ADMINISTRATIVE HISTORY

The **Administrative History** following each Rule gives the date on which the Rule was originally filed and its effective date, as well as the date on which any amendment or repeal was filed and its effective date. Principal abbreviations used in the Administrative History are as follows:

f. - filed

eff. - effective

R. - Rule (Abbreviated only at the beginning of the control number)

Ch. - Chapter (Abbreviated only at the beginning of the control number)

ER. - Emergency Rule

Rev. - Revised

Note: Emergency Rules are listed in each Rule's Administrative History by Emergency Rule number, date filed and effective date. The Emergency Rule will be in effect for 120 days or until the effective date of a permanent Rule covering the same subject matter superseding this Emergency Rule is adopted, as specified by the Agency.

EDITOR'S NOTE: The Rules and Regulations of the State Board of Corrections (125) were originally filed and effective on December 31, 1969. By Certification filed by the Board of Offender Rehabilitation (415) with the Office of Secretary of State on July 7, 1978, the State Board of Corrections was abolished and its policy-making functions and its power to make rules and regulations were transferred to the Board of Offender Rehabilitation. Georgia Law 1985, p. 283, Section 1 changed the name of the Department of Offender Rehabilitation, the Board of Offender Rehabilitation, and the Commissioner of Offender Rehabilitation to the Department of Corrections, Board of Corrections, and the Commissioner of Corrections, respectively, amending sections throughout all codes to conform to this change. By Certification, the Official Compilation Rules and Regulations of the State of Georgia has been amended to reflect the name changes. Officials from the Department of Corrections (Board of Offender Rehabilitation) have expressed a prerogative to re-use Control Number 125, previously assigned to the "State Board of Corrections," abolished in 1976. Therefore, Control Number 125 has been assigned to the "Board of Corrections" and any reference to Control Number 125 will be with the "Board of Corrections". Consequently, all reference to the abolished "State Board of Corrections" (125) will be chronicled with that acknowledgement.

The Department of Corrections is a publicly supported activity. Crime and delinquency are everyone's problems. An ultimate goal of the Department is clearly the protection of the public. The sum of the many facets of Departmental activities constitutes one of the main defenses of society against crime. The public is, therefore, vitally concerned. With the exception of that information which is protected by law or that which, if released, could be considered an invasion of privacy, those seeking information for public enlightenment are entitled to honest, frank and prompt responses to their queries concerning the activities of the Department. In order to improve public understanding and support, as well as assure credibility, dictionary meanings rather than circumscribed or parochial terms shall be applied on a consistent basis.

- (a) News Media. Accredited members of the news media may be authorized through the Commissioner of Corrections to visit institutions and centers during normal business hours (8:00 AM to 4:30 PM daily, except Saturdays, Sundays, and Legal holidays). Such representatives may be permitted to tour whatever parts of the institution they desire consistent with the security of the institution and the safety of those concerned. However, media representatives shall be escorted by institutional personnel at all times during their stay at the institution. Special visits to an institution by news media representatives during

non-business hours may be authorized by prior arrangement. Such visits shall meet all other requirements for a normal business hour visit.

1. When authorized, such meetings shall be conducted under the conditions specified by the Warden/Superintendent as fulfilling the safety and security requirements of the institution concerned. Offenders shall not be interviewed by news representatives except with the consent of the offender.
 2. News media representatives may be barred or ejected during times of violent or potentially violent disturbances in order that their safety and the safety of others may be protected and the security of the institution maintained or restored. Wardens/Superintendents shall exercise their judgment as to when restrictive conditions exist. Re-entry of news representatives may be permitted when safety and security reasonably may be assured.
- (b) Responses to Executive and Legislative inquiries shall be handled on an expeditious basis.

Amended: F. Feb. 6, 2003; eff. Feb. 26, 2003.

Rule 125-2-4-.04. Computation of Sentence.

- (1) The State Board of Corrections shall formulate rules and regulations providing for uniform and consistent sentence computation in accordance with the laws of the State of Georgia. Based upon present law, the determining factor in sentence computation is the date the crime was committed. If this date is before January 1, 1984, the sentence computation must include credit as allowed under previous legislation. If the crime was committed on or after January 1, 1984, service of sentence will be on straight time. Beginning and ending dates of sentences will basically be as determined by the courts.
- (2) For the purpose of sentence computation, the following definitions apply:

- (a) Sentence Type:
 - 1. Earned Time: Gives credit to those offenders who are entitled to such allowances by legislation which existed prior to January 1, 1984.
 - 2. Straight Time: All sentences except life and death for offenses committed on or after January 1, 1984.
 - 3. Life.
 - 4. Death.
- (b) Non-running Type: Actions that could extend the sentence end date, such as escape, toll time, appeal bond time, and intervening federal sentence.
- (c) Non-running Time: The amount of time expressed by indicating a begin date and end date that will be added to the sentence end date of the sentence(s) in effect (determined by the begin date and the action), and, therefore, adjust any subsequent sentence(s) (i.e. begin and end dates) in the sentence structure. The types of non-running time are defined under non-running type.
- (d) Non-earning Type: Refers to the type of revocation in which non-earning time applies. The types are: parole revocation, probation- revoke balance, probation-revoke portion.
- (e) Non-earning Time: The amount of time, expressed as a begin date and end date, that will be excluded from the calculation of computation in accordance with previous legislation.
- (f) Controlling Sentence: The sentence with the latest sentence end date. In the event of multiple consecutive sentences, the controlling sentence chain refers to the series of sentences with the latest sentence end date.
- (g) Date Crime Committed: The date of the crime as specified in the indictment documentation.
- (h) Sentence Date: The date the court handed down the sentence.
- (i) Sentence Begin Date: The effective start date of the sentence. This date will consider jail time served, if appropriate, or special sentencing instructions from the court.
- (j) Sentence End Date: The effective termination date of the sentence. This date will reflect the results of adding maximum sentence length to the sentence begin date plus the effects of non-running time and earned time credits.

