-1\(a\)](#) with at least two and no more than fifty (50) total eligible employees, members or enrollees (not including dependents) on the initial application date and on average during the calendar quarter preceding application. In determining the number of eligible employees, members, or enrollees, companies that are affiliated companies, are eligible to file a combined tax return for purposes of taxation by this state, or are subsidiaries of another company and covered under the parent company's group health insurance contract or policy, shall be considered one group. Subsequent to the issuance of a health insurance policy or contract to a small group and for the purpose of determining continued eligibility, the size of a small group shall be determined annually. Except as otherwise specifically provided, provisions of this Rule shall continue to apply at least until the renewal date following the date the small group no longer meets the requirements of this definition. Such small groups include sole proprietors or employer members of a trust or an association which does not meet the definition in O.C.G.A. § [33-30-1\(b\)](#). For the purposes of applying this Rule, a small group shall be subject to this Rule if:
 - 1. the majority of insured employees, members, or enrollees in the group are employed or reside in this state; or
 - 2. if no state contains a majority of the insured employees, members, or enrollees in a group, the primary business location of the employer is in this state. If an employer which constitutes a small group meets subparagraphs 1. or 2. of this definition, it shall not be considered to be an employer in another state as specified in O.C.G.A. § [33-30-1.1](#).
 - (n) "True Association" shall mean an association which meets the requirements of O.C.G.A. § [33-30-1\(b\)](#) and any applicable Rules and Regulations issued by the Commissioner.
- (2) Each insurer shall maintain only one small group health insurance experience pool for all types of group health insurance insuring small groups in Georgia as defined in paragraph (l)(m) and subject to O.C.G.A. § [33-30-12](#), regardless of where the group health insurance policy or contract is issued. Each insurer's small group health insurance pool shall consist of each insurer's total claims experience produced by all small groups in this state, regardless of the marketing mechanism or distribution system utilized.
- (3) Prohibitions. The following practices by an insurer are prohibited with regard to small groups and the small group health insurance pool:

- (a) Durational rating which increases premiums for any small group based solely on the length of time the small group has been insured;
- (b) Except as permitted under O.C.G.A. § [33-30-12\(d\)](#) and paragraph (5)(e), tier rating which increases rates directly related to the tier within which any one small group's claims experience falls;
- (c) Cancellation or termination of any small group or any insured individual in a small group, provided that insurers may refuse to re- new coverage only for those reasons permitted by the Rules and Regulations of the Office of Commissioner of Insurance Chapter 120-2-67;
- (d) Waivers for one or more preexisting conditions, except that insurers may use preexisting condition exclusions pursuant to O.C.G.A. § [33-30-15](#);
- (e) Declination of any small employer for coverage, or refusal to offer to insure, make insurance available or make a quote or offer of coverage to any small employer, or engagement in practices directly or through agents or representatives which prevent, discourage, delay or impede the availability or marketing of group health insurance to any small employer, under all policies or contracts offered or actively made available by an insurer to small employers in the state or service area, except that an insurer may decline a small employer for coverage if any of the following applies:
 - 1. minimum participation or contribution rules are not satisfied by the small employer;
 - 2. with regard to policies offered only through a true association of employers, a small employer is not a member of the association;
 - 3. none of the eligible employees, members, or enrollees live, work, or reside in the service area of the network if the policy or contract is offered by a health maintenance organization or a provider- sponsored health care corporation;
 - 4. a health maintenance organization or provider-sponsored health care corporation has demonstrated, to the satisfaction of the Commissioner, and based on current documentary evidence, that it does not have the service capacity to adequately provide medical services to new small employers through network providers in a particular service area because of its obligations to existing groups in the service area, provided that:
 - (i) all declinations apply uniformly to all small employers in the service area without regard to claims experience or any health status- related factors; and

- (ii) the health maintenance organization or provider-sponsored health care corporation includes in such filing a certification from the President, Executive Director, or Chief Financial Officer which purports to claim such service capacity limits; and
 - (iii) the Commissioner has not determined that such a claim is not warranted within 90 days of filing documentary evidence.
- 5. an insurer has demonstrated, to the satisfaction of the Commissioner, and based on its most recent quarterly financial report, examination, or any other more current documentary evidence, that it does not have sufficient financial capacity to underwrite additional coverage under any and all policy forms available to small employers in the state, provided that:
 - (i) all declinations apply uniformly to all small employers in the state without regard to claims experience or any health status-related factors; and
 - (ii) the insurer includes in such filing a certification from the President, Executive Director, or Chief Financial Officer which purports to claim such financial capacity limits; and
 - (iii) the Commissioner has not determined that such a claim is unwarranted within 90 days of filing documentary evidence.
- (f) Issuing coverage under any and all policies or contracts in the small employer market in the state (or a particular service area if applicable) after satisfactorily demonstrating to the Commissioner the conditions described in subparagraphs (e)4. or (e)5., unless at least 180 days have elapsed since the date coverage was declined and the Commissioner has approved such resumption of issue based on documentary evidence that conditions have changed.
- (g) Discriminatory rating practices which result in premium rate differentials for an individual employee, member, enrollee, or dependent of such employee, member, or enrollee, within a small group based solely on any health status-related factor or claims experience in relation to that individual in the small group, or premium rate differentials for classes of employees, members, or enrollees within a small group subdivided solely on the basis of any health status-related factor or claims experience. Rate adjustments for demographic underwriting factors, differences in benefit designs or network arrangements, premium differentials based on family or dependent coverage, or other rate differentials permitted by this Rule do not constitute discriminatory rating practices.
- (h) Repealed.

(4) Eligibility.

- (a) Eligible employees, members, or enrollees in a small group who apply when first eligible for coverage under group health insurance during the most recent continuing period of employment, and dependents of such employees, members, and enrollees who apply when first eligible for coverage, are deemed to be insurable and must be accepted for enrollment. No insurer may subdivide any small group for benefit eligibility under a group insurance policy or contract solely on the basis of any health status-related factor or claims experience.
- (b) An insurer may establish, either as a provision applying to all small groups insured by the insurer, or at the option of a particular small group policyholder, terms of coverage which govern acceptance of late enrollees to a small group. Once established, such terms may not be changed within a contract period or the entire effective term of the policy for a small group policy or contract in such a way as to discriminate against late enrollees on the basis of health status. Such terms, and any changes thereto, must be disclosed within each policy and all certificates, and may only be changed either for all small groups insured by the insurer, or at the option of each small group policyholder.

(5) Rating.

(a) Rating Period and Rate Guarantee.

1. The initial or renewal rate for any small group shall be based on the pool rate adjusted for benefit design and the factors permitted by this Rule section. The rating period for any small group shall be not less than twelve (12) months. An insurer may not modify rates during this period except for any benefit alteration elected by a small group during this period or as otherwise permitted by this paragraph. The rates in effect at the beginning of the rating period, or on the effective date of any benefit alteration during such period, shall be used for adjusting small group premiums as a result of new or terminating employees, members, enrollees, or dependents. For small groups not rated on a composite basis, an insurer may further adjust small group rates for a newly eligible employee, New Entrant, or the dependent of either using only demographic underwriting factors as permitted by this Rule.
2. If a New Entrant enters an existing group at any time during the rating period other than on the small group's renewal date, and such a New Entrant elects coverage when first eligible, an insurer may impose a waiting period on such a New Entrant not to extend beyond the next renewal date, with coverage becoming effective for the New Entrant on the effective date of the next rating period. Imposition of such a waiting period must be applied consistently for all New Entrants, without regard to any health status-related

factor, and any preexisting condition exclusion must run concurrently with the waiting period.

3. If an insurer does not elect to choose the New Entrant waiting period, it must enroll a New Entrant under the terms of the group health insurance policy or contract during the rating period without assessing any substandard rating.
 4. An insurer electing the New Entrant waiting period must disclose this method within each policy and to all small group policyholders prior to use or issue. An insurer may require such a method for all small groups insured by it, or may elect to use it at the option of the small group policyholder.
- (b) Permitted Demographic Underwriting Factors. An insurer may set rates using pool rates adjusted for age, group size (provided that the group size factor may not vary by more than 15% from a base factor of 1.0), family size or composition, sex, area, industry, occupational, and avocational factors (including, but not limited to, tobacco usage). Demographic underwriting factors used by the insurer must be applied consistently with respect to all small groups in the insurer's pool, except that area factors may vary between policies or contracts with different network reimbursement provisions. These demographic underwriting factors may be adjusted:
1. on a composite basis for any small group,
 2. on a composite basis for all small groups in an insurer's pool, or
 3. on an individual, family, or other tier basis as used by the insurer for all insureds in any small group.

Methods 1. and 3. of adjusting demographic underwriting factors may both be used in an insurer's small group pool provided that group size is the only determining factor and such methods are applied consistently within the insurer's small group pool. An insurer may use the demographic underwriting factors in renewal rating of such a small group where changes in these underwriting factors have occurred.

- (c) Use of Claims Experience under Previous Insurance Coverage Prohibited. Previous claims experience of a new group under any other group health insurance prior to its entry into a pool is deemed not to be credible and such previous claims experience may not be considered in the initial rating of any small group. This paragraph shall not be construed to prevent insurers from using the health status of individuals in the small group for the purposes of substandard rating or determining group experience factors at initial rating as permitted under this Rule.

- (d) **Rate Changes Based on Trend.** The pool rate change for the next twelve months shall be based on the experience trend for the entire pool and shall be applied uniformly to the current pool rate for each small group's upcoming rating period. Trend factors may vary during a small group's rating period or between small groups to account for changes to or differences in benefit design or network requirements only. Trend factors may not be based on the demographic characteristics, experience, or any health status-related factor of a small group or any insureds in a small group. Nothing in this paragraph shall prevent an insurer from applying the annual trend factor on a graduated basis in an equitable, consistent, and uniform manner to small groups according to the month, quarter, or semi-annual period in which a small group was issued its policy or contract.
- (e) **Group Experience Factor.**
1. Except as prohibited in subparagraph (c), the actual claims experience produced by a small group may be used to deviate the premium from the pool rate applicable for that group. The group experience factor must be applied uniformly, consistently, and equitably to the rates charged for all employees, members, enrollees, and dependents in the small group and may not exceed plus or minus twenty-five percent (25%) of the pool rate. The change in premium resulting directly from select or substandard ratings applied to any group following recognized underwriting practices and the provisions of this Rule shall not be considered a deviation from the pool rate only for the purposes of determining the group experience factor. A group experience factor may be adjusted upon renewal.
 2. The percent change in the group experience factor at renewal shall not exceed 15% from one rating period to the next.
- (f) **Select and Substandard Ratings.**
1. **General Application.** Select and substandard ratings resulting from the health status of one or more New Entrants must only be applied to an existing group or new group as set forth in O.C.G.A. § [33-30-12\(d\)](#) and this Rule.
 2. **Applicability of Substandard Ratings.**
 - (i) An insurer may not, with regard to a new group or existing group, use substandard rating for, nor adjust any individual or group premium by way of a substandard rating as a result of the health status of anyone who is not a New Entrant as defined in this Rule. An insurer may not assess a substandard rate on any small group or small group member because of the health status of dependents with previous creditable coverage who enroll when first eligible or during special enrollment in accordance with O.C.G.A. § [33-30-15\(a\)\(4\)\(A\) and \(e\)](#).

- (ii) Substandard rating may only be determined and assessed as a result of the health status of New Entrants to an existing group or New Entrants in a new group, relative to what may be considered a standard health risk by the insurer using recognized underwriting practices. Substandard ratings assessed as the result of New Entrants to an existing group may be imposed only at the beginning of the first rating period after the New Entrant waiting period permitted in subparagraph (b)2.
- 3. Compliant Methods of Applying Select and Substandard Rating. No insurer may bill or charge select or substandard rating adjustments allowed in this subparagraph to individual employees, members, enrollees, or dependents because of health status-related factors for which the adjustments are applied. Select or substandard rating assessed as a result of the health status of a New Entrant must be applied uniformly, consistently, and equitably to the rates charged for all employees, members, enrollees, and dependents in the small group. For example, select or substandard ratings may be assessed to all insureds in a small group on a composite basis as a uniform factor derived from the total select or substandard rating for all New Entrants insured through the small group; or, select or substandard ratings may be assessed as a lump-sum quantity divided equally among all insured employees, members, or enrollees.
- 4. Rating Parameters. Effective for all rating periods commencing on or after May 1st, 1998, and all subsequent rating periods, the differential resulting from applying select or substandard ratings as permitted in this subparagraph onto group premiums may not be greater than plus or minus twenty percent of the total premium for a small group determined using pool rates as adjusted for permitted demographic underwriting factors, group experience factors, and rate changes based on trend. The Commissioner may adjust these permitted select and substandard rating parameters at any time in the interest of ensuring affordable coverage and access in the small group health insurance market after such due notice and hearing as may be required by law. The effective date of any such adjustments shall be a reasonable period of time as determined by the Commissioner not to exceed one year after the date such adjustments have been promulgated by the Commissioner.
- 5. Other Prohibitions on Assessing Substandard Ratings:
 - (i) Insurers may not add, assess, use, or continue to use substandard ratings for an insured in replacing group health insurance where the replacing insurer is affiliated with the prior insurer, nor may an insurer add, assess, use, or continue to use substandard ratings when

discontinuing a policy form and offering coverage under another policy form; and

- (ii) Insurers may not add, assess, or increase a substandard rating at any time other than during initial underwriting of a New Entrant to a new or existing group as permitted by this Rule.

6. Removal. Insurers may remove substandard ratings at any time with a corresponding reduction in the group's premium. When an insured with a substandard rating leaves a small group, the insurer must remove the substandard rating from the small group premium within thirty (30) days of the date on which the insured is no longer eligible for coverage or continuation of coverage under the group.

(g) Deviations Resulting From Rating Factors. In setting premiums to be charged each small group, insurers must determine upward and downward premium deviations from the pool rate resulting from application of each small group's demographic underwriting factors as specified in subparagraph (b), the group experience factor as specified in subparagraph (e), rate changes based on trend as specified in subparagraph (d), and select or substandard ratings permitted in subparagraph (f), in such a manner that the anticipated total of the upward deviations for all small groups in an insurer's pool is offset by the anticipated total of downward deviations. The total of all anticipated group premiums, which include all deviations resulting from factor adjustments described in this subparagraph (g), must equal the total anticipated pool premium.

(h) Other Permissible Methodologies. Insurers may use a rating methodology which establishes a lowest possible base rate charged by an insurer for all small groups in lieu of a pool rate, and adjusts the rate upward for all factors permitted in this Rule, provided that:

- (i) the group experience factor applied to the lowest possible base rate is no greater than 1.67;
- (ii) the select and substandard rating is applied as permitted in subparagraph (f)4. and is limited to a factor no greater than 1.20 as applied to the small group's total premium based on the lowest possible base rate adjusted for demographic underwriting factors, group experience factors, and rate changes based on trend as permitted in this Rule;
- (iii) the midpoint of all rates for all small groups in an insurer's pool is equivalent to the pool rate which would be determined in accordance with this Rule, such that all anticipated rate deviations below the midpoint are offset by all anticipated rate deviations above the midpoint; and

(iv) the methodology otherwise complies with all the requirements of this Rule.

(i) The rating provisions of this Rule section shall apply to all rating periods commencing on or after November 1, 2002.

(6) Documentation.

(a) All insurers must determine pool rates annually or more frequently and document their rate and deviation determinations.

(b) All insurers must disclose at the initial sale of a small group case the degree to which rates may vary within allowable +/-25% range around the pool rate.

(c) All insurers must provide to each small group upon request at each rating period, the pool rate compared to the proposed rate for the small group to demonstrate where the rate for the small group lies in comparison to the pool rate, and shall be required to document to each small group the benefit design, demographic factors, group experience factor, select or substandard or other permitted adjustments from the pool rate and percentage change in the base pool rate, demographic and group experience factors since the pool rate utilized in the small group's previous rating period. In addition, reference must be made to legal and regulatory citations that relate to changes in rating factors. Each small group policy must contain a notice to the insured that this information is available upon request. If such information is requested, the insurer must respond to such request within ten (10) business days of the request for information.

(d) Rating documentation shall be maintained at the insurer's home or principal office for a period of five years and insurers shall furnish this information to the Commissioner of Insurance or insurance department examiners upon request.

(7) On or before March 1 each year, an insurer writing small group health insurance in this State shall provide for the preceding calendar year a certification by a responsible officer of the insurer as follows:

"I (name of officer), hereby certify that the rates charged small groups in the State of Georgia by the (name of insurer) are in compliance with all the requirements of § [120-2-10-.12](#) of the Rules and Regulations of the Georgia Insurance Department.

I further certify and affirm that my company will provide prior, written notice to the Commissioner and to each small group in my company's small group health insurance pool within the State of Georgia at least 180 days before my company withdraws from the small group health insurance market in Georgia. Such written notice to the Commissioner will include a report or other substantial documentation of the extent of coverage, including identification of policy forms, certificates, and the number of insureds covered

at the time of any notice of proposed withdrawal from this small group market in Georgia. I understand and agree to submit such other documentation as the Commissioner may reasonably require at that time. Additionally, I further certify and affirm that my company will comply with all other provisions in the Official Code of Georgia, Annotated, or in the Rules and Regulations of the Georgia Insurance Department, pertaining to withdrawal or discontinuation of coverage in the small group market.

(8) One-life Groups.

- (a) Insurers may issue small group health insurance policies or contracts actively marketed to small groups, or certificates from such policies or contracts, to sole proprietors or other employers with only one employee, member, or enrollee (not counting dependents). In order for such coverage to qualify as group coverage, it must meet all rating and eligibility requirements of this Rule except those applicable only to small employers. At such time as the one life group acquires one or more additional employees, members, or enrollees, the exceptions shall not apply. Such one-life groups shall include sole proprietors offered coverage under a group health insurance policy or contract issued through a trust or association which does not meet the definition of O.C.G.A. § [33-30-1\(b\)](#), provided that such group health insurance policy or contract covers other small groups as defined by this Rule. One-life groups may also include other such arrangements as provided for in the Rules and Regulations of the Office of Commissioner of Insurance or at the discretion of the Commissioner.
- (b) All policies or certificates issued to one-life groups as permitted by this Rule shall comply with the requirements of O.C.G.A. Title 33, including Chapter 30.
- (c) All policies or certificates issued to one-life groups in this state on or before June 30, 1997, shall be deemed one-life groups and shall be subject to the provisions of this Rule, as well as all the requirements of O.C.G.A. Title 33, including Chapter 30.
- (d) Insurers may not issue multiple one-life group policies or certificates to a single employer with more than one employee.

(9) Minimum participation rules for small groups.

- (a) Minimum participation rules for a particular group health insurance policy shall apply uniformly and consistently to all small groups.
- (b) An insurer shall not require a minimum participation level for small groups greater than:

1. One hundred percent (100%) of eligible employees, members, or enrollees with three (3) or less employees; and
 2. Seventy-five percent (75%) of eligible employees, members, or enrollees with more than three (3) employees but not more than fifty (50) employees.
- (c) An insurer shall not modify such minimum participation rules applicable to a small group at any time after the small group has obtained coverage, except that an insurer may relax such rules prospectively upon notification to all existing groups, and must apply such relaxed rules to all new groups. Relaxation of such rules means that such rules are made more favorable to the insured than what is required in subparagraph (b).
- (d) In applying minimum participation rules with respect to a small group as permitted in (b), an insurer may not count eligible employees, members, or enrollees who have other group health insurance coverage from an unaffiliated insurer as a spouse or dependent in determining whether the applicable minimum participation level is met.
- (10) Associations. Only the provisions of paragraph (3) shall apply to true associations.

- (1) This Regulation shall apply to any life insurance policy or annuity contract or service or advice related thereto, wherein an "advertisement," as that term is hereinbefore defined, is used or is intended for presentation, distribution or dissemination in this State when such use, presentation, distribution or dissemination is made either directly or indirectly by or on behalf of an insurer, agent, or counselor as those terms are defined in the Georgia Insurance Code and this Regulation.

Rule 120-2-11-.05. Form and Content of Advertisements.

- (1) Advertisements shall be truthful and not misleading in fact or by implication. The form and content of an advertisement of a policy shall be sufficiently accurate, complete and clear so as to avoid deception or the capacity or tendency to mislead or deceive. Whether an advertisement has the capacity or tendency to mislead or deceive shall be determined by the Commissioner from the overall impression that the advertisement may be reasonably expected to create upon a person of average education or intelligence within the segment of the public to which it is directed.
- (2) No advertisement shall use the terms "investment," "investment plan," "founder's plan," "charter plan," "expansion plan," "profit," "profits," "profit sharing," "deposit," "interest plan," "savings," "savings plan," or other similar terms in connection with a policy in a context or under such circumstances or conditions as to have the capacity or tendency to mislead a purchaser or prospective purchaser of such policy or a policyholder to believe that he will receive, or that it is possible that he will receive, something other than a policy or some benefit not available to other persons of the same class and equal expectation of life, when such is not the fact.

Rule 120-2-11-.06. Disclosure Requirements.

- (1) The information required to be disclosed by this Regulation shall not be minimized, rendered obscure, or presented in an ambiguous fashion or intermingled with the text of the advertisement so as to confuse or mislead.
- (2) No advertisement shall omit material information or use words, phrases, statements, references, or illustrations if such omission or such use has the capacity, tendency, or

effect of misleading or deceiving purchasers or prospective purchasers as to the nature of their relationship with the insurer or as to the nature or extent of any policy benefit, loss covered, premiums payable at specified ages over the life of the contract unless premiums remain level, or state or federal tax consequences. The fact that the policy offered is made available to a prospective insured for inspection prior to consummation of the sale, or an offer is made to refund the premium if the purchaser is not satisfied, does not remedy misleading statements.

- (3) In the event an advertisement uses the terms "Non-Medical," "No Medical Examination Required," or similar terms where issuance of a policy is not guaranteed, such terms shall be accompanied by a further disclosure of equal prominence and in juxtaposition thereto to the effect that issuance of the policy may depend upon the answers to the health questions contained in the application.
- (4) An advertisement shall not use as the name or title of a policy any phrase which does not include the words "life insurance" or "annuity" unless accompanied by other language clearly indicating it is life insurance or an annuity.
- (5) An advertisement shall clearly and prominently describe the type of policy discussed or advertised. The name or title of the policy, or description thereof, shall not be such as to deceive or mislead a person as to the true nature of the policy or as to the benefits provided thereunder.
- (6) An advertisement of a policy marketed by direct response techniques shall not state or imply that because there is no agent or commission involved there will be a cost saving to prospective purchasers unless such is the fact. No such cost savings may be stated or implied in any advertisement without justification found to be satisfactory to the Commissioner prior to its use unless such is a provable fact.
- (7) An advertisement for a policy containing graded or modified benefits shall prominently display any limitation of benefits. If the premium is level and coverage decreases or increases with age or duration, such fact shall be clearly and prominently disclosed.
- (8) An advertisement for a policy with non-level premiums shall clearly and prominently describe the premium changes.
- (9) The following requirements shall apply to advertisements which make reference to dividends:
 - (a) An advertisement shall not utilize or describe dividends in a manner which is misleading or has the capacity or tendency to mislead. In this connection, analogies and comparisons between dividends payable on shares of stock and dividends payable under a policy are prohibited unless the advertisement fully, clearly, and accurately describes the differences.
 - (b) An advertisement shall not state or imply that the payment of any amount of dividends is guaranteed. If dividends are illustrated, they must be based on the

insurer's current dividend scale and the illustration must contain a prominent statement to the effect that such dividends are not to be construed as guarantees of dividends to be paid in the future.

- (c) An advertisement shall not state nor imply that illustrated dividends under any participating policy and/or pure endowments will be or can be sufficient at any future time to assure, without the further payment of premiums, the receipt of benefits, such as a paid-up policy, unless the advertisement clearly and precisely explains what benefits or coverage would be provided at such time and under what conditions this would occur.
 - (d) Advertisements shall not state nor imply that dividends are other than a refund or return of part of the premium paid which is not guaranteed and which is dependent on the investment earnings, mortality experience and expense experience of the company.
 - (e) Any comparison between participating and non-participating policies or contracts must be true and accurate.
- (10) An advertisement shall not state or imply that a purchaser of a policy will share in or receive a stated percentage or portion of the earnings on the general account assets of the insurer.
- (11) The following requirements shall apply to testimonials or endorsements:
- (a) Testimonials used in advertisements must be genuine; represent the current opinion of the author; be applicable to the policy advertised, if any; and be accurately reproduced. In using a testimonial the insurer, agent or counselor makes as its own all of the statements contained therein, and such statements are subject to all the provisions of this Regulation.
 - (b) If the individual making a testimonial or an endorsement has a financial interest, directly or indirectly, in the insurer or a related entity as a stockholder, director, officer, employee, or otherwise, such fact shall be clearly and prominently disclosed in the advertisement. If a person receives any benefit directly or indirectly other than required union scale wages, such fact shall be clearly and prominently disclosed in the advertisement by language identical to, or substantially similar to, the following: "THIS IS A PAID ENDORSEMENT."
 - (c) An advertisement shall not state or imply that an insurer or a policy has been approved or endorsed by a group of individuals, society, association, or other organization unless such is the fact and unless any proprietary relationship between an organization and the insurer is disclosed. If the entity making the endorsement or testimonial is owned, controlled, or managed by the insurer, or receives any payment or other consideration from the insurer for making such

endorsement or testimonial, such fact shall be clearly and prominently disclosed in the advertisement.

- (d) No testimonial or endorsement shall be made in any form which constitutes a solicitation for the purchase of life insurance and annuities in this State, unless such endorser is currently licensed in Georgia as an agent to solicit insurance.
- (12) No advertisement shall contain statistical information relating to any insurer or any policy unless it accurately reflects recent and relevant facts. The source of any such statistics used in any advertisement shall be identified therein.
- (13) The following requirements shall apply to introductory, initial or special offer policies and to policies with enrollment periods:
- (a) An advertisement of an individual policy or combination of such policies shall not state or imply that such policy or combination of such policies is an introductory, initial, or special offer, or that applicants will receive substantial advantages not available at a later date, or that the offer is available only to a specified group of individuals, unless such is the fact. An advertisement shall not describe an enrollment period as "special" or "limited" or use similar words or phrases in describing it when the insurer uses successive enrollment periods as its usual method of marketing its policies.
 - (b) An advertisement shall not state or imply that only a specific number of policies will be sold, or that a time is fixed for the discontinuance of the sale of the particular policy advertised because of special advantages available in the policy.
 - (c) An advertisement shall not offer a policy which utilizes a reduced initial premium rate in a manner which overemphasizes the availability and the amount of the reduced initial premium. When an insurer charges an initial premium that differs in amount from the amount of the renewal premium payable on the same mode, all references to the reduced initial premium shall be followed by an asterisk or other appropriate symbol which refers the reader to that specific portion of the advertisement which contains the full rate schedule for the policy being advertised.
 - (d) An enrollment period during which a particular insurance policy may be purchased on an individual basis shall not be offered within this State unless there has been a lapse of not less than six (6) months between the close of the immediately preceding enrollment period for the same or similar policy and the opening of a new enrollment period. The advertisement shall specify the date by which the applicant must mail the application, which shall be not less than ten (10) days and not more than forty (40) days from the date on which such enrollment period is advertised for its first time. This rule applies to all advertising media - i.e. mail, newspapers, radio, television, magazines, and periodicals - by any one insurer. The phrase "any one insurer" includes all the

affiliated companies of a group of insurance companies under common management or control. This rule does not apply to the use of a termination or cutoff date beyond which an individual application for a guaranteed issue policy will not be accepted by an insurer in those instances where the application has been sent to the applicant in response to his request. It is also inapplicable to solicitations of employees or members of a particular group or association which otherwise would be eligible under specific provisions of the Georgia Insurance Code for group, blanket, or franchise insurance. In cases where an insurance product is marketed on a direct mail basis to prospective insureds by reason of some common relationship with a sponsoring organization, this rule shall be applied separately to each sponsoring organization.

- (14) An advertisement of a particular policy shall not state nor imply that prospective insureds shall be or become members of a special class, group, or quasi-group and as such enjoy special rates, dividends, or underwriting privileges, unless such is the fact.
- (15) An advertisement shall not make unfair, inaccurate nor incomplete comparisons of policies, benefits, dividends, or rates of other insurers. An advertisement shall not falsely nor unfairly describe other insurers, their policies, services, or methods of marketing.
- (16) For individual deferred annuity products or deposit funds which are paid to an insurer and which are ancillary to the basic individual policy benefits and are established for the payment of future premiums or for the purchase of annuity benefits at a future date, the following requirements shall apply:
 - (a) Any illustrations or statements containing or based upon interest rates higher than the guaranteed accumulation interest rates shall likewise set forth with equal prominence comparable illustrations or statements containing or based upon the guaranteed accumulation interest rates. Such higher interest rates shall not be greater than those currently being credited by the company unless such higher rates have been publicly declared by the company with an effective date for new issues not more than three (3) months subsequent to the date of declaration. Non-guaranteed interest rates must be clearly and prominently labeled as such.
 - (b) If an advertisement states the net premium accumulation interest rate, whether guaranteed or not, it shall also disclose in close proximity thereto and with equal prominence, the actual relationship between the gross and net premiums.
 - (c) If any contract does not provide a cash surrender benefit prior to commencement of payment of any annuity benefits, any illustrations or statements concerning such contract shall prominently state that cash surrender benefits are not provided.
 - (d) An advertisement shall not state or imply that individual annuity policies or deposit funds are accorded preferential tax treatment unless the advertisement

fully, clearly and accurately describes the tax deferred nature of the contract, including the tax consequences on surrender.

- (17) The following additional disclosure requirements shall apply to the advertising and sale of life insurance to students:
- (a) The envelope in which insurance solicitation material is contained may be addressed to parents, i.e. "To The Parents of Joan Smith," or "Mr. and Mrs. Smith." The address may not include any combination of words which indicate that the correspondence is coming from the school itself rather than the insurer, agent or counselor, nor may it imply that the school has endorsed the material and supplied the insurer with information about the student unless such is a correct and truthful statement.
 - (b) The return address on the envelope may not in any way imply that the soliciting insurer, agent or counselor is affiliated with a university, college or school.
 - (c) If the term "student insurance forms enclosed" is used on the envelope it must appear in one continuous line. For example, it is not permissible to divide the wording so that "student insurance" appears on one line and "forms enclosed" on another.
 - (d) If the name of the agent, counselor or company official appears on the envelope, it is to be identified as such, with a complete mailing address following the listing of the name.
 - (e) Any slogan affixed by an insurer, agent or counselor which appears on an envelope to the left of the postal meter stamp may not focus on education. Neutral slogans, such as "Buy Government Bonds" or "Support Your Local United Fund," are acceptable.
 - (f) No insurance solicitation materials may contain any of the statements or implications described and prohibited from appearing on the envelope. All letters, circulars and informational flyers used in the solicitation of insurance must be clearly identified as coming from an agent, counselor or insurer, if such is the case, and these entities must be clearly identified as such.
 - (g) No advertisement may state or imply that because such insurance is offered to a selective group that there will be cost savings to prospective purchasers unless such is the fact. No such cost savings may be stated or implied in any advertisement without justification found to be satisfactory to the Commissioner prior to its use.

Rule 120-2-11-.07. Identity of Insurer.

- (1) The name of the insurer shall be clearly identified and prominently displayed, and if any specific individual policy is advertised it shall be identified either by form number or other appropriate description. An advertisement shall not use a trade name, an insurance group designation, name of the parent company of the insurer, name of a particular division of the insurer, service mark, slogan, symbol, or other device or reference without disclosing the name of the insurer, if the advertisement would have the capacity or tendency to mislead or deceive as to the true identity of the insurer, or create the impression that a company other than the insurer would have any responsibility for the financial obligation under a policy.
- (2) No advertisement shall use any combination of words, symbols, or physical materials which by their content, phraseology, shape, color, or other characteristics are so similar to a combination of words, symbols, or physical materials used by a governmental program or agency or otherwise appear to be of such a nature that they tend to mislead prospective insureds into believing that the solicitation is in some manner connected with such governmental program or agency.
- (3) No advertisement shall use any combination of words, symbols, or physical materials which by their content, phraseology, shape, color, or other characteristics are so similar to a combination of words, symbols, or physical materials used by a non-insurance company with which the individual has a financial relationship or otherwise appear to be of such a nature that it tends to mislead or deceive prospective insureds into believing that the purchase of insurance is required by such company.
- (4) An advertisement for any specific policy shall clearly inform the prospective purchaser of the full name of the insurance company which will issue the policy. An advertisement for the sale of life insurance by any agent shall clearly inform the prospective purchaser of the full name of all insurance companies which said agent is authorized to represent.