- (k) **Maximum Release Date:** The date an inmate would be released from Department of Corrections custody if the entire sentence was served exclusive of parole decisions. No maximum release date exists for those inmates with life or death sentences.
- (l) **Tentative Parole Month:** Planned date (year and month) the inmate would be placed on parole which is determined by the Parole Board. A tentative parole month is established for all inmates except those with life or death sentences and sentences of twelve months or less.
- (m) **Parole Consideration Date:** This date will apply only to life sentences and parole revocations and would represent a date when the Parole Board would consider the inmate for parole.

Rule 125-2-4-.09. Detainers.

- (1) A detainer is a written instrument executed by the prosecuting officer of a court and filed with the Department requesting that the Department retain custody of an inmate pending delivery of the inmate to the proper authorities to stand trial upon a pending indictment or accusation, or to await final disposition on all appeals and other motions which are pending on any outstanding sentence, and to which is attached a copy of the indictment, accusation, or conviction which constitutes the basis of the request. The request shall contain a statement that the prosecuting officer desires and intends to bring the inmate to trial upon the pending indictment or accusation, and in the case of an outstanding sentence, that he intends to seek final disposition of all appeals and other motions.
- (2) No Warden/Superintendent or any other institutional official is authorized to accept a detainer nor shall they accept any other form of "hold" order on an inmate unless provided through the State Board of Corrections.
- (3) Any correspondence, form letter, or other documentation relative to a detainer or "hold" order on an inmate received at an Institution from any source other than the State Board of Corrections shall be forwarded promptly to the Detainer Administrator of the Department of Corrections.
- (4) The State of Georgia is signatory to the Interstate Agreement on Detainers. Under this agreement, a jurisdiction within another state also signatory to the agreement, which has an untried indictment, information or complaint on which a detainer has been lodged against an inmate incarcerated in an institution under the jurisdiction of the Georgia State Board of Corrections may secure temporary custody of the accused inmate for the purposes of bringing him (her) to trial. Proceedings for this purpose may be initiated by an inmate or by the prosecutor of the jurisdiction which has an indictment, information or complaint pending against the inmate. Once proceedings under the Interstate Agreement on Detainers have been initiated, failure of the accusing jurisdiction to hold trial within the time periods specified in the agreement will result in the dismissal of the indictment, information or complaint and removal of the detainer unless a continuance has been granted by a court of competent jurisdiction.
 - (a) Forms used in achieving those functions assigned to institutions and in fulfilling certain State responsibilities under the Interstate Agreement on Detainers will be available at the Central Office. Instructions for their execution, processing and distribution are contained on the individual forms or in supplementary data provided to the institutions.
 - (b) Directive authority over day-to-day actions executed in the discharge of the State Board of Corrections responsibilities inherent in the Interstate Agreement on Detainers will be exercised by the Detainer Administrator of the Department of Corrections.

Rule 125-3-1-.02. Inmate Security Classification.

- (1) Institutional Classification Committees will review the diagnostic and classification records in order to determine the security classification assigned to each newly received inmate in accordance with the Standard Operating Procedure on Inmate Classification.
- (2) Each inmate's records will be reviewed by the institutional classification committee at least annually for possible recommendations to the Department of Corrections for upward or downward adjustment of the inmate's security classification consistent with the criteria set forth in the Standard Operating Procedure on Inmate Classification.
 - (a) Adverse behavior on the part of an inmate may result in a review of the reclassification form for possible security change.
 - (b) Inmates who have detainer(s) filed may have their securities adjusted based on the severity of the detainer(s). Once the detainer is lifted, appropriate readjustment may be recommended by the institutional classification committee.
 - (c) Nature and circumstances of a particular offense or the inmate's criminal history may result in the denial of a security reduction, other eligibility notwithstanding.
- (3) Each inmate shall be assigned to quarters, subjected to institutional controls, and permitted institutional privileges in a manner which is consistent with the degree of control indicated by his/her individual security classification.
- (4) The Department of Corrections will advise the institution of any change in the security classification and maintain necessary records of the transaction in the departmental files.
- (5) The following items shall be on file prior to any security reduction:
 - (a) An inmate must have the written recommendation of the Warden/ Superintendent.
 - (b) An inmate must have a fingerprint card, FBI record sheet and diagnostic summary on record in the departmental inmate file and must have a photograph not over five years old in the file.
- (6) Inmate security classifications are established and defined as follows:

- (a) **MAXIMUM:** Those inmates estimated to be extremely assaultive or dangerous, high escape risks and/or to have serious adjustment problems will be assigned to this category. Such inmates require constant supervision by correctional officers and shall not be assigned to routine work outside the institution.
- (b) **CLOSE:** Inmates assigned to this category are suspected escape risks, habitual rule violators, have assaultive criminal or institutional history, unreliables and those against whom detainers for serious crimes are on file. These inmates require constant supervision by an armed correctional officer while outside the security boundaries and regular supervision when inside the security boundaries. (Inmates must remain at this level for one (1) year prior to consideration for reduction).
- (c) **MEDIUM:** Inmates assigned this classification must have established their reliability, have no major adjustment problems and have no current alcohol or drug addiction problems. Typically, this type inmate is cooperative and rules abiding. Such inmates require constant supervision outside the security boundaries of the institution by staff members appropriately trained and approved by the Department of Corrections, and regular supervision while inside the security boundaries. (Inmates must remain at this level for six (6) months prior to consideration for reduction).
- (d) **MINIMUM:** Inmates assigned to this classification have shown themselves to be capable of abiding by rules and presenting minimum risk of escape as well as a minimum risk to community and institutional safety. Such inmates shall be subjected to hourly checks while both inside and outside the security boundaries of the institution. Such checks will be made by staff members appropriately trained and approved by the Department of Corrections. Inmates assigned to this category must not have multiple escapes or multiple violent sentences. (Inmates must remain at this level for at least three (3) months prior to consideration for reduction).
- (e) **TRUSTY:** An inmate assigned to this category must have proven himself (herself) clearly trustworthy, having no adjustment problems; be fully cooperative, and have no current alcohol or drug addiction problems. Such inmates require occasional checks by staff members appropriately trained and approved by the Department of Corrections both inside and outside the security boundaries of the institution. The following criteria shall be used in recommending for Trusty status:
 - 1. Inmates must have a minimum security classification at the time of consideration.
 - 2. A former Trusty inmate who has been returned to incarceration as a result of violation of conditions of parole (as stipulated upon the inmate's parole certificate) may be recommended for reinstatement of Trusty status after serving three (3) months.

3. An inmate who loses his Trusty status due to violation of the rules and regulations must maintain a clear conduct record for one (1) year to be eligible for a recommendation to return to Trusty status.
4. If known to be an alcohol or drug addict at the time of commitment, sufficient evidence must be furnished indicating that the addiction is controlled.
5. An inmate is NOT eligible for Trusty Status:
 - (i) if he or she is under a death sentence:
 - (ii) if he or she has a life sentence which is under appeal:
 - (iii) if he or she has been sentenced for two (2) or more crimes of violence;
 - (iv) if current or prior sentence is for a felony sex offense;
 - (v) if he or she is serving a sentence for a crime of violence involving particularly brutal or wantonly cruel circumstances; or which involved multiple victims; or which was committed against persons employed in law enforcement, the judiciary, or corrections; or if he or she committed murder in the act of another felony.
 - (vi) if he or she is serving a sentence for murder, unless the Commissioner has approved in writing a finding by the Department that the murder did not involve any aggravating circumstance(s) as defined in Ga. Law 1983, p. 1806.
6. An inmate normally will not become eligible for Trusty without additional, justifying documentation when:
 - (i) he or she has an outstanding detainer;
 - (ii) he or she is serving a single misdemeanor sentence.
7. Time requirements stipulated for each security class must be followed unless individual specific exceptions are granted by the Department of Corrections.
8. Other policies may be promulgated in the above areas and issued as separate instructions to field units.

Rule 125-3-1-.03. Administrative Segregation.

- (1) The welfare of an institution may require that some inmates be separated from the general inmate population in order to maintain order at the institution; to protect either the individual inmate or other members of the inmate population or members of the institutional staff; or for detention pending completion of an investigation of charges against him (her).
- (2) Administrative Segregation is defined as the withdrawal of an inmate from the general inmate population and his (her) detention in a separated area of the institution which is apart from any other area used to accommodate the general inmate population.
- (3) An inmate may be placed at his (her) request in Administrative Segregation for his (her) own protection. The assignment should only occur if the request is in writing and confirmed by the inmate to the responsible staff member effecting the assignment. If the inmate, upon his (her) request, is denied reassignment, Administrative Segregation becomes an involuntary assignment. It then becomes the obligation of the Warden/Superintendent to review the assignment every 30 days and to consider in such review any written reasons offered by the affected inmate pertaining to continued assignment in Administrative Segregation.
- (4) Subsequent to an involuntary assignment of an inmate to Administrative Segregation, the Warden/Superintendent or his designated representative shall hold a formal hearing within ninety-six (96) hours after the inmate is placed in Administrative Segregation.
 - (a) The inmate will be advised in writing of the reason(s) why he (she) is being placed in Administrative Segregation at least twenty-four (24) hours before the initial Administrative Segregation Hearing.
 - (b) For the initial Administrative Segregation Hearing the inmate may request that an employee who is on active duty and willing to represent the inmate be the inmate's advocate at this initial Administrative Segregation Hearing.
 - (c) At the initial Administrative Segregation Hearing, the inmate may request that witnesses be called on his (her) behalf and the Classification Committee will have the discretion to call these witnesses.

- (5) The following conditions must be met prior to an inmate's being placed in Administrative Segregation for any of the reasons set forth in paragraph (1):
- (a) An inmate may be assigned for an indefinite period when so authorized in writing by the Warden/Superintendent. Such assignment must be fully documented as to necessity. The documentation shall also identify the date on which the initial hearing referred to in paragraph (4) above occurred, and shall identify the facts offered in rebuttal at the hearing by the inmate and by the inmate's witnesses. A copy of all documentation for the assignment shall be forwarded to the Commissioner of Corrections within fifteen (15) days of imposition. Review of each case shall be made by the Warden/Superintendent at least once every thirty (30) days.
 - 1. The inmate may submit reasons, in writing, to the Warden/Superintendent at the time of such hearings by the Classification Committee on the question of the inmate's continued assignment to Administrative Segregation. Although a record of each Hearing should be maintained by the Warden/Superintendent, only the initial notice of the Hearing should be forwarded to the Commissioner of Corrections unless the Commissioner specifically requests more information. Nothing in this provision is intended to prohibit an inmate from contacting his (her) counselor or the Warden/Superintendent at any time concerning a change in facts or circumstances which would make the continued stay in Administrative Segregation unnecessary.
 - (b) In the absence of the Warden/Superintendent, the senior officer present may place an inmate in Administrative Segregation for a period not to exceed seventy-two (72) hours. The Warden/Superintendent will be notified of this action as soon as he returns to the Institution. The assignment must then be treated by the Warden/Superintendent under the provisions of paragraphs (3) or (4).
- (6) The intent of detention of an inmate in Administrative Segregation is not disciplinary in nature, but will, of necessity, preclude his (her) participation in most institutional group activities. Any restriction of the inmate's activities beyond those necessitated by the differing nature of the physical plant and surrounding circumstances shall be those assessed as a result of a disciplinary hearing.
- (7) The health standards required and the rations provided shall be the same as those used for the general inmate population. Based on recommendations of the institutional physician, it may become necessary or desirable to prescribe physical exercise that can be performed in the segregated environment and reduced caloric intake as well as selected foods containing needed vitamins in order to maintain an appropriate health program for individual inmates.

- (1) Each Warden/Superintendent shall establish and maintain a program of regular inspections of all institutional facilities and equipment, including, but not limited to, confinement facilities, dormitories, cell houses, mess facilities, work shops, storage areas, recreational facilities, etc. Inspections shall encompass security, safety, sanitation and appearance. Additionally, such regular inspections shall be augmented by frequent irregular and unannounced spot or special inspections to detect and correct deficiencies at the earliest possible time.