Rule 120-2-11-.08. Jurisdictional Licensing and Status of Insurer.

- (1) An advertisement which is intended or not intended to be seen or heard beyond the limits of the jurisdiction in which the insurer is licensed shall not imply licensing beyond such limits.
- (2) An advertisement may state that an insurer is licensed in the state which the advertisement appears, provided it does not exaggerate such fact or suggest or imply that competing insurers may not be so licensed.
- (3) An advertisement shall not create the impression that the insurer, its financial condition or status, the payment of its claims, or the merits, desirability, or advisability of its policy forms or kinds of plans of insurance are recommended or endorsed by any governmental entity. However, where a governmental entity has recommended or endorsed a policy form or plan, such fact may be stated if the entity authorizes its recommendation or endorsement to be used in such an advertisement.

Rule 120-2-11-.09. Statements About the Insurer.

An advertisement shall not contain statements, pictures, comparative financial ratios, or illustrations which are false or misleading, in fact or by implication, with respect to the assets, liabilities, insurance in force, corporate structure, financial condition, age or relative position of the insurer in the insurance business. An advertisement shall not contain a recommendation by any commercial rating system unless it clearly defines the scope and extent of such recommendation.

Rule 120-2-11-.10. Misleading Statements, Representations and Illustrations Prohibited.

- (1) No insurer, agent or counselor shall in connection with the consultation, service or advertisement of a policy:
 - (a) State, represent or imply that a prospective policyholder or certificateholder will receive the right to benefits which are not a part of the policy itself, or made an

effective part of the policy by rider or other instrument approved by and on file with the Georgia Insurance Department;

- (b) Represent or imply that any financial ratio, illustrative material or advertisement, including pictures, diagrams, charts, projections, or other material, has been approved or sanctioned by the Georgia Insurance Department;
- (c) Make or issue any statement or representation that premiums paid are ever withdrawable without reference to the cash surrender value or loan provisions of the policy, or in any manner other than that expressly contained in the policy form, except that premiums paid in advance of the current due date may be withdrawn under the conditions of the prepayment agreement;
- (d) State, represent or imply that profits are derived from lapses and surrenders;
- (e) Represent that the mere size of a life insurance company or its total insurance in force necessarily affects either the solvency or the reliability of life insurance or annuity policies issued by such insurer;
- (f) Make or issue any statement which would lead a prospective buyer or policyholder of life insurance or annuity to believe that he is purchasing stock in an insurance company by acquiring such life insurance or annuity;
- (g) Make or issue any statement which will tend to lead a prospective buyer or policyholder to believe that, by purchasing a policy, he will acquire a position similar to that of a stockholder of the company, or make or issue any statement which permits the inference that policyholders are entitled to benefits or profits on the same basis as stockholders;
- (h) State or represent that a prospective policyholder will receive dividends, or special or favored treatment in the allowance or payment of dividends, or other monetary benefits not expressly provided in the policy;
- (i) Make or issue statements or illustrations of projected future dividends unless the dividend formula or dividend scale upon which such statements or illustrations were made complies with the applicable provisions of the Georgia Insurance Code and the Rules and Regulations of the Georgia Insurance Department;
- (j) Make or issue statements indicating that because a prospect has agreed to furnish leads, he is entitled to any specific benefits not available to all policyholders generally;
- (k) Represent as a return of premium or as a return of cash surrender value an increasing term insurance provision in any insurance policy, such as an amount of insurance equal to the sum of premiums paid to a certain date, or as an amount of

insurance equal to the cash surrender value, as anything other than a guaranteed insurance benefit, a charge for which is included in the premium;

- (l) Use a dollar amount or any other figure in printed material to be shown to prospective policyholders unless accompanied by language in such material indicating the nature and source of the figure;
 - (m) State or imply that a policy contains features or benefits which are not found in other life insurance policies, unless that be true;
 - (n) Make any reference or statement implying that a policy is sold or issued or is serviced by the investment department of an insurer; and
 - (o) Use terms such as financial planner, investment advisor, financial consultant, or financial counseling in such a way as to imply that the person who is engaged in the business of insurance is generally engaged in an advisory business in which compensation is unrelated to sales unless such is actually the case. During the solicitation of, negotiation for, or procurement or making of a contract of life insurance or annuity contract, no person may engage, advertise, or render opinions as to the benefits promised under any contract of insurance or offered by any insurer, or as to the terms, value, effect, advantages or disadvantages thereof unless such person is properly licensed in accordance with Chapters 33-23-1 to 33-23-22 of the Georgia Insurance Code. Further, no person engaged in the business of insurance may hold himself out, directly or indirectly, to the public as a financial planner, investment advisor, financial consultant, or financial counselor or as any other specialist engaged in the business of giving complete financial planning advice relating to investments, insurance, real estate, tax matters and trust and estate matters unless such person in fact is generally engaged in such business and does, in fact, render such services. Not included in "such services" is the presentations of computer printouts that fall into the category of advanced programming for the purpose of selling a policy and are routinely provided by insurers or other organizations. Terms such as financial planner, investment advisor, financial consultant, or financial counselor may not be used by a person engaged in the business of insurance where such person provides advice relating to investments, real estate, tax matters and trust and estate matters, which is merely incidental to the conduct of his insurance business.
- (2) The following are applicable to the advertising of all policies:
- (a) The basic life policy death benefit must be shown as a single amount, not arbitrarily or deceptively split into two or more parts, implying that there is a relationship between some part of a premium and some part of the death benefit, unless such is the fact and provided the relationship is not for the purpose of nor may likely have the effect of misleading or deceiving an individual.

- (b) If nonforfeiture values are shown, they must be shown either for the entire amount of the basic life policy death benefit or for each \$1,000 of initial death benefit.
- (c) No statement or representation may imply the existence of an actuarial relationship between a specific premium, or portion thereof, and a specific benefit, or portion thereof, provided under a policy where, in fact, none exists. No premiums, or a portion of a premium, may be presented as an "additional," "separate," or "special" premium unless there is an actuarial relationship between such premium, or portion thereof, and some specifically identifiable benefit or portion thereof.
- (d) No artificial relationships among interest rates, premiums and benefits or portions thereof, may be implied or created.
- (e) No person or advertisement shall state or imply that on the death of the insured, the beneficiary will receive, or should have received, the cash value of a policy in addition to the face amount. This rule is not intended to prohibit the advertising of an increasing term benefit equal to the cash value and for which a premium has been paid.
- (f) No person or advertisement shall state or imply in any way that interest charged on a policy loan or the reduction of death benefits by the amount of outstanding policy loans is unfair, inequitable, or in any manner an incorrect or improper practice.
- (g) No person or advertisement shall state or imply in a misleading manner that the policy cash value is the policyowner's "savings" or that the policyowner owns the cash value. The use of savings "passbooks" and such similar misleading techniques is prohibited.
- (h) Analogies between cash value and savings accounts and between premium payments and contributions to savings accounts are prohibited unless such analogy completely and clearly explains both the similarities and the difference between the items so compared and further, unless it is made clear that such representation is an analogy only and that, in fact, cash values and premium payments are not the same as a savings account and contributions thereto.
- (i) No advertising material or oral presentation may make incorrect, misleading or unfair statements about other life insurance products, agents, and insurers.
- (j) No advertising shall state or imply that a policy being offered for sale is pure term insurance unless the policy is in fact pure term insurance.
- (k) Life insurance policies shall not be compared to savings accounts, stocks, bonds, or any other financial instrument or investment in such a way as to mislead a

person as to the true nature of life insurance or life insurance surrender values or other policy benefits.

- (l) Advertisements may not imply or state that all older policies are more costly than newer policies or that all newer policies are more costly than older policies unless such is a provable fact.
 - (m) No advertisement shall imply or state that if a life insurance company becomes insolvent, other companies will always take over the liabilities of the insolvent company.
 - (n) The use of words such as "deposit," "deposit premium," "investment," or other such misleading or confusing terminology to refer to an amount which is a premium as defined in Section [33-24-1](#) of the Georgia Insurance Code is prohibited.
 - (o) A system or presentation which does not recognize the time value of money through the use of appropriate interest adjustments shall not be used for comparing the cost of two or more life insurance policies. Such a system may be used for the purpose of demonstrating the cash-flow pattern of a policy if such presentation is accompanied by a statement disclosing that the presentation does not recognize that, because of interest, a dollar in the future has less value than a dollar today.
- (3) The use of materials, statements or communications of any kind, which when used alone is not misleading, but becomes deceptive or misleading when combined, is prohibited.

- (1) Each insurer shall maintain at its home or principal office a complete file containing a specimen copy of every printed, published, or prepared advertisement of its individual policies and specimen copies of typical printed, published, or prepared advertisements of its blanket, franchise, and group policies, hereafter disseminated in this State, with a notation indicating the manner and extent of distribution and the form number of any policy advertised. Such file shall be subject to inspection by the Georgia Insurance Department. All such advertisements shall be maintained in said file for a period of either four years or until the filing of the next regular report on the examination of the insurer, whichever is the longer period of time.

- (2) Each insurer subject to the provisions of these rules shall file with this Department with its Annual Statement a certificate of compliance executed by an authorized officer of the insurer wherein it is stated that to the best of his knowledge, information, and belief the advertisements which were disseminated by or on behalf of the insurer in this State during the preceding statement year, or during the portion of such year when these rules were in effect, complied or were made to comply in all respects with the provisions of these rules and the insurance laws of Georgia as implemented and interpreted by these rules.

Rule 120-2-12-.05. Form and Content of Advertisements.

1. The format and content of an advertisement of an accident or sickness insurance policy shall be accurate and shall be sufficiently complete and clear to avoid deception or the capacity or tendency to mislead or deceive. Whether an advertisement has a capacity or tendency to mislead or deceive shall be determined by the Insurance Commissioner from the overall impression that the advertisement may be reasonably expected to create upon a person of average education or intelligence, within the segment of the public to which it is directed, or within a segment of the public to which such advertisement may be reasonably calculated to reach.
2. Advertisement shall be truthful and not misleading in fact or in implication. Words or phrases, the meaning of which is clear only by implication or by familiarity with insurance terminology, shall not be used.

3. The advertising of hospital or medical policies or plans shall clearly and accurately state the dollar limits of benefits where applicable, and time limits of benefits where applicable, in lieu of, or in conjunction with descriptive words which might imply "full coverage" for all expenses normally related to hospitalization or medical care.
4. An advertisement for a policy providing benefits for specified illnesses only, such as cancer, or for specified accidents only, such as automobile accidents, shall clearly and conspicuously in prominent type state the limited nature of the policy. The statement shall be worded in language identical to, or substantially similar to the following: "THIS IS A LIMITED POLICY;" "THIS IS A CANCER ONLY POLICY;" "THIS IS AN AUTOMOBILE ACCIDENT ONLY POLICY."
5. If a policy provides different benefits as to amount or time for the same loss occurring under different circumstances or from different causes, the smaller benefits payable shall be given the same prominence as the larger benefits.
6. All policies advertised shall be correctly identified by names reasonably calculated to describe their contents, FOR EXAMPLE: Hospital and Surgical Expense Policy; Hospital Income Policy; Hospital Confinement Policy; Disability Income Policy; Senior Citizen Hospital Expense Policy; Medical Care Accident and Health Policy; . . . etc.

The use of such terms as "Pay Check Plan;" "Hospital Dollars;" "Extra-income Plan;" "Extra Cash Plan;" "Extra Pay Plan;" "Hard Cash Plan;" "White Cross Plan;" "Doctors' Plan;" or similar words or phrases which do not correctly identify the policy, shall be prohibited.

In addition, all advertised policies must be identified by Form Number.

7. Any Optional Benefit advertised shall be captioned as "Optional Benefits" and shall be prominently and conspicuously displayed in immediate conjunction with the conditions to qualify for such Optional Benefits. An advertisement must contain a statement that in order to obtain such optional benefits there will be an additional premium charged for each optional benefit desired. A statement must also be included in the advertisement as to what conditions, if any, must be met to qualify for such benefits.
8. All advertisements of accident and sickness insurance in this State shall include the name, address and phone number of the Home or Principal Office and/or of the nearest representative or representatives of the insurer authorized to handle claims and to provide service and information to applicants and/or insureds.
9. Any advertisement making reference to "Medicare Supplement Insurance" or to coverage designed to supplement "Medicare," shall contain a clear, prominent and conspicuous statement in language identical to or substantially the same as the following: "THIS IS A LIMITED POLICY DESIGNED TO COVER ONLY THOSE EXPENSES WHICH MEDICARE DOES NOT COVER." Furthermore, such advertisements must clearly,

prominently and conspicuously disclose the exact benefits payable under such advertised policy.

If such advertised Medicare Supplement Policy supplements only Medicare Part A (or hospital benefits only), this shall be clearly, prominently and conspicuously displayed in the advertisement; nor shall such advertisements use the maximum amount payable without giving an exact example of the conditions which must be met in order for a policyholder to collect the maximum amount.

10. Any advertisement which refers to maximum dollar amount of benefits which can be paid for any period greater than one day shall disclose at the same time, in an equally prominent, frequent, and conspicuous manner, and in immediate conjunction therewith, the daily rate of benefits, and when applicable, the fact that said benefits are payable only for the actual number of days of hospital confinement and, when applicable, the limit on the number of days for which coverage is provided.
11. Words and phrases used in an advertisement to describe policy limitations, exceptions, and reductions shall fairly, accurately, and clearly describe in understandable terms the negative features of such limitations, exceptions and reductions of the policy.

Rule 120-2-12-.06. Deceptive Words, Phrases or Illustrations Prohibited.

1. No advertisement shall omit information or use words, phrases, statements, references or illustrations if the omission of such information or use of such words, phrases, statements, references or illustrations has the capacity, tendency or effect of misleading or deceiving purchasers or prospective purchasers as to the nature or extent of any policy benefit payable, loss covered or premium payable. The fact that the policy offered is made available to a prospective insured for inspection prior to consummation of the sale, and/or offer is made to refund the premium if the purchaser is not satisfied, does not remedy misleading statements.
2. No advertisement shall state or imply that all costs of hospitalization or medical expense will be paid, or that all income will be replaced by benefits, unless the policy is without limitation or restriction in any form. No advertisement shall contain or use words or phrases such as: "all;" "full;" "complete;" "comprehensive;" "liberal;" "unlimited;" "as high as;" "fills all gaps;" "full coverage;" "complete protection;" "all coverage;" "deductibles covered;" "this policy will help pay your hospital and surgical bill;" "this policy will help fill some of the gaps that Medicare and your present insurance leave out;" "this policy will help to replace your income" (when used to express loss of time benefits);

"salary replacement;" "wage continuation;" or similar words and phrases, to imply generosity or liberality or in a manner which exaggerates any benefits beyond the terms of the policy.

3. No advertisement shall contain descriptions of a policy limitation, exception, or reduction worded in a positive manner to imply that it is a benefit, such as: describing a waiting period as a "benefit builder," or stating "even pre-existing conditions are covered after two years."
4. No advertisement shall contain or use identifying terms, words, or phrases which do not correctly identify the policy. (See Rule [120-2-12-.05\(6\)](#).)
5. No advertisement of a benefit for which payment is conditional upon the incurrence of any medical expenses shall use words or phrases such as "tax free;" "extra cash;" "extra income;" "extra pay;" or substantially similar words or phrases that might have the capacity, tendency or effect of misleading the public into believing that the policy advertised will, in some way, enable them to make a profit from any illness, injury, condition, or confinement in a hospital or similar facility.
6. No advertisement of a hospital or other similar facility confinement benefit shall advertise that the amount of benefit is payable on a monthly or weekly basis when, in fact, the amount of the benefit payable is based upon a daily pro rata basis relating to the number of days of actual confinement.
7. No advertisement of a policy covering only one disease or list of specified diseases shall imply coverage beyond the terms of the policy. Synonymous terms shall not be used to refer to any disease so as to imply broader coverage than is the fact.
8. An advertisement or a direct response insurance product shall not state or imply that because "no insurance agent will call and no commissions will be paid to agents," that it is a "low cost plan," or use other similar words or phrases.
9. No advertisement shall contain or use any statement relating to time within which claims are paid (within 24 to 48 hours, etc.), unless the policy being advertised actually requires and guarantees payment within such designated period.
10. No advertisement shall imply that a company frequently and routinely pays specified sums for any type of accident or sickness when, in fact, only certain specified accidents or illnesses are covered.

Rule 120-2-12-.07. Exceptions, Reductions and Limitations.

1. Exceptions, reductions and limitations shall be prominently and conspicuously displayed in the same style type and in a type size equal to, or larger than, that used to describe the benefits. Furthermore, a multi-color scheme shall not be used in such a manner as to render such terms obscure.
2. Any advertisement which refers to either a dollar amount, or a period of time for which any benefit is payable, or the cost of the policy, or specific policy benefit, or the loss for which such benefit is payable, shall also disclose those exceptions, reductions and limitations affecting the basic provisions of the policy without which the advertisement would have the capacity or tendency to mislead or deceive.
3. When a policy contains a waiting, elimination, probationary or similar time period between the effective date of the policy and the effective date of coverage under the policy or a time period between the date a loss occurs and the date benefits begin to accrue for such loss, an advertisement which is subject to the requirements of the preceding paragraph shall clearly, prominently and conspicuously disclose the existence of such periods.
4. An advertisement shall not use the words "only;" "just;" "merely;" "minimum;" or similar words or phrases to describe the applicability of any exceptions and reductions, such as: "This policy is subject to the following minimum exceptions and reductions."

Rule 120-2-12-.08. Pre-existing Conditions.

1. An advertisement which is subject to the requirements of these Rules shall, in negative terms, clearly, prominently and conspicuously disclose the extent to which any loss is not covered if the cause of such loss is traceable to a physical condition, injury or disease existing before issuance of the policy. If the term "pre-existing condition," or similar words or phrases are used in an advertisement, they must be accompanied by an appropriate definition or description which states exactly what conditions are included as "pre-existing conditions" for the purposes of the policy.
2. When a policy does not cover losses resulting from preexisting conditions, no advertisement of the policy shall state or imply that the applicant's physical condition or medical history will not affect the issuance of the policy or payment of a claim thereunder.

This rule prohibits the use of the phrase "no medical examination required," and phrases of similar import, but does not prohibit explaining "automatic issue."

3. If an insurer requires a medical examination for a specified policy, the advertisement shall prominently disclose that a medical examination is required.
4. In the event any advertisement contains an application form to be completed by the applicant and returned by mail for a direct response insurance product, such application form shall contain a question which reflects the pre-existing condition provisions of the policy, immediately preceding the blank space for the applicant's signature. For example, such an application form must contain a question identical to or substantially similar to the following: "Do you understand that this policy will not pay benefits during the first _____ year(s) after the issue date for a disease or physical condition which you now have, or have had in the past?"

☐ I do understand ☐ I do not understand."

No policy shall be issued unless the question is answered affirmatively.

Rule 120-2-12-.09. Necessity for Disclosure of Policy Provisions Relating to Renewability, Cancellability and Termination.

1. Any advertisement of a policy or plan of benefits contained therein must not imply that the policy or plan is guaranteed renewable at the discretion of the insured unless the renewability of such policy or plan of benefits is, in fact, guaranteed.
2. Any advertisement which refers to:
 - (a) dollar amounts,
 - (b) periods of time for which any benefit is payable,
 - (c) costs of the policy,
 - (d) specific policy benefits,
 - (e) loss or losses for which benefits are payable,
 - (f) time or age limitations,

- (g) or any other limiting or qualifying conditions in connection with eligibility of applicants or continuation of the policy, renewability, cancellability or termination, shall clearly, prominently and conspicuously disclose said provisions and any modification, cancellation or termination of benefits, of losses covered, or of premiums, which may occur (because of age or for other reasons), in a manner which shall not minimize or render obscure the qualifying conditions.

Rule 120-2-12-.10. Testimonials or Endorsements by Third Parties.

1. Testimonials used in advertisements must be genuine, represent the current opinion of the author, be applicable to the policy advertised, and be accurately reproduced. The insurer, in using a testimonial, makes as its own all of the statements contained therein, and the advertisement, including such statement, is subject to all the provisions of these Rules.
2. If the person making a testimonial, an endorsement, or an appraisal has a financial interest in the insurer or a related entity as a stockholder, director, officer, employee, or otherwise, such fact shall be prominently disclosed in the advertisement.
3. If a person is compensated for making a testimonial, endorsement or appraisal, such fact shall be prominently disclosed in the advertisement by language identical to, or substantially similar to the following: "THIS IS A PAID ENDORSEMENT." (This Rule does not require disclosure of union scale wages required by union rules if the payment is actually for such scale wages for TV or radio performances). For the purposes of these Rules, the payment of substantial amounts, directly or indirectly, to an endorser for "travel and entertainment" in connection with the filming or recording of TV or radio advertisements constitutes compensation, and disclosure of such compensation is required.
4. An advertisement shall not state or imply that an insurer or a policy has been approved or endorsed by any individual, group of individuals, society, association or other organization, unless such is the fact; and unless any proprietary relationship between an organization and the insurer is clearly, prominently and conspicuously disclosed. If the entity making the endorsement or testimonial has been formed by the insurer, or is owned or controlled by the insurer, or the person or persons who own or control the insurer, such fact shall be disclosed in the advertisement.

5. When a testimonial refers to benefits received under a policy, the specific claim data, including claim number, date of loss, and other pertinent information shall be retained by the insurer for inspection for a period of four years, or until the filing of the next regular report of examination of the insurer, whichever is the longer period of time.
6. For the purposes of these Rules, with regard to testimonials and endorsements by third parties, "Endorser" shall mean any individual, group of individuals, society, association or organization that endorses, approves or recommends an insurer, a policy, or plan of benefits.
7. No such testimonial, endorsement or appraisal shall be made in any form which constitutes a solicitation of insurance in this State, unless such endorser is currently licensed in Georgia to solicit insurance.

Rule 120-2-12-.11. Use of Statistics.

1. Any advertisement relating to the dollar amounts of claims paid, the number of persons insured, or similar statistical information relating to any insurer or policy, must not contain irrelevant facts and must not be used unless it accurately reflects all of the relevant facts. Furthermore, such advertisements must not contain irrelevant facts; nor shall it imply that statistics used therein are derived from the policy advertised unless such is the fact. When statistics used in an advertisement are applicable to other policies or plans, it shall specifically be so stated.
2. An advertisement shall not represent or imply that claim settlements by the insurer are "liberal" or "generous," or use words of similar import; or that claim settlements are or will be beyond the actual terms of the contract.
3. An unusual amount paid for a unique claim for the policy advertised is misleading and shall not be used.
4. The source of any statistics used in an advertisement must be clearly, prominently and conspicuously identified in the advertisement.

Rule 120-2-12-.12. Identification of Plan or Number of Policies.

1. When a choice of the amount of benefits is referred to, an advertisement shall disclose that the amount of benefits provided depends upon the plan selected and that the premium will vary with the amount of the benefits selected.
2. An advertisement listing the benefits of two or more policies different in their content should identify each policy with the benefits which it offers. Group Master Policies are not included for the purposes of this Rule. In such cases, the advertisement shall disclose that these benefits are provided only through a combination of policies.

1. An advertisement which is intended to be seen or heard beyond the limits of the jurisdiction in which the insurer is licensed shall not imply licensing beyond those limits.
2. An advertisement shall not create the impression directly or indirectly that the insurer, its financial condition or status, or the payment of its claims, or the merits, desirability, or advisability of its policy forms or kinds or plans of insurance are approved, endorsed, or accredited by any division or agency of this State or the United States Government.

Rule 120-2-12-.15. Identity of Insurer.

1. The name of the actual insurer advertised shall be properly identified and prominently, clearly and conspicuously displayed in all of its advertisements. An advertisement shall not refer to the parent company of the insurer without clearly disclosing that it is a separate legal entity and not responsible for the insurer's financial condition or contractual obligations.
2. An advertisement shall not include a trade name, an insurance group designation, or the name of any division, affiliate or subsidiary of the insurer, or any service mark, trade mark, slogan, symbol, or other device which has the capacity or tendency to deceive an individual as to the true identity of the insurer or the policy being advertised.
3. No advertisement shall use any combination of words, symbols, or physical materials which by their content, phraseology, shape, color, or other characteristics are so similar to combination of words, symbols, or physical materials used by agencies of the Federal Government, or of this State, or otherwise appear to be of such a nature that it tends to confuse or mislead prospective insureds into believing that the solicitation is in some manner connected with an agency of the municipal, State or Federal Government.

Rule 120-2-12-.16. Group or Quasi-Group Implications.

An advertisement of a particular plan or policy of insurance shall not state or imply that prospective insureds become "group" or "quasi-group" members covered under a group policy, and as such enjoy special rates or underwriting privileges, unless such is the fact.

Rule 120-2-12-.17. Introductory, Initial or Special Offers.

1.
 - (a) An advertisement of an individual policy shall not directly or by implication represent that a contract or combination of contracts is an introductory, initial, or special offer, or that applicants will receive substantial advantages not available at a later date, or that the offer is available only to a specified group of individuals, unless such is the fact.
 - (b) An advertisement shall not contain phrases describing an enrollment period as "special," "limited," or use in similar words or phrases when the insurer uses such enrollment periods as the usual method of advertising accident and sickness insurance.
 - (c) An enrollment period during which a particular insurance product may be purchased on an individual basis shall not be offered within this State unless there has been a lapse of not less than six (6) months between the close of the immediately preceding enrollment period for the same product and the opening of the new enrollment period.
 - (d) The advertisement shall indicate the date by which the applicant must mail the application, which shall not be less than ten (10) days and not more than forty (40) days from the date that such enrollment period is advertised for the first time. This Rule applies to all advertising media; including, but not limited to: mail, newspapers, radio, television, magazines, periodicals, personal solicitations, and telephone solicitations.
 - (e) This Rule prohibits any statement or implication to the effect that only a specific number of policies will be sold, or that a time is fixed for the discontinuance of the sale of the particular policy advertised because of special advantages available in the policy, unless such is the fact.
 - (f) This Rule prohibits the use of minor variations in the form or contents of a plan or policy in order to avoid or circumvent the provisions of paragraph (c) of this Rule. Mere variations of the terms of renewability, increases or decreases in the dollar amounts of benefits, or increases or decreases in any elimination or waiting period from those available during an enrollment period for another policy, shall not be sufficient to establish it as a new or different "particular insurance product" not subject to the provisions of paragraph (c).
2. An advertisement shall not offer a policy which utilizes a reduced initial premium rate in a manner which over-emphasizes the availability and the amount of the initial reduced premium. When an insurer charges an initial premium that differs in amount from the

amount of the renewal premium payable on the same mode, the advertisement shall not display the amount of the reduced initial premium either more frequently or more prominently than the renewal premium, and both the initial reduced premium and the renewal premium must be stated in juxtaposition in each portion of the advertisement where the initial reduced premium appears.

3. Special awards, such as a "safe drivers' award," or special classes such as "non-drinkers" or "non-smokers" shall not be used in connection with advertisements of accident or accident and sickness insurance, unless premiums are, in fact, reduced on the basis of statistical information showing reduced risk based on membership in such class. Such statistics shall be on file in the Home or Principal Office of the insurer.

An advertisement shall not contain a recommendation by any commercial rating system unless it clearly indicates the purpose of the recommendation and the limitations of the scope and extent of the recommendation.

1. All advertisements, regardless of by whom written, created or designed, shall be the responsibility of the insurer sponsoring the same. Every insurer shall at all times maintain complete control over the content, form and method of dissemination of all advertisements of its contracts.
2. Each insurer shall maintain at its home or principal office a complete file containing every printed, published or prepared advertisement of individual policies and typical printed,

published or prepared advertisements of blanket, franchise and group policies hereafter disseminated in this State, with a notation attached to each such advertisement which shall indicate the manner and extent of distribution and the form number of any policy advertised. Such file shall be subject to regular and periodic inspection at the discretion of this Department. All such advertisements shall be maintained in said file for a period of not less than five (5) years.

3. Each insurer required to file an Annual Statement with this Department must file, together with its Annual Statement, a Certificate executed by an authorized officer of the insurer wherein it is stated that to the best of his knowledge, information and belief, the advertisements disseminated by the insurer during the preceding calendar year complied, or were made to comply in all respects, with the provisions of the Insurance Laws of this State as implemented and interpreted by this Regulation.

Rule 120-2-14-.04. Administration of the Plan.

- (1) The Plan shall be administered by a Governing Committee and Manager. The Committee may consist of twelve (12) representatives. Eight (8) representatives will be elected from among Plan subscriber companies, from each of the following classes of companies: two (2) from Georgia Association of Property and Casualty Insurance Companies, four (4) from American Property Casualty Insurers Association, and two (2) from Non-Affiliated Insurance Companies. Each of the eight (8) shall be submitted to the Commissioner for approval prior to election.

Two (2) representatives will be appointed by the Committee from the users of the Plan for a two (2) year term. These two (2) nominees selected by the Committee shall be approved by the Commissioner prior to being appointed. These two representatives will not have the right to vote in matters pertaining to the determination and fulfillment of quotas, Commercial Automobile Insurance Procedure participation, nor the cost to administer the Plan.

Two (2) representatives may be appointed at the discretion of the Commissioner from subscribers, users of the Plan, or the public. The users of the Plan and public representatives will not have the right to vote in matters pertaining to the determination and fulfillment of quotas, Commercial Automobile Insurance Procedure participation, nor the cost to administer the Plan.

- (2) For voting purposes, a quorum shall consist of a majority of the members currently serving on the Committee. If the Committee consists of an even number of members, however, a majority shall constitute one-half of those members but shall not be less than five members.
- (3) Each subscriber company serving on the Committee shall designate a representative to act on its behalf. This representative shall be either (1) a salaried employee or officer of the named subscriber company or (2) a salaried employee or officer of another subscriber company from a group of companies under the same management as the named subscriber company. A salaried employee or officer of the holding company of the named subscriber company may also be designated as the representative. No more than one (1) company in a group under the same management shall serve on the Committee at the same time. A company leaving its class of companies shall resign its seat at the next meeting of the Committee.
- (4) Biennially, on a date fixed by the Committee, such respective class of companies heretofore described shall elect its representatives to the Committee to serve for a period

of two (2) years or until a successor is elected. Similarly, those elected representatives shall biennially, on a date fixed by the Committee, appoint the two representatives from among the users of the Plan.

- (5) A majority of such subscriber companies shall constitute a quorum and voting by proxy shall be permitted. A company may not appoint more than one (1) company in its class of companies to exercise its proxy.
- (6) The notice of each biennial meeting shall be accompanied by an agenda for such meeting. At the biennial meeting, a company may cast one (1) vote for each vacant seat on the Committee for its class of companies and it may not cast two (2) votes for one seat. Forty-five (45) days notice of the biennial meeting shall be given in writing to all companies which are subscribers to the Plan.
- (7) A vacancy on the Committee shall be filled by the respective organization (Georgia Association of Property and Casualty Insurance Companies or American Property Casualty Insurers Association) who shall appoint a successor to serve until the next biennial meeting. If a non-affiliated company vacancy occurs, a successor to serve until the next biennial meeting shall be elected by the non-affiliated companies. If a user of the Plan representative vacancy occurs, a successor to serve until the next biennial meeting shall be appointed by the committee.
- (8) A subscriber company seat not appointed by the Georgia Association of Property and Casualty Insurance Companies, Non-Affiliated Insurance Companies, or American Property Casualty Insurers by the appointment deadline shall be filled as determined by the Committee.

- (7) If the Committee fails to submit an acceptable Plan within thirty (30) days of the effective date of this Regulation, or if at any time fails to submit necessary or suitable amendments thereto, the Commissioner shall, after consultation with insurance companies authorized to issue automobile policies in this State and after notice and hearing, adopt and promulgate such reasonable Plan as is necessary or advisable to effectuate the provision of this Regulation.

Rule 120-2-16-.03. Applicability and Scope.

Except as otherwise specifically provided, this Regulation applies to all long-term care insurance policies, including qualified long-term care contracts and life insurance policies that accelerate benefits for long-term care delivered or issued for delivery in this state on or after the effective date by insurers; fraternal benefit societies; nonprofit health, nonprofit hospital and medical service corporations; healthcare plans; health maintenance organizations and all similar organizations. Certain provisions of this Regulation apply only to qualified long-term care insurance contracts as noted.