 - (a) At least weekly general inspections of the entire institution.
 - (b) At least once a day, on an irregular schedule, all cells, bars, locks, windows, security doors, and other security facilities shall be thoroughly and carefully inspected to assure that they have not been tampered with and are in good condition. The Warden/Superintendent will take whatever action is required to correct reported deficiencies in a timely manner. A copy of each of these reports and record of corrective action shall be maintained in the institutional files for a period of not less than two (2) years and made available to the State Board of Corrections Inspection Service personnel during their visits to the institution.
- (3) Correctional Officers and institutional employees will be trained and encouraged to observe and report unusual conditions, events, deficiencies, or defects and suggest modifications for improvement in effectiveness of institutional facilities, equipment, and/or operations.

The following procedures shall be followed at each institution:

- (a) A master count of all inmates at each institution shall be conducted at least four (4) times during each twenty-four (24) hour period. Additional counts should be made of all inmates who are maximum, close, or medium security risks and those whose work assignments offer greater opportunity for escape. All employees as well as law enforcement agents or others shall be required to deposit firearms or other dangerous instruments in the weapons storage facility prior to entering the institution.  4. Under no circumstances shall any institutional key be placed where it may be copied, imprinted, used, stolen, or otherwise come into the control or possession of an inmate.
 5. Each institutional key shall be identified by an assigned number and its copy number. Lock boxes with numbered hooks on which keys shall be accounted for shall be provided and these boxes shall be maintained in such a manner as to preclude any inmate gaining access. Each institution shall establish and maintain an accurate, strict, and continuous key accountability procedure. Frequent validating inventories shall be performed.
 6. Keys which are no longer directly associated with a pertinent lock or locking device shall be promptly removed from the system and destroyed or otherwise disposed of in a secure manner.

- (d) Each State and County Institution shall maintain a safe and secure storage area for flammables, explosives, poisons, and similar dangerous or controlled items. Such items

shall be strictly accounted for and shall be issued, transported, used or returned to the controlled storage area only under the direct supervision of a Correctional Officer or employee qualified in the inventory, use and storage of such materials. All medicines of any type whatsoever shall be maintained under lock and key in the most secure manner achievable and shall be absolutely inaccessible to inmates.

- (e) Preventing the introduction of contraband into the institution or its detection and confiscation should it enter requires that all officials and employees at the institution remain fully alert to such possibilities and provide close supervision of inmates and their activities at all times.
 - 1. Periodic searches of all inmates, all cells, dormitories, work areas and frequent searches as well as careful supervision of all Trustees shall be undertaken.
 - 2. Correctional Officers overseeing visits to inmates (Chapter 125-3-4), employees inspecting inmate mail (Chapter 125-3-3) and Correctional Officers inspecting incoming vehicular traffic and supplies shall be particularly alert to detect and prevent the introduction of contraband into the institution and shall use all of the technical means and other legal methods at their disposal to achieve this objective.

Rule 125-3-1-.07. Fugitive Procedures.

The Warden/Superintendent is charged with the prevention of escapes from his institution. However, no matter how well the institutional personnel are trained or how efficiently the operating procedures are executed, occasional escape attempts will be made and a few inmates will inevitably succeed in achieving temporary freedom. Escapes normally occur without warning. Time is therefore critical and early detection is paramount. The longer the delay between detection of the escape and the initiation of the institutional recapture effort the larger the area of search and the more likely the escapee is to be successful. It is therefore required that each institution create, maintain in a current state, and periodically rehearse escape plans which can be implemented quickly and effectively when needed. The following procedures shall be incorporated in institutional escape plans.

- (a) Each official, Correctional Officer, or employee who discovers an escape or suspects an escape attempt is occurring, shall be required to report that fact to the Warden/Superintendent or his designated representative on an urgent basis. The institutional staff shall be alerted and directed to implement applicable portions of their escape plan immediately.
- (b) Telephone and/or radio communications shall be established and maintained between the institution and appropriate law enforcement agencies including Local Police, Sheriffs Department(s), Department of Public Safety, and the Georgia Bureau of Investigation.
- (c) The Warden/Superintendent or any Officer specifically designated that responsibility, shall notify and request the assistance of the following agencies immediately and provide law enforcement agencies with adequate details of the escape to enable them to participate effectively in the recapture effort:
 - 1. The Local Police Department;
 - 2. The Local Sheriff's Department;
 - 3. The nearest State Police Unit;
 - 4. The Law Enforcement agency where the fugitive is most likely to go (home town, last address, etc.);
 - 5. If it is believed that the fugitive may go to Atlanta, the Atlanta Police Department Fugitive Squad, Commissioner or his designee should be notified;
 - 6. Notify the Department of Correction by telephone and submit a written report of the escape or attempted escape within twenty-four (24) hours.
- (d) Consistent with the requirement for continued operation of his institution, the Warden/Superintendent shall assign as many Correctional Officers, including off-duty officers, as possible to implement his escape plan and execute the search. Assistance, if required, should be requested from other nearby institutions on a reciprocating basis.

- (e) When an escapee is recaptured, the Warden/Superintendent or an Officer designated by him shall promptly so advise the Commissioner or his designee and inform all Law Enforcement agencies who were notified during the execution of the escape and recapture procedures.
 - 1. The Warden/Superintendent or a designated Officer shall return the inmate to the institution or accomplish a transfer of the inmate to another institution if so directed by the State Board of Corrections.
 - 2. The Warden/Superintendent shall swear out a warrant (or seek an indictment before the Grand Jury) against the inmate charging him (her) with the offense of escape and notify the State Board of Corrections of his action.
 - 3. The Warden/Superintendent shall submit a recapture report to the Department of Corrections.
- (f) An inmate who escapes from an institution under the jurisdiction of the State Board of Corrections shall be reclassified to close security status by the Warden/Superintendent pending definitive actions by the central office. The inmate may be transferred to another institution if security considerations dictate such action.
- (g) An offender who fails to return to confinement at the exact time specified, after having been released on the condition that he (she) will so return, shall be considered an escapee. If the offender returns within eight (8) hours of the exact time specified for return and proves he (she) did not intentionally fail to return, no charge of escape will be lodged against the offender, and the records of the Department shall reflect the facts so proven.