Additionally, this Regulation is intended to apply to policies having indemnity benefits that are triggered by activities of daily living and sold as disability income insurance, if:

- (1) The benefits of the disability income policy are dependent upon or vary in amount based on the receipt of long-term care services;
- (2) The disability income policy is advertised, marketed or offered as insurance for long-term care services; or
- (3) Benefits under the policy may commence after the policyholder has reached Social Security's normal retirement age unless benefits are designed to replace lost income or pay for specific expenses other than long-term care services.

Rule 120-2-16-.04. Definitions.

For the purpose of this Regulation, the terms "long-term care insurance," "qualified long-term care insurance," "group long-term care insurance," "Commissioner," "applicant," "policy" and "certificate" shall have the meanings set forth in O.C.G.A. Section [33-42-4](#). In addition, the following definitions apply:

- (1) (a) "Exceptional increase" means only those increases filed by an insurer as exceptional for which the Commissioner determines the need for the premium rate increase is justified:
 - (i) Due to changes in laws or regulations applicable to long-term care coverage in this state; or

- (ii) Due to increased and unexpected utilization that affects the majority of insurers of similar products.
 - (b) Except as provided in Section [120-2-16-.20](#), exceptional increases are subject to the same requirements as other premium rate schedule increases.
 - (c) The Commissioner may request a review by an independent actuary or a professional actuarial body of the basis for a request that an increase be considered an exceptional increase.
 - (d) The Commissioner, in determining that the necessary basis for an exceptional increase exists, shall also determine any potential offsets to higher claims costs.
- (2) "Incidental," as used in subsection (10) of Section [120-2-16-.20](#), means that the value of the long-term care benefits provided is less than ten percent (10%) of the total value of the benefits provided over the life of the policy. These values shall be measured as of the date of issue.
- (3) "Qualified actuary" means a member in good standing of the American Academy of Actuaries.
- (4) "Similar policy forms" means all of the long-term care insurance policies and certificates issued by an insurer in the same long-term care benefit classification as the policy form being considered. Certificates of groups that meet the definition in paragraph (4) of O.C.G.A. Section [33-42-4](#) are not considered similar to certificates or policies otherwise issued as long-term care insurance, but are similar to other comparable certificates with the same long-term care benefit classifications. For purposes of determining similar policy forms, long-term care benefit classifications are defined as follows: institutional long-term care benefits only, non-institutional long-term care benefits only, or comprehensive long-term care benefits.

When the definition requires that the provider be appropriately licensed, certified or registered, it shall also state what requirements a provider must meet in lieu of licensure, certification or registration when the state in which the service is to be furnished does not require a provider of these services to be licensed, certified or registered, or when the state licenses, certifies or registers the provider of services under another name.

Rule 120-2-16-.06. Policy Practices and Provisions.

- (1) Renewability. The terms "guaranteed renewable" and "noncancellable" shall not be used in any individual long-term care insurance policy without further explanatory language in accordance with the disclosure requirements of Section [120-2-16-.09](#) of this Regulation:
 - (a) A policy issued to an individual shall not contain renewal provisions other than "guaranteed renewable" or "noncancellable."
 - (b) The term "guaranteed renewable" may be used only when the insured has the right to continue the long-term care insurance in force by the timely payment of premiums and when the insurer has no unilateral right to make any change in any provision of the policy or rider while the insurance is in force, and cannot decline to renew, except that rates may be revised by the insurer on a class basis.
 - (c) The term "noncancellable" may be used only when the insured has the right to continue the long-term care insurance in force by the timely payment of premiums

during which period the insurer has no right to unilaterally make any change in any provision of the insurance or in the premium rate.

- (d) The term "level premium" may only be used when the insurer does not have the right to change the premium.
 - (e) In addition to the other requirements of this subsection, a qualified long-term care insurance contract shall be guaranteed renewable, within the meaning of Section 7702B(b)(1)(C) of the Internal Revenue Code of 1986, as amended.
- (2) Limitations and Exclusions. A policy may not be delivered or issued for delivery in this state as long-term care insurance if the policy limits or excludes coverage by type of illness, treatment, medical condition or accident, except as follows:
- (a) Preexisting conditions or diseases;
 - (b) Mental or nervous disorders; however, this shall not permit exclusion or limitation of benefits on the basis of Alzheimer's Disease;
 - (c) Alcoholism and drug addiction;
 - (d) Illness, treatment or medical condition arising out of:
 - (i) War or act of war (whether declared or undeclared);
 - (ii) Participation in a felony, riot or insurrection;
 - (iii) Service in the armed forces or units auxiliary thereto;
 - (iv) Suicide (sane or insane), attempted suicide or intentionally self-inflicted injury; or
 - (v) Aviation (this exclusion applies only to non-fare-paying passengers).
 - (e) Treatment provided in a government facility (unless otherwise required by law), services for which benefits are available under Medicare or other governmental program (except Medicaid), any state or federal workers' compensation, employer's liability or occupational disease law, or any motor vehicle no-fault law, services provided by a member of the covered person's immediate family and services for which no charge is normally made in the absence of insurance;
 - (f) Expenses for services or items available or paid under another long-term care insurance or health insurance policy;
 - (g) In the case of a qualified long-term care insurance contract, expenses for services or items to the extent that the expenses are reimbursable under Title XVIII of the

Social Security Act or would be so reimbursable but for the application of a deductible or coinsurance amount.

- (h)
 - (i) This subparagraph is not intended to prohibit exclusions and limitations by type of provider. However, no long-term care issuer may deny a claim because services are provided in a state other than the state of policy issued under the following conditions:
 - (A) When the state other than the state of policy issue does not have the provider licensing, certification or registration required in the policy, but where the provider satisfies the policy requirements outlined for providers in lieu of licensure, certification or registration; or
 - (B) When the state other than the state of policy issue licenses, certifies or registers the provider under another name.
 - (ii) For purposes of this subparagraph, "state of policy issue" means the state in which the individual policy or certificate was originally issued.
 - (i) This subsection is not intended to prohibit territorial limitations.
- (3) Extension of Benefits. Termination of long-term care insurance shall be without prejudice to any benefits payable for institutionalization if the institutionalization began while the long-term care insurance was in force and continues without interruption after termination. The extension of benefits beyond the period the long-term care insurance was in force may be limited to the duration of the benefit period, if any, or to payment of the maximum benefits and may be subject to any policy waiting period, and all other applicable provisions of the policy.
- (4) Continuation or Conversion.
- (a) Group long-term care insurance issued in this state on or after the effective date of this section shall provide covered individuals with a basis for continuation or conversion of coverage.
 - (b) For the purposes of this subsection, "a basis for continuation of coverage" means a policy provision that maintains coverage under the existing group policy when the coverage would otherwise terminate and which is subject only to the continued timely payment of premium when due. Group policies that restrict provision of benefits and services to, or contain incentives to use certain providers or facilities may provide continuation benefits that are substantially equivalent to the benefits of the existing group policy. The Commissioner shall make a determination as to the substantial equivalency of benefits, and in doing so, shall take into consideration the differences between managed care and non-managed care plans,

including, but not limited to, provider system arrangements, service availability, benefit levels and administrative complexity.

- (c) For the purposes of this subsection, "a basis for conversion of coverage" means a policy provision that an individual whose coverage under the group policy would otherwise terminate or has been terminated for any reason, including discontinuance of the group policy in its entirety or with respect to an insured class, and who has been continuously insured under the group policy (and any group policy which it replaced), for at least six months immediately prior to termination, shall be entitled to the issuance of a converted policy by the insurer under whose group policy he or she is covered, without evidence of insurability.
- (d) For the purposes of this subsection, "converted policy" means an individual policy of long-term care insurance providing benefits identical to or benefits determined by the Commissioner to be substantially equivalent to or in excess of those provided under the group policy from which conversion is made. Where the group policy from which conversion is made restricts provision of benefits and services to, or contains incentives to use certain providers or facilities, the Commissioner, in making a determination as to the substantial equivalency of benefits, shall take into consideration the differences between managed care and non-managed care plans, including, but not limited to, provider system arrangements, service availability, benefit levels and administrative complexity.
- (e) Written application for the converted policy shall be made and the first premium due, if any, shall be paid as directed by the insurer not later than 31 days after termination of coverage under the group policy. The converted policy shall be issued effective on the day following the termination of coverage under the group policy, and shall be renewable annually.
- (f) Unless the group policy from which conversion is made replaced previous group coverage, the premium for the converted policy shall be calculated on the basis of the insured's age at inception of coverage under the group policy from which conversion is made. Where the group policy from which conversion is made replaced previous group coverage, the premium for the converted policy shall be calculated on the basis of the insured's age at inception of coverage under the group policy replaced.
- (g) Continuation of coverage or issuance of a converted policy shall be mandatory, except where:
 - (i) Termination of group coverage resulted from an individual's failure to make any required payment of premium or contribution when due; or
 - (ii) The terminating coverage is replaced not later than thirty-one (31) days after termination, by group coverage effective on the day following the termination of coverage:

- (A) Providing benefits identical to or benefits determined by the Commissioner to be substantially equivalent to or in excess of those provided by the terminating coverage; and
 - (B) The premium for which is calculated in a manner consistent with the requirements of subparagraph (f) of this paragraph.
 - (h) Notwithstanding any other provision of this Section, a converted policy issued to an individual who at the time of conversion is covered by another long-term care insurance policy that provides benefits on the basis of incurred expenses, may contain a provision that results in a reduction of benefits payable if the benefits provided under the additional coverage, together with the full benefits provided by the converted policy, would result in payment of more than 100 percent of incurred expenses. The provision shall only be included in the converted policy if the converted policy also provides for a premium decrease or refund which reflects the reduction in benefits payable.
 - (i) The converted policy may provide that the benefits payable under the converted policy, together with the benefits payable under the group policy from which conversion is made, shall not exceed those that would have been payable had the individual's coverage under the group policy remained in force and effect.
 - (j) Notwithstanding any other provision of this Section, an insured individual whose eligibility for group long-term care coverage is based upon his or her relationship to another person shall be entitled to continuation of coverage under the group policy upon termination of the qualifying relationship by death or dissolution of marriage.
 - (k) For the purposes of this Section a "managed-care plan" is a health care or assisted living arrangement designed to coordinate patient care or control costs through utilization review, case management or use of specific provider networks.
- (5) Discontinuance and Replacement.
- If a group long-term care policy is replaced by another group long-term care policy issued to the same policyholder, the succeeding insurer shall offer coverage to all persons covered under the previous group policy on its date of termination. Coverage provided or offered to individuals by the insurer and premiums charged to persons under the new group policy:
- (a) Shall not result in an exclusion for preexisting conditions that would have been covered under the group policy being replaced; and

- (b) Shall not vary or otherwise depend on the individual's health or disability status, claim experience or use of long-term care services.
- (6)
- (a) The premium charged to an insured shall not increase due to either:
 - (i) The increasing age of the insured at ages beyond 65; or
 - (ii) The duration the insured has been covered under the policy.
 - (b) The purchase of additional coverage shall not be considered a premium rate increase, but for purposes of the calculation required under Section [120-2-16-.26](#), the portion of the premium attributable to the additional coverage shall be added to and considered part of the initial annual premium.
 - (c) A reduction in benefits shall not be considered a premium change, but for purpose of the calculation required under Section 120-2-16-26, the initial annual premium shall be based on the reduced benefits.
- (7) Electronic Enrollment for Group Policies.
- (a) In the case of a group defined in O.C.G.A. Section [33-42-4](#), any requirement that a signature of an insured be obtained by an agent or insurer shall be deemed satisfied if:
 - (i) The consent is obtained by telephonic or electronic enrollment by the group policyholder or insurer. A verification of enrollment information shall be provided to the enrollee;
 - (ii) The telephonic or electronic enrollment provides necessary and reasonable safeguards to assure the accuracy, retention and prompt retrieval of records; and
 - (iii) The telephonic or electronic enrollment provides necessary and reasonable safeguards to assure that the confidentiality of individually identifiable information and "privileged information" as defined by O.C.G.A. Chapter 33-39, is maintained.
 - (b) The insurer shall make available, upon request of the Commissioner, records that will demonstrate the insurer's ability to confirm enrollment and coverage amounts.

Rule 120-2-16-.07. Unintentional Lapse.

Each insurer offering long-term care insurance shall, as a protection against unintentional lapse, comply with the following:

- (1) (a) Notice before lapse or termination. No individual long-term care policy or certificate shall be issued until the insurer has received from the applicant either a written designation of at least one person, in addition to the applicant, who is to receive notice of lapse or termination of the policy or certificate for nonpayment of premium, or a written waiver dated and signed by the applicant electing not to designate additional persons to receive notice. The applicant has the right to designate at least one person who is to receive the notice of termination, in addition to the insured. Designation shall not constitute acceptance of any liability on the third party for services provided to the insured. The form used for the written designation must provide space clearly designated for listing at least one person. The designation shall include each person's *full name* and *home address*. In the case of an applicant who elects not to designate an additional person, the waiver shall state: "Protection against unintended lapse. I understand that I have the right to designate at least one person other than myself to receive notice of lapse or termination of this long-term care insurance policy for nonpayment of premium. I understand that notice will not be given until 30 days after a premium is due and unpaid. I elect NOT to designate a person to receive this notice." The insurer shall notify the insured of the right to change this written designation, no less often than once every 2 years.
- (b) When the policyholder or certificateholder pays premium for a long-term care insurance policy or certificate through a payroll or pension deduction plan, the requirements contained in paragraph (1)(a) need not be met until 60 days after the policyholder or certificateholder is no longer on such a payment plan. - (c) Lapse or termination for nonpayment of premium. No individual long-term care policy or certificate shall lapse or be terminated for nonpayment of premium unless the insurer, at least 30 days before the effective date of the lapse or termination, has given notice to the insured and to those persons designated pursuant to paragraph (1)(a), at the address provided by the insured for purposes of receiving notice of lapse or termination. Notice shall be given by first class United States mail, postage prepaid; and notice may not be given until 30 days after a premium is due and unpaid. Notice shall be deemed to have been given as of 5 days after the date of mailing.

- (2) Reinstatement. In addition to the requirement in subsection (1), a long-term care insurance policy or certificate shall include a provision that provides for reinstatement of coverage, in the event of lapse if the insurer is provided proof that the policyholder or certificateholder was cognitively impaired or had a loss of functional capacity before the grace period contained in the policy expired. This option shall be available to the insured if requested within 5 months after termination and shall allow for the collection of past due premium, where appropriate. The standard of proof of cognitive impairment or loss of functional capacity shall not be more stringent than the benefit eligibility criteria on cognitive impairment or the loss of functional capacity contained in the policy and certificate.

Rule 120-2-16-.08. Required Disclosure Provisions.

- (1) Renewability. Individual long-term care insurance policies shall contain a renewability provision.
- (a) The provision shall be appropriately captioned, shall appear on the first page of the policy, and shall clearly state that the coverage is guaranteed renewable or noncancellable. This provision shall not apply to policies that do not contain a renewability provision, and under which the right to nonrenew is reserved solely to the policyholder.
 - (b) A long-term care insurance policy or certificate, other than one where the insurer does not have the right to change the premium, shall include a statement that premium rates may change.
- (2) Riders and Endorsements. Except for riders or endorsements by which the insurer effectuates a request made in writing by the insured under an individual long-term care insurance policy, all riders or endorsements added to an individual long-term care insurance policy after date of issue or at reinstatement or renewal that reduce or eliminate benefits or coverage in the policy shall require signed acceptance by the individual insured. After the date of policy issue, any rider or endorsement which increases benefits or coverage with a concomitant increase in premium during the policy term must be agreed to in writing signed by the insured, except if the increased benefits or coverage are required by law. Where a separate additional premium is charged for benefits provided in connection with riders or endorsements, the premium charge shall be set forth in the policy, rider or endorsement.

- (3) **Payment of Benefits.** A long-term care insurance policy that provides for the payment of benefits based on standards described as "usual and customary," "reasonable and customary" or words of similar import shall include a definition of these terms and an explanation of the terms in its accompanying outline of coverage.
- (4) **Limitations.** If a long-term care insurance policy or certificate contains any limitations with respect to preexisting conditions, the limitations shall appear as a separate paragraph of the policy or certificate and shall be labeled as "Preexisting Condition Limitations."
- (5) **Other Limitations or Conditions on Eligibility for Benefits.** A long-term care insurance policy or certificate containing any limitations or conditions for eligibility other than those prohibited in O.C.G.A. Section [33-42-6](#) shall set forth a description of the limitations or conditions, including any required number of days of confinement, in a separate paragraph of the policy or certificate and shall label such paragraph "Limitations or Conditions on Eligibility for Benefits."
- (6) **Disclosure of Tax Consequences.** With regard to life insurance policies that provide an accelerated benefit for long-term care, a disclosure statement is required at the time of application for the policy or rider and at the time the accelerated benefit payment request is submitted that receipt of these accelerated benefits may be taxable, and that assistance should be sought from a personal tax advisor. The disclosure statement shall be prominently displayed on the first page of the policy or rider and any other related documents. This subsection shall not apply to qualified long-term care insurance contracts.
- (7) **Benefit Triggers.** Activities of daily living and cognitive impairment shall be used to measure an insured's need for long term care and shall be described in the policy or certificate in a separate paragraph and shall be labeled "Eligibility for the Payment of Benefits." Any additional benefit triggers shall also be explained in this section. If these triggers differ for different benefits, explanation of the trigger shall accompany each benefit description. If an attending physician or other specified person must certify a certain level of functional dependency in order to be eligible for benefits, this too shall be specified.
- (8) A qualified long-term care insurance contract shall include a disclosure statement in the policy and in the outline of coverage as contained in Section [120-2-16-31\(5\)](#) that the policy is intended to be a qualified long-term care insurance contract under Section 7702B(b) of the Internal Revenue Code of 1986, as amended.
- (9) A nonqualified long-term care insurance contract shall include a disclosure statement in the policy and in the outline of coverage as contained in Section [120-2-16-31\(5\)](#) that the policy is not intended to be a qualified long-term care insurance contract.

Rule 120-2-16-.09. Required Disclosure of Rating Practices to Consumers.

- (1) This section shall apply as follows:
 - (a) Except as provided in paragraph (b), this section applies to any long-term care policy or certificate issued in this state on or after April 1, 2008.
 - (b) For certificates issued on or after the effective date of this amended regulation under a group long-term care insurance policy as defined in O.C.G.A. Section [33-42-4](#), which policy was in force at the time this amended regulation became effective, the provisions of this section shall apply on the policy anniversary following April 1, 2009.
- (2) Other than policies for which no applicable premium rate or rate schedule increases can be made, insurers shall provide all of the information listed in this subsection to the applicant at the time of application or enrollment, unless the method of application does not allow for delivery at that time. In such a case, an insurer shall provide all of the information listed in this section to the applicant no later than at the time of delivery of the policy or certificate:
 - (a) A statement that the policy may be subject to rate increases in the future;
 - (b) An explanation of potential future premium rate revisions, and the policyholder's or certificateholder's option in the event of a premium rate revision;
 - (c) The premium rate or rate schedules applicable to the applicant that will be in effect until a request is made for an increase;
 - (d) A general explanation for applying premium rate or rate schedule adjustments that shall include:
 - (i) A description of when premium rate or rate schedule adjustments will be effective (e.g., next anniversary date, next billing date, etc.); and
 - (ii) The right to a revised premium rate or rate schedule as provided in paragraph (c) if the premium rate or rate schedule is changed;
 - (e)
 - (i) Information regarding each premium rate increase on this policy form or similar policy forms over the past 10 years for this state or any other state that, at a minimum, identifies:
 - (A) The policy forms for which premium rates have been increased;

- (B) The calendar years when the form was available for purchase; and
 - (C) The amount or percent of each increase. The percentage may be expressed as a percentage of the premium rate prior to the increase, and may also be expressed as minimum and maximum percentages if the rate increase is variable by rating characteristics.
- (ii) The insurer may, in a fair manner, provide additional explanatory information related to the rate increases.
 - (iii) An insurer shall have the right to exclude from the disclosure premium rate increases that only apply to blocks of business acquired from other nonaffiliated insurers or the long-term care policies acquired from other nonaffiliated insurers when those increases occurred prior to the acquisition.
 - (iv) If an acquiring insurer files for a rate increase on a long-term care policy form acquired from nonaffiliated insurers or a block of policy forms acquired from nonaffiliated insurers on or before the later of the effective date of this section or the end of a twenty-four-month period following the acquisition of the block or policies, the acquiring insurer may exclude that rate increase from the disclosure. However, the nonaffiliated selling company shall include the disclosure of that rate increase in accordance with subparagraph (i) of this paragraph.
 - (v) If the acquiring insurer in subparagraph (iv) above files for a subsequent rate increase, even within the twenty-four-month period, on the same policy form acquired from nonaffiliated insurers or block of policy forms acquired from nonaffiliated insurers referenced in subparagraph (iv), the acquiring insurer shall make all disclosures required by paragraph (e), including disclosure of the earlier rate increase referenced in subparagraph (iv).
- (3) An applicant shall sign an acknowledgement at the time of application, unless the method of application does not allow for signature at that time, that the insurer made the disclosure required under paragraphs (2)(a) and (2)(e). If due to the method of application the applicant cannot sign an acknowledgement at the time of application, the applicant shall sign no later than at the time of delivery of the policy or certificate.
 - (4) An insurer shall use the forms in Appendices B and F to comply with the requirements of subsections (2) and (3) of this section.
 - (5) An insurer shall provide notice of an upcoming premium rate schedule increase to all policyholders or certificateholders, if applicable, at least 45 days prior to the

implementation of the premium rate schedule increase by the insurer. The notice shall include the information required by subsection (2) when the rate increase is implemented.

 - (II) If the gross premiums for certain age groups appear to be inconsistent with this requirement, the Commissioner may request a demonstration under subsection (3) based on a standard age distribution; and

Rule 120-2-16-.13. Requirement to Offer Inflation Protection.

- (1) No insurer may offer a long-term care insurance policy unless the insurer also offers to the policyholder in addition to any other inflation protection the option to purchase a policy that provides for benefit levels to increase with benefit maximums or reasonable durations which are meaningful to account for reasonably anticipated increases in the costs of long-term care services covered by the policy. Insurers must offer to each policyholder, at the time of purchase, the option to purchase a policy with an inflation protection feature no less favorable than one of the following:
 - (a) Increases benefit levels annually in a manner so that the increases are compounded annually at a rate not less than five percent (5%);
 - (b) Guarantees the insured individual the right to periodically increase benefit levels without providing evidence of insurability or health status so long as the option for the previous period has not been declined. The amount of the additional benefit shall be no less than the difference between the existing policy benefit and that benefit compounded annually at a rate of at least five percent (5%) for the period beginning with the purchase of the existing benefit and extending until the year in which the offer is made; or

 - (i) A graphic comparison of the benefit levels of a policy that increases benefits over the policy period with a policy that does not increase benefits. The graphic comparison shall show benefit levels over at least a 20 year period.
 - (ii) Any expected premium increases or additional premiums to pay for automatic or optional benefit increases.
 - (b) An insurer may use a reasonable hypothetical, or a graphic demonstration, for the purposes of this disclosure.
- (5) Inflation protection benefit increases under a policy which contains these benefits shall continue without regard to an insured's age, claim status or claim history, or the length of time the person has been insured under the policy.
- (6) An offer of inflation protection that provides for automatic benefit increases shall include an offer of a premium which the insurer expects to remain constant. The offer shall disclose in a conspicuous manner that the premium may change in the future unless the premium is guaranteed to remain constant.
- (7)
 - (a) Inflation protection as provided in paragraph (1)(a) of this section shall be included in a long-term care insurance policy unless an insurer obtains a rejection of inflation protection signed by the policyholder as required in this subsection. The rejection may be either in the application or on a separate form.

One copy of the notice shall be retained by the applicant and an additional copy signed by the applicant shall be retained by the insurer. The required notice shall be provided in the following manner:
- (4) Direct Response Solicitations. Insurers using direct response solicitation methods shall deliver a notice regarding replacement of accident and sickness or long-term care

coverage to the applicant upon issuance of the policy. The required notice shall be provided in the following manner:

- (5) Where replacement is intended, the replacing insurer shall notify, in writing, the existing insurer of the proposed replacement. The existing policy shall be identified by the insurer, name of the insured and policy number or address including zip code. Notice shall be made within 5 working days from the date the application is received by the insurer or the date the policy is issued, whichever is sooner.
- (6) Life insurance policies that accelerate benefits for long-term care shall comply with this section if the policy being replaced is a long-term care insurance policy. If the policy being replaced is a life insurance policy, the insurer shall comply with the replacement requirements of Chapter 120-2-24. If a life insurance policy that accelerates benefits for long-term care is replaced by another such policy, the replacing insurer shall comply with both the long-term care and the life insurance replacement requirements.

**NOTICE TO APPLICANT REGARDING REPLACEMENT OF INDIVIDUAL
ACCIDENT AND SICKNESS OR LONG-TERM CARE INSURANCE**

[Insurance company's name and address]

SAVE THIS NOTICE! IT MAY BE IMPORTANT TO YOU IN THE FUTURE.

According to [your application] [information you have furnished], you intend to lapse or otherwise terminate existing accident and sickness or long-term care insurance and replace it with an individual long-term care insurance policy to be issued by [company name] Insurance Company. Your new policy provides thirty (30) days within which you may decide, without cost, whether you desire to keep the policy. For your own information and protection, you should be aware of and seriously consider certain factors which may affect the insurance protection available to you under the new policy.

You should review this new coverage carefully, comparing it with all accident and sickness or long-term care insurance coverage you now have, and terminate your present policy only if, after due consideration, you find that purchase of this long-term care coverage is a wise decision.

**STATEMENT TO APPLICANT BY AGENT [BROKER OR OTHER
REPRESENTATIVE]:**

(Use additional sheets, as necessary.)

I have reviewed your current medical or health insurance coverage. I believe the replacement of insurance involved in this transaction materially improves your position. My conclusion has taken into account the following considerations, which I call to your attention:

1. Health conditions that you may presently have (preexisting conditions), may not be immediately or fully covered under the new policy. This could result in denial or delay in payment of benefits under the new policy, whereas a similar claim might have been payable under your present policy.
2. State law provides that your replacement policy or certificate may not contain new preexisting conditions or probationary periods. The insurer will waive any time periods applicable to preexisting conditions or probationary periods in the new policy (or coverage) for similar benefits to the extent such time was spent (depleted) under the original policy.
3. If you are replacing existing long-term care insurance coverage, you may wish to secure the advice of your present insurer or its agent regarding the proposed replacement of your present policy. This is not only your right, but it is also in your best interest to make sure you understand all the relevant factors involved in replacing your present coverage.
4. If, after due consideration, you still wish to terminate your present policy and replace it with new coverage, be certain to truthfully and completely answer all questions on the application concerning your medical health history. Failure to include all material medical information on an application may provide a basis for the company to deny any future claims and to refund your premium as though your policy had never been in force. After the application has been completed and before your sign it, reread it carefully to be certain that all information has been properly recorded.

Rule 120-2-16-.18. Reserve Standards.

- (1) When long-term care benefits are provided through the acceleration of benefits under group or individual life policies or riders to such policies, policy reserves for the benefits shall be determined in accordance with O.C.G.A. Section [33-10-13](#). Claim reserves shall also be established in the case when the policy or rider is in claim status.

Reserves for policies and riders subject to this subsection should be based on the multiple decrement model utilizing all relevant decrements except for voluntary termination rates. Single decrement approximations are acceptable if the calculation produces essentially similar reserves, if the reserve is clearly more conservative, or if the reserve is immaterial. The calculations may take into account the reduction in life insurance benefits due to the payment of long-term care benefits. However, in no event shall the reserves for the long-term care benefit and the life insurance benefit be less than the reserves for the life insurance benefit assuming no long-term care benefit.

In the development and calculation of reserves for policies and riders subject to this subsection, due regard shall be given to the applicable policy provisions, marketing methods, administrative procedures and all other considerations which have an impact on projected claim costs, including, but not limited to, the following:

- (a) Definition of insured events;
- (b) Covered long-term care facilities;
- (c) Existence of home convalescence care coverage;
- (d) Definition of facilities;
- (e) Existence or absence of barriers to eligibility;
- (f) Premium waiver provision;
- (g) Renewability;
- (h) Ability to raise premiums;
- (i) Marketing method;
- (j) Underwriting procedures;
- (k) Claims adjustment procedures;
- (l) Waiting period;
- (m) Maximum benefit;
- (n) Availability of eligible facilities;
- (o) Margins in claim costs;
- (p) Optional nature of benefit;

- (q) Delay in eligibility for benefit;
- (r) Inflation protection provisions; and
- (s) Guaranteed insurability option.

Any applicable valuation morbidity table shall be certified as appropriate as a statutory valuation table by a member of the American Academy of Actuaries.

- (2) When long-term care benefits are provided other than as in subsection (1) above, reserves shall be determined in accordance with O.C.G.A. Section [33-10-8](#).

Rule 120-2-16-.19. Loss Ratio.

- (1) This section shall apply to all long-term care insurance policies or certificates except those covered under Sections [120-2-16-.10](#) and [120-2-16-.20](#).
- (2) Benefits under long-term care insurance policies shall be deemed reasonable in relation to premiums provided the expected loss ratio is at least 60 percent, calculated in a manner which provides for adequate reserving of the long-term care insurance risk. In evaluating the expected loss ratio, due consideration shall be given to all relevant factors, including:
 - (a) Statistical credibility of incurred claims experience and earned premiums;
 - (b) The period for which rates are computed to provide coverage;
 - (c) Experienced and projected trends;
 - (d) Concentration of experience within early policy duration;
 - (e) Expected claim fluctuation;
 - (f) Experience refunds, adjustments or dividends;
 - (g) Renewability features;
 - (h) All appropriate expense factors;
 - (i) Interest;
 - (j) Experimental nature of the coverage;

- (k) Policy reserves;
 - (l) Mix of business by risk classification; and
 - (m) Product features such as long elimination periods, high deductibles and high maximum limits.
- (3) Subsection (2) shall not apply to life insurance policies that accelerate benefits for long-term care. A life insurance policy that funds long-term care benefits entirely by accelerating the death benefit is considered to provide reasonable benefits in relation to premiums paid, if the policy complies with all of the following provisions:
- (a) The interest credited internally to determine cash value accumulations, including long-term care, if any, are guaranteed not to be less than the minimum guaranteed interest rate for cash value accumulations without long-term care set forth in the policy;
 - (b) The portion of the policy that provides life insurance benefits meets the nonforfeiture requirements of O.C.G.A. Section [33-25-4](#);
 - (c) The policy meets the disclosure requirements of O.C.G.A. Section [33-42-6](#);
 - (d) Any policy illustration that meets the applicable requirements of the NAIC Life Insurance Illustrations Model Regulation; and
 - (e) An actuarial memorandum is filed with the insurance department that includes:
 - (i) A description of the basis on which the long-term care rates were determined;
 - (ii) A description of the basis for the reserves;
 - (iii) A summary of the type of policy, benefits, renewability, general marketing method, and limits on ages of issuance;
 - (iv) A description and a table of each actuarial assumption used. For expenses, an insurer must include percent of premium dollars per policy and dollars per unit of benefits, if any;
 - (v) A description and a table of the anticipated policy reserves and additional reserves to be held in each future year for active lives;
 - (vi) The estimated average annual premium per policy and the average issue age;
 - (vii) A statement as to whether underwriting is performed at the time of application. The statement shall indicate whether underwriting is used

and, if used, the statement shall include a description of the type or types of underwriting used, such as medical underwriting or functional assessment underwriting. Concerning a group policy, the statement shall indicate whether the enrollee or any dependent will be underwritten and when underwriting occurs; and

- (viii) A description of the effect of the long-term care policy provision on the required premiums, nonforfeiture values and reserves on the underlying life insurance policy, both for active lives and those in long-term care claim status.

Rule 120-2-16-.20. Premium Rate Schedule Increases.