Subject 125-3-2. DISCIPLINE.

Rule 125-3-2-.01. Responsibility.

A correctional community, more than other communities, cannot be operated safely, efficiently, and for the best interests of both society and inmates unless the occupants conform to established standards of orderly behavior. It shall, therefore, be the responsibility of the Warden/Superintendent at each prison, assisted by all prison employees, to establish and maintain discipline by consistently requiring obedience, order and good conduct. Each Warden/Superintendent shall assure a fair, unbiased and orderly procedure for administering corrective disciplinary actions. The Disciplinary Action taken should be the minimum which, in the Warden's/ Superintendent's judgment for each specific case, will achieve the desired results.

No more than one (1) inmate shall occupy a cell at a time, except in an emergency situation as follows: If sufficient cells are unavailable and an emergency situation arises necessitating the placing of more than one (1) inmate in a cell, the Warden/Superintendent shall take the necessary action and, as soon thereafter as feasible, obtain pertinent instructions from the Commissioner of Corrections or his assistants.
- (c) An Administrative Segregation facility is a designated area within the confines of the prison, separated and apart from any other area which is utilized to house the general inmate population. The basic intent of placing an inmate in Administrative Segregation is not disciplinary in nature. However, the welfare of the prison may require that some

Rule 125-3-2-.10. Procedures and Restrictions.

The following procedures and restrictions apply to institutional practices concerning Disciplinary Isolation.

- (a) An inmate may be placed in Disciplinary Isolation after other methods of disciplinary action have proved ineffective or when it is clearly obvious that maximum control is essential.
- (b) An inmate placed in Disciplinary Isolation shall be provided a uniform or a one-piece coverall suit. An inmate shall not be placed in a cell naked nor shall his clothing, mattress, or bedding be removed unless, in the judgment of the Warden/Superintendent or institutional physician, the inmate is classified as violent, or likely to become so, or might commit mutilation or bodily harm to himself or others. In such cases the inmate shall be placed under close observation including, at a minimum, an hourly recorded inspection. In these cases the Warden/Superintendent shall notify the Commissioner of Corrections or appropriate assistant promptly and request further instructions.
- (c) When an inmate is placed in Disciplinary Isolation, security shall notify a member of the medical staff. A licensed health care provider will perform a review of the inmate's medical records to determine if the inmate would be physically or mentally harmed by the environment of Disciplinary Isolation. The record review is to be completed by the next business day. A licensed health care provider will make medical checks of inmates in Disciplinary Isolation three times weekly. The institutional physician shall advise the Warden/Superintendent if an inmate should be removed from Disciplinary Isolation for reasons of health. If such is the case, the Warden/Superintendent shall remove the inmate, as appropriate.
- (d) The inmate is to be provided a breakfast, noon and evening meal similar to those served to the general population. Three meals, of which two are hot, are to be served within a 24-hour period with no more than 14 hours between the evening meal and breakfast. On weekends and holidays, provided nutritional goals are met, variations may be allowed based on food service demands. Food is not to be used as a disciplinary sanction for an individual inmate. All inmates held in Disciplinary Isolation shall be provided as much water as they wish to drink at all times.

- (e) Each inmate confined to Disciplinary Isolation shall be checked on and observed at least every two (2) hours (every hour when under close observation) and a signed record or checklist, indicating the date and time of the inspection and identifying the Correctional Officer who performed the check, will be maintained by the institution. Upon release of the inmate from disciplinary isolation, the signed record shall be reviewed, dated, and signed by the Warden or his designee and placed in, and become a part of, the inmate's institutional file.
- (f) No confinement to an isolation cell of greater than thirty (30) days shall be imposed without the review and approval of a Division Director of the Department of Corrections. For a series of infractions arising from a single incident, confinement in isolation may not exceed sixty (60) days. In any event, if approval is given by the Division Director, no inmate shall remain in an isolation cell for a period greater than thirty (30) days without a period of at least twenty-four (24) hours outside of isolation.

 - (l) The Press. The term "Press" is defined as newspapers, news magazines, news services, and radio and television stations. Privileged press mail must reflect the return address including the name of the newspaper, news magazine, news service,

Rule 125-3-3-.04. Publications.

- (1) Inmates may receive a limited number of individual books, periodicals, or newspapers produced by publishing concerns provided the publications are received direct from the publisher concerned or direct from an established retailer.
- (2) Inmates may not receive books, periodicals, or newspapers the contents of which could clearly and reasonably be expected to present a threat to institutional security and discipline.
 - (a) Inmates may not receive publications or material which, taken as a whole, would be found by the average person, applying contemporary community standards, to appeal to the prurient interest, which depicts or describes sexual conduct in a patently offensive way in a manner prohibited by the law of this State and by the laws of the United States, and which, taken as a whole, lacks serious literary, artistic, political, or scientific value.
- (3) Membership in book clubs or similar enterprises may be restricted on a case by case basis due to the inadequate inmate funds, space limitations, or safety requirements. Each Warden/Superintendent may establish a specific limit upon the number of publications admissible per inmate, consistent with the accommodations available at his institution.

Duplication of publications reasonably available through institutional library facilities may be restricted because of space or fire hazard considerations.