- (1) This section shall apply as follows:
 - (a) Except as provided in paragraph (2), this section applies to any long-term care policy or certificate issued in this state on or after October 1, 2008.
 - (b) For certificates issued on or after the effective date of this amended regulation under a group long-term care insurance policy as defined in O.C.G.A. Section [33-42-4](#), which policy was in force at the time this amended regulation became effective, the provisions of this section shall apply on the policy anniversary following April 1, 2009.
- (2) An insurer shall provide notice of a pending premium rate schedule increase, including an exceptional increase, to the Commissioner at least 90 days prior to the notice to the policyholders and shall include:
 - (a) Information required by Section [120-2-16-.09](#);
 - (b) Certification by a qualified actuary that:
 - (i) If the requested premium rate schedule increase is implemented and the underlying assumptions, which reflect moderately adverse conditions, are realized, no further premium rate schedule increases are anticipated;
 - (ii) The premium rate filing is in compliance with the provisions of this section;

- (c) An actuarial memorandum justifying the rate schedule change request that includes:
 - (i) Lifetime projections of earned premiums and incurred claims based on the filed premium rate schedule increase; and the method and assumptions used in determining the projected values, including reflection of any assumptions that deviate from those used for pricing other forms currently available for sale;
 - (A) Annual values for the five years preceding and the three years following the valuation date shall be provided separately;
 - (B) The projections shall include the development of the lifetime loss ratio, unless the rate increase is an exceptional increase;
 - (C) The projections shall demonstrate compliance with subsection (3); and
 - (D) For exceptional increases,
 - (I) The projected experience should be limited to the increases in claims expenses attributable to the approved reasons for the exceptional increase; and
 - (II) In the event the Commissioner determines as provided in Section [120-2-16-.04\(1\)\(d\)](#) that offsets may exist, the insurer shall use appropriate net projected experience;
 - (ii) Disclosure of how reserves have been incorporated in this rate increase whenever the rate increase will trigger contingent benefit upon lapse;
 - (iii) Disclosure of the analysis performed to determine why a rate adjustment is necessary, which pricing assumptions were not realized and why, and what other actions taken by the company have been relied on by the actuary;
 - (iv) A statement that policy design, underwriting and claims adjudication practices have been taken into consideration; and
 - (v) In the event that it is necessary to maintain consistent premium rates for new certificates and certificates receiving a rate increase, the insurer will need to file composite rates reflecting projections of new certificates;
- (d) A statement that renewal premium rate schedules are not greater than new business premium rate schedules except for differences attributable to benefits, unless sufficient justification is provided to the Commissioner; and

- (e) Sufficient information for review and approval of the premium rate schedule increase by the Commissioner.
- (3) All premium rate schedule increases shall be determined in accordance with the following requirements:
 - (a) Exceptional increases shall provide that 70 percent of the present value of projected additional premiums from the exceptional increase will be returned to policyholders in benefits;
 - (b) Premium rate schedule increases shall be calculated such that the sum of the accumulated value of incurred claims, without the inclusion of active life reserves, and the present value of future projected incurred claims, without the inclusion of active life reserves, will not be less than the sum of the following:
 - (i) The accumulated value of the initial earned premium times 58 percent;
 - (ii) 85 percent of the accumulated value of prior premium rate schedule increases on an earned basis;
 - (iii) The present value of future projected initial earned premiums times 58 percent; and
 - (iv) 85 percent of the present value of future projected premiums not in subparagraph (iii) on an earned basis;
 - (c) In the event that a policy form has both exceptional and other increases, the values in subparagraphs (b)(ii) and (iv) will also include 70 percent for exceptional rate increase amounts; and
 - (d) All present and accumulated values used to determine rate increases shall use the maximum valuation interest rate for contract reserves. The actuary shall disclose as part of the actuarial memorandum the use of any appropriate averages.
- (4) For each rate increase that is implemented, the insurer shall file for approval by the Commissioner updated projections, as defined in subsection (2)(c)(i), annually for the next three years and include a comparison of actual results to projected values. The Commissioner may extend the period to greater than three years if actual results are not consistent with projected values from prior projections. For group insurance policies that meet the conditions in subsection (11), the projections required by this subsection shall be provided to the policyholder in lieu of filing with the Commissioner.
- (5) If any premium rate in the revised premium rate schedule is greater than 200 percent of the comparable rate in the initial premium schedule, lifetime projections, as defined in subsection (2)(c)(i), shall be filed for approval by the Commissioner every five years following the end of the required period in subsection (4). For group insurance policies

that meet the conditions in subsection (11), the projections required by this subsection shall be provided to the policyholder in lieu of filing with the Commissioner.

- (6)
 - (a) If the Commissioner has determined that the actual experience following a rate increase does not adequately match the projected experience and that the current projections under moderately adverse conditions demonstrate that incurred claims will not exceed proportions of premiums specified in subsection (3), the Commissioner may require the insurer to implement any of the following:
 - (i) Premium rate schedule adjustments; or
 - (ii) Other measures to reduce the difference between the projected and actual experience.
 - (b) In determining whether the actual experience adequately matches the projected experience, consideration should be given to Subsection (2)(c)(v) if applicable.
- (7) If the majority of the policies or certificates to which the increase is applicable are eligible for the contingent benefit upon lapse, the insurer shall file:
 - (a) A plan, subject to Commissioner approval, for improved administration or claims processing designed to eliminate the potential for further deterioration of the policy form requiring further premium rate schedule increases, or both, or to demonstrate that appropriate administration and claims processing have been implemented or are in effect; otherwise the Commissioner may impose the condition in subsection (8) of this section; and
 - (b) The original anticipated lifetime loss ratio, and the premium rate schedule increase that would have been calculated according to subsection (3) had the greater of the original anticipated lifetime loss ratio or 58 percent been used in the calculations described in subsection (3)(b)(i) and (iii).
- (8)
 - (a) For a rate increase filing that meets the following criteria, the Commissioner shall review, for all policies included in the filing, the projected lapse rates and past lapse rates during the 12 months following each increase to determine if significant adverse lapsation has occurred or is anticipated:
 - (i) The rate increase is not the first rate increase requested for the specific policy form or forms;
 - (ii) The rate increase is not an exceptional increase; and
 - (iii) The majority of the policies or certificates to which the increase is applicable are eligible for the contingent benefit upon lapse.

- (b) In the event significant adverse lapsation has occurred, is anticipated in the filing or is evidenced in the actual results as presented in the updated projections provided by the insurer following the requested rate increase, the Commissioner may determine that a rate spiral exists. Following the determination that a rate spiral exists, the Commissioner may require the insurer to offer, without underwriting, to all in force insureds subject to the rate increase the option to replace existing coverage with one or more reasonably comparable products being offered by the insurer or its affiliates.
 - (i) The offer shall:
 - (A) Be subject to the approval of the Commissioner;
 - (B) Be based on actuarially sound principles, but not be based on attained age; and
 - (C) Provide that maximum benefits under any new policy accepted by an insured shall be reduced by comparable benefits already paid under the existing policy.
 - (ii) The insurer shall maintain the experience of all the replacement insureds separate from the experience of insureds originally issued the policy forms. In the event of a request for a rate increase on the policy form, the rate increase shall be limited to the lesser of:
 - (A) The maximum rate increase determined based on the combined experience; and
 - (B) The maximum rate increase determined based only on the experience of the insureds originally issued the form plus 10 percent.
- (9) If the Commissioner determines that the insurer has exhibited a persistent practice of filing inadequate initial premium rates for long-term care insurance, the Commissioner may, in addition to the provisions of subsection (8) of this section, prohibit the insurer from either of the following:
 - (a) Filing and marketing comparable coverage for a period of up to five years; or
 - (b) Offering all other similar coverages and limiting marketing of new applications to the products subject to recent premium rate schedule increases.
- (10) Subsections (1) through (9) shall not apply to policies for which the long-term care benefits provided by the policy are incidental, as defined in Section [120-2-16-.04\(2\)](#), if the policy complies with all of the following provisions:

- (a) The interest credited internally to determine cash value accumulations, including long-term care, if any, are guaranteed not to be less than the minimum guaranteed interest rate for cash value accumulations without long-term care set forth in the policy;
- (b) The portion of the policy that provides insurance benefits other than long-term care coverage meets the nonforfeiture requirements as applicable in any of the following:
 - (i) O.C.G.A. Section [33-10-13](#) for Life Insurance or Annuities; or
 - (ii) O.C.G.A. Section [33-11-66\(i\)](#) for Variable Annuities.
- (c) The policy meets the disclosure requirements of O.C.G.A. Section [33-42-6](#);
- (d) An actuarial memorandum is filed with the Georgia Insurance Department that includes:
 - (i) A description of the basis on which the long-term care rates were determined;
 - (ii) A description of the basis for the reserves;
 - (iii) A summary of the type of policy, benefits, renewability, general marketing method, and limits on ages of issuance;
 - (iv) A description and a table of each actuarial assumption used. For expenses, an insurer must include percent of premium dollars per policy and dollars per unit of benefits, if any;
 - (v) A description and a table of the anticipated policy reserves and additional reserves to be held in each future year for active lives;
 - (vi) The estimated average annual premium per policy and the average issue age;
 - (vii) A statement as to whether underwriting is performed at the time of application. The statement shall indicate whether underwriting is used and, if used, the statement shall include a description of the type or types of underwriting used, such as medical underwriting or functional assessment underwriting. Concerning a group policy, the statement shall indicate whether the enrollee or any dependent will be underwritten and when underwriting occurs; and
 - (viii) A description of the effect of the long-term care policy provision on the required premiums, nonforfeiture values and reserves on the underlying

insurance policy, both for active lives and those in long-term care claim status.

- (11) Subsections (6) and (8) shall not apply to group insurance policies as defined in Section O.C.G.A. Section [33-42-4](#) where:
- (a) The policies insure 250 or more persons and the policyholder has 5,000 or more eligible employees of a single employer; or
 - (b) The policyholder, and not the certificateholders, pays a material portion of the premium, which shall not be less than twenty percent (20%) of the total premium for the group in the calendar year prior to the year a rate increase is filed.

 - (b) Display prominently by type, stamp or other appropriate means, on the first page of the outline of coverage and policy the following:

"Notice to buyer: This policy may not cover all of the costs associated with long-term care incurred by the buyer during the period of coverage. The buyer is advised to review carefully all policy limitations."
 - (c) Provide copies of the disclosure forms required in Section [120-2-16-.09\(3\)](#) (Appendices B and F) to the applicant.
 - (d) Inquire and otherwise make every reasonable effort to identify whether a prospective applicant or enrollee for long-term care insurance already has accident and sickness or long-term care insurance and the types and amounts of any such insurance, except that in the case of qualified long-term care insurance contracts, an inquiry into whether a prospective applicant or enrollee for long-term care insurance has accident and sickness insurance is not required.
 - (e) Every insurer or entity marketing long-term care insurance shall establish auditable procedures for verifying compliance with this subsection (1).
 - (f) If the state in which the policy or certificate is to be delivered or issued for delivery has a senior insurance counseling program approved by the Commissioner, the insurer shall, at solicitation, provide written notice to the prospective policyholder and certificateholder that the program is available and the name, address and telephone number of the program.

- (3)
- (a) With respect to the obligations set forth in this subsection, the primary responsibility of an association, as defined in O.C.G.A. Rule 120-2-16-.24. Suitability.

- (1) This section shall not apply to life insurance policies that accelerate benefits for long-term care.
- (2) Every insurer, health care service plan or other entity marketing long-term care insurance (the "issuer") shall:
 - (a) Develop and use suitability standards to determine whether the purchase or replacement of long-term care insurance is appropriate for the needs of the applicant;
 - (b) Train its agents in the use of its suitability standards; and
 - (c) Maintain a copy of its suitability standards and make them available for inspection upon request by the Commissioner.
- (3)
 - (a) To determine whether the applicant meets the standards developed by the issuer, the agent and issuer shall develop procedures that take the following into consideration:
 - (i) The ability to pay for the proposed coverage and other pertinent financial information related to the purchase of the coverage;
 - (ii) The applicant's goals or needs with respect to long-term care and the advantages and disadvantages of insurance to meet these goals or needs; and
 - (iii) The values, benefits and costs of the applicant's existing insurance, if any, when compared to the values, benefits and costs of the recommended purchase or replacement.
 - (b) The issuer, and where an agent is involved, the agent shall make reasonable efforts to obtain the information set out in paragraph (a) above. The efforts shall include presentation to the applicant, at or prior to application, the "Long-Term Care Insurance Personal Worksheet." The personal worksheet used by the issuer shall contain, at a minimum, the information in the format contained in Appendix B, in not less than 12 point type. The issuer may request the applicant to provide additional information to comply with its suitability standards. A copy of the issuer's personal worksheet shall be filed with the Commissioner.

- (c) A completed personal worksheet shall be returned to the issuer prior to the issuer's consideration of the applicant for coverage, except the personal worksheet need not be returned for sales of employer group long-term care insurance to employees and their spouses.
 - (d) The sale or dissemination outside the company or agency by the issuer or agent of information obtained through the personal worksheet in Appendix B is prohibited.
- (4) The issuer shall use the suitability standards it has developed pursuant to this section in determining whether issuing long-term care insurance coverage to an applicant is appropriate.
 - (5) Agents shall use the suitability standards developed by the issuer in marketing long-term care insurance.
 - (6) At the same time as the personal worksheet is provided to the applicant, the disclosure form entitled "Things You Should Know Before You Buy Long-Term Care Insurance" shall be provided. The form shall be in the format contained in Appendix C, in not less than 12 point type.
 - (7) If the issuer determines that the applicant does not meet its financial suitability standards, or if the applicant has declined to provide the information, the issuer may reject the application. In the alternative, the issuer shall send the applicant a letter similar to Appendix D. However, if the applicant has declined to provide financial information, the issuer may use some other method to verify the applicant's intent. Either the applicant's returned letter or a record of the alternative method of verification shall be made part of the applicant's file.
 - (8) The issuer shall report annually to the Commissioner the total number of applications received from residents of this state, the number of those who declined to provide information on the personal worksheet, the number of applicants who did not meet the suitability standards, and the number of those who chose to confirm after receiving a suitability letter.

Rule 120-2-16-.26. Availability of New Services or Providers.

- (1) An insurer shall notify policyholders of the availability of a new long-term policy series that provides coverage for new long-term care services or providers material in nature and not previously available through the insurer to the general public. The notice shall be provided within 12 months of the date of the new policy series is made available for sale in this state.
- (2) Notwithstanding subsection (1) above, notification is not required for any policy issued prior to the effective date of this section or to any policyholder or certificateholder who is currently eligible for benefits, within an elimination period or on a claim, or who previously had been in claim status, or who would not be eligible to apply for coverage due to issue age limitations under the new policy. The insurer may require that policyholders meet all eligibility requirements, including underwriting and payment of the required premium to add such new services or providers.
- (3) The insurer shall make the new coverage available in one of the following ways:
 - (a) By adding a rider to the existing policy and charging a separate premium for the new rider based on the insured's attained age;
 - (b) By exchanging the existing policy or certificate for one with an issue age based on the present age of the insured and recognizing past insured status by granting premium credits toward the premiums for the new policy or certificate. The premium credits shall be based on premiums paid or reserves held for the prior policy or certificate;
 - (c) By exchanging the existing policy or certificate for a new policy or certificate in which consideration for past insured status shall be recognized by setting the premium for the new policy or certificate at the issue age of the policy or certificate being exchanged. The cost for the new policy or certificate may recognize the difference in reserves between the new policy or certificate and the original policy or certificate; or
 - (d) By an alternative program developed by the insurer that meets the intent of this section if the program is filed with and approved by the Commissioner.
- (4) An insurer is not required to notify policyholders of a new proprietary policy series created and filed for use in a limited distribution channel. For purposes of this subsection, "limited distribution channel" means through a discrete entity, such as a financial institution or brokerage, for which specialized products are available that are not available

for sale to the general public. Policyholders that purchased such a new proprietary policy shall be notified when a new long-term care policy series that provides coverage for new long-term care services or providers material in nature is made available to that limited distribution channel.

- (5) Policies issued pursuant to this section shall be considered exchanges and not replacements. These exchanges shall not be subject to Sections [120-2-16-.14](#) and 120-2-16-24, and the reporting requirements of Section [120-2-16-.15\(1\) through \(5\)](#) of this Regulation.
- (6) Where the policy is offered through an employer, labor organization, professional, trade or occupational association, the required notification in subsection (1) above shall be made to the offering entity. However, if the policy is issued to a group defined in O.C.G.A. Section [33-42-4](#), the notification shall be made to each certificateholder.
- (7) Nothing in this section shall prohibit an insurer from offering any policy, rider, certificate or coverage change to any policyholder or certificateholder. However, upon request any policyholder may apply for currently available coverage that includes the new services or providers. The insurer may require that policyholders meet all eligibility requirements, including underwriting and payment of the required premium to add such new services or providers.
- (8) This section does not apply to life insurance policies or riders containing accelerated long-term care benefits.
- (9) This section shall become effective on or after April 1, 2008.

Rule 120-2-16-.27. Right to Reduce Coverage and Lower Premiums.

- (1)
 - (a) Every long-term care insurance policy and certificate shall include a provision that allows the policyholder or certificateholder to reduce coverage and lower the policy or certificate premium in at least one of the following ways:
 - (i) Reducing the maximum benefit; or
 - (ii) Reducing the daily, weekly or monthly benefit amount.
 - (b) The insurer may also offer other reduction options that are consistent with the policy or certificate design or the carrier's administrative processes.

- (2) The provision shall include a description of the ways in which coverage may be reduced and the process for requesting and implementing a reduction in coverage.
- (3) The age to determine the premium for the reduced coverage shall be based on the age used to determine the premiums for the coverage currently in force.
- (4) The insurer may limit any reduction in coverage to plans or options available for that policy form and to those for which benefits will be available after consideration of claims paid or payable.
- (5) If a policy or certificate is about to lapse, the insurer shall provide a written reminder to the policyholder or certificateholder of his or her right to reduce coverage and premiums in the notice required by Section [120-2-16-.07\(1\)\(c\)](#) of this regulation.
- (6) This section does not apply to life insurance policies or riders containing accelerated long-term care benefits.

Rule 120-2-16-.28. Nonforfeiture Benefit Requirement.

- (1) Except as provided in subsection (2), a long-term care insurance policy may not be delivered or issued for delivery in this state unless the policyholder or certificateholder has been offered the option of purchasing a policy or certificate including a nonforfeiture benefit. The offer of a nonforfeiture benefit may be in the form of a rider that is attached to the policy. In the event the policyholder or certificateholder declines the nonforfeiture benefit, the insurer shall provide a contingent benefit upon lapse that shall be available for a specified period of time following a substantial increase in premium rates.
- (2) When a group long term care insurance policy is issued, the offer required in subsection (1) shall be made to the group policyholder. However, if the policy is issued as group long-term care insurance as defined in O.C.G.A. Section [33-42-4](#), other than to a continuing care retirement community or similar entity, the offering shall be made to each proposed certificateholder.
- (3) This section does not apply to life insurance policies or riders containing accelerated long-term care benefits.

- (4) To comply with the requirement to offer a nonforfeiture benefit pursuant to the provisions of O.C.G.A. Section [33-42-6](#) and Rule Section [120-2-16-.28\(1\)](#):
- (a) A policy or certificate offered with nonforfeiture benefits shall have coverage elements, eligibility, benefit triggers and benefit length that are the same as coverage to be issued without nonforfeiture benefits. The nonforfeiture benefit included in the offer shall be the benefit described in subsection (5); and
 - (b) The offer shall be in writing if the nonforfeiture benefit is not otherwise described in the Outline of Coverage or other materials given to the prospective policyholder.
- (5) If the offer required to be made under subsection (1) is rejected, the insurer shall provide the contingent benefit upon lapse described in this Section. Even if this offer is accepted for a policy with a fixed or limited premium paying period, the contingent benefit on lapse in subsection (6)(d) shall still apply.
- (6)
- (a) After rejection of the offer required under subsection (1), for individual and group policies without nonforfeiture benefits issued after the effective date of this section, the insurer shall provide a contingent benefit upon lapse.
 - (b) In the event a group policyholder elects to make the nonforfeiture benefit an option to the certificateholder, a certificate shall provide either the nonforfeiture benefit or the contingent benefit upon lapse.
 - (c) A contingent benefit on lapse shall be triggered every time an insurer increases the premium rates to a level which results in a cumulative increase of the annual premium equal to or exceeding the percentage of the insured's initial annual premium set forth below based on the insured's issue age, and the policy or certificate lapses within 120 days of the due date of the premium so increased. Unless otherwise required, policyholders shall be notified at least 30 days prior to the due date of the premium reflecting the rate increase.

This provision shall be in addition to the contingent benefit provided by paragraph (c) above and where both are triggered, the benefit provided shall be at the option of the insured.

- (e) On or before the effective date of a substantial premium increase as defined in paragraph (c) above, the insurer shall:
 - (i) Offer to reduce policy benefits provided by the current coverage without the requirement of additional underwriting so that required premium payments are not increased;
 - (ii) Offer to convert the coverage to a paid-up status with a shortened benefit period in accordance with the terms of subsection (5). This option may be elected at any time during the 120-day period referenced in subsection (6)(c); and
 - (iii) Notify the policyholder or certificateholder that a default or lapse at any time during the 120-day period referenced in subsection (6)(c) shall be deemed to be the election of the offer to convert in subparagraph (ii) above unless the automatic option in paragraph (f)(iii) applies.
- (f) On or before the effective date of a substantial premium increase as defined in paragraph (6)(c) above, the insurer shall:
 - (i) Offer to reduce policy benefits provided by the current coverage without the requirement of additional underwriting so that required premium payments are not increased;
 - (ii) Offer to convert the coverage to a paid-up status where the amount payable for each benefit is 90 percent of the amount payable in effect immediately prior to lapse times the ratio of the number of completed months of paid premiums divided by the number of months in the premium paying period. This option may be elected at any time during the 120-day period referenced in subsection (6)(d); and

- (iii) Notify the policyholder or certificateholder that a default or lapse at any time during the 120-day period referenced in subsection (6)(d) shall be deemed to be the election of the offer to convert in subparagraph (ii) above if the ratio is 40 percent or more.
- (7) Benefits continued as nonforfeiture benefits, including contingent benefits upon lapse in accordance with subsection (6)(c) but not subsection (6)(d), are described in this subsection:
 - (a) For purposes of this subsection, attained age rating is defined as a schedule of premiums starting from the issue date which increases age at least one percent per year prior to age 50, and at least 3 percent per year beyond age 50.
 - (b) For purposes of this subsection, the nonforfeiture benefit shall be of a shortened benefit period providing paid-up long-term care insurance coverage after lapse. The same benefits (amounts and frequency in effect at the time of lapse but not increased thereafter) will be payable for a qualifying claim, but the lifetime maximum dollars or days of benefits shall be determined as specified in paragraph (c).
 - (c) The standard nonforfeiture credit will be equal to 100 percent of the sum of all premiums paid, including the premiums paid prior to any changes in benefits. The insurer may offer additional shortened benefit period options, as long as the benefits for each duration equal or exceed the standard nonforfeiture credit for that duration. However, the minimum nonforfeiture credit shall not be less than 30 times the daily nursing home benefit at the time of lapse. In either event, the calculation of the nonforfeiture credit is subject to the limitation of subsection (8).
 - (d)
 - (i) The nonforfeiture benefit shall begin not later than the end of the third year following the policy or certificate issue date. The contingent benefit upon lapse shall be effective during the first three years as well as thereafter.
 - (ii) Notwithstanding subparagraph (i), for a policy or certificate with attained age rating, the nonforfeiture benefit shall begin on the earlier of:
 - (A) The end of the tenth year following the policy or certificate issue date; or
 - (B) The end of the second year following the date the policy or certificate is no longer subject to attained age rating.
 - (e) Nonforfeiture credits may be used for all care and services qualifying for benefits under the terms of the policy or certificate, up to the limits specified in the policy or certificate.

- (8) All benefits paid by the insurer while the policy or certificate is in premium paying status and in the paid up status will not exceed the maximum benefits which would be payable if the policy or certificate had remained in premium paying status.
- (9) There shall be no difference in the minimum nonforfeiture benefits as required under this section for group and individual policies.
- (10) The requirements set forth in this section shall become effective 12 months after adoption of this provision and shall apply as follows:
- (a) Except as provided in paragraphs (b) and (c) below, the provisions of this section apply to any long-term care policy issued in this state on or after the effective date of this amended regulation.
 - (b) For certificates issued on or after the effective date of this section, under a group long-term care insurance policy as defined in O.C.G.A. Section [33-42-4](#), which policy was in force at the time this amended regulation became effective, the provisions of this section shall not apply.
 - (c) The last sentence in subsection (5) and subsections (6)(d) and (6)(f) shall apply to any long-term care insurance policy or certificate issued in this state after six months after their adoption, except new certificates on a group policy as defined in O.C.G.A. Section [33-42-4](#) one year after adoption.
- (11) Premiums charged for a policy or certificate containing nonforfeiture benefits or a contingent benefit on lapse shall be subject to the loss ratio requirements of Section [120-2-16-.19](#) or Section [120-2-16-.20](#), whichever is applicable, treating the policy as a whole.
- (12) To determine whether contingent nonforfeiture upon lapse provisions are triggered under subsection (6)(c) or (6)(d), a replacing insurer that purchased or otherwise assumed a block or blocks of long-term care insurance policies from another insurer shall calculate the percentage increase based on the initial annual premium paid by the insured when the policy was first purchased from the original insurer.
- (13) A nonforfeiture benefit for qualified long-term care insurance contracts that are level premium contracts shall be offered that meets the following requirements:
- (a) The nonforfeiture provision shall be appropriately captioned;
 - (b) The nonforfeiture provision shall provide a benefit available in the event of a default in the payment of any premiums and shall state that the amount of the benefit may be adjusted subsequent to being initially granted only as necessary to reflect changes in claims, persistency and interest as reflected in changes in rates for premium paying contracts approved by the Commissioner for the same contract form; and

- (c) The nonforfeiture provision shall provide at least one of the following:
 - (i) Reduced paid-up insurance;
 - (ii) Extended term insurance;
 - (iii) Shortened benefit period; or
 - (iv) Other similar offerings approved by the Commissioner.
- (14) The requirements of this section shall apply to any long-term care policy issued in this state on or after April 1, 2009.

1. This policy is [an individual policy of insurance]([a group policy] which was issued in the [indicate jurisdiction in which group policy was issued]).
2. **PURPOSE OF OUTLINE OF COVERAGE.** This outline of coverage provides a very brief description of the important features of the policy. You should compare this outline of coverage to outlines of coverage for other policies available to you. This is not an insurance contract, but only a summary of coverage. Only the individual or group policy contains governing contractual provisions. This means that the policy or group policy sets forth in detail the rights and obligations of both you and the insurance company. Therefore, if you purchase this coverage, or any other coverage, it is important that you **READ YOUR POLICY (OR CERTIFICATE) CAREFULLY!**
3. **FEDERAL TAX CONSEQUENCES.**

This [POLICY] [CERTIFICATE] is intended to be a federally tax-qualified long-term care insurance contract under Section 7702B(b) of the Internal Revenue Code of 1986, as amended.

OR

Federal Tax Implications of this [POLICY] [CERTIFICATE]. This [POLICY] [CERTIFICATE] is not intended to be a federally tax-qualified long-term care insurance contract under Section 7702B(b) of the Internal Revenue Code of 1986 as amended. Benefits received under the [POLICY] [CERTIFICATE] may be taxable as income.

4. **Terms Under Which the Policy OR Certificate May Be Continued in Force or Discontinued.**

- (a) For long-term care health insurance policies or certificates describe one of the following permissible policy renewability provisions:
 - (1) [Policies and certificates that are guaranteed renewable shall contain the following statement:] RENEWABILITY: THIS POLICY [CERTIFICATE] IS GUARANTEED RENEWABLE. This means you have the right, subject to the terms of your policy, [certificate] to continue this policy as long as you pay your premiums on time. [Company Name] cannot change any of the terms of your policy on its own, except that, in the future, IT MAY INCREASE THE PREMIUM YOU PAY.
 - (2) [Policies and certificates that are noncancellable shall contain the following statement:] RENEWABILITY: THIS POLICY [CERTIFICATE] IS NONCANCELLABLE. This means that you have the right, subject to the terms of your policy, to continue this policy as long as you pay your premiums on time. [Company Name] cannot change any of the terms of your policy on its own and cannot change the premium you currently pay. However, if your policy contains an inflation protection feature where you choose to increase your benefits, [Company Name] may increase your premium at that time for those additional benefits.
- (b) [For group coverage, specifically describe continuation/conversion provisions applicable to the certificate and group policy;]
- (c) [Describe waiver of premium provisions or state that there are not such provisions.]

5. TERMS UNDER WHICH THE COMPANY MAY CHANGE PREMIUMS.

[In bold type larger than the maximum type required to be used for the other provisions of the outline of coverage, state whether or not the company has a right to change the premium, and if a right exists, describe clearly and concisely each circumstance under which the premium may change.]

6. TERMS UNDER WHICH THE POLICY OR CERTIFICATE MAY BE RETURNED AND PREMIUM REFUNDED.

- (a) [Provide a brief description of the right to return-"free look" provision of the policy.]
- (b) [Include a statement that the policy either does or does not contain provisions providing for a refund or partial refund of premium upon the

death of an insured or surrender of the policy or certificate. If the policy contains such provisions, include a description of them.]

7. **THIS IS NOT MEDICARE SUPPLEMENT COVERAGE.** If you are eligible for Medicare, review the Medicare Supplement Buyer's Guide available from the insurance company.

- (a) [For agents] Neither [insert company name] nor its agents represent Medicare, the federal government or any state government.
- (b) [For direct response] [insert company name] is not representing Medicare, the federal government or any state government.

8. **LONG-TERM CARE COVERAGE.** Policies of this category are designed to provide coverage for one or more necessary or medically necessary diagnostic, preventive, therapeutic, rehabilitative, maintenance, or personal care services, provided in a setting other than an acute care unit of a hospital, such as in a nursing home, in the community or in the home.

This policy provides coverage in the form of a fixed dollar indemnity benefit for covered long-term care expenses, subject to policy [limitations] [waiting periods] and [coinsurance] requirements. [Modify this paragraph if the policy is not an indemnity policy.]

9. **BENEFITS PROVIDED BY THIS POLICY.**

- (a) [Covered services, related deductibles, waiting periods, elimination periods and benefit maximums.]
- (b) [Institutional benefits, by skill level.]
- (c) [Non-institutional benefits, by skill level.]
- (d) Eligibility for Payment of Benefits

[Activities of daily living and cognitive impairment shall be used to measure an insured's need for long-term care and must be defined and described as part of the outline of coverage.]

[Any additional benefit triggers must also be explained. If these triggers differ for different benefits, explanation of the triggers should accompany each benefit description. If an attending physician or other specified person must certify a certain level of functional dependency in order to be eligible for benefits, this too must be specified.]

10. LIMITATIONS AND EXCLUSIONS.

[Describe:

- (a) Preexisting conditions;
- (b) Non-eligible facilities and provider;
- (c) Non-eligible levels of care (e.g., unlicensed providers, care or treatment provided by a family member, etc.);
- (d) Exclusions and exceptions;
- (e) Limitations.]

[This section should provide a brief specific description of any policy provisions which limit, exclude, restrict, reduce, delay, or in any other manner operate to qualify payment of the benefits described in Number 6 above.]

THIS POLICY MAY NOT COVER ALL THE EXPENSES
ASSOCIATED WITH YOUR LONG-TERM CARE NEEDS.

11. RELATIONSHIP OF COST OF CARE AND BENEFITS. Because the costs of long-term care services will likely increase over time, you should consider whether and how the benefits of this plan may be adjusted. [As applicable, indicate the following:

- (a) That the benefit level will not increase over time;
- (b) Any automatic benefit adjustment provisions;
- (c) Whether the insured will be guaranteed the option to buy additional benefits and the basis upon which benefits will be increased over time if not by a specified amount or percentage;
- (d) If there is such a guarantee, include whether additional underwriting or health screening will be required, the frequency and amounts of the upgrade options, and any significant restrictions or limitations;
- (e) And finally, describe whether there will be any additional premium charge imposed, and how that is to be calculated.]

12. ALZHEIMER'S DISEASE AND OTHER ORGANIC BRAIN DISORDERS.

[State that the policy provides coverage for insureds clinically diagnosed as having Alzheimer's disease or related degenerative and dementing illnesses. Specifically describe each benefit screen or other policy provision which provides preconditions to the availability of policy benefits for such an insured.]

13. PREMIUM.

- (a) [State the total annual premium for the policy;
- (b) If the premium varies with an applicant's choice among benefit options, indicate the portion of annual premium which corresponds to each benefit option.]

14. ADDITIONAL FEATURES.

- (a) [Indicate if medical underwriting is used;
- (b) Describe other important features.]

Long Term Care Insurance

Personal Worksheet

People buy long-term care insurance for many reasons. Some don't want to use their own assets to pay for long-term care. Some buy insurance to make sure they can choose the type of care they get. Others don't want their family to have to pay for care or don't want to go on Medicaid. But long term care insurance may be expensive, and may not be right for everyone.

By state law, the insurance company must fill out part of the information on this worksheet and **ask** you to fill out the rest to help you and the company decide if you should buy this policy.