This decision will remain in force until such time as the inmate makes an appeal. Notice shall then be given to the inmate of the Warden's decision. The inmate may submit in writing to the Warden/Superintendent reasons for authorizing receipt of the publication. These written reasons shall be forwarded to the Commissioner or the Commissioner's designee along with the Warden/Superintendent's reasons for exclusion of the publication. Names proposed by the inmate may be disapproved by the Warden if the Warden determines on the basis of information known to him or information provided to him that the proposed visitor would constitute a threat to the institutional security or would undermine the rehabilitation or discipline of the inmate. As soon as possible after the Warden completes his interview of the inmate's proposed visitor list, a copy of the list including the names of those persons who are approved by the Warden will be given to the inmate. Subsequent additions of individuals to an inmate's authorized visitor list may be made upon application. An inmate will not be permitted to have visits with persons not appearing on his authorized visitor list. Notifications of persons disapproved by the Warden for inclusion on the authorized visitor list will be the responsibility of the inmate.
 - (a) Any inmate with a current or prior conviction for any sexual offense as defined in subsection (1)(b) of this Rule shall not be allowed visitation with any person under the age of 18 years unless such person is the spouse, son, daughter, brother, sister, grandson, or granddaughter of the inmate and such person is not the victim of a sexual offense for which the inmate was convicted. If visitation with a minor is restricted by court order, permission for special visitation with the minor may be granted only by the court issuing such order.
 - (b) The term "Sexual Offense" means a violation of *Code Section [16-6-1](#)*, relating to the offense of rape; *Code Section [16-6-2](#)*, relating to the offense of sodomy and aggravated sodomy; *Code Section [16-6-5.1](#)*, relating to the offense of sexual assault against a person in custody; *Code Section [16-6-22](#)*, relating to the offense of incest; or *Code Section [16-6-22.2](#)*, relating to the offense of aggravated sexual battery, when the victim is under 18 years of age at the time of the commission of any such offense; or a violation of *Code Section [16-6-3](#)*, relating to the offense of statutory rape; *Code Section [16-6-4](#)*, relating to the offense of child molestation and aggravated child molestation; or *Code Section [16-6-5](#)*, relating to the offense

of enticing a child for indecent purposes, when the victim was under 16 years of age at the time of the commission of any such offense.

- (2) Upon the transfer of an inmate to another institution his authorized visitor list will be included in the records transferred to the gaining institution. The authorized visitor list is subject to revision, pursuant to these rules, by the Warden of the gaining institution.
- (3) An authorized visitor's name may be removed from an inmate's visitor list for cause. Creating a disturbance, fighting, unruly behavior, behavior which seriously infringes on the rights of other visitors, or acts prejudicial to the operation of the institution are considered cause for purposes of this Rule.
- (4) The Warden, at his discretion, may authorize special visits by persons not appearing on the inmate's authorized visitor list, but who for compassionate or other valid reasons could be expected under the circumstances to exert a salutary effect through their visit.

Rule 125-3-4-.05. Visiting Schedule.

- (1) Each institution will ensure that schedules include a minimum of four hours for visitation to occur on Saturdays, Sundays, and days proclaimed by the Governor of Georgia as legal holidays. County institutions will observe such legal holidays as recognized by their local governing authority. The Commissioner may authorize the Warden/ Superintendent to modify visiting days and/or hours for specific institutions, if justified by special circumstances (e.g., small inmate population, or high usage of privilege, infirm inmates, etc.). Alterations of existing visitation schedules should be published to the inmate population in order that they advise any of their potential visitors.
- (2) Each inmate, with the exception of those denied this privilege under paragraphs [125-3-4-.05\(4\)](#) and [125-3-4-.05\(5\)](#) below, shall assure that his/her potential visitors are informed of the visiting schedule.
- (3) Out of state relatives or those who have traveled long distances and who, without special compensation might be unable to visit, may be allowed by the Warden to visit an inmate at times other than normally scheduled visiting hours. Such special visiting privileges shall be requested by the inmate prior to the date of the expected visit.
- (4) Diagnostic inmates at the designated diagnostic programs shall not be permitted visitation privileges during the first six weeks of their assignment to that institution. After the first six weeks, diagnostic inmates may be permitted visitation privileges as approved by the Superintendent. Non-diagnostic inmates permanently assigned to the designated diagnostic programs shall have visitation privileges in the same manner and to the same degree as other inmates in the correctional system.
- (5) If reasonable justification is established, the Warden, in his discretion, may permit an inmate to have visitors at times other than regular established days or hours.
- (6) The visitation privilege provided in these rules, except attorney- client visits, may be revoked or suspended for a period of time, in whole or in part, as a disciplinary measure. Chapter 125-3-2 identifies the circumstances under which this type of disciplinary action is authorized.

Rule 125-3-4-.06. Supervision of Visits.

- (1) All visits shall be supervised by Correctional Officers who shall be held responsible for assuring the maintenance of good order.
- (2) The Correctional Officer in charge shall determine the identity of each visitor, verify his identity by examining his personal credentials, and assure that the potential visitor's name appears on the authorized visitor list of the inmate whom he desires to visit or, if the potential visitor's name does not appear on the authorized visitor list, assure that prior approval of the Warden has been obtained for the special visit. Visitors may be searched prior to being permitted visiting privileges with an inmate.
- (3) All visitors shall be required to sign in and out on a visitor's register. The register shall be dated and countersigned by the Correctional Officer in charge and subsequently shall be maintained on file at the institution. Each page of the visitor's register shall reflect the following statement: It shall be unlawful for any person to obtain or procure for or give a convict a gun, pistol, or any other weapon, or intoxicating liquor or amphetamines, or biphphetamines, or any other hallucinogenic drugs, or other drugs, regardless of the amount, or any other article or item, without the knowledge and consent of the Warden or his Deputy Warden in charge. Any person who knowingly violates the provisions of this Section shall be guilty of a felony and upon conviction thereof, shall be imprisoned for not less than one, not more than five years.
- (4) Correctional Officers assigned to visiting area duty shall maintain particular vigilance in preventing contraband from entering the institution.
- (5) Correctional Officers in charge of visiting areas shall exclude from the institution any visitor who is under, or reasonably appears to be under the influence of any intoxicant, whether alcohol or drug. Correctional Officers in charge of visiting areas shall also exclude from the institution any visitor who creates a disturbance whether by fighting, unruly behavior, behavior which seriously infringes on the rights of other visitors, or acts prejudicial to the operation of the institution. All visitors are required to wear appropriate attire to be determined by the Georgia Department of Corrections.
- (6) Inmates will inform their visitors that it is a criminal offense to give a false name to an officer when signing the register.

Rule 125-3-4-.07. Attorneys.