If not, have you considered how you will pay for the difference between future costs and your daily benefit amount?

☐ From my Income ☐ From my Savings/Investments ☐ My Family will Pay

APPENDIX C

Things You Should Know Before You Buy

Long-Term Care Insurance

Long-Term Care Insurance

* A long-term care insurance policy may pay most of the costs for your care in a nursing home. Many policies also pay for care at home or other community settings. Since policies can vary in coverage, you should read this policy and make sure you understand what it covers before you buy it.

* [You should **not** buy this insurance policy unless you can afford to pay the premiums every year.] [Remember that the company can increase premiums in the future.]

* The personal worksheet includes questions designed to help you and the company

determine whether this policy is suitable for your needs.

Medicare

* Medicare does **not** pay for most long-term care.

Medicaid

* Medicaid will generally pay for long-term care if you have very little income and few assets. You probably should **not** buy this policy if you are now eligible for Medicaid.

* Many people become eligible for Medicaid after they have used up their own financial resources by paying for long-term care services.

* When Medicaid pays your spouse's nursing home bills, you are allowed to keep your house and furniture, a living allowance, and some of your joint assets.

* Your choice of long-term care services may be limited if you are receiving Medicaid. To learn more about Medicaid, contact your local or state Medicaid agency.

Shopper's

Guide

* Make sure the insurance company or agent gives you a copy of a book called the National Association of Insurance Commissioners' "Shopper's Guide to Long-Term Care Insurance." Read it carefully. If you have decided to apply for long-term care insurance, you have the right to return the policy within 30 days and get back any premium you have paid if you are dissatisfied for any reason or choose not to purchase the policy.

Counseling

* Free counseling and additional information about long-term care insurance are available through your state's insurance counseling program. Contact your state insurance department or department on aging for more information about the senior health insurance counseling program in your state.

Facilities

Some long-term care insurance contracts provide for benefit payments in certain facilities only if they are licensed or certified, such as in assisted living centers. However, not all states regulate these facilities in the same way. Also, many people move into a different state from where they purchased their long-term care insurance policy. Read the policy carefully to determine what types of facilities qualify for benefit payments, and to determine that payment for a

covered service will be made if you move to a state that has a different licensing scheme for facilities than the one in which you purchased the policy.

APPENDIX D

Long-Term Care Insurance Suitability Letter

Dear [Applicant]:

Your recent application for long-term care insurance included a "personal worksheet," which asked questions about your finances and your reasons for buying long-term care insurance. For your protection, state law requires us to consider this information when we review your application, to avoid selling a policy to those who may not need coverage.

[Your answers indicate that long-term care insurance may not meet your financial needs. We suggest that you review the information provided along with your application, including the booklet "Shopper's Guide to Long-Term Care Insurance" and the page titled "Things You Should Know Before Buying Long-Term Care Insurance." Your state insurance department also has information about long-term care insurance and may be able to refer you to a counselor free of charge who can help you decide whether to buy this policy.]

[You chose not to provide any financial information for us to review.]

Drafting Note: Choose the paragraph that applies.

We have suspended our final review of your application. If, after careful consideration, you still believe this policy is what you want, check the appropriate box below and return this letter to us within the next 60 days. We will then continue reviewing your application and issue a policy if you meet our medical standards.

If we do not hear from you within the next 60 days, we will close your file and not issue you a policy. You should understand that you will not have any coverage until we hear back from you, approve your application and issue you a policy.

Please check one box and return in the enclosed envelope.

☐ **Yes**, [although my worksheet indicates that long-term care insurance may not be a suitable purchase,] I wish to purchase this coverage. Please resume review of my application.

Drafting Note: Delete the phrase in brackets if the applicant did not answer the questions about income.

☐ **No**. I have decided not to buy a policy at this time.

APPENDIX F

Instructions:

This form provides information to the applicant regarding premium rate schedules, rate schedule adjustments, potential rate revisions, and policyholder options in the event of a rate increase.

Insurers shall provide all of the following information to the applicant:

Long Term Care Insurance

Potential Rate Increase Disclosure Form

1. **[Premium Rate] [Premium Rate Schedules]:** [Premium rate] [Premium rate schedules] that [is][are] applicable to you and that will be in effect until a request is made and [filed][approved] for an increase [is][are] [on the application][\$_____])

2. **The [premium] [premium rate schedule] for this policy [will be shown on the schedule page of] [will be attached to] your policy.**

3. Rate Schedule Adjustments:

The company will provide a description of when premium rate or rate schedule adjustments will be effective (e.g., next anniversary date, next billing date, etc.) (fill in the blank):

_____.

4. Potential Rate Revisions:

This policy is Guaranteed Renewable. This means that the rates for this product may be increased in the future. Your rates can NOT be increased due to your increasing age or declining health, but your rates may go up based on the experience of all policyholders with a policy similar to yours.

If you receive a premium rate or premium rate schedule increase in the future, you will be notified of the new premium amount and you will be able to exercise at least one of the following options:

- * Pay the increased premium and continue your policy in force as is.
- * Reduce your policy benefits to a level such that your premiums will not increase. (Subject to state law minimum standards.)
- * Exercise your nonforfeiture option if purchased. (This option is available for purchase for an additional premium.)
- * Exercise your contingent nonforfeiture rights.* (This option may be available if you do not purchase a separate nonforfeiture option.)

Turn the Page

*** Contingent Nonforfeiture**

If the premium rate for your policy goes up in the future and you didn't buy a nonforfeiture option, you may be eligible for contingent nonforfeiture. Here's how to tell if you are eligible:

You will keep some long-term care insurance coverage, if:

- * Your premium after the increase exceeds your original premium by the percentage shown (or more) in the following table; and
- * You lapse (not pay more premiums) within 120 days of the increase.

The amount of coverage (i.e., new lifetime maximum benefit amount) you will keep will equal the total amount of premiums you've paid since your policy was first issued. If you have already received benefits under the policy, so that the remaining maximum benefit amount is less than the total amount of premiums you've paid, the amount of coverage will be that remaining amount.

Except for this reduced lifetime maximum benefit amount, all other policy benefits will remain at the levels attained at the time of the lapse and will not increase thereafter.

Should you choose this Contingent Nonforfeiture option, your policy, with this reduced maximum benefit amount, will be considered "paid-up" with no further premiums due.

Example: You bought the policy at age 65 and paid the \$1,000 annual premium for 10 years, so you have paid a total of \$10,000 in premium. In the eleventh year, you receive a rate increase of 50%, or \$500 for a new annual premium of \$1,500, and you decide to lapse the policy (not pay any more premiums). Your "paid-up" policy benefits are \$10,000 (provided you have a least \$10,000 of benefits remaining under your policy.)

[The following contingent nonforfeiture disclosure need only be included for those limited pay policies to which Sections 28D(4) and 28D(6) of the regulation are applicable].

In addition to the contingent nonforfeiture benefits described above, the following reduced "paid-up" contingent nonforfeiture benefit is an option in all policies that have a fixed or limited premium payment period, even if you selected a nonforfeiture benefit when you bought your policy. If both the reduced "paid-up" benefit AND the contingent benefit described above are triggered by the same rate increase, you can chose either of the two benefits.

You are eligible for the reduced "paid-up" contingent nonforfeiture benefit when all three conditions shown below are met:

1. The premium you are required to pay after the increase exceeds your original premium by the same percentage or more shown in the chart below;

Triggers for a Substantial Premium Increase

Issue Age	Percent Increase
Over Initial Premium	
Under 65	50%
65-80	30%
Over 80	10%

2. You stop paying your premiums within 120 days of when the premium increase took effect;
AND

3. The ratio of the number of months you already paid premiums is 40% or more than the number of months you originally agreed to pay.

If you exercise this option your coverage will be converted to reduced "paid-up" status. That means there will be no additional premiums required. Your benefits will change in the following ways:

- a. The total lifetime amount of benefits your reduced paid up policy will provide can be determined by multiplying 90% of the lifetime benefit amount at the time the policy becomes paid up by the ratio of the number of months you already paid premiums to the number of months you agreed to pay them.
- b. The daily benefit amounts you purchased will also be adjusted by the same ratio.

If you purchased lifetime benefits, only the daily benefit amounts you purchased will be adjusted by the applicable ratio.

Example:

- * You bought the policy at age 65 with an annual premium payable for 10 years.
- * In the sixth year, you receive a rate increase of 35% and you decide to stop paying premiums.
- * Because you have already paid 50% of your total premium payments and that is more than the 40% ratio, your "paid-up" policy benefits are .45 (.90 times .50) times the total benefit amount that was in effect when you stopped paying your premiums. If you purchased inflation protection, it will not continue to apply to the benefits in the reduced "paid-up" policy.

 - 3. If the policy is sold to an individual who has attained age 76 as of the date of purchase, the policy may provide inflation protection, but is not required.
 - (e) The Commissioner may also approve new and innovative inflation protection methods so long as such method is submitted to the Commissioner with an explanation and demonstration as to how the alternative method provides for benefit levels to increase with benefit maximums or reasonable durations which are meaningful to account for reasonably anticipated increases in the costs of long-term care services covered by the policy. No such method may be used until the Commissioner has approved such method.
- (3)
- (a) An insurer or its agent, soliciting or offering to sell a policy that is intended to qualify as a partnership policy, shall provide to each prospective applicant a Partnership Program Notice (Form LTCP 200-A), outlining the requirements and benefits of a partnership policy. A similar notice may be used for this purpose if filed and approved by the Commissioner. The Partnership Program Notice shall be provided with the required Outline of Coverage.
 - (b) A partnership policy issued or issued for delivery in the State of Georgia shall be accompanied by a Partnership Disclosure Notice (Form LTCP 200-B) explaining

the benefits associated with a partnership policy and indicating that at the time issued, the policy is a qualified state long-term care insurance partnership policy. A similar notice may be used if filed and approved by the Commissioner. The Partnership Disclosure Notice shall also include a statement indicating that by purchasing this partnership policy, the insured does not automatically qualify for Medicaid.

- (4)
- (a) A partnership policy shall not be issued or issued for delivery in this State unless filed with and approved by the Commissioner in accordance with the procedures set forth in O.C.G.A. Section [33-24-9](#). Any policy submitted for approval as a partnership policy shall be accompanied by a Partnership Certification Form (Form LTCP 200-C), or a similar form filed and approved by the Commissioner.
 - (b) Insurers requesting to make use of a previously approved policy form as a qualified state long-term care partnership policy shall submit to the Commissioner a Partnership Certification Form signed by an officer of the company. The Partnership Certification Form shall be accompanied by a copy of the policy or certificate form listed, the approval date, and a bookmark for each of the requirements listed in sections II and III of the form. A Partnership Certification Form shall be required for each policy form submitted for partnership qualification.
- (5) Agent training requirements. On and after January 1, 2009 an individual may not sell, solicit or negotiate a partnership policy unless the individual is a licensed and appointed insurance agent in accordance with provisions of O.C.G.A. Chapter 33-23 and has completed an initial training component and ongoing training every 24 months thereafter. The training shall meet the following requirements:
- (a) All training shall be approved as continuing education by the Commissioner in accordance with O.C.G.A. Section [33-23-18](#).
 - (b) The initial training required by this subsection shall be no less than eight hours, and the on-going training required by this subsection shall be no less than four hours.
 - (c) The training required under subdivision (b) of this subsection shall consist of topics related to long-term care insurance, long-term care services, and qualified state long-term care insurance partnership programs, including, but not limited to
 - 1. State and federal regulations and requirements and the relationship between qualified state long-term care insurance partnership programs and other public and private coverage of long-term care services, including Medicaid;
 - 2. Available long-term care services and providers;

3. Changes or improvements in long-term care services or providers;
 4. Alternatives to the purchase of private long-term care insurance;
 5. The effect of inflation on benefits and the importance of inflation protection;
and
 6. Consumer suitability standards and guidelines.
-
- (6) Insurers offering a partnership policy shall obtain verification that an agent has received the training required by subsection (5) of this section before the agent is permitted to sell, solicit or negotiate the insurer's partnership policy.
 - (7) Each insurer shall maintain records with respect to the training of its agents qualified to sell, solicit or negotiate partnership policies, to include training received and that the agent has demonstrated an understanding of the partnership policies and their relationship to public and private coverage of long-term care, including Medicaid, in this State. These records shall be maintained for a period of not less than five years and shall be made available to the Commissioner upon request.
 - (8) Each insurer issuing a partnership policy shall provide regular reports to the United States Secretary of Health and Human Services in accordance with regulations of the Secretary that include notification of the date benefits were paid, the amount paid, the date the policy terminates, and such other information as the Secretary determines may be appropriate to the administration of partnerships.

Partnership Program Notice

Important Consumer Information regarding the Georgia Long Term Care Insurance Partnership Program

Some long term care insurance policies [certificates] sold in Georgia may qualify for the Georgia Long term Care Insurance Partnership Program (the Partnership Program). The Partnership Program is a partnership between state government and private insurance companies to assist individuals in planning their long term care needs. Insurance companies voluntarily agree to participate in the Partnership Program by offering long term care insurance coverage that meets certain state and federal requirements. Long Term care insurance policies [certificates] that qualify as partnership policies [certificates] may protect the policyholder's [certificateholder's] assets through a feature known as "asset disregard" under Georgia's Medicaid Program.

Asset Disregard means that an amount of the policyholder's [certificate holder's] assets equal to the amount of long term care insurance benefits received under a qualified Partnership Policy [Certificate] will be disregarded for the purpose of determining the insured's eligibility for Medicaid. This generally allows a person to keep assets equal to the insurance benefits received under a qualified Partnership Policy [Certificate] without affecting the person's eligibility for Medicaid. All of the Medicaid eligibility criteria will apply and special rules may apply to persons whose home equity exceeds \$500,000. Asset Disregard is **not** available under a long term care insurance policy [certificate] that is not a Partnership Policy [Certificate]. Therefore, you should consider if Asset Disregard is important to you, and whether a Partnership Policy meets your needs. **The purchase of a Partnership Policy does not automatically qualify you for Medicaid.**

What are the Requirements for a Partnership Policy [Certificate]? In order for a policy [certificate] to qualify as a Partnership Policy [Certificate], it must, among other requirements:

1. Be issued to an individual after January 1, 2007;
2. Cover an individual who was a State of Georgia resident when coverage first becomes effective under the policy;
3. Be a tax-qualified policy under Section 7702(B)(b) of the Internal Revenue Code of 1986;
4. Meet stringent consumer protection standards; and
5. Meet the following inflation protection requirements:

For ages 60 or younger - provides compound annual inflation protection

For ages 61 to 75 - provides some level of inflation protection

For ages 76 and older - no purchase of inflation protection is required

If you apply and are approved for long term care insurance coverage, [carrier name] will provide you with written documentation as to whether or not your policy [certificate] qualifies as a Partnership Policy [Certificate].

What Could Disqualify a Policy [Certificate] as a Partnership Policy. Certain types of changes to a Partnership Policy [Certificate] could affect whether or not such policy [certificate] continues to be a Partnership Policy [Certificate]. If you purchase a Partnership Policy [Certificate] and later decide to make any changes, you should first consult with [carrier name] to determine the effect of a proposed change. In addition, if you move to a state that does not maintain a Partnership Program or does not recognize your policy [certificate] as a Partnership Policy [Certificate], you would not receive beneficial treatment of your policy [certificate] under the Medicaid program of that state. The information contained in this disclosure is based on current Georgia and Federal law. These laws may be subject to change. Any change in law could

reduce or eliminate the beneficial treatment of your policy [certificate] under Georgia's Medicaid Program.

Additional Information. If you have questions regarding long term care insurance policies [certificates] please contact [carrier name]. If you have questions regarding current laws governing Medicaid eligibility, you should contact the Georgia Department of Medical Assistance.

Important Notice Regarding Your Policy's

Long-Term Care Insurance Partnership Status

(Please keep this Notice with Your Policy or Certificate)

The Georgia Long Term Care Partnership.

The Georgia Long-Term Care Partnership is an innovative partnership between Georgia and private insurers of Long-Term Care insurance policies (or certificates). The Georgia Long-Term Care Partnership became effective on January 1, 2007 and is provided in accordance with the Deficit Reduction Act of 2005 (P.L. 109-171).

Partnership Policy [Certificate] Status.

Your long term care insurance policy [certificate] is intended to qualify as a Partnership Policy [Certificate] under the Georgia Long Term Care Partnership Program as of your Policy's [Certificate's] effective date.

Medicaid Asset Protection Provided.

Long-Term care insurance is an important tool that helps individuals prepare for future long-term care needs. Partnership Policies provide an additional level of protection. In particular, such policies permit individuals to protect additional assets from spend-down requirements under the State's Medicaid program if assistance under this program is ever needed and you otherwise qualify for Medicaid.

Specifically, the asset eligibility and recovery provisions of the Medicaid program of Georgia are applied by disregarding an additional amount of assets which is equal to the amount of insurance benefits you have received from your Partnership Policy. For example, if you receive \$200,000 of insurance benefits from your Partnership policy, you generally would be able to retain \$200,000 of assets above and beyond the amount of assets normally permitted for Medicaid eligibility.

Other Medicaid eligibility requirements apart from permissible assets must be met, including special rules that may apply if the equity in your home exceeds \$500,000. In addition, you must meet the Medicaid program's income requirements and may be required to contribute some of your income to the costs of your care once you become eligible for Medicaid. Medicaid eligibility requirements may change over time. The purchase of this Partnership Policy does not automatically qualify you for Medicaid.

Additional Consumer Protections.

In addition to providing Medicaid asset protection, your Partnership Policy has other important features. Under the rules governing Georgia Long-Term Care Partnership, your Partnership Policy must be a qualified long term care insurance contract under Federal tax law, and as such the insurance benefits you receive from the policy generally will be subject to beneficial income tax treatment. (Please note that a policy can be a qualified long-term care insurance contract under Federal tax law, with the same beneficial income tax treatment, even if it is not a Partnership Policy.) In addition, the long term care partnership policy must provide inflation protection as specified, according to the policy holder's age when the policy was issued:

- compound annual inflation protection, if the individual was under 61 years of age when the policy was issued,

- at least some level of inflation protection, if the individual was age 61 to 76 years when the policy was issued.

If the individual was 76 years of age or older when the policy was issued, inflation protection may be offered but is not required.

What Could Disqualify Your Policy as a Partnership Policy?

If you make any changes to your policy or certificate, such changes may affect whether your policy or certificate continues to qualify as a Partnership Policy. Before you make any changes, you should consult with the issuer of your policy (certificate) to determine the effect of a proposed change. In addition, if you move to a State that does not maintain a Qualified Partnership or does not recognize your policy (certificate) as a Partnership Policy, you would not receive Medicaid asset protection in that State. Changes in Federal or State law may affect the Medicaid asset protection available with respect to your Partnership Policy (Certificate).

Additional Information.

If you have questions regarding your insurance policy (certificate), please contact (carrier name). If you would like further information about the Medicaid asset protection provided by your Partnership Policy (Certificate) or the Georgia Long Term-Care Partnership Program, please call 1-800-669-8387 or visit www.dch.georgia.gov.

All instructions, whether appearing under the items of the form or elsewhere therein, are to be omitted. Unless expressly provided otherwise, if any item is inapplicable or the answer thereto is in the negative, an appropriate statement to that effect shall be made.

The factors set forth in subsection (c) of O.C.G.A. Section [33-13-5](#) are not intended to be an exhaustive list. In determining the adequacy and reasonableness of an insurer's surplus no single factor is necessarily controlling. The Commissioner, instead, will consider the net effect of all of these factors plus other factors bearing on the financial condition of the insurer. In comparing the surplus maintained by other insurers, the Commissioner will consider the extent to which each of these factors varies from company to company and in determining the quality and liquidity of investments in subsidiaries, the Commissioner will consider the individual subsidiary and may discount or disallow its valuation to the extent that the individual investments so warrant.

REPLACING YOUR LIFE INSURANCE POLICY?

Are you thinking about buying a new policy and discontinuing or changing an existing policy? If you are, your decision could be a good one - or a mistake. You will not know for sure unless you make a careful comparison of your existing policy and the proposed policy.

Make sure you understand the facts. Georgia law gives you the right to obtain a policy summary statement from your existing insurer at any time. Ask the company or agent that sold you your existing policy to give you information about it.

The reverse side contains a check list of some of the items you should consider in making your decision. TAKE TIME TO READ IT.

Do not let one agent or insurer prevent you from obtaining information from another agent or insurer which may be to your advantage.

Hear both sides before you decide. This way you can be sure you are making a decision that is in *your* best interest.

☐ If you wish a policy summary statement from your existing insurer, or insurers, check this box.

We are required to notify your existing company that you may be replacing their policy.

ORIGINAL TO APPLICANT - COPY TO REPLACING INSURER - COPY TO REPLACED INSURER

[The bracketed information below is provided for the insurer and *is not* a part of the Replacement Notice.]

[Note to insurers: information concerning existing coverage(s) can be required on this form, on the application, or on a separate form at the company's discretion.]

[Direct response insurers may delete paragraph three, and the signature blanks and related information, and the reverse side of this Exhibit where the original solicitation contains the application for insurance and it appears in a newspaper, magazine or similar type publication, and still be in compliance with this Regulation.]

ITEMS TO CONSIDER

1. If the policy coverages are basically similar, premiums for a new policy may be higher because rates increase as your age increases.
2. Cash values and dividends, if any, may grow slower under a new policy initially because of the initial costs of issuing a policy.

3. Your present insurance company may be able to make a change on terms which may be more favorable than if you replace existing insurance with new insurance.
4. If you borrow against an existing policy to pay premiums on a new policy, death benefits payable under your existing policy will be reduced by the amount of any unpaid loan, including unpaid interest.
5. Current interest rates are not guaranteed. Guaranteed interest rates are usually considerably lower than current rates. What rates are guaranteed?
6. Are premiums guaranteed or subject to change - up or down?
7. Participating policies pay dividends that may materially reduce the cost of insurance over the life of the contract. Dividends, however, are not guaranteed.
8. CAUTION, you are urged not to take action to terminate, assign, or alter your existing life insurance coverage until after you have been issued the new policy, examined it and have found it to be acceptable to you.

and

REMEMBER, you have ten (10) days following receipt of any individual life insurance policy to examine its contents. If you are not satisfied with it for *any* reason, you have the right to return it to the insurer at its home or branch office or to the agent through whom it was purchased, for a full refund of premium.

- (1) The cash values shown at the time of presentation shall be a specimen of the policy being offered and not for a larger policy. (Example: if \$10,000 policy is being sold, values for this policy shall be shown - not those for a \$50,000 or \$75,000 program.) This leads to misunderstanding on the part of the insured when he receives his \$10,000 policy and the cash values are less than those shown at the time of sale.

- (a) All credit life insurance forms used in this state shall contain schedules of premium rates to be charged in connection therewith which:
 1. are reasonable in relation to the benefits and coverage provided; and
 2. are neither excessive nor inadequate, nor shall they be unfairly discriminatory.
- (b) No credit life insurance form shall be used in this state which contains a schedule of premiums in excess of the applicable premium rates contained in the following subparagraphs 1., 2., and 3., and approval of all credit life insurance forms heretofore given is hereby withdrawn:
 1. For decreasing term credit life insurance, where the insured indebtedness is repayable in substantially equal installments during the term of the coverage, and the premium rate is based on initial insured indebtedness, a single premium of \$.45 per annum, per \$100.00 of initial insured indebtedness. For premiums not based on initial insured indebtedness, a monthly premium rate of \$.70 per \$1,000.00 of outstanding insured loan balance.

2. For net decreasing term credit life insurance, where the premium is not based on the initial insured indebtedness, the rate charged shall not exceed \$.70 per month per \$1,000, and the single premium shall not exceed the premium as calculated using the formula illustrated in Exhibit A of this Regulation.
 3. For level term credit life insurance, a single premium rate of \$.84 per annum, per \$100.00 of initial insured indebtedness.
 4. Single premiums for credit life insurance covering joint lives on either of the bases in subparagraph 1., 2., or 3. of this rule shall not exceed 150 percent of the appropriate single life rate specified in subparagraph 1., 2., or 3. of this rule.

For the purpose of this Rule, the term "net written premium" shall mean gross written premium minus refunds due to terminations of coverage.
- (d) Any agency agreement in effect prior to the effective date of this regulation, providing for the additional payment of commissions above the 25% soliciting commissions for credit life policies written or credit life certificates issued prior to the effective date of this regulation, shall remain in effect for coverage commencing prior to March 1, 1993.
- (e) The term "initial insured indebtedness" shall mean the total payments as that term is defined under the Federal Consumer Credit Protection Act. This Act defines the 'total of payments' as the amount you will have paid when you have made all scheduled payments.

Rule 120-2-27-.08. Minimum Requirements for Credit Accident and Sickness Insurance Forms.

All credit accident and sickness insurance forms filed with the Commissioner pursuant to the provisions of Sections [33-24-9](#) and [33-31-8](#) of the Georgia Code for use in this State which do not meet the following minimum standards shall be deemed to be forms which contain provisions which are unjust, unfair, inequitable, misleading, deceptive or which encourage misrepresentation of the policy and therefore shall be disapproved by the Commissioner or the previous approval thereof withdrawn:

- (1) The form shall not contain any exclusions for preexisting conditions except conditions which, within six months prior to the effective date of the coverage, manifested themselves to the insured debtor by requiring medical consultation, diagnosis, or treatment, provided that such preexisting conditions cause loss commencing within six months following the effective date of the coverage. However, disability commencing six months or more after the effective date of the coverage shall not be excluded regardless of whether or not such disability results from any preexisting condition.
- (2) The form must contain a definition of "total disability" which provides coverage during the first 12 months of such disability even though the insured is able to perform an occupation other than the one he held at the time such disability occurred. During the first 12 months of such disability, the definition of "total disability" must relate such disability,

to the occupation of the debtor at the time the disability occurred. After such disability continues for more than 12 months, the definition of "total disability" may relate such continuing disability to the inability to perform any occupation for which the debtor is reasonably fitted by education, training or experience. The provisions of this subsection shall not apply to credit accident and sickness insurance policies which provide exclusively for payment of the policy proceeds in a lump sum in the event of "total disability."

- (3) The form shall provide that in event the indebtedness covered by the policy results from the refinancing in whole or in part of a prior debt with the same creditor, any period of exclusion for preexisting conditions shall be reduced by any period that creditor-debtor disability coverage was in force in connection with the prior indebtedness.
- (4) The form shall provide for the payment of a daily benefit equal in amount to at least one-thirtieth of the scheduled monthly payments on the indebtedness or their equivalent if the debt is repayable periodically at terms differing from monthly.
- (5) The form shall contain either no age restrictions whatsoever, or shall contain only those age restrictions which make ineligible for coverage debtors who have attained age 65 at the time the indebtedness is incurred or who will have attained age 66 prior to the maturity date of the indebtedness. However, coverage will remain in effect and benefits shall be payable to the beneficiaries under the policy or certificate, notwithstanding the age of the debtor, in cases where an individual policy or certificate is issued to a debtor who has correctly stated his age on the application.
- (6) The form shall contain either no other exclusions whatsoever or only those exclusions which exclude coverage for disability resulting from normal pregnancy, intentionally self-inflicted injuries, from flight in non-scheduled aircraft, or from war or military service.
- (7) The form shall state that the insurer shall not deny a claim due to the debtor's subsequent unemployment or retirement during the term of the insurance.

Rule 120-2-27-.09. Mandatory Provisions in Policies and Certificates of Credit Insurance; Disclosure to Debtors; Proper Construction of Certain Policy Provisions Defined.

- (1) On the face of each individual policy, group policy, group certificate or notice of proposed insurance there shall be placed a title which shall briefly and accurately describe the nature and form of the policy.
- (2) Every printed portion of the policy, certificate, or notice of proposed insurance and any endorsements thereto or applications therefor must be plainly printed in light-faced type of a style in general use, the size of which shall be uniform and not less than ten-point.
- (3) Each individual policy, group policy, and group certificate shall state that the benefits payable thereunder shall only be paid to the creditor to reduce or extinguish the debtor's then outstanding loan balance in the case of credit life insurance coverage or the exact amount of the debtor's covered installment payment due in the case of credit accident and sickness insurance and shall further state that if the amount of insurance benefits payable exceeds the insured's then outstanding insured loan balance in the case of credit life insurance or the exact amount of the debtor's covered installment payment due in the case of credit accident and sickness insurance by an amount of ten dollars (\$10.00) or more, such excess amount shall be payable either to the debtor or to a beneficiary named by the debtor other than the creditor or to the debtor's estate.
 - (a) Payment of any such excess amount to the debtor or to any beneficiary named by the debtor other than the creditor or to the debtor's estate shall be made payable by check or draft of the insurer and shall be made payable only to such debtor or to such other beneficiary named by the debtor or to such debtor's estate, provided that at the option of the insurer, the delivery of such excess benefit check or draft may be accomplished by the creditor acting as an authorized agent of the insurer. For the purpose of this Rule, the term "excess amount" shall mean any amount which is payable to the debtor or to the beneficiaries of the debtor other than the creditor or to the debtor's estate under the credit insurance policy which exceeds the amount necessary to extinguish the debtor's then outstanding insured loan balance in the case of the credit life insurance, or the exact amount of the debtor's covered installment payment due in the case of credit accident and sickness insurance by an amount of ten dollars (\$10.00) or more.
- (4)
 - (a) No credit insurance form used in this State shall refer to an aggregate maximum amount of insurance for all indebtedness, for all certificates or for all individual policies. However, a company may establish an underwriting maximum amount of insurance per indebtedness, per certificate or per individual policy and, if established, the insurer must clearly set forth on each individual policy and each certificate that the maximum amount of insurance applies to each indebtedness, each certificate, or each individual policy.
 - (b) If an insurer fails to comply with the provisions of O.C.G.A. Sections [33-27-1\(2\)\(d\)](#), [33-27-1\(3\)](#) and [33-30-1\(4\)](#) by insuring a debtor under a group policy in an amount in excess of the amount authorized by law, or insures a debtor for an amount of credit life insurance or credit accident or sickness insurance greater

than the maximum amount set forth in the group policy, and a claim occurs or commences, the full amount of credit life insurance insured under each certificate shall be payable on the death of the debtor, and the full amount of credit disability benefits insured under each certificate shall be payable upon the disability of the debtor. If a certificate has been issued in error to a debtor, under which the amount of insurance exceeds the indebtedness, or the maximum amount set forth in the group policy, or the maximum amount authorized by law, the insurer has the right, before a claim occurs or commences, to correct the amount of insurance not to exceed the maximum amount set forth in the group policy or the maximum amount authorized by law. Where a lower premium results, a refund is required.

- (c) If an insurer insures a debtor for an amount of credit life insurance or credit accident and sickness insurance greater than the maximum amount set forth in an individual credit insurance policy, and a claim occurs or commences, the full amount of credit life insurance set forth in the individual policy shall be payable on the death of the debtor, and the full amount of credit accident or sickness insurance benefits insured under the individual policy shall be payable upon the disability of the debtor. If an individual credit insurance policy has been issued in error to a debtor, under which the amount of insurance exceeds the indebtedness, or the maximum amount set forth in the individual credit insurance policy, the insurer has the right, before a claim occurs or commences, to correct the amount of insurance not to exceed the maximum amount set forth in the individual policy. Where a lower premium results, a refund is required.
- (5) In any refinancing of an insured indebtedness, the effective date of the coverage as it affects any policy provision shall be deemed to be the first date on which the debtor became insured under the initially purchased policy or certificate covering the refinanced indebtedness, at least to the extent of the amount and term of the indebtedness outstanding at the time of refinancing.
- (6) Every individual credit insurance policy and certificate of insurance shall contain a schedule of benefits section.
- (7) Where insurance is written to cover any of the following transactions, the types of insurance, terms and disclosure notices must conform to the following requirements:
 - (a) Balloon Transactions and Open-end Lease Agreements. Net decreasing term insurance shall be the only authorized coverage.
 - 1. Where insurance is written to cover balloon transactions and disability insurance is purchased, the balloon payment must be indicated in the schedule and the following disclosure notice, using the same or substantially equivalent language, must appear in bold print on the face of the individual policy or the certificate of insurance:

NOTICE: If you are eligible for total disability benefits on the disability insurance expiration date, your balloon payment shown in the schedule will only be insured up to an amount equal to the monthly total disability benefit.

2. The disclosure notice for open-end lease agreements providing for disability coverage, must contain the following notice using the same or substantially equivalent language:

NOTICE: If you are eligible for total disability benefits on the disability insurance expiration date, the end of the term residual value shown in the schedule will only be insured up to an amount equal to the monthly disability benefit.

This notice must appear in bold print on the face of the individual policy or the certificate of insurance, with the end of the term residual value shown in the schedule. The debtor must have a binding contractual obligation to purchase the item(s) leased at the end of the lease term. Proof of a binding contractual obligation must be submitted with the credit insurance forms.

- (b) Truncated Term. Net decreasing term insurance shall be the only authorized coverage. The schedule must show the maturity date of the loan and the following notice, using the same or substantially equivalent language, must appear in bold print on the face of the individual policy or certificate of insurance:

NOTICE: The life insurance benefit might not completely pay off your loan. If the term of your loan exceeds the terms of insurance, the death benefit is only payable if death occurs during the term of the insurance. Total disability benefits will not be paid for any period of total disability continuing after the termination date shown in the schedule.

- (c) Revolving or Open-end Credit Transactions. The following notice, using the same or substantially equivalent language, must appear in bold print on the face of an individual policy or certificate of insurance to address the effective date and termination date of coverage:

NOTICE: Coverage will be effective from the time the account has a balance and will continue, subject to policy provisions, as long as there is an open balance. Coverage will cease when the account does not reflect an open balance and will automatically be reinstated when there is an open balance, subject to the termination provisions herein.

- (d) Critical Period Disability. The following notice, using the same or substantially equivalent language, must appear in bold print on the face of the individual policy or certificate of insurance:

IMPORTANT NOTICE TO DEBTOR: If the term of your loan exceeds thirty-six (36) months, the credit disability coverage provided by this policy is limited. This coverage provides for an aggregate disability benefit which is limited to thirty-six (36) times your monthly disability benefit.

Rule 120-2-27-.12. Collection of Insurance Premiums, Single Premium Basis; Outstanding Balance Basis.

An insurer may collect premiums on either a single premium basis or on a monthly outstanding balance basis. However, if the creditor adds identifiable insurance charges or premiums for credit insurance to the total amount of indebtedness, the creditor shall be deemed to have loaned the premium or insurance charge to the debtor and the premium or the insurance charge shall be deemed to have been collected by the insurer as soon as it is added to the indebtedness. In that event, the insurer shall be obligated to provide the complete coverage which the debtor is entitled

to receive under the policy or certificate for the full period of time which the single premium has been paid. Also, the reserves held by the insurer on such risks must be based on the liability assumed for the entire period of time for which a single premium has been paid by the insured. However, if such insurance charges or premiums are not added to the amount of the loan and do not constitute a part of the insured debtor's outstanding indebtedness, the insurer shall be obligated to provide insurance coverage to the debtor only for the period of time for which such insurance charges or premiums have been paid under the insurance contract and reserves shall be computed accordingly as provided for in the applicable provisions of Title 33, the Georgia Insurance Code.

Any refunds applicable in the event of termination of the coverages discussed above shall be made in the manner provided for in subsection (3) of Section [33-31-9](#) of the Georgia Code.

Rule 120-2-27-.14. Filing of Forms and Rates.

- (1) All forms and rates to be utilized for the sale of credit insurance shall be filed with the Commissioner of Insurance for review and approval.
- (2) No insurer shall use any forms or rates unless they have been filed with and approved by the Commissioner of Insurance.
- (3) If an insurer files a request for approval of any rate greater than the prima facie rates, the insurer shall demonstrate to the satisfaction of the Commissioner of Insurance that such rate or rates will satisfy the requirements of O.C.G.A. Section [33-31-8](#) and this chapter.
- (4) The requirements and procedures for filing upward rate deviations shall be as follows:
 - (a) No insurer shall file deviated rates for approval unless such insurer's statewide loss ratio exceeds 60%, and it can be demonstrated to the satisfaction of the Commissioner of Insurance that such upward deviated rate or rates will not reduce the insurer's statewide loss ratio below 60%.
 - (b) No deviation request shall be filed unless the forms used by the insurer comply with all requirements of Rule [120-2-27-.04](#), or [120-2-27-.08](#) throughout the entire experience period.
 - (c) No single account rate deviation filing request shall be considered unless a life or accident and sickness medical application or questionnaire was required for all applicants of the creditor during the entire experience period.
 - (d) Filings for upward rate deviations shall specify the account or accounts to which such rates shall apply, and shall include the policy and application forms in use, and a demonstration and certification by a qualified actuary that such deviated rates are expected to result in a loss ratio of not less than 60%.
 - (e) No approved deviation in rates will be in effect for a period of time longer than the experience period used to establish such rate deviation; however, such period may be shorter in term if so ordered by the commissioner of Insurance. An insurer may file for a new rate before the end of a rate period but not more often than once during any twelve (12) month period. Experience on accounts with approved rate deviations must be filed annually with this office, Life and Health Section, within 90 days after the end of each experience year.

- (f) If a creditor account changes insurers, any deviated rate approved for use on such account by the prior insurer is the maximum rate to be used by the succeeding insurer for the remainder of the approved deviation term of the prior insurer, or until a new rate is filed by the succeeding insurer and approved by the Commissioner of Insurance, if sooner.
- (5) An insurer may at any time file lower rates and use such rates upon approval by the Commissioner of Insurance.
- (6) Any premiums charged by an insurer shall be deemed to be reasonable and in compliance with Chapter 31 of Title 33 of the Official Code of Georgia Annotated and this regulation if the rate utilized in the calculation of the premium has been approved by the Commissioner of Insurance.

Rule 120-2-31-.04. Definitions.

For the purpose of this Regulation, the following definitions shall apply:

- (1) "Commissioner" means the Georgia Insurance Commissioner.
- (2) "Buyer's Guide" means a document which contains, and is limited to, the language contained in "Exhibit A" attached hereto and incorporated herein or language approved by the Commissioner.
- (3) "Cash Dividend" means the current illustrated dividend which can be applied toward payment of the gross premium.
- (4) Equivalent Level Annual Dividend is calculated by applying the following:
 - (a) Accumulate the annual cash dividends at five percent interest compounded annually to the end of the tenth and twentieth policy years.
 - (b) Divide each accumulation of Step (a) by an interest factor that converts it into one equivalent level annual amount, that, if paid at the beginning of each year, would accrue to the values in Step (a) over the respective periods stipulated in Step (a). If the period is ten years, the factor is 13.207 and if the period is twenty years, the factor is 34.719.
 - (c) Divide the results of Step (b) by the number of thousands of the Equivalent Level Death Benefit to arrive at the Equivalent Level Annual Dividend.
- (5) Equivalent Level Death Benefit is an amount calculated as follows:
 - (a) Accumulate the guaranteed amount payable upon death, regardless of the cause of death, at the beginning of each policy year for ten and twenty years at five percent

interest compounded annually to the end of the tenth and twentieth policy years respectively.

- (b) Divide each accumulation of Step (a) by an interest factor that converts it into one equivalent level annual amount that, if paid at the beginning of each year, would accrue to the value in Step (a) above over the respective periods stipulated in Step (a). If the period is ten years, the factor is 13.207 and if the period is twenty years, the factor is 34.719.
- (6) "Generic Name" means a short title which is descriptive of the premium and benefit patterns of a policy or a rider.
- (7) Life Insurance Cost Indexes.
- (a) The Life Insurance Surrender Cost Index is calculated by applying the following:
 - 1. Determine the guaranteed cash surrender value, if any, available at the end of the tenth and twentieth policy years.
 - 2. For participating policies, add the terminal dividend payable upon surrender, if any, to the accumulation of the annual Cash Dividends at five percent interest compounded annually to the end of the period selected and add this sum to the amount determined in Step 1.
 - 3. Divide the result of Step 2. (Step 1. for guaranteed-cost policies) by an interest factor that converts it into an equivalent level annual amount that, if paid at the beginning of each year, would accrue to the value in Step 2. (Step 1. for guaranteed-cost policies) over the respective periods stipulated in Step 1. If the period is ten years, the factor is 13.207 and if the period is twenty years, the factor is 34.719.
 - 4. Determine the equivalent level premium by accumulating each annual premium payable for the basic policy or rider at five percent interest compounded annually to the end of the period stipulated in Step 1. and dividing the result by the respective factors stated in Step 3. (this amount is the annual premium payable for a level premium plan).
 - 5. Subtract the result of Step 3. from Step 4.
 - 6. Divide the result of Step 5. by the number of thousands of the Equivalent Level Death Benefit to arrive at the Life Insurance Surrender Cost Index.
 - (b) Life Insurance Net Payment Cost Index. The Life Insurance Net Payment Cost Index is calculated in the same manner as the comparable Life Insurance Cost Index except that the cash surrender value and any terminal dividend are set at zero.

(8) "Policy Summary" means a written statement describing the elements of the policy including, but not limited to:

(a) A prominently placed title as follows:

STATEMENT OF POLICY COST AND BENEFIT INFORMATION.

- (b) The name and address of the insurance agent, or, if no agent is involved, a statement of the procedure to be followed in order to receive responses to inquiries regarding the Policy Summary.
- (c) The full name and home office or administrative office address of the company in which the life insurance policy is to be or has been written.
- (d) The Generic Name of the basic policy and each rider.
- (e) The following amounts, where applicable, for the first five policy years and representative policy years thereafter sufficient to clearly illustrate the premium and benefit patterns, including, but not necessarily limited to, the years for which life insurance cost indexes are displayed and at least one age from sixty through sixty-five or maturity whichever is earlier:
 - 1. The annual premium for the basic policy.
 - 2. The annual premium for each optional rider.
 - 3. Guaranteed amount payable upon death, at the beginning of the policy year regardless of the cause of death other than suicide, or other specifically enumerated exclusions, which is provided by the basic policy and each optional rider, with benefits provided under the basic policy and each rider shown separately.
 - 4. Total guaranteed cash surrender values at the end of the year with values shown separately for the basic policy and each rider.
 - 5. Cash Dividends payable at the end of the year with values shown separately for the basic policy and each rider. (Dividends need not be displayed beyond the twentieth policy year.)
 - 6. Guaranteed endowment amounts payable under the policy which are not included under guaranteed cash surrender values above.
- (f) The effective policy loan annual percentage interest rate, if the policy contains this provision, specifying whether this rate is applied in advance or in arrears. If the policy loan interest rate is variable, the Policy Summary includes the maximum annual percentage rate.

- (g) Life Insurance Cost Indexes for ten and twenty years but in no case beyond the premium paying period. Separate indexes are displayed for the basic policy and for each optional term life insurance rider. Such indexes need not be included for optional riders which are limited to benefits such as accidental death benefits, disability waiver of premiums, preliminary term life insurance coverage of less than 12 months and guaranteed insurability benefits nor for the basic policies or optional riders covering more than one life.
- (h) The Equivalent Level Annual Dividend, in the case of participating policies and participating optional term life insurance riders, under the same circumstances and for the same durations at which Life Insurance Cost Indexes are displayed.
- (i) A Policy Summary which includes dividends shall also include a statement that dividends are based on the company's current dividend scale and are not guaranteed in addition to a statement in close proximity to the Equivalent Level Annual Dividend as follows: An Explanation of the intended use of the Equivalent Level Annual Dividend is included in the Life Insurance Buyer's Guide.
- (j) A statement in close proximity to the Life Insurance Cost Indexes as follows: An Explanation of the intended use of these indexes is provided in the Life Insurance Buyer's Guide.
- (k) The date on which the Policy Summary is prepared. The Policy Summary must consist of a separate document. All information required to be disclosed must be set out in such a manner as to not minimize or render any portion thereof obscure. Any amounts which remain level for two or more years of the policy may be represented by a single number if it is clearly indicated what amounts are applicable for each policy year. Amounts in item (e) of this section shall be listed in total, not on a per thousand nor per unit basis. If more than one insured is covered under one policy or rider, guaranteed death benefits shall be displayed separately for each insured or for each class of insureds if death benefits do not differ within the class. Zero amounts shall be displayed as zero and shall not be displayed as a blank space.

LIFE INSURANCE BUYER'S GUIDE

The face page of the Buyer's Guide shall read as follows:

Life Insurance Buyer's Guide

This guide can show you how to save money when you shop for life insurance. It helps you to:

- Decide how much life insurance you should buy,

- Decide what kind of life insurance policy you need, and
- Compare the cost of similar life insurance policies.

Prepared by the National Association of Insurance Commissioners.

The Buyer's Guide shall contain the following language at the bottom of page 2:

The National Association of Insurance Commissioners is an association of state insurance regulatory officials. This association helps the various Insurance Departments to coordinate insurance laws for the benefit of all consumers. You are urged to use this Guide in making a life insurance purchase.

This Guide Does Not Endorse Any Company or Policy.

The remaining text of the Buyer's Guide shall begin on page 3 as follows:

Buying Life Insurance

When you buy life insurance, you want a policy which fits your need without costing too much. Your first step is to decide how much you need, how much you can afford to pay and the kind of policy you want. Then, find out what various companies charge for that kind of policy. You can find important differences in the cost of life insurance by using the life insurance cost indexes which are described in this guide. A good life insurance agent or company will be able and willing to help you with each of these shopping steps.

If you are going to make a good choice when you buy life insurance, you need to understand which kinds are available. If one kind does not seem to fit your needs, ask about the other kinds which are described in this Guide. If you need more information than is given here, you may want to check with a life insurance agent or company or books on life insurance in your public library.

Choosing the Amount

One way to decide how much life insurance you need is to figure how much cash and income your dependents would need if you were to die. You should think of life insurance as a source of cash needed for expenses of final illnesses, paying taxes, mortgages or other debts. It can also provide income for your family's living expenses, educational costs and other future expenses. Your new policy should come as close as you can afford to making up the difference between (1) what your dependents would have if you were to die now, and (2) what they would actually need.

Choosing the Right Kind

All life insurance policies agree to pay an amount of money if you die. But all policies are not the same. There are three basic kinds of life insurance.

1. Term Insurance

2. Whole Life Insurance

3. Endowment Insurance

Remember, no matter how fancy the policy title or sales presentation might appear, all life insurance policies contain one or more of the three basic kinds. If you are confused about a policy that sounds complicated, ask the agent or company if it combines more than one kind of life insurance.

The following is a brief description of the three basic kinds:

Term Insurance:

Term Insurance is death protection for a "term" of one or more years. Death benefits will be paid only if you die within that term of years. Term insurance generally provides the largest immediate death protection for your premium dollar.

Some term insurance policies are "renewable" for one or more additional terms even if your health has changed. Each time you renew the policy for a new term, premiums will be higher. You should check the premiums at older ages and the length of time the policy can be continued. Some term insurance policies are also "convertible." This means that before the end of the conversion period, you may trade the term policy for a whole life or endowment insurance policy even if you are not in good health. Premiums for the new policy will be higher than you have been paying for term insurance.

Whole Life Insurance:

Whole life insurance gives death protection for as long as you live. The most common type is called "straight life" or "ordinary life" insurance, for which you pay the same premiums for as long as you live. These premiums can be several times higher than you would pay initially for the same amount of term insurance. But they are smaller than the premiums you would eventually pay if you were to keep renewing a term insurance policy until your later years.

Some whole life policies let you pay premiums for a shorter period such as 20 years, or until age 65. Premiums for these policies are higher than for ordinary life insurance since the premium payments are squeezed into a shorter period.

Although you pay higher premiums, to begin with, for whole life insurance than for term insurance, whole life insurance policies develop "cash values" which you may have if you stop paying premiums. You can generally either take the cash, or use it to buy some continuing insurance protection. Technically speaking, these values are called "nonforfeiture benefits." This

refers to benefits you do not lose (or "forfeit") when you stop paying premiums. The amount of these benefits depends on the kind of policy you have, its size, and how long you have owned it.

A policy with cash values may also be used as collateral for a loan. If you borrow from the life insurance company, the rate of interest is shown in your policy. Any money which you owe on a policy loan would be deducted from the benefits if you were to die, or from the cash value if you were to stop paying premiums.

Endowment Insurance:

An endowment insurance policy pays a sum or income to you - the policyholder - if you live to a certain age. If you were to die before then, the death benefit would be paid to your beneficiary. Premiums and cash values for endowment insurance are higher than the same amount of whole life insurance. Thus, endowment insurance gives you the least amount of death protection for your premium dollar.

Finding a Low Cost Policy

After you have decided which kind of life insurance fits your needs, look for a good buy. Your chances of finding a good buy are better if you use two types of index numbers that have been developed to aid in shopping for life insurance. One is called the "Surrender Cost Index" and the other is the "Net Payment Cost Index." It will be worth your time to try to understand how these indexes are used, but in any event, use them only for comparing the relative costs of similar policies. **LOOK FOR POLICIES WITH LOW COST INDEX NUMBERS.**

What is Cost?

"Cost" is the difference between what you pay and what you get back. If you pay a premium for life insurance and get nothing back, your cost for the death protection is the premium. If you pay a premium and get something back later on, such as a cash value, your cost is smaller than the premium.

The cost of some policies can also be reduced by dividends; these are called "participating" policies. Companies may tell you what their current dividends are, but the size of future dividends is unknown today and cannot be guaranteed. Dividends actually paid are set each year by the company.

Some policies do not pay dividends. These are called "guaranteed cost" or "non-participating" policies. Every feature of a guaranteed cost policy is fixed so that you know in advance what your future cost will be. The premiums and cash values of a participating policy are guaranteed, but the dividends are not. Premiums for participating policies are typically higher than for guaranteed cost policies, but the cost to you may be higher or lower, depending on the dividends actually paid.

What Are Cost Indexes?

In order to compare the cost of policies, you need to look at:

1. Premiums
2. Cash Values
3. Dividends

Cost indexes use one or more of these factors to give you a convenient way to compare relative costs of similar policies. When you compare costs, an adjustment must be made to take into account that money is paid and received at different times. It is not enough to just add up the premiums you will pay and to subtract the cash values and dividends you expect to get back. These indexes take care of the arithmetic for you. Instead of having to add, subtract, multiply and divide many numbers yourself, you just compare the index numbers which you can get from life insurance agents and companies.

1. *Life Insurance Surrender Cost Index.* This index is useful if you consider the level of the cash values to be of primary importance to you. It helps you compare costs if at some future point in time, such as 10 or 20 years, you were to surrender the policy and take its cash value.

2. *Life Insurance Net Payment Cost Index.* This index is useful if your main concern is the benefits that are to be paid at your death and if the level of cash values is of secondary importance to you. It helps you compare costs at some future point in time, such as 10 or 20 years, if you continue paying premiums on your policy and do not take its cash value.

There is another number called the Equivalent Level Annual Dividend. It shows the part dividends play in determining the cost index of a participating policy. Adding a policy's Equivalent Level Annual Dividend to its cost index allows you to compare total costs of similar policies before deducting dividends. However, if you make any cost comparisons of a participating policy with a non-participating policy, remember that the total cost of the participating policy will be reduced by dividends, but the cost of the non-participating policy will not change.

How Do I Use Cost Indexes?

The most important thing to remember when using cost indexes is that a policy with a small index number is generally a better buy than a comparable policy with a larger index number. The following rules are also important:

- (1) Cost comparisons should only be made between similar plans of life insurance. Similar plans are those which provide essentially the same basic benefits and require premium payments for approximately the same period of time. The closer policies are to being identical, the more reliable the cost comparison will be.
- (2) Compare index numbers only for the kind of policy, for your age and for the amount you intend to buy. Since no one company offers the lowest cost for *all* types of insurance at *all* ages

and for *all* amounts of insurance, it is important that you get the indexes for the actual policy, age and amount which you intend to buy. Just because a "Shopper's Guide" tells you that one company's policy is a good buy for a particular age and amount, you should not assume that all of that company's policies are equally good buys.

(3) Small differences in index numbers could be offset by other policy features, or differences in the quality of service you may expect from the company or its agent. Therefore, when you find small differences in cost indexes, your choice should be based on something other than cost.

(4) In any event, you will need other information on which to base your purchase decision. Be sure you can afford the premiums, and that you understand its cash values, dividends and death benefits. You should also make a judgment on how well the life insurance company or agent will provide service in the future, to you as a policyholder.

(5) These life insurance cost indexes apply to new policies and should not be used to determine whether you should drop a policy you have already owned for a while, in favor of a new one. If such a replacement is suggested, you should ask for information from the company which issued the old policy before you take action.

IMPORTANT THINGS TO REMEMBER - A SUMMARY

The first decision you must make when buying a life insurance policy is choosing a policy whose benefits and premiums most closely meet your needs and ability to pay. Next, find a policy which is also a relatively good buy.

If you compare Surrender Cost Indexes and Net Payment Cost Indexes of similar competing policies, your chances of finding a relatively good buy will be better than if you do not shop. **REMEMBER, LOOK FOR POLICIES WITH LOWER COST INDEX NUMBERS.** A good life insurance agent can help you to choose the amount of life insurance and kind of policy you want and will give you cost indexes so that you can make cost comparisons of similar policies.

Don't buy life insurance unless you intend to stick with it. A policy which is a good buy when held for 20 years can be very costly if you quit during the early years of the policy. If you surrender such a policy during the first few years, you may get little or nothing back and much of your premium may have been used for company expenses.

Read your new policy carefully, and ask the agent or company for an explanation of anything you do not understand. Whatever you decide now, it is important to review your life insurance program every few years to keep up with changes in your income and responsibilities.

For the purpose of this Regulation:

- (1) "Affiliate" of an insurer means any person, directly or indirectly, controlling, controlled by, or under common control with such insurer; any person who regularly furnishes investment advice to such insurer with respect to its variable life insurance separate accounts for which a specific fee or commission is charged; or any director, officer, partner, or employee of any such insurer, controlling or controlled person, or person providing investment advice or any member of the immediate family of such person.
- (2) "Agent" means any person licensed by this State as a life insurance agent.
- (3) "Assumed investment rate" means the rate of investment return which would be required to be credited to a variable life insurance policy, after deduction of charges for taxes, investment expenses, and mortality and expense guarantees, to maintain the variable death benefit equal at all times to the amount of death benefit, other than incidental insurance benefits, which would be payable under the plan of insurance if the death benefit did not vary according to the investment experience of the separate account.
- (4) "Benefit base" means the amount to which the net investment return is applied.

- (6) "Control" (including the terms "controlling," "controlled by" and "under common control with") means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract other than a commercial contract for goods or nonmanagement services, or otherwise, unless the power is the result of an official position with or corporate office held by the person. Control shall be presumed to exist if any person, directly or indirectly, owns, controls, holds with the power to vote, or holds proxies representing more than ten percent (10%) of the voting securities of any other person. This presumption may be rebutted by a showing made to the satisfaction of the Commissioner that control does not exist in fact. The Commissioner may determine, after furnishing all persons in interest notice and opportunity to be heard and making specific findings of fact to support such determination, that control exists in fact, notwithstanding the absence of a presumption to that effect.
- (7) "Flexible premium policy" means any variable life insurance policy other than a scheduled premium policy as specified in paragraph (15) of this Rule.
- (8) "General account" means all assets of the insurer other than assets in separate accounts established pursuant to Section 33-11-36 of the Georgia Insurance Code, or pursuant to the corresponding section of the insurance laws of the State of domicile of a foreign or alien insurer, whether or not for variable life insurance.
- (9) "Incidental insurance benefit" means all insurance benefits in a variable life insurance policy, other than the variable death benefit and the minimum death benefit, including but not limited to accidental death and dismemberment benefits, disability income benefits, guaranteed insurability options, family income, or fixed benefit term riders.

- (10) "May" is permissive.
- (11) "Minimum death benefit" means the amount of the guaranteed death benefit, other than incidental insurance benefits, payable under a variable life insurance policy regardless of the investment performance of the separate account.
- (12) "Net investment return" means the rate of investment return in a separate account to be applied to the benefit base.
- (13) "Person" means an individual, corporation, partnership, association, trust, or fund.
- (14) "Policy processing day" means the day on which charges authorized in the policy are deducted from the policy's cash value.

- (17) "Shall" is mandatory.
- (18) "Variable death benefit" means the amount of the death benefit, other than incidental insurance benefits, payable under a variable life insurance policy dependent on the investment performance of the separate account, which the insurer would have to pay in the absence of the minimum death benefit.
- (19) "Variable life insurance policy" means any individual policy which provides for life insurance the amount or duration of which varies according to the investment experience of any separate account or accounts established and maintained by the insurer as to such policy, pursuant to Section 33-11-36 of the Georgia Insurance Code or pursuant to the corresponding section of the insurance laws of the state of domicile of a foreign or alien insurer.

- (ii) the qualifications, fitness, character responsibility, reputation, and experience of the officers and directors and other management of the insurer and those persons or firms proposed to supply consulting, investment, administrative, or custodial services to the insurer.

 - 5. the company has submitted either as a part of its application for variable life authority (or within ninety (90) days after the effective date of this Regulation for those companies presently authorized for variable life insurance in this State) a detailed outline of the training course agents will receive with respect to variable life insurance. This preexamination course should meet the following requirements:

- (3) **Standards of Suitability.** Every insurer seeking approval to enter into the variable life insurance business in this State shall establish and maintain a written statement specifying the Standards of Suitability to be used by the insurer. Such Standards of Suitability shall specify that no recommendations shall be made to an applicant to purchase a variable life insurance policy and that no variable life insurance policy shall be issued in the absence of reasonable grounds to believe that the purchase of such policy is not unsuitable for such applicant on the basis of information furnished after reasonable inquiry of such applicant concerning the applicant's insurance and investment objectives, financial situation and needs, and any other information known to the insurer or to the agent making the recommendation.
- (4) **Use of Sales Materials.** An insurer authorized to transact variable life insurance business in this State shall not use any sales material, advertising material, or descriptive literature or other materials of any kind in connection with its variable life insurance business in this State which is false, misleading, deceptive, or inaccurate. Additionally, such insurers shall file all variable life insurance sales material, advertising material, and descriptive

literature thirty (30) business days prior to use with the Commissioner. Revised versions of such materials containing substantial changes from versions on file with the Commissioner shall be filed with the Commissioner in accordance with the foregoing requirement.

Variable life insurance sales material, advertising material, and descriptive literature shall be subject to the additional requirements of Chapter 120-2-11 of the Rules and Regulations of the Georgia Insurance Department.

Any national contract between an insurer and suppliers of consulting, investment, administrative, sales, marketing, custodial, or other services with respect to variable life insurance operations shall be in writing and provide that the supplier of such services shall furnish the Commissioner with any information or reports in connection with such services which the Commissioner may request in order to ascertain whether the variable life insurance operations of the insurer are being conducted in a manner consistent with this Regulation and any other applicable law or regulation.

- (6) Reports to the Commissioner. Any insurer authorized to transact the business of variable life insurance in this State shall submit to the Commissioner, in addition to any other materials which may be required by this Regulation or any other applicable law or regulation:

- (a) an annual statement of the business of its separate account or accounts in such form as may be prescribed by the National Association of Insurance Commissioners; and

- (c) prior to the use in this State the form of any of the Reports to Policyholders as provided for in Rule [120-2-32-.10](#); and
- (d) such additional information concerning its variable life insurance operations or its separate accounts as the Commissioner shall deem necessary; and
- (e) any material submitted to the Commissioner under this Section (6) shall be disapproved if it is found to be false, misleading, deceptive, or inaccurate in any material respect and, if previously distributed, the Commissioner shall require the distribution of amended material.

- (7) Authority of Commissioner to Disapprove. Any material required to be filed with and approved by the Commissioner shall be subject to disapproval if at any time it is found by him not to comply with the standards established by this Regulation.

Rule 120-2-32-.05. Insurance Policy Requirements.

The Commissioner shall not approve any variable life insurance form filed pursuant to this Regulation unless it conforms to the following requirements of this Rule:

- (1) Filing of Variable Life Insurance Policies. All variable life insurance policies, and all riders, endorsements, applications and other documents which are to be attached to and made a part of the policy, shall be filed with and approved by the Commissioner in writing prior to delivery or issuance for delivery in this State, subject to the following:
 - (a) The procedures and requirements for such filing and approval shall be, to the extent appropriate and not inconsistent with this Regulation, the same as those otherwise applicable to other life insurance policies.
 - (b) The Commissioner may approve variable life insurance policies and related forms with provisions the Commissioner deems to be not less favorable to the policyholder and the beneficiary than those required by this Regulation.
- (2) Mandatory Policy Benefit and Design Requirements. Variable life insurance policies delivered or issued for delivery in this State shall comply with the following minimum requirements:
 - (a) Mortality and expense risks shall be borne by the insurer. The mortality and expense charges shall be subject to the maximum stated in the contract.
 - (b) For scheduled premium policies, a minimum death benefit shall be provided in an amount at least equal to the initial face amount of the policy so long as premiums are duly paid, subject to the provisions of Section (3)(b) of this Rule;
 - (c) The policy shall reflect the investment experience of one or more separate accounts established and maintained by the insurer. The insurer must demonstrate that the variable life insurance policy is actuarially sound.

- (d) Each variable life insurance policy shall be credited with the full amount of the net investment return applied to the benefit base.
 - (e) Any changes in variable death benefits of each variable life insurance policy shall be determined at least annually.
 - (f) The cash value of each variable life insurance policy shall be determined at least monthly. The method of computation of cash values and other nonforfeiture benefits, as described either in the policy or in a statement filed with the Commissioner, shall be in accordance with actuarial procedures that recognize the variable nature of the policy. The method of computation may disregard incidental minimum guarantees as to the dollar amounts payable. Incidental minimum guarantees include, for example, but are not limited to, a guarantee that the amount payable at death or maturity shall be at least equal to the amount that otherwise would have been payable if the net investment return credited to the policy at all times from the date of issue had been equal to the assumed investment rate.
 - (g) The computation of values required for each variable life insurance policy may be based upon such reasonable and necessary approximations as are acceptable to the Commissioner.
- (3) **Mandatory Policy Provisions.** Every variable life insurance policy filed for approval in this State shall contain at least the following:
- (a) the cover page or pages corresponding to the cover page of each such policy shall contain:
 - 1. a statement in boldface type which is at least four points larger than the type size of the largest type used in the text of any provision on that page, that the amount or duration of death benefit may be variable or fixed under specified conditions. Such statement shall be set forth in a separate paragraph;
 - 2. a statement in boldface type which is at least four points larger than the type size of the largest type used in the text of any provision on that page that cash values may increase or decrease in accordance with the experience of the separate account subject to any specified minimum guarantees. Such statement shall be set forth in a separate paragraph;
 - 3. a statement describing any minimum death benefit required pursuant to Section (2)(b) of Rule [120-2-32-.05](#);
 - 4. the method, or a reference to the policy provision which describes the method, for determining the amount of insurance payable at death;

5. a captioned provision which provides that the policyholder may return the variable life insurance policy within ten (10) days or such longer period as required by law of the receipt of the policy by the policyholder, and receive a refund of the total premium payments; and
 6. such other items as are currently required for fixed benefit life insurance policies and which are not inconsistent with this Regulation.
- (b)
1. For scheduled premium policies, a provision for a grace period of not less than thirty-one (31) days from the premium due date which shall provide that where the premium is paid within the grace period, policy values will be the same, except for the deduction of any overdue premium, as if the premium were paid on or before the due date;
 2. For flexible premium policies, a provision for a grace period beginning on the policy processing day when the total charges authorized by the policy that are necessary to keep the policy in force until the next policy processing day exceed the amounts available under the policy to pay such charges in accordance with the terms of the policy. Such grace period shall end on a date not less than sixty-one (61) days after the mailing date of the Report to Policyholders required by Section (3) of Rule [120-2-32-.10](#).

The death benefit payable during the grace period will equal the death benefit in effect immediately prior to such period less any overdue charges. If the policy processing days occur monthly, the insurer may require the payment of not more than three (3) times the charges which were due on the policy processing day on which the amounts available under the policy were insufficient to pay all charges authorized by the policy that are necessary to keep such policy in force until the next policy processing day.