- (1) For the purposes of this chapter, the term attorney includes an inmate's attorney of record or another attorney licensed to practice in State or United States Courts, Court of Appeals, or the Supreme Courts with whom the inmate has or is attempting to establish an attorney-client relationship. Attorneys shall be permitted to visit their clients in the institutions during prescribed visiting periods. In addition, reasonable flexibility shall be exercised in permitting attorneys, by prior appointment, to visit with their clients during normal business hours or in special circumstances during nonbusiness hours. Inmates shall be instructed to advise his attorney that appointments to visit his client at hours other than normal visiting hours are required and, except in bona fide emergencies, must be made with institutional authorities twenty-four hours in advance. Surveillance and general supervision during the visit shall be maintained by a Correctional Officer. The Correctional Officer shall so position himself as to permit the attorney and his client to converse privately and maintain the privileged nature of their relationship. Insofar as it is consistent with institutional security and physical and financial limitations, institutional authorities are encouraged to provide space and facilities that will afford reasonable privacy for attorney-client conferences.
- (2) By prior arrangement with the Warden, the inmate may be visited by a para-legal, investigator, or law assistant employed by an "attorney", as defined in paragraph (1) above. Before allowing such a visit, the Warden should require the attorney to contact him and identify the person desired to be sent in his stead; also, at each visit the Warden should require the presentation of a letter, dated no later than one week prior to presentation, signed by the attorney, and identifying the holder and inmate involved. This letter should be placed in the inmate's file. A Warden may refuse permission for such visits for cause. Cause may include any misrepresentation, made by the attorney, or para-legal, or investigator concerning the visit, as well as the existence of facts which give the Warden reason to believe the visit would pose a threat to institutional security.

An inmate, by prearrangement with the mail room and in advance of visits, may submit items or letters to the mail room which he proposes to be given to specified visitors and which would, under the provisions of Chapter 125-3-3, be acceptable for mailing. No packages or letters falling within the category of privileged mail may be given to any visitor for mailing, however, unless that visitor himself is the person to whom the package or letter is addressed or is that person's official representative. The addressed unwrapped packages and unsealed letters, as applicable, will be processed by the mail room according to procedures authorized in Chapter 125-3-3. Following inspection, such packages and/or letters should be isolated in a secure place pending the visit. Subject 125-4-4. MEDICAL SERVICES.

Rule 125-4-4-.01. Responsibility.

When a person is committed to a correctional institution it becomes the responsibility of the correctional authorities to provide the necessary health care for the inmate. Medical and hospital care as required shall be provided for all inmates assigned. In no instance shall an inmate, his family or other individual be required to pay any portion of the fee or expenses for the inmate's medical or dental treatment, except as otherwise provided by law.

(a) Definitions:

1. Medical Emergency: A medical emergency is any condition which, in the judgment of a health care provider, poses an immediate threat to life or limb.
2. Chronic illness: An illness requiring care and treatment over an extended period of time. Chronic illness includes, but is not limited to, hypertension, diabetes, pulmonary illness, a seizure disorder, acquired immune deficiency syndrome, cancer, tuberculosis B, hepatitis C, rheumatoid arthritis, a autoimmune disorder, and renal disease.

(b) The Commissioner may establish procedures for a reasonable deduction from money credited to the money account of a prisoner to defray the costs paid by the Department or its contractor for medical care and/or prescription medication for a prisoner.

1. If the prisoner is incarcerated in a state prison or facility operated by a contractor of the state it shall be the responsibility of the state or its contractor to render any needed medical or hospital care.
2. The Department and its contractors are authorized to make reasonable deductions from money credited to the money account of a prisoner to defray the costs paid by the state or its contractors for:

- (i) Medical treatment for a prisoner when the request for medical treatment has been initiated by the prisoner; and
 - (ii) Medication prescribed for treatment of a medical condition unrelated to pregnancy or a chronic illness.
 - 3. The Department and its contractors are authorized to make reasonable deductions from money credited to the money account of a prisoner to repay the Department or its contractors for the cost of medical treatment and prescription medication for injuries inflicted by the prisoner upon himself or herself or others unless the inmate has a severe mental health designation as determined by the department.
 - 4. The amount to be charged by the Department on individual prisoner accounts shall be established by Department policy and operating procedure. However, the Department will not deduct a medical charge amount from a prisoner's account when the account balance on the date medical care is provided is less than ten dollars (\$10.00) until such time that further deposits to the account raise the balance above ten dollars (\$10.00). Individual prisoner money accounts shall be frozen until all medical charges incurred by the individual prisoner have been fully paid.
 - 5. Nothing in this rule shall be construed to relieve the governing authority, governmental unit, subdivision, or agency having the physical custody of a prisoner from its responsibility first to provide and initially pay for any needed medical and hospital care rendered to such prisoner.
- (c) If the state prisoner is incarcerated in a county facility and requires emergency medical or hospital care, the Department or its contractor shall bear the costs of direct medical services required for emergency medical conditions posing an immediate threat to life or limb if the inmate cannot be placed in a state institution for the receipt of this care. The responsibility for payment will commence when the costs for direct medical services exceed \$1,000.00. The Department will pay only the balance in excess of this amount. The Commissioner shall establish regulations relative to payment of such medical and hospital costs by the Department.
- 1. The Department of Corrections shall bear the cost of any reasonable and necessary emergency medical and hospital care which is provided to any prisoner eligible for transfer to the Department but remaining in the physical custody of a county jail. The Department shall also bear the cost of any reasonable and necessary follow-up medical or hospital care rendered to any such prisoner as a result of the initial emergency care and treatment.
 - 2. When admission of a prisoner to a hospital becomes necessary, for any reason, the Department will be notified by the authority having physical custody of the prisoner. Such notification should be made at the time of admission to the hospital.