- (c) For scheduled premium policies, a provision that the policy will be reinstated at any time within two years from the date of default upon the written application of the insured and evidence of insurability, including good health, satisfactory to the insurer, unless the cash surrender value has been paid or the period of extended insurance has expired, upon the payment of any outstanding indebtedness arising subsequent to the end of the grace period following the date of default together with accrued interest thereon to the date of reinstatement and payment of an amount not exceeding the greater of:
1. all overdue premiums with interest at a rate not exceeding six percent (6%) per annum compounded annually and any indebtedness in effect at the end of the grace period following the date of default with interest at a rate not exceeding six percent (6%) per annum compounded annually; or

2. one hundred ten percent (110%) of the increase in cash surrender value resulting from reinstatement plus all overdue premiums for incidental insurance benefits with interest at a rate not exceeding six percent (6%) per annum compounded annually.
- (d) a full description of the benefit base and of the method of calculation and application of any factors used to adjust variable benefits under the policy;
- (e) a provision designating the separate account to be used and stating that:
1. the assets of such separate account shall be available to cover the liabilities of the general account of the insurer only to the extent that the assets of the separate account exceed the liabilities of the separate account arising under the variable life insurance policies supported by the separate account; and
 2. the assets of such separate account shall be valued at least as often as any policy benefits vary but at least monthly.
- (f) a provision that at any time during the first eighteen (18) months of the variable life insurance policy, so long as premiums are duly paid the owner may exchange the policy for a policy of permanent fixed benefit life insurance on the life of the insured for the same initial amount of insurance as the variable life insurance policy, and on a plan of insurance specified in the policy, provided that the new policy:
1. shall bear the same date of issue and age at issue as the original life insurance policy;
 2. is issued on a substantially comparable plan of permanent insurance offered in this State by the insurer or an affiliate on the date of issue of the variable life insurance policy and at the premium rates in effect on the date for the same class of insurance;
 3. includes such riders and incidental insurance benefits as were included in the original policy if such riders and incidental insurance benefits are issued with the fixed benefit policy;
 4. shall be issued subject to an equitable premium or cash value adjustment that takes appropriate account of the premiums and cash values under the original and new policies. A detailed statement of the method of computing such adjustment shall be filed with the Commissioner.
- (g) a provision that the policy and any papers attached thereto by the insurer, including the application if attached, constitute the entire insurance contract;

- (h) a designation of the officers who are empowered to make an agreement or representation on behalf of the insurer and an indication that statements by the insured, or on his behalf, shall be considered as representations and not warranties;
- (i) an identification of the owner of the insurance contract;
- (j) a provision setting forth conditions or requirements as to the designation, or change of designation, of a beneficiary and a provision for disbursement of benefits in the absence of a beneficiary designation;
- (k) a statement of any conditions or requirements concerning the assignment of the policy;
- (l) a description of any adjustments in policy values to be made in the event of misstatement of age or sex of the insured;
- (m) a provision that the policy shall be incontestable by the insurer after it has been in force for two (2) years during the lifetime of the insured; provided, however, that any increase in the amount of the policy's death benefits subsequent to the policy issue date, which increase occurred upon a new application or request of the owner and was subject to satisfactory proof of the insured's insurability, shall be incontestable after any such increase has been in force, during the lifetime of the insured, for two (2) years from the date of issue of such increase;
- (n) a provision stating that the investment policy of the separate account shall not be changed without the approval of the Insurance Commissioner of the state of domicile of the insurer, and that the approval of process is on file with the Commissioner of Insurance of Georgia;
- (o) a provision that payment of variable death benefits in excess of any minimum death benefits, cash values, policy loans, or partial withdrawals (except when used to pay premiums) or partial surrenders may be deferred:
 - 1. for up to six (6) months from the date of request, if such payments are based on policy values which do not depend on the investment performance of the separate account, or
 - 2. otherwise, for any period during which the New York Stock Exchange is closed for trading (except for normal holiday closing) or when the Securities and Exchange Commission has determined that a state of emergency exists which may make such payment impractical.
- (p) if settlement options are provided at least one such option shall be provided on a fixed basis only;

- (q) a description of the basis for computing the cash value and the surrender value under the policy shall be included.
 - (r) premiums or charges for incidental insurance benefits shall be stated separately;
 - (s) any other policy provisions required by this Regulation;
 - (t) such other items as are currently required for fixed benefit life insurance policies and are not inconsistent with this Regulation; and
 - (u) a provision for nonforfeiture insurance benefits which may include a reasonable minimum cash value below which reduced paid-up insurance, extended term insurance and settlement options will not be available. The policy may not provide for a minimum cash surrender value.
- (4) Policy Loan Provisions. Every variable life insurance policy, other than term insurance policies and pure endowment policies, delivered or issued for delivery in this State shall contain provisions which are not less favorable to the policyholder than the following:
- (a) A provision for policy loans after the policy has been in force for three (3) full years which provides the following:
 1. At least seventy-five percent (75%) of the policy's cash surrender value may be borrowed.
 2. The amount borrowed shall bear interest at a rate not to exceed that permitted by Section [33-25-3.1](#) of the Georgia Insurance Code.
 3. Any indebtedness shall be deducted from the proceeds payable on death.
 4. Any indebtedness shall be deducted from the cash surrender value upon surrender or in determining any nonforfeiture benefit.
 5. For scheduled premium policies, whenever the indebtedness exceeds the cash surrender value, the insurer shall give notice of any intent to cancel the policy if the excess indebtedness is not repaid within thirty-one (31) days after the date of mailing of such notice. For flexible premium policies, whenever the total charges authorized by the policy that are necessary to keep the policy in force until the next following processing day exceed the amounts available under the policy to pay such charges, a report must be sent to the policyholder containing the information specified in Section (3) of Rule [120-2-32-.10](#).
 6. The policy may provide that if, at any time, so long as premiums are duly paid, the variable death benefit is less than it would have been if no loan or withdrawal had ever been made, the policyholder may increase such

variable death benefit up to what it would have been if there had been no loan or withdrawal by paying an amount not exceeding one hundred ten percent (110%) of the corresponding increase in cash value and by furnishing such evidence of insurability as the insurer may request.

7. The policy may specify a reasonable minimum amount which may be borrowed at any time but such minimum shall not apply to any automatic premium loan provision.
 8. No policy loan provision is required if the policy is under the extended insurance nonforfeiture option.
 9. The policy loan provisions shall be constructed so that variable life insurance policyholders who have not exercised such provisions are not disadvantaged by the exercise thereof.
 10. Amounts paid to the policyholders upon the exercise of any policy loan provision shall be withdrawn from the separate account and shall be returned to the separate account upon repayment except that a stock insurer may provide the amounts for policy loan from the general account.
- (5) Other Policy Provisions. The following provision may in substance be included in a variable life insurance policy or related form delivered or issued for delivery in this State;
- (a) an exclusion for suicide within two (2) years of the issue date of the policy; provided, however, that to the extent of the increased death benefits only, the policy may provide an exclusion for suicide within two years of any increase in death benefits which results from an application of the owner subsequent to the policy issue date;
 - (b) incidental insurance benefits may be offered on a fixed or variable basis;
 - (c) policies issued on a participating basis shall offer to pay dividend amounts in cash. In addition, such policies may offer the following dividend options:
 1. the amount of the dividend may be credited against premium payments;
 2. the amount of the dividend may be applied to provide amounts of additional fixed or variable benefit life insurance;
 3. the amount of the dividend may be deposited in the general account at a specified minimum rate of interest;
 4. the amount of the dividend may be applied to provide paid-up amounts of fixed benefit one-year term insurance;

5. the amount of the dividend may be deposited as a variable deposit in a separate account.
- (d) A provision allowing the policyholder to elect in writing in the application for the policy or thereafter an automatic premium loan on a basis not less favorable than that required of the policy loans under Section (4) of this Rule, except that a restriction that no more than two consecutive premiums can be paid under this provision may be imposed;
- (e) A provision allowing the policyholder to make partial withdrawals;
- (f) Any other policy provision approved by the Commissioner.

Note - As in original. There is no (4)(b).

Rule 120-2-32-.06. Reserve Liabilities for Variable Life Insurance.

- (1) Reserve liabilities for variable life insurance policies shall be established under Section [33-10-13](#) of the Georgia Insurance Code in accordance with actuarial procedures that recognize the variable nature of the benefits provided and any mortality guarantees.
- (2) For scheduled premium policies, reserve liabilities for the guaranteed minimum death benefit shall be the reserve needed to provide for the contingency of death occurring when the guaranteed minimum death benefit exceeds the death benefit that would be paid in the absence of the guarantee, and shall be maintained in the general account of the insurer and shall be not less than the greater of the following minimum reserves:
 - (a) The aggregate total of the term costs, if any, covering a period of one full year from the valuation date, of the guarantee on each variable life insurance contract, assuming an immediate one-third depreciation in the current value of the assets of the separate account followed by a net investment return equal to the assumed investment rate; or
 - (b) The aggregate total of the "attained age level" reserves on each variable life insurance contract. The "attained age level" reserve on each variable life insurance contract shall not be less than zero and shall equal the "residue," as described in paragraph 1., of the prior year's "attained age level" reserve on the contract, with

any such "residue," increased or decreased by a payment computed on an attained age basis as described in paragraph 2. below.

1. the "residue" of the prior year's "attained age level" reserve on each variable life insurance contract shall not be less than zero and shall be determined by adding interest at the valuation interest rate to such prior year's reserve, deducting the tabular claims based on the "excess," if any, of the guaranteed minimum death benefit over the death benefit that would be payable in the absence of such guarantee, and dividing the net result by the tabular probability of survival. The "excess" referred to in the preceding sentence shall be based on the actual level of death benefits that would have been in effect during the preceding year in the absence of the guarantee, taking appropriate account of the reserve assumptions regarding the distribution of death claim payments over the year.
2. the payment referred to in subsection (2)(b) of this Rule shall be computed so that the present value of a level payment of that amount each year over the future premium paying period the contract is equal to (A) minus (B) minus (C), where (A) is the present value of the future guaranteed minimum death benefits, (B) is the present value of the future death benefits that would be payable in the absence of such guarantee, and (C) is any "residue," as described in paragraph 1., of the prior year's "attained age level" reserve on such variable life insurance contract. If the contract is paid-up, the payment shall equal (A) minus (B) minus (C). The amounts of future death benefits referred to in (B) shall be computed assuming a net investment return of the separate account which may differ from the assumed investment rate and/or the valuation interest rate but in no event may exceed the maximum interest rate permitted for the valuation of life contracts.
3. For flexible premium policies, reserve liabilities for any guaranteed minimum death benefit shall be maintained in the general account of the insurer and shall be not less than the aggregate total of the term costs, if any, covering the period provided for in the guarantee not otherwise provided for by the reserves held in the separate account assuming an immediate one-third depreciation in the current value of the assets of the separate account followed by a net investment return equal to the valuation interest rate. The valuation interest rate and mortality table used in computing this additional reserve, if any, shall conform to permissible standards for the valuation of life insurance contracts. In determining such minimum reserve, the company may employ suitable approximations and estimates, including but not limited to groupings and averages.
4. Reserve liabilities for all fixed incidental insurance benefits and any guarantees associated with variable incidental insurance benefits shall be maintained in the general account and reserve liabilities for all variable

aspects of the variable incidental insurance benefits shall be maintained in a separate account, in amounts determined in accordance with the actuarial procedures appropriate to such benefit.

- (c) The valuation interest rate and mortality table used in computing the two minimum reserves described in Section (2)(a) and (b) of this Rule shall conform to permissible standards for the valuation of life insurance contracts. In determining such minimum reserve, the company may employ suitable approximations and estimates, including but not limited to groupings and averages.

- (d) The assets of such separate accounts established for variable life insurance policies shall be valued at least as often as variable benefits are determined but in any event at least monthly.
- (2) Amounts in the Separate Account. Amounts in a separate account shall be maintained in accordance with the following:
- The insurer shall maintain in each separate account assets with a value at least equal to the greater of the valuation reserves for the variable portion of the variable life insurance policies or the benefit base for such policies.
- (3) Investments by the Separate Account. Investments by a separate account shall be made as follows:

- (a) No sale, exchange, or other transfer of assets may be made by an insurer or any of its affiliates between any of its separate accounts or between any other investment account and one or more of its separate accounts unless:
 - 1. in case of a transfer into a separate account, such transfer is made solely to establish the account or to support the operation of the policies with respect to the separate account to which the transfer is made; and
 - 2. such transfer, whether into or from a separate account, is made by a transfer of cash; but other assets may be transferred if approved by the Commissioner in advance.
 - (b) The separate account shall have sufficient net investment income and readily marketable assets to meet anticipated withdrawals under policies funded by the account.
- (4) Limitations on Ownership. The following limitations shall apply to the ownership of the assets of a separate account:
- (a) A separate account shall not purchase or otherwise acquire the securities of any issuer, other than securities issued or guaranteed as to principal and interest by the United States, if immediately after such purchase or acquisition the value of such investment, together with prior investments of such account in such security valued as required by this Regulation, would exceed ten percent (10%) of the value of the assets of the separate account. The Commissioner may waive this limitation in writing if he believes such waiver will not render the operation of the separate account hazardous to the public or the policyholders in this State.
 - (b) No separate account shall purchase or otherwise acquire the voting securities of any issuer if as a result of such acquisition the insurer and its separate accounts, in the aggregate, will own more than ten percent (10%) of the total issued and outstanding voting securities of such issuer. The Commissioner may waive this limitation in writing if he believes such waiver will not render the operation of the separate account hazardous to the public or the policyholders in this State or jeopardize the independent operation of the issuer of such securities.
 - (c) The percentage limitation specified in subsection (a) of this Section shall not be construed to preclude the investment of the assets of separate accounts in shares of investment companies registered pursuant to the Investment Company Act of 1940 or other pools of investment assets if the investments and investment policies of such investment companies or assets pools comply substantially with the provisions of Section (3) of this Rule and other applicable portions of this Regulation.

- (5) Valuation of Separate Account Assets. Investments of the separate account shall be valued at their market value on the date of valuation, or at amortized cost if it approximates market value.
- (6) Separate Account Investment Policy.
- (a) The investment policy of a separate account operated by a domestic insurer filed under Section (2)(c) of Rule [120-2-32-.04](#) shall not be changed without the approval of the Commissioner of Insurance.
1. Any change filed pursuant to this Section shall be effective sixty (60) days after the date it was filed with the Commissioner, unless the Commissioner notifies the insurer before the end of such sixty-day period of his disapproval of the proposed change. At any time the Commissioner may, after notice and public hearing, disapprove any change that has become effective pursuant to this Section.
 2. The Commissioner may disapprove the change if he determines that the change would be detrimental to the interest of the policyholders participating in such separate account.
- (7) Charges Against Separate Account.
- (a) The insurer must disclose in writing, prior to or contemporaneously with delivery of the policy, all charges that may be made against the separate account, including, but not limited to, the following:

 5. a charge, at a rate specified in the policy, for mortality and expense guarantees;
 6. any amounts in excess of those required to be held in the separate accounts;
 7. charges for incidental insurance benefits.

- (8) Standards of Conduct. Every insurer seeking approval to enter into the variable life insurance business in this State shall adopt by formal action of its Board of Directors a written statement specifying the Standards of Conduct of the insurer, its officers, directors, employees, and affiliates with respect to the purchase or sale of investments of separate accounts. Such Standards of Conduct shall be binding on the insurer and those to whom it refers. A code or codes of ethics meeting the requirements of Section 17j under the Investment Company Act of 1940 and applicable rules and regulations thereunder shall satisfy the provisions of this Section.
- (9) Conflicts of Interest. Rules under any provision of the insurance laws of this State or any regulation applicable to the officers and directors of insurance companies with respect to conflicts of interest shall also apply to members of any separate accounts committee or other similar body.
- (10) Investment Advisory Services to a Separate Account. The following requirements shall be applicable to investment advisory services contracted for by an insurer with respect to its separate accounts:
- (a) An insurer shall not enter into a contract under which any person undertakes, for a fee, to regularly furnish investment advice to such insurer with respect to its separate accounts maintained for variable life insurance policies unless:
 - 1. the person providing such advice is registered as an investment advisor under the Investment Advisers Act of 1940; or
 - 2. the person providing such advice is an investment manager under the Employee Retirement Income Security Act of 1974 with respect to the assets of each employee benefit plan allocated to the separate account; or
 - 3. the insurer has filed with the Commissioner and continues to file annually the following information and statements concerning the proposed advisor:
 - (i) the name and form of organization, state of organization, and its principal place of business;
 - (ii) the names and addresses of its partners, officers, directors, and persons performing similar functions or, if such an investment advisor be an individual, of such individual;
 - (iii) a written Standard of Conduct complying in substance with the requirements of Section (8) of this Rule which has been adopted by the investment advisor and is applicable to the investment advisor, its officers, directors and affiliates;
 - (iv) a statement provided by the proposed advisor as to whether the advisor or any person associated therewith:

- (I) has been convicted within ten (10) years of any felony or misdemeanor arising out of such person's conduct as an employee, salesman, officer or director of an insurance company, a bank, an insurance agent, a securities broker, or an investment advisor; involving embezzlement, fraudulent conversion, or misappropriation of funds or securities, or involving the violation of Sections 1341, 1342, or 1343 of Title 18 of the United States Code;
 - (II) has been permanently or temporarily enjoined by order, judgment, or decree of any court of competent jurisdiction from acting as an investment advisor, underwriter, broker, or dealer, or as an affiliated person or as an employee of any investment company, bank, or insurance company, or from engaging in or continuing any conduct or practice in connection with any such activity;
 - (III) has been found by federal or state regulatory authorities to have willfully violated or has acknowledged willful violation of any provision of federal or state securities laws or state insurance laws or of any rule or regulation under any such laws; or
 - (IV) has been censured, denied an investment advisor registration, had a registration as an investment advisor revoked or suspended, or been barred or suspended from being associated with an investment advisor by order of federal or state regulatory authorities; and
4. such investment advisory contract shall be in writing and provide that it may be terminated by the insurer without penalty to the insurer or the separate account upon no more than sixty (60) days' written notice to the investment advisor.
- (b) The Commissioner may, after notice and opportunity for hearing, by order require such investment advisory contract to be terminated if he deems continued operation thereunder to be hazardous to the public or the insurer's policyholders.

Rule 120-2-32-.10. Reports to Policyholders.

Any insurer delivering or issuing for delivery in this State any variable life insurance policies shall mail to each variable life insurance policyholder at his or her last known address the following reports:

- (1) within thirty (30) days after each anniversary of the policy, a statement or statements of the cash surrender value, death benefit, any partial withdrawal or policy loan, any interest

charge, and any optional payments allowed pursuant to Section (4) of Rule [120-2-32-.05](#) under the policy computed as of the policy anniversary date. Provided, however, that such statement may be furnished within thirty (30) days after a specified date in each policy year so long as the information contained therein is computed as of a date not more than sixty (60) days prior to the mailing of such notice. This statement shall state in contrasting color or distinctive type that, in accordance with the investment experience of the separate account, the cash values and the variable death benefit may increase or decrease, and shall prominently identify any value described therein which may be recomputed prior to the next statement required by this Section. If the policy guarantees that the variable death benefit on the next policy anniversary date will not be less than the variable death benefit specified in such statement, the statement shall be modified to so indicate. For flexible premium policies, the report must contain a reconciliation of the change since the previous report in cash value and cash surrender value, if different, because of payments made (less deductions for expense charges), withdrawals, investment experience, insurance charges and any other charges made against the cash value. In addition, the report must show the projected cash value and cash surrender value, if different, as of one year from the end of the period covered by the report assuming that:

- (i) planned periodic premiums, if any, are paid as scheduled;
 - (ii) guaranteed costs of insurance are deducted; and
 - (iii) the net investment return is equal to the guaranteed rate or, in the absence of a guaranteed rate, is not greater than zero. If the projected value is less than zero, a warning message must be included that states that the policy may be in danger of terminating without value in the next twelve (12) months unless additional premium is paid.
- (2) annually, a statement or statements including:
- (a) a summary of the financial statement of the separate account based on the annual statement last filed with the Commissioner;
 - (b) the net investment return of the separate account for the last year and, for each year after the first, a comparison of the investment rate of the separate account during the last year with the investment rate during prior years, up to a total of five (5) years when available;
 - (c) a list of investments held by the separate account as of a date not earlier than the end of the last year for which an annual statement was filed with the Commissioner;
 - (d) any charges levied against the separate account during the previous year;
 - (e) a statement of any change, since the last report, in the investment objective and orientation of the separate account, in any investment restriction or material

quantitative or qualitative investment requirement applicable to the separate account or in the investment advisor of the separate account.

- (3) For flexible premium policies, a report must be sent to the policyholder if the amounts available under the policy on any policy processing day to pay the charges authorized by the policy are less than the amount necessary to keep the policy in force until the next following policy processing day. The report must indicate the minimum payment required under the terms of the policy to keep it in force and the length of the grace period for payment of such amount.

 1. holds a current life agent's license.
 2. holds a current N.A.S.D. Registration as certified by the Central Registration Depository.

3. has filed with the Commissioner evidence that such person holds any license or authorization which may be required by the solicitation or sale of variable life insurance by any federal or state securities law.

- (a) any suspension or revocation of his agent's license in any other state or territory of the United States;
 - (b) the imposition of any disciplinary sanction, including suspension or expulsion from the membership, suspension, or revocation of or denial of registration, imposed upon him by any national securities exchange, or national securities association, or any federal, state, or territorial agency with jurisdiction over securities or variable life insurance;
 - (c) any judgment or injunction entered against him on the basis of conduct deemed to have involved fraud, deceit, misrepresentation, or violation of any insurance or securities law or regulation.
- (3) Refusal to Qualify Agent to Sell Variable Life Insurance, Suspension, Revocation, or Nonrenewal of Qualification. The Commissioner may reject any application or suspend or revoke or refuse to renew any agent's qualification under this Rule to sell or offer to sell variable life insurance upon any ground that would bar such applicant or such agent from being licensed to sell other life insurance contracts in this state. The rules governing any proceeding relating to the suspension or revocation of any agent's license shall also govern any proceeding for suspension or revocation of an agent's qualification to sell or offer to sell variable life insurance.

Rule 120-2-38-.09. Georgia Workers' Compensation Assigned Risk Insurance Plan.

- (1) An employer, including a vendor who provides logging services to a named entity or an association of such entities, or a self-insurer who is in good faith entitled to insurance as defined in subparagraph (1)(b) below, required under workers' compensation laws, state and federal, and who has been unable to secure such insurance (and has four Rejections and/or Declinations as defined in [120-2-38-.04](#)) may make an application to the Plan.
 - (a) An application for insurance shall be made with the Administrator by the employer or his representative, in a format provided by the Administrator and approved by the Commissioner. Within seventy-five (75) days preceding the date of application, the applicant must have applied for workers' compensation insurance and been rejected as defined in [120-2-38-.04](#). The employer or its representative shall maintain on record for this policy period the Insurer name, contact person, address, phone number and date of contact and make such information available to the Administrator or Assigned Carrier upon request.
 - (b) Good Faith will be presumed in the absence of evidence to the contrary. An employer is not in good faith entitled to insurance if any of the following circumstances exist at the time of application or thereafter, or other evidence exists that such employer is not in good faith entitled to insurance:

1. At the time of application, a self-insured employer is aware of pending bankruptcy proceedings, insolvency, cessation of operations or conditions that would probably result in occupational disease or cumulative injury claims from exposures incurred while the employer was self-insured.
 2. The employer, while insurance is in force, knowingly refuses to meet reasonable health, safety, or loss control requirements; does not allow reasonable access to the Insurer for audit or inspection under the policy; or does not comply with any other policy obligations.
 3. The employer has an outstanding workers' compensation insurance premium obligation to an Assigned Carrier that is not subject to a bona fide dispute.
 4. The employer, its representative, or the Licensed Producer knowingly fails to comply with Plan rules or procedures; or knowingly makes a material misrepresentation on the application by omission or otherwise.
- (2) Upon receipt of the completed application, the Administrator shall assign the Risk to an Assigned Carrier, furnishing such Assigned Carrier with the application and any classification and rating data which may be available.
- (3) Coverage may be bound under the Plan consistent with the Plan rules in accordance with the following procedures:
- (a) At least annually, the Commissioner shall evaluate procedures for binding coverage, as described hereunder, to determine if each of the methods of binding described herein is viable;
 - (b) Issues to be considered shall include the comparative usage among the methods, the cost of maintaining any one method, and the effect of discontinuance of a method on employers;
 - (c) If the Commissioner deems any one method not to continue to be viable, the Commissioner shall have the authority to delete any such method as an authorized method of binding coverage.

Except as indicated on the binder/verification page, all assignments under this Plan are to be made on an intrastate basis. However, any employer desiring insurance for operations in states other than those covered by its Assigned Carrier may request its Assigned Carrier to furnish insurance in the additional states, subject to the rules of the Plan, including the operating rules and procedures.

- (4) A requested effective date may be secured consistent with Plan rules in accordance with the following procedures:

- (a) The employer or its representative shall forward an application to be Administrator using one of the submission methods established by the Administrator. The employer or its representative may request an effective date not later than seventy-five (75) days from the date of application; however, such requested effective date shall be the later of the following options:
1. 12:01 a.m. on the date following receipt by the Administrator of a complete and eligible application,
 2. the date of expiration of existing coverage, or
 3. a date the employer requested.

If the Licensed Producer forwards via U.S. mail a signed application to the Administrator with a check payable to the Administrator for the estimated annual or initial deposit premium, coverage will be bound at 12:01 a.m. on the day following the postmark time and date on the envelope in which the application is mailed, including the estimated annual or deposit premium, or the expiration of existing coverage. If U.S. mail is used and/or there is no postmark, or if the application does not contain the required information as described in the Plan rules, provisions for securing a requested effective date as stated above and rules for binding coverage as stated in paragraph (5) below shall apply. The Administrator shall apply all rules in securing an effective date of coverage equally, no matter what method of submission the employer or its representative chooses.

- (b) Subject to the review by the Assigned Carrier, employers who were formerly self-insured shall secure a requested effective date no later than 12:01 a.m. ninety (90) days following receipt by the Administrator of a complete and eligible application.
- (c) Upon receipt of the application, the Administrator shall review said application for eligibility and completeness. The Administrator may request additional information at his/her discretion to establish eligibility. The employer and/or its representative shall provide such information/documentation, or provide an acceptable explanation for failure to provide the requested items within the time frame established by the Administrator. Incomplete applications received by the Administrator may, at the discretion of the employer or its representative, be retained by the Administrator pending receipt of further information. Failure to comply in a timely manner with a request from the Administrator may result in the rejection of the application.
- (d) After the application has been reviewed and eligibility has been determined, the Administrator shall calculate the total and deposit premium and inform the employer, its representative, or the Licensed Producer of the applicable premium, using the submission options identified by the Administrator.

- (5) Coverage may be bound under the Plan consistent with Plan rules in accordance with the following procedures:
- (a) The Licensed Producer or employer must submit the total required deposit premium to the Administrator using one of the submission methods established by the Administrator. The required deposit premium must be received within the time frame established by the Administrator in order for coverage to be bound on the requested effective date.
 - (b) The effective date on the binder will be the secured effective date as secured under paragraph (4) above, only if all of the following occur:
 - 1. the Administrator is in receipt of a complete signed application within the established time frame,
 - 2. the applicant is deemed eligible, and
 - 3. the total deposit premium has been received by the Administrator within an established time frame.
 - (c) Coverage will not be bound by the Administrator without a complete signed application and receipt of the appropriate deposit premium. The binder/verification page shall be sent to the appropriate parties as required and shall remain in effect until canceled or a policy has been issued. In accordance with Plan procedures, coverage shall not exist if a binder was not issued.
- (6) If, after the issuance of a policy, the Assigned Carrier determines that an employer is not entitled to insurance, has failed to comply with reasonable health, safety, and loss control requirements, or has violated any of the terms and conditions under which the insurance was issued, and after providing opportunity for cure, the Assigned Carrier shall initiate cancellation and inform the Administrator and appropriate state organization of the reason for such cancellation. Any insured employer so cancelled must reestablish eligibility or must demonstrate entitlement to the Administrator before any further assignment can be made under this Plan.
- (7) All Risks to which this Plan applies shall be written utilizing the classifications, forms, rates and rating plans, and data filed by the Administrator and approved by the Commissioner.
- (8) Any Risk or Carrier may appeal to the Georgia Workers Compensation Appeals Board if it does not agree with the established classification, rates, rules, rating data, or rating plans. The decision of the Board may be appealed to the Commissioner.
- (9) At least forty-five (45) days prior to the expiration date of insurance, the Assigned Carrier shall send a renewal proposal to the insured, Licensed Producer and the Administrator. The renewal proposal shall include the dollar amount of any premium increase in excess of 15% which results from a change in rates in compliance with O.C.G.A. [33-24-47](#).

Upon receipt of the required premium, the policy shall be issued in the normal manner and a copy of such policy and all endorsement properly stamped "Georgia Workers' Compensation Assigned Risk Insurance Plan", furnished to the Administrator. The Carrier shall be credited with the premium for such renewal insurance.

- (10) Any Assigned Carrier terminating, either by non-renewal or by cancellation, a Risk assigned to it shall notify the Risk and the Administrator in accordance with the provisions of O.C.G.A. [33-24-47](#).
- (11) If any Risk is dissatisfied with its Assigned Carrier, the Risk may request reassignment upon expiration date.
- (12) Any Carrier who wishes to insure a Risk as direct business may do so at any time provided that the Assigned Carrier shall not directly or indirectly request, encourage, or solicit employers it insures under the Plan to utilize the services of any specific insurance agent, agency, broker or Insurer for purposes of providing voluntary workers' compensation insurance or other lines of insurance to such employer. If the Risk is taken out of the Plan, it shall be canceled on a pro-rata basis. The replacement Carrier shall receive the take-out credits provided for in this regulation.
- (13) The commission paid to a Licensed Producer shall be based on the following percentages of the total premium charged and collected: eight (8%) percent for the first \$1,000 in premium, five (5%) percent for the next \$4,000, three (3%) percent for the next \$95,000 and two (2%) percent for that portion of the premium over \$100,000. However, if the employer designates a representative other than a Licensed Producer, the representative shall be deemed the Licensed Producer of record for all policy matters other than for payment of producer fee.
 - (a) The employer may designate a Licensed Producer, and with respect to any renewal of the assigned insurance, may change the designated Licensed Producer by notice to the Assigned Carrier.
- (14) The Assigned Carrier shall complete a final audit and bill for any additional premium or refund excess premiums paid during the policy year within 90 (ninety) calendar days of policy expiration or cancellation.
 - (a) 120-2-38.09(1) shall not apply when the Carrier can demonstrate to the satisfaction of the Commissioner that attempts were made in good faith to secure the relevant information from the Risk. In order for the Commissioner to allow an extension of the audit period, the Assigned Carrier must demonstrate to the Commissioner that the insured is not cooperative or that an extension is the result of a mutual agreement between the Carrier and the insured.
 - 1. An Assigned Carrier may request an extension of the audit period by making application to the Commissioner. In order for the Commissioner to consider a request for extension, the application must be received by the Commissioner within 95 calendar days of the expiration or cancellation of

the policy. The application must contain documentation of all attempts made by the Assigned Carrier to secure the relevant information. The application must also contain evidence that the employer has not been cooperative.

2. Receipt of an application for an audit extension by the Commissioner within 95 days will preserve the Assigned Carrier's right to any additional premium due as the result of the final audit, if the application is not subsequently disapproved by the Commissioner.
 3. No application is required if an extension of the audit period is the result of a mutual agreement between the Carrier and the insured. The Carrier shall properly document their records with evidence that the extension was mutually agreed upon.
- (b) Neither the Assigned Carrier nor the Administrator shall demand an additional premium resulting from an audit if the audit was not conducted in accordance with this regulation.
 - (c) The Administrator shall submit procedures including a standard application for audit extensions or a plan of operation to ensure compliance, and provide procedures to apportion write-offs for audits not conducted in accordance with this Regulation.
 - (d) Failure of the Assigned Carrier to conduct the audit within ninety (90) days or within an extended period approved by the Commissioner shall not relieve the Carrier from the duty to refund an excess premium.
 - (e) The Administrator shall file a policy or endorsement(s) which conforms with subparagraph (14) above.
- (15) Proper classification of Risk and proper allocation of payroll shall be the duty of the Administrator or the Assigned Carrier.
 - (16) The Administrator or the Assigned Carrier shall categorize Risks written in accordance with this regulation.
 - (a) Manual rates for Groups 1, 2 & 3 shall be determined by applying a deviation factor for each group to Involuntary Rates.
 - (b) All Risks written with an effective date prior to the effective date of this regulation shall be properly categorized upon the first renewal following the effective date of this regulation.