3. Claims received by the Department for payment under the terms of this rule will be subject to medical review. This review will address the following issues:
Appropriateness of the services provided and verification of charges as being within the range of usual or customary rates for comparable services.
4. All claims for reimbursement must be submitted in accordance with instructions established by the Department of Corrections, Health Services Division. The Department will provide for the payment of medical bills by reimbursing each county on a monthly basis for expenditures incurred. The Department will not make direct payment to an individual doctor or hospital.
5. Payment will be made for medical and hospital care provided to any prisoner after receipt by the Department of the following documents: Certified copy of sentence, certified copy of indictment, certificate of revocation (when applicable), affidavit of custodian, and personal history.

Rule 125-4-9-.05. Initial Program Certification.

- (a) **Initial Certification.** Upon receipt of all required application materials the Commission will undertake a review of the application materials for purposes of determining whether the program meets all certification requirements. If the Commission determines that the program meets all program certification requirements and the standards for course content and qualifications of instructors, the Commission shall certify the program.
- (b) **Revocation of Certification.** Once certified, the failure of an FVIP to begin holding classes within six months of certification and to continuously operate in compliance with these rules and regulations (with no more than a three month break in instruction) will result in revocation of certification.
- (c) **Denial of Initial Certification.** Initial certification will be denied if:
 - (1) The program provider fails to agree in writing to submit reports and fees as required in these regulations and to allow the examination and audit of the books, records, and financial statements of the program or its authorized agent; or
 - (2) The owner of a program fails to agree in writing to pay to the state the fees established by Rule [125-4-9-.04\(a\)\(2\)](#) and Rule [125-4-9-.04\(a\)\(3\)](#); or
 - (3) The program fails to meet program certification requirements, including but not limited to, standards for course content and qualifications of instructors.
- (d) **Notice of Denial of Initial Certification.** The Department will advise the applicant who is denied program certification, in writing, of the reasons for its decision to deny program

certification. The applicant will then have twenty days from the date of the Department's denial of certification to submit additional documentation or otherwise complete the application as may be required by the Department. If the applicant again fails to demonstrate compliance with all certification requirements the Department shall deny certification.

- (e) **Ongoing Certification.** Once initially certified, an FVIP will remain certified for a period of two years so long as the FVIP's certification is not suspended or revoked by the Department. The Department may require any program applicant or FVIP to submit additional information or verification that is reasonably related to making a determination regarding initial certification or continued compliance with program requirements.
- (f) **Non-transferability of Certification.** Certification of an FVIP is not transferable. If there is a change in FVIP ownership, applications for new (initial) certifications must be submitted to the Department by the proposed program provider at least 60 days prior to the effective date of any change in program ownership. All new program providers must meet all certification requirements. New program providers must return the old program certificate to the Department prior to receiving a new certificate.

Rule 125-4-9-.12. Enforcement of FVIP Requirements.

The Department shall have the authority to deny, suspend, and revoke certification of an FVIP for noncompliance with FVIP requirements. Additionally, the Department shall have the authority to assess an administrative fine against any FVIP for noncompliance with FVIP requirements.

- (a) Grounds for denial, suspension, revocation of certification, or assessment of an administrative fine. The Department may base the denial, suspension, revocation of certification, or assessment of an administrative fine upon any of the following applicable grounds:

- (1) knowingly making any verbal or written false or misleading statement of material fact or omitting to state a material fact in connection with an application for certification or recertification or in connection with an inspection or investigation;
 - (2) failing or refusing to provide Department representatives with meaningful access to the program or FVIP premises, facilitators and staff, participants or records (including refusing to allow Department representatives to obtain copies of documents reasonably necessary to making a compliance determination);
 - (3) the applicant for certification or recertification having an overall poor record of compliance, including but not limited to, denial of certification within the previous 12 months, certification revocation at any time in the past in this or any other state, or suspension within the previous two years;
 - (4) changing ownership of a FVIP or program in order to avoid or avert the denial, revocation, or suspension of certification;
 - (5) altering or falsifying any FVIP or program records;
 - (6) failure or refusal by an FVIP or program to remit to the Department the required program certification fees and program participant fees as outlined in these rules; and
 - (7) failing or refusing to comply with any of these rules, FVIP requirements or violating any law relating to the operation of an FVIP.
- (b) Choice of revocation or suspension of certification, or the assessment of an administrative fine. The Department, in its discretion, may choose whether to impose suspension or revocation of certification, or the assessment of an administrative fine against an FVIP. In considering which to impose, the Department may consider the FVIP's history of compliance, the seriousness of the violations, whether the FVIP voluntarily reported problems giving rise to any violation, and whether the FVIP exhibited good faith efforts to correct areas of noncompliance prior or subsequent to their discovery by the Department.
- (c) **Administrative fines.** The Department has the authority to assess an administrative fine, not to exceed \$1,000.00 per violation, against any person, firm, or corporation that the Department determines to have violated any provision of the Title 19, Chapter 13, Article 1A of the Official Code Georgia Code or any order, rule, or regulation promulgated thereunder. In determining the amount of the fine, the Department may consider the seriousness of the violation, whether the same or any other program requirement has been violated previously by the same program owner, director, or facilitator, and whether procedures designated to prevent the violation were in place and were followed.
- (d) **Effectuation of suspension or revocation.** If suspension or revocation of certification is imposed in accordance with the provisions of Sec. [50-13-18](#) of the Georgia

Administrative Procedures Act, the FVIP must return said certification to the Department. The certification must be returned within ten days of the FVIP's receipt of the notification of the Department's final decision regarding suspension or revocation. The suspension or revocation becomes effective on the date indicated by the Department's order, but no time will be credited to the period of suspension or revocation until the affected certificate(s) have been received by the Department. Upon termination of any period of suspension, and upon a showing that the program has achieved full compliance with program requirements in addition to meeting any reinstatement requirements, the Department shall reissue the certification. However, nothing in these rules shall be construed to prevent the Department from denying program certification prior to any hearing on such action.

- (e) **Reapplying for certification after revocation.** A program that has had its certification revoked may not reapply for certification for 18 months from the date of the revocation. The date of a revocation is the date of receipt of the revocation letter or the date a revocation appeal is denied, whichever is later. Reapplying for certification shall be subject to the same procedures as if the program were applying for certification for the first time. However, the Department may consider a program's past violations of these rules in deciding whether to approve or deny recertification.