- (c) The Administrator shall file the deviation factors and applicable rules mandated by this regulation upon its effective date.
- (17) The Assigned Carrier shall verify with the Risk the data to be submitted to the Administrator who shall determine the experience modification factor. Verification of such data shall be accomplished in accordance with this regulation:
- (a) The Assigned Carrier shall provide the Risk with a copy of the statistical data being submitted to the Administrator. The statistical data shall be presented in a legible and understandable format. Technical terms shall be avoided wherever possible. It shall be permissible for the Insurer to provide the unit statistical report, by whatever name called, in lieu of an independently created form, provided the unit statistical report is accompanied by a legible and understandable explanation of the format of the unit statistical report.
 - (b) The disclosure statement contained in Form GID-63 attached hereto and incorporated herein, or one substantially the same, shall be attached to the statistical data provided to the Risk.
 - 1. The disclosure shall provide a statement in bold face type, to be signed by an authorized representative of the Risk, that the statistical data has been reviewed and is accurate, and a representative of the Assigned Carrier has explained to the Risk's representative that the statistical data may affect the Risk's premium for the Plan.
 - 2. The disclosure shall indicate that the statistical data will be deemed accurate if the disclosure is not returned to the address provided by the Assigned Carrier within 30 days from the date mailed.
 - (i) The Assigned Carrier shall deliver the statistical data and disclosure in person or by depositing the information in the United States mail to be dispatched by at least first-class mail to the last address of record of the Risk, and receiving the receipt provided by the United States Postal Service or such other evidence of mailing as prescribed or accepted by the United States Postal Service.
 - (ii) Statistical data that is deemed to be accurate will not in any way affect the right of the Risk to appeal to the Georgia Workers' Compensation Appeals Board.
 - 3. The disclosure shall also provide a statement for an authorized representative of the Risk to dispute the accuracy of the data. The statement shall direct the Risk to clearly identify any discrepancies. The disputed data shall be furnished to the Assigned Carrier by the return date indicated on the disclosure statement.

- (i) If the Assigned Carrier confirms the accuracy of the information provided by the Risk, the designated Carrier shall correct their records and proceed to furnish the amended data to the Administrator.
 - (ii) If the Assigned Carrier does not agree with the data provided by the Risk, the designated carrier shall submit the Carrier's date to the Administrator,
 - (I) The Assigned Carrier shall notify the Risk within 60 days of the original mail date that the experience modification factor will be promulgated from the information provided by the Assigned Carrier.
 - (II) The Risk shall be instructed, in detail, of its right to appeal to the Georgia Workers' Compensation Appeals Board.
 - (III) Failure to respond to the Risk in the time prescribed shall be deemed an acknowledgement that the insured's records are accurate, and amendments are to be made before reporting the statistical data to the Assigned Carrier.
- (c) Verification of data shall not be mandatory for insureds who are not eligible for experience rating; however, the data and explanation shall be furnished to insureds upon request.
- (18) Assigned Carriers shall provide the same type or level of services to Plan policyholders that it would to its voluntary business.
- (19) Assigned Carriers shall provide cooperation to Plan policyholders wanting to implement safety programs. No Plan policyholders shall be denied a safety program or loss control program if so requested; provided, however, the Assigned Carrier shall only be obligated to provide such services that are reasonably commensurate with the exposures, hazards, loss experience and size of the policyholder's operations.

- B. Except as provided in Subsection C of this section, either the 1983 Table "a" or the Annuity 2000 Mortality Table shall be used for determining the minimum standard of valuation for any individual annuity or pure endowment contract issued on or after January 1, 1985.
- C. Except as provided in Subsection D of this section, the Annuity 2000 Mortality Table shall be used for determining the minimum standard of valuation for any individual annuity or pure endowment contract issued on or after January 1, 2015.
- D. Except as provided in Subsection E of this section, the 2012 IAR Mortality Table shall be used for determining the minimum standard of valuation for any individual annuity or pure endowment contract issued on or after January 1, 2015.
- E. The 1983 Table "a" without projection is to be used for determining the minimum standards of valuation for an individual annuity or pure endowment contract issued on or after January 1, 2014, solely when the contract is based on life contingencies and is issued to fund periodic benefits arising from:
 - (1) Settlements of various forms of claims pertaining to court settlements or out of court settlements from tort actions;
 - (2) Settlements involving similar actions such as worker's compensation claims; or

- (3) Settlements of long term disability claims where a temporary or life annuity has been used in lieu of continuing disability payments.

Rule 120-2-39-.06. Application of the 2012 IAR Mortality Table.

In using the 2012 IAR Mortality Table, the mortality rate for a person age x in year $(2012 + n)$ is calculated as follows:

$$q_x^{2012+n} = q_x^{2012} (1 - G2_x)^n$$

The resulting q_x^{2012+n} shall be rounded to three decimal places per 1,000, e.g., 0.741 deaths per 1,000. Also, the rounding shall occur according to the formula above, starting at the 2012 period table rate.

For example, for a male age 30, $q_x^{2012} = 0.741$.

$$q_x^{2013} = 0.741 * (1 - 0.010) ^ 1 = 0.73359, \text{ which is rounded to } 0.734.$$

$$q_x^{2014} = 0.741 * (1 - 0.010) ^ 2 = 0.7262541, \text{ which is rounded to } 0.726.$$

A method leading to incorrect rounding would be to calculate q_x^{2014} as $q_x^{2013} * (1 - 0.010)$, or $0.734 * 0.99 = 0.727$. It is incorrect to use the already rounded q_x^{2013} to calculate q_x^{2014} .

Policies and forms subject to this Regulation shall meet the following standards:

- (a) The policy shall include a table of contents of important provisions.
- (b) Each section shall be self-contained and independent. However, general provisions applicable to more than one section may be included in a common section.
- (c) The policy, except for declarations pages, schedules, and tables, shall be printed in not less than ten-point type, one-point leaded.
- (d) The policy shall be printed in a legible type-style with adequate contrast between ink and paper. Captions, headings, and spacing shall be used to increase overall legibility.
- (e) The policy shall be written in everyday conversational language consistent with its standing as a contract. Short sentences and a personal style shall be used wherever possible.
- (f) Technical terms and words with special meaning shall be avoided wherever possible.
- (g) The policy text shall achieve a minimum score of forty (40) on the Flesch Reading Ease Test or an equivalent score on any other comparable test or a lower score on either if the Commissioner finds the policy reasonably easy to read. For purposes of this Regulation, a Flesch Reading Ease Test shall be scored by the following methods:
 - 1. For a policy containing 10,000 words or less of text, the entire policy shall be analyzed. For a policy containing more than 10,000 words, the readability of two 100-word samples per page may be analyzed instead. The samples shall be separated by at least twenty (20) printed lines.
 - 2. The total number of words in the text or sample shall be divided by the total number of sentences. The figure obtained shall be multiplied by 1.015.
 - 3. The total number of syllables in the text or sample shall be divided by the total number of words. The figure obtained shall be multiplied by 84.6.
 - 4. The sum of the figures computed under subparagraphs 2. and 3. subtracted from 206.835 equals the Flesch Reading Ease Test score.
 - 5. For purposes of this Regulation, the following procedures shall be used:

- (i) A contraction, hyphenated word, number, or letter, when separated by spaces, shall be counted as one word;
 - (ii) A unit of text ending with a period, semicolon, or colon shall be counted as a sentence;
 - (iii) A syllable means a unit of spoken language consisting of one or more letters of a word as divided by an accepted dictionary. Where the dictionary shows two or more equally acceptable pronunciations of a word, the pronunciation containing fewer syllables may be used; and
 - (iv) At the option of the insurer, any form made a part of the policy may be scored separately or as part of the policy.
6. The term "text" as used in this Regulation includes all printed matter except the name and address of the insurer; the name, number or title of the policy or form; the table of contents or index; headings and captions; and declarations pages, schedules, or tables.
7. The Commissioner may authorize a lower score than the Flesch reading score required in subparagraph (g) of Rule [120-2-42-.04](#) if such lower score is caused by certain language which is drafted to conform to the requirements of any state or federal law, regulation or agency interpretation.

Rule 120-2-43-.02. Questions on Applications.

- (1) Questions relating to medical and other factual material intended to reveal the possible existence of a medical condition are permissible if they are not used as a proxy to establish the sexual orientation of the applicant, and the applicant has been given an opportunity to provide an explanation for any affirmative answers given in the application. No question may be asked if the purpose of such question is to establish the sexual orientation of an applicant.

For example: "Have you had chronic cough, significant weight loss, chronic fatigue, diarrhea, enlarged glands, . . ." These types of questions should be related to a finite period of time, not more than ten years, preceding completion of the application and should be specific. All of the questions above should provide the applicant the opportunity to give a detailed explanation.

- (2) Questions relating to the applicant having been diagnosed as having or having been advised by a member of the medical profession to seek treatment for a sexually transmitted disease are permissible.
- (3) Neither the marital status, the "living arrangements," the occupation, the gender, the medical history, the beneficiary designation, nor the zip code or other territorial classification of an applicant may be used to establish, or aid in establishing the applicant's sexual orientation.
- (4) For purposes of rating an applicant for health and life insurance, an insurer may impose territorial rates, but only if the rates are based on sound actuarial principles or are related to actual or reasonably anticipated experience.

Rule 120-2-43-.03. Counseling; Prohibition of Adverse Decisions.

No adverse underwriting decision shall be made because medical records or a report from an insurance support organization shows that the applicant has demonstrated AIDS-related concerns by seeking counseling from health care professionals. This paragraph does not apply to an applicant seeking treatment or diagnosis.

Rule 120-2-43-.04. Phrasing of Questions.

All underwriting questions must be phrased in such a manner as to elicit a factual response.

For example: A question such as: "Do you have any immunodeficiency disorders?" is too broad and would not be readily understood by an applicant and is not designed to elicit a factual answer. An insurer can ask for specific immunodeficiency disorders.

Questions such as: "Have you ever been diagnosed as having AIDS or ARC?" or "Have you tested positive on an AIDS-related blood test?" are also acceptable. An applicant may not be turned down due to a single positive test which is not a complete established test protocol unless the applicant fails to give his written consent to further testing.

Questions such as: "Have you ever been exposed to AIDS or ARC?" or "Have you ever had or been told you had AIDS Related Conditions?" are not acceptable due to the vagueness of the words "exposed" and "conditions."

Rule 120-2-43-.05. Prohibition of Benefits Reduction.

- (1) No health insurance policy, individual or group, may contain a provision which excludes expenses due to AIDS or ARC or places lower limits on the benefits available if the

insured is being treated for AIDS or ARC under the policy. "Limits" would include, but not be limited to, reduced lifetime benefit caps, lower coinsurance percentages and shorter benefit periods.

- (2) Reduction riders excluding or limiting coverage for AIDS or ARC must be restricted to a preexisting condition only of a specified insured.

Rule 120-2-43-.06. Notice and Consent to Blood Testing.

Whenever an applicant is requested to take an AIDS-related test in connection with an application for insurance, the use of such a test must be revealed to the applicant and his or her written consent obtained. No adverse underwriting decision shall be made on the basis of a positive AIDS-related test unless an established test protocol has been followed. At a minimum, an established test protocol requires two positive ELISA tests and one positive Western blot. If new and more effective AIDS-related tests are developed, they may be used as a substitute for the aforementioned test.

Shown below is an acceptable "Notice and Consent for Blood Testing" form. The form should contain an appropriate form number and be filed with the Georgia Insurance Department for approval.

NOTICE AND CONSENT FOR BLOOD TESTING WHICH MAY INCLUDE AIDS VIRUS (HIV) ANTIBODY/ANTIGEN TESTING

To determine your insurability, the insurer named above ("the insurer") has requested that you provide a sample of your blood for testing and analysis. All tests will be performed by a licensed laboratory.

Tests may be performed to determine the presence of antibodies or antigens to the Human Immunodeficiency Virus (HIV), also known as the AIDS virus. The HIV antibody test is actually a series of tests done by a medically accepted procedure. The HIV antigen test directly identifies AIDS viral particles. These tests are extremely reliable. Other tests which may be performed include determinations of blood cholesterol and related lipids (fats) and screening for liver or kidney disorders, diabetes, and immune disorders.

All tests results will be treated confidentially. They will be reported by the laboratory to the insurer. When necessary for business reasons in connection with insurance you have or have applied for with the insurer, the insurer may disclose test results to others such as its affiliates, reinsurers, independent contractors, and its employees to whom disclosure is reasonably necessary in the ordinary course of business to carry out the purposes for which that disclosure is authorized or required. If the insurer is a member of the Medical Information Bureau ("MIB, Inc."), and if the test results for HIV antibodies/antigens are other than normal, the insurer will report to the MIB, Inc., a generic code which signifies only a nonspecific blood test abnormality. The test results may also be disclosed to any member company that receives an application for health or life insurance on your life. If your HIV test is normal, no report will be made about it to the MIB, Inc. Other test results may be reported to the MIB, Inc., in a more specific manner. The organizations described in this paragraph may maintain the test results in a file or data bank. There will be no other disclosure of test results or even that the tests have been done except as may be required or permitted by law or as authorized by you.

If your HIV test results are normal, no routine notification will be sent to you. If the HIV test results are other than normal, the insurer will contact you. The insurer may also contact you if there are other abnormal test results which, in the insurer's opinion, are significant. The insurer may ask you for the name of a physician or other health care provider to whom you may authorize disclosure and with whom you may wish to discuss the results.

Positive HIV antibody/antigen test results do not mean that you have AIDS, but that you are at significantly increased risk of developing AIDS or AIDS-related conditions. Federal authorities say that persons who are HIV antibody/antigen positive should be considered infected with the AIDS virus and capable of infecting others.

Positive HIV antibody or antigen test results or other significant blood abnormalities will adversely affect your application for insurance. This means that your application may be declined, that an increased premium may be charged, or that other policy changes may be necessary.

I have read and I understand this Notice and Consent for Blood Testing Which May Include HIV Antibody/Antigen Testing. I voluntarily consent to the withdrawal of blood from me by needle, the testing of blood, and the disclosure of the test results as described above. I understand that this consent shall be valid for thirty (30) months following the date shown below.

I understand that I have the right to request and receive a copy of this authorization. A photocopy or transmitted facsimile of this form will be as valid as the original. I also have the right, upon written request, to an insurance institution (insurers), agent, or insurance support organization for access to recorded personal information and a copy of same within thirty (30) business days from the date such request is received. I have the right to request, in writing, that any recorded personal information be corrected, amended, or deleted within thirty (30) business days from the date of receipt of my written request by an insurance institution, agent, or insurance support organization. If my request is not honored, I have the right to file a concise statement of the correct, relevant or fair information; and the reasons why I disagree with such refusal to correct, amend, or delete recorded personal information.

- (2) "Preferred Benefits" means services and/or benefits due or payable when the insured seeks covered health care services from a Preferred Provider in accordance with policy provisions.

 - (d) a credit accident and sickness insurance policy which provides for differentials in the level of benefits because of preferred provider arrangements, or participation contracts between the insurer and health care providers through which insurers attempt to effect cost savings by employing financial and/or managed care principles in a health insurance policy or certificate.
- (4) "Gatekeeper" means a primary care physician or other appropriate health care provider who is a preferred provider, as described in the preferred provider insurance policy or certificate, and who acts as a required initial point of contact for the insured and through whom covered health benefits may be required to be accessed or permission to seek covered care may be required by the insurer in order to receive preferred benefits.
- (5) "Non-Preferred Benefits" means benefits payable on an indemnity basis when the insured seeks covered health care services from a non-preferred provider in accordance with policy provisions.
- (6) Other terms used in this Chapter shall be defined to have the same meaning as the meaning ascribed to the particular terms by O.C.G.A. § [33-30-22](#) or by O.C.G.A. Title 33, whichever is applicable.

Rule 120-2-44-.04. Required Policy Provisions.

- (1) Preferred provider arrangements shall contain provisions for the continuous review of the utilization of services and facilities, and costs.
- (2) Each individual policy or group preferred provider insurance policy shall contain a provision that the policyholder is entitled to a grace period of not less than thirty-one (31) days for the payment of any premium due except the first, during which grace period the coverage shall continue in force, unless the group or individual policyholder shall have given the health care insurer notice of discontinuance thirty (30) days in advance of the date of discontinuance and in accordance with the terms of the policy. The policy may provide that the group or individual policyholder may be liable to the health care insurer for payment of a pro rata premium for the time the coverage was in force during such grace period.
- (3) Any contract between a health care insurer and the various health care providers shall state that an insured shall be held harmless for provider utilization review decisions over which he has no control. In the absence of such hold harmless agreement, the agreement shall be deemed to be included therein.
- (4) If the preferred provider insurance policy or health benefit plan defines a specific service area, the insurer shall not terminate the members coverage because an individual policyholder or group member moves out of the service area.
- (5) Differentials in coinsurance percentages which are applicable to benefit levels for services provided by preferred and nonpreferred providers may not exceed thirty percentage points. The coinsurance percentage applicable to benefit levels for services provided by non-preferred providers may not be greater than forty percent (40) of the benefit levels under the policy for such services. Examples of acceptable coinsurance percentages payable by an insured for preferred and nonpreferred providers, respectively, are 0, 30; 5, 35; 10, 40; 20, 40; 30, 40.
- (6) Individual preferred provider insurance policies, outlines of coverage or preferred provider insurance certificates shall contain a brief and prominent notice in boldface type reflecting the limitations of the preferred provider policy or health plan benefit. Such warning shall be placed on the face page of the policy, outline of coverage or certificate and refer to the differentials in coinsurance percentages payable by the insureds for preferred and nonpreferred provider services, service area requirements, and emergency care services.
- (7) Preferred Provider Insurance policies or certificates shall fully disclose the limitations, differentials, penalties, incentives or other arrangements by which the insurer provides for a primary care physician or other health care provider, as defined by the insurance policy or certificate, to act as a gatekeeper, if any. A gatekeeper shall not be used to restrict access to services or non-preferred providers under the individual preferred provider policy or group preferred provider certificate.
- (8) Preferred Provider Insurance policies or certificates shall fully disclose the use of discrete dollar copayments which apply to any covered health care benefits under the policy or

certificate. Discrete dollar copayments may be imposed by an insurer in a Preferred Provider Insurance policy or certificate and need not be considered in the determination of percentage differential limitations described in O.C.G.A. Section [33-30-23](#). Such copayments, if applicable, shall be reasonable in relation to the covered benefits to which they apply, shall serve as an incentive rather than a barrier to access of appropriate care and shall not work so as to unfairly deny necessary health care services.

- (1) In no event may a health care insurer deny at least non-preferred level of covered benefit reimbursement to an insured for services provided by a nonpreferred provider on the grounds that the insured was not referred to a preferred provider by a person acting on behalf of or under an agreement with the health care insurer.
- (2) Preferred Provider Arrangements or Preferred provider insurance policies or certificates may not contain terms or conditions that would operate unreasonably to restrict the accessibility and availability of health care services for the insured.
- (3) A health care insurer may not issue policies in this State containing preferred provider arrangements that provide no reimbursement for expenses of health care services rendered by a non-preferred provider.
- (4) No health care plan utilizing a preferred provider arrangement shall be issued if the defined service area does not contain sufficient numbers of preferred providers to afford reasonable access to health care services by those persons covered under such plan.

- (d) Reduce duplication of benefits by permitting a reduction of the benefits paid by a plan when the plan, pursuant to rules established by this Regulation, does not have to pay its benefits first;
- (e) Reduce claims payments delays; and

Rule 120-2-48-.03. Definitions.

The following words and terms, when used in this Regulation, shall have the following meanings unless the context clearly indicates otherwise:

- (a) Allowable Expenses.
 - 1. "Allowable Expense" means the necessary, reasonable and customary item of expense for health care when the item of expense is covered at least in part under any of the plans involved, except where a statute requires a different definition.
 - 2. Notwithstanding the above definition, items of expense under coverages such as dental care, vision care, prescription drug or hearing aid programs may be excluded from the definition of Allowable Expense. A plan which provides benefits only for any such item of expense may limit its definition of Allowable Expenses to like items of expense.
 - 3. When a plan provides benefits in the form of service, the reasonable cash value of each service will be considered as both an Allowable Expense and a benefit paid.
 - 4. The difference between the cost of a private hospital room and the cost of a semiprivate hospital room is not considered an Allowable Expense under the above

definition unless the patient's stay in a private hospital room is medically necessary in terms of generally accepted medical practice.

5. When COB is restricted in its use to specific coverage in a contract (for example, major medical or dental), the definition of "Allowable Expense" must include the corresponding expenses or services to which COB applies.
 6. When benefits are reduced under a Primary Plan because a covered person does not comply with the plan provisions, the amount of such reduction will not be considered an Allowable Expense. Examples of such provisions are those related to second surgical opinions, precertification of admissions or services, and preferred provider arrangements.
 - (i) Only benefit reductions based upon provisions similar to those described above and which are contained in the Primary Plan may be excluded from Allowable Expenses.
 - (ii) This provision shall not be used by a Secondary Plan to refuse to pay benefits because an HMO member has elected to have health care services provided by a non-HMO provider and the HMO, pursuant to its contract, is not obligated to pay for providing those services.
 - (iii) This subparagraph (6) is not intended to allow a Secondary Plan to exclude expenses that are applied towards the satisfaction of the deductible, copayments or coinsurance amounts required by the Primary Plan, except for the benefit reductions expressly described in this paragraph.
- (b) Claim. A request that benefits of a plan be provided or paid is a claim. The benefits claimed may be in the form of:
1. Services (including supplies);
 2. Payment for all or a portion of the expenses incurred;
 3. A combination of 1. and 2. above; or
 4. An indemnification.
- (c) Claim Determination Period. This is the period of time, which must not be less than twelve (12) consecutive months, over which Allowable Expenses are compared with total benefits payable in the absence of COB, to determine whether overinsurance exists and how much each plan will pay or provide.
1. The Claim Determination Period is usually a calendar year, but a plan may use some other period of time that fits the coverage of the group contract. A person

may be covered by a plan during a portion of a Claim Determination Period if that person's coverage starts or ends during the Claim Determination Period.

2. As each claim is submitted, each plan is to determine its liability and pay or provide benefits based upon Allowable Expenses incurred to that point in the Claim Determination Period. That determination is subject to adjustment as later Allowable Expenses are incurred in the same Claim Determination Period.
- (d) Coordination of Benefits. This is a provision establishing an order in which plans pay their claims.
- (e) Hospital Indemnity Benefits. These are benefits not related to expenses incurred. The term does not include reimbursement-type benefits even if they are designed or administered to give the insured the right to elect indemnity-type benefits at the time of claim.
- (f) Plan. Plan means a form of coverage with which coordination is allowed. The definition of Plan in the group contract must state the types of coverage which will be considered in applying the COB provision of that contract. The right to include a type of coverage is limited by the rest of this definition.
1. The definition shown in the Model COB Provision, attached to this Regulation as Appendix A, is an example of what may be used. Any definition that satisfies this subparagraph may be used.
 2. This Regulation uses the term "plan." However, a group contract may, instead, use "program" or some other term.
 3. Plan may include:
 - (i) Group insurance and group subscriber contracts;
 - (ii) Uninsured arrangements of group or group-type coverage;
 - (iii) Group or group-type coverage through HMOs and other prepayment, group practice and individual practice plans;
 - (iv) Group-type contracts. Group-type contracts which are not available to the general public and can be obtained and maintained only because of membership in or connection with a particular organization or group. Group-type contracts answering this description may be included in the definition of plan, at the option of the insurer or the service provider and the contract client, whether or not uninsured arrangements or individual contract forms are used and regardless of how the group-type coverage is designated (for example, "franchise" or "blanket"). Individually underwritten and issued guaranteed renewable policies would not be

considered "group-type" even though purchased through payroll deduction at a premium savings to the insured since the insured would have the right to maintain or renew the policy independently of continued employment with the employer.

- (v) The amount by which group or group-type hospital indemnity benefits exceed \$100 per day;
- (vi) The medical benefits coverage in group, group-type and individual automobile "no-fault" and traditional automobile "fault" type contracts; and
- (vii) Medicare or other governmental benefits, except as provided in subparagraph (g) below. That part of the definition of plan may be limited to the hospital, medical and surgical benefits of the governmental program.

4. Plan shall not include:

- (i) Individual or family insurance contracts;
- (ii) Individual or family subscriber contracts;
- (iii) Individual or family coverage through Health Maintenance Organizations (HMOs);
- (iv) Individual or family coverage under other prepayment, group practice and individual practice plans;
- (v) Group or group-type hospital indemnity benefits of \$100 per day or less;
- (vi) School accident-type coverages. These contracts cover grammar, high school and college students for accidents only, including athletic injuries, either on a twenty-four-hour basis or on a "to and from school" basis; and
- (vii) A State plan under Medicaid, and shall not include a law or plan when, by law, its benefits are in excess of those of any private insurance plan or other nongovernmental plan.

(g) Primary Plan. A Primary Plan is a plan whose benefits for a person's health care coverage must be determined without taking the existence of any other plan into consideration. A plan is a Primary Plan if either of the following conditions are true:

1. The plan either has no order of benefit determination rules, or it has rules which differ from those permitted by this Regulation. There may be more than one Primary Plan; or

2. All plans which cover the person use the order of benefit determination rules required by this Regulation, and under those rules the plan determines its benefits first.
- (h) **Secondary Plan.** A Secondary Plan is a plan which is not a Primary Plan. If a person is covered by more than one Secondary Plan, the order of benefit determination rules of this Regulation decide the order in which their benefits are determined in relation to each other. The benefits of each Secondary Plan may take into consideration the benefits of the Primary Plan or plans and the benefits of any other plan which, under the rules of this Regulation, has its benefits determined before those of that Secondary Plan.
- (i) **This Plan.** In a COB provision, this term refers to the part of the group contract providing the health care benefits to which the COB provision applies and which may be reduced because of the benefits of other plans. Any other part of the group contract providing health care benefits is separate from This Plan. A group contract may apply one COB provision to certain of its benefits (such as dental benefits), coordinating only with like benefits, and may apply other separate COB provisions to coordinate other benefits.

Rule 120-2-48-.04. Model COB Contract Provision.

- (1) **General.** Appendix A contains a model COB provision for use in group contracts. That use is subject to the provisions of (2) and (3) below and to the provisions of Rule [120-2-48-.05](#).
- (2) **Flexibility.** A group contract's COB provision does not have to use the words and format shown at Appendix A. Changes may be made to fit the language and style of the rest of the group contract or to reflect the difference among plans which provide services, which pay benefits for expenses incurred, and which indemnify. No other substantive changes are allowed.
- (3) **Prohibited Coordination and Benefit Design.**
 - (a) A group contract may not reduce benefits on the basis that:
 1. Another plan exists;
 2. A person is or could have been covered under another plan, except with respect to Part B of Medicare; or

3. A person has elected an option under another plan providing a lower level of benefits than another option which could have been elected.
- (b) No contract may contain a provision that its benefits are "excess" or "always secondary" to any plan as defined in this Regulation, except in accord with the rules permitted by this Regulation.

Rule 120-2-48-.05. Rules for Coordination of Benefits.

(1) Order of Benefits.

- (a) General. The general order of benefits is as follows:
1. The Primary Plan must pay or provide its benefits as if the Secondary Plan or Plans did not exist. A Plan that does not include a coordination of benefits provision may not take the benefits of another Plan as defined in Rule [120-2-48-.03](#) into account when it determines its benefits. There is one exception: a contract holder's coverage that is designed to supplement a part of a basic package of benefits may provide that the supplementary coverage shall be excess to any other parts of the plan provided by the contract holder.
 2. A Secondary Plan may take the benefits of another plan into account only when, under these rules, it is Secondary to that other plan.
 3. The benefits of the plan which covers the person as an employee, member or subscriber (that is, other than as a dependent) are determined before those of the plan which covers the person as a dependent.
- (b) Dependent Child/Parents Not Separated or Divorced. The rules for the order of benefits for a dependent child when the parents are not separated or divorced are as follows:
1. The benefits of the plan of the parent whose birthday falls earlier in a year are determined before those of the plan of the parent whose birthday falls later in that year;

2. If both parents have the same birthday, the benefits of the plan which covered the parent longer are determined before those of the plan which covered the other parent for a shorter period of time.
 3. The word "birthday" refers only to month and day in a calendar year, not the year in which the person was born;
 4. A group contract which includes COB and which is issued or renewed, or which has an anniversary date on or after sixty (60) days after the effective date of this Regulation shall include the substance of the provision in subparagraphs (b)1., 2., and 3. above. Until that provision becomes effective, the group contract may instead contain wording such as: "Except as stated in paragraph (3) below, the benefits of a plan which covers a person as a dependent of a male are determined before those of a plan which covers the person as a dependent of a female."
 5. If the other plan does not have the rule described in subparagraphs (b)1., 2., and 3. above, but instead has a rule based upon the gender of the parent; and if; as a result, the plans do not agree on the order of benefits, the rule based upon the gender of the parent will determine the order of benefits.
- (c) Dependent Child/Separated or Divorced Parents. If two or more plans cover a person as a dependent child of divorced or separated parents, benefits for the child are determined in this order:
1. First, the plan of the parent with custody of the child;
 2. Then, the plan of the spouse of the parent with the custody of the child; and
 3. Finally, the plan of the parent not having custody of the child.
 4. If the specific terms of a court decree state that one of the parents is responsible for the health care expenses of the child, and the entity obligated to pay or provide the benefits of the plan of that parent has actual knowledge of those terms, the benefits of that plan are determined first. The plan of the other parent shall be the Secondary Plan. This paragraph does not apply with respect to any Claim Determination Period or Plan Year during which any benefits are actually paid or provided before the entity has that actual knowledge.
 5. If the specific terms of the court decree state that the parents shall share joint custody, without stating that one of the parents is responsible for the health care expenses of the child, the plans covering the child shall follow the order of benefit determination rules outlined in subparagraph (b) above.

- (d) **Active/Inactive Employee.** The benefits of a plan which covers a person as an employee who is neither laid off nor retired (or as that employee's dependent) are determined before those of a plan which covers that person as a laid off or retired employee (or as that employee's dependent). If the other plan does not have this rule; and if, as a result, the plans do not agree on the order of benefits, this rule is ignored.
- (e) **Longer/Shorter Length of Coverage.** If none of the above rules determines the order of benefits, the benefits of the plan which covered an employee, member or subscriber longer are determined before those of the plan which covered that person for the shorter term.
 - 1. To determine the length of time a person has been covered under a plan, two plans shall be treated as one if the claimant was eligible under the second within twenty-four (24) hours after the first ended.
 - 2. The start of a new plan does not include:
 - (i) A change in the amount of scope of a plan's benefits;
 - (ii) A change in the entity which pays, provides or administers the plan's benefits; or
 - (iii) A change from one type of plan to another (such as, from a single employer plan to that of a multiple employer plan).
 - 3. The claimant's length of time covered under a plan is measured from the claimant's first date of coverage under that plan. If that date is not readily available, the date the claimant first became a member of the group shall be used as the date from which to determine the length of time the claimant's coverage under the present plan has been in force.

Rule 120-2-48-.06. Procedure to be Followed by Secondary Plan.

- (1) **Total Allowable Expenses.**
 - (a) When it is determined, pursuant to Rule [120-2-48-.05](#), that this Plan is a Secondary Plan, it may reduce its benefits so that the total benefits paid or provided by all plans during a Claim Determination Period are not more than total

Allowable Expenses. The amount by which the Secondary Plan's benefits have been reduced shall be used by the Secondary Plan to pay Allowable Expenses, not otherwise paid, which were incurred during the Claim Determination Period by the person for whom the claim is made. As each claim is submitted, the Secondary Plan determines its obligation to pay for Allowable Expenses based on all claims which were submitted up to that point in time during the Claim Determination Period.

- (b) The benefits of the Secondary Plan will be reduced when the sum of the benefits that would be payable for the Allowable Expenses under the Secondary Plan in the absence of this COB provision and the benefits that would be payable for the Allowable Expenses under the other Plans, in the absence of provisions with a purpose like that of this COB provision, whether or not claim is made, exceeds those Allowable Expenses in a Claim Determination Period. In that case, the benefits of the Secondary Plan will be reduced so that they and the benefits payable under the other plans do not total more than those Allowable Expenses.
 - 1. When the benefits of this Plan are reduced as described above, each benefit is reduced in proportion. It is then charged against any applicable benefit limit of this Plan.
 - 2. Subparagraph (b)1. above may be omitted if the plan provides only one benefit, or may be altered to suit the coverage provided.

Rule 120-2-48-.07. Miscellaneous Provisions.

- (1) Reasonable Cash Values of Services. A Secondary Plan which provides benefits in the form of services may recover the reasonable cash value of providing the services from the Primary Plan, to the extent that benefits for the services are covered by the Primary Plan and have not already been paid or provided by the Primary Plan. Nothing in this provision shall be interpreted to require a plan to reimburse a covered person in cash for the value of services provided by a plan which provides benefits in the form of services.
- (2) Excess and Other Nonconforming Provisions.
 - (a) Some plans have order of benefit determination rules not consistent with this Regulation which declare that the plan's coverage is "excess" to all others, or "always secondary." This occurs because certain plans may not be subject to

insurance regulation, or because some group contracts have not yet been conformed with this Regulation pursuant to Rule [120-2-48-.02](#).
